way to access millions of ebooks—not just ones in the public domain, but even recently released mainstream titles. There is one hitch though: you'll need a valid and active public library card. Overdrive works with over 30,000 public libraries in over 40 different countries worldwide. As you'd expect, free ebooks from Amazon are only available in Kindle format - users of other ebook readers will need to convert the files - and you must be logged into your Amazon account to download them. Searching for a particular educational textbook or business book? BookBoon may have what you're looking for. The site offers more than 1,000 free e-books, it's easy to navigate and best of all, you don't have to register to download them. It's disappointing that there's no convenient menu that lets you just browse freebies. Instead, you have to search for your preferred genre, plus the word 'free' (free science fiction, or free history, for example). It works well enough once you know about it, but it's not immediately obvious. If you are looking for Indie books, Bibliotastic provides you just that for free. This platform is for Indie authors and they publish modern books. Though they are not so known publicly, the books range from romance, historical or mystery to science fiction that can be of your interest. The books are available to read online for free, however, you need to create an account with Bibliotastic in order to download a book. The site they say will be closed by the end of June 2016, so grab your favorite books as soon as possible. The Online Books Page: Maintained by the University of Pennsylvania, this page lists over one million free books available for download in dozens of different formats. Once you've found a book you're interested in, click Read Online and the book will open within your web browser. You also have the option to Launch Reading Mode if you're not fond of the website interface. Reading Mode looks like an open book, however, all the free books on the Read Print site are divided by chapter so you'll have to go back and open it every time you start a new chapter. Browsing books at eReaderIQ is a breeze because you can look through categories and sort the results by newest, rating, and minimum length. You can even set it to show only new books that have been added since you last visited.
