Child Advocacy in the United States James D. Weill.1990

Wasting America's Future Marian Wright Edelman.1994-10-31 The Health and Human Services poverty line for a three-person family in America is \$11,800 in annual income. One in every five American children is growing up in poverty. What does child poverty mean for the economic and societal future of our country? The Children's Defense Fund, widely considered the most powerful force for children in America, has assembled expert and ground-breaking information on how poverty affects health, childhood deaths, low birth weight, and injury; on the insidious connections between low family income and learning disabilities; on links between poverty, abuse, and neglect and self-esteem; and much more. *Wasting America's Future* is the crucial citizen's handbook as we continue the national debate on welfare reform.

Children 1990 Children's Defense Fund (U.S.).1990 The purpose of this Children's Defense Fund (CDF) briefing book for child advocates, community activists, professionals, policymakers, parents, citizens, members of the media, and political leaders is to dramatically increase public consciousness about children's needs and solutions to those needs. The book uses the election year process to build bipartisan commitment to meeting children's needs. The book is also intended to begin to reverse values and budget priorities of the 1980s that contributed to mounting child suffering and neglect, the growing chasm between rich and poor, the decline of the middle class, and the weakening of the moral and social fabric of the United States. Part I provides a warning that the country faces a moment of great national opportunity and danger. Part II compares U.S. children to children of other nations, lists 12 basic facts about U.S. children, and considers an American child's chances of being poor. Part III provides a report card on the 50 states, with key numbers on children and child care in the states. Part IV is an action primer that describes steps to be taken by the public and the Children's Defense Fund in 1990. This part notes scheduled Congressional recesses in 1990, promises made by particular politicians in regard to children's education, questions to ask politicians, polls to cite, and CDF's nonpartisan Congressional voting record of 1989. Improving the Odds for America's Children Kathleen McCartney,Hirokazu Yoshikawa,Laurie B. Forcier.2014-04-01 This landmark volume commemorates the fortieth anniversary of the Children's Defense Fund, which has been an uncompromising champion of American youth for all of those years. Yet the book looks not to the past but at our current circumstances—and at the challenges we must meet now and in the future on behalf of our young people. The book examines critical issues—prenatal and infant health and development, early child care and education, school reform, the achievement gap, vulnerable children, juvenile justice, and child poverty—and highlights crucial practical and policy measures we need to consider and undertake if we are to better serve American children. An invaluable survey of the conditions facing American youth—and a call to action at the local, state, and national levels—*Improving the Odds for America's Children* is an urgent, informative, and inspired volume that addresses shortcomings and challenges we cannot afford to ignore. Contributors include Sara Rosenbaum, Partow Zomorrodian, Jack P. Shonkoff, Joan Lombardi, Deborah Jewell- Sherman, Jal Mehta, Robert B. Schwartz, Jerry D. Weast, Greg J. Duncan, Richard J. Murnane, Michael S. Wald, Jane Waldfogel, Robert G. Schwartz, Laurence Steinberg, Arloc Sherman, Robert Greenstein, Sharon Parrott, and Eric Dearing.

Families in Peril Marian Wright Edelman.1987 Too many American families are in serious peril, and both the reality of the situation and the myths obscuring that reality call for attention and swift action. In this incisive analysis, Edelman, President of the Children's Defense Fund, charts what is happening, exposes myths, and sets a bold agenda to strengthen families and protect children.

A Children's Defense Budget Children's Defense Fund,Children's Defense Fund, Washington, DC..1986 This analysis of the implications for children of the FY 1987 Federal budget begins by criticizing the Reagan administration's policy on poor children and families and recommending

needed action. Chapter 1 provides a rationale for investing in children and families. Specific attention is given to costs of child poverty, declining Federal help for children in poverty, President Reagan's FY 1987 budget, and the impact of the Gramm-Rudman Amendment. Chapters 2 and 3 outline a Children's Survival Bill and a new policy agenda designed to prevent teen pregnancy and to build self-sufficient youth. Chapter 4 explores aspects of the Gramm-Rudman Balanced Budget and Emergency Deficit Control Act of 1985. Chapter 5 offers an executive summary of the remaining 15 chapters which concern health; family income; taxes and poor families; food assistance; housing and homelessness; preventing adolescent pregnancy and building youth self-sufficiency; education; youth employment; abused and neglected children and others with special needs; runaway youth and others in the juvenile justice system; child care; Head Start; energy assistance for families; legal services; and civil rights. Appended are related information about Congress, selected recent publications on the budget and the effects of President Reagan's policies, a list of other resource organizations, and approximately 40 pages of data on children, poverty, and federal programs. The Freedom Schools Jon N. Hale.2016-06-07 Created in 1964 as part of the Mississippi Freedom Summer, the Mississippi Freedom Schools were launched by educators and activists to provide an alternative education for African American students that would facilitate student activism and participatory democracy. The schools, as Jon N. Hale demonstrates, had a crucial role in the civil rights movement and a major impact on the development of progressive education throughout the nation. Designed and run by African American and white educators and activists, the Freedom Schools counteracted segregationist policies that inhibited opportunities for black youth. Providing high-quality, progressive education that addressed issues of social justice, the schools prepared African American students to fight for freedom on all fronts. Forming a political network, the Freedom Schools taught students how, when, and where to engage politically, shaping activists who trained others to challenge inequality. Based on dozens of first-time interviews with former Freedom School students and teachers and on rich archival materials, this remarkable social history of the Mississippi Freedom Schools is told from the perspective of those frequently left out of civil rights narratives that focus on national leadership or college protestors. Hale reveals the role that school-age students played in the civil rights movement and the crucial contribution made by grassroots activists on the local level. He also examines the challenges confronted by Freedom School activists and teachers, such as intimidation by racist Mississippians and race relations between blacks and whites within the schools. In tracing the stories of Freedom School students into adulthood, this book reveals the ways in which these individuals turned training into decades of activism. Former students and teachers speak eloquently about the principles that informed their practice and the influence that the Freedom School curriculum has had on education. They also offer key strategies for further integrating the American school system and politically engaging today's youth.

The State of America's Children, 1991 Children's Defense Fund,Children's Defense Fund, Washington, DC..1991 The Children's Defense Fund (CDF) presents its 1991 report on the state of America's children. An introductory call to action includes seven steps that CDF will take to attain its goals and 10 lessons to guide activists. The rest of the report focuses on: (1) family income and employment; (2) child care; (3) health; (4) education; (5) youth development; (6) housing and homelessness; and (7) vulnerable children and families. Appendices provide statistical data on numerous variables relating to U.S. children compared to children in the rest of the world, characteristics of U.S. children as a whole, and characteristics of children in each of the 50 states and in major cities. An index of over 425 entries ranges from AFDC to YouthBuild. Entries with the largest number of page references are child care and education. (RH)

After more than 30 years \$domain continues as a popular, proven, low-cost, effective marketing and exhibit service for publishers large and small. \$domain book service remains focused on its original stated objective - to take the experience of many years and hundreds of exhibits and put it to work for publishers. You can search Google Books for any book or topic. In this case, let's go with "Alice in Wonderland" since it's a well-known book, and there's probably a free eBook or two for this title. The original work is in the public domain, so most of the variations are just with formatting and the number of illustrations included in the work. However, you might also run into several copies for sale, as reformatting the print copy into an eBook still took some work. Some of your search results may also be related works with the same title.
