Educating for Sustainability in Japan Jane Singer,Tracey Gannon,Fumiko Noguchi,Yoko Mochizuki.2016-10-04 Educating for Sustainable Development (ESD) approaches are holistic and interdisciplinary, values-driven, participatory, multi-method, locally relevant and emphasize critical thinking and problem-solving. This book explains how ESD approaches work in the Japanese context; their effects on different stakeholders; and their ultimate potential contribution to society in Japan. It considers ESD in both formal and informal education sectors, recognizing that even when classroom learning takes place it must be place-based and predicated on a specific community context. The book explores not only 'Why ESD', but why and how ESD in Japan has gained importance in the past decade and more recently in the wake of the triple disaster of March 2011. It considers how ESD can help Japan recover and adapt to disasters and take initiative in building more resilient and sustainable communities. This volume asks the questions: What are some examples of positive contributions by ESD to sustainability in Japan? What is the role of ESD in Japan in activating people to demand and work towards change? How can schools, universities and non-governmental organizations link with communities to strengthen civic awareness and community action? After an introduction that elucidates the roots and recent promotion of ESD in Japan, part one of this volume looks at the formal education sector in Japan, while part two examines community-based education and sustainability initiatives. The latter revisits the Tohoku region five years on from the events of March 2011, to explore recovery and revitalization efforts by schools, NGOs and residents. This is an invaluable book for postgraduate students, researchers, teachers and policy makers working on ESD.

the Light Rangers and Project Mind machine Charles R. Mitts.2014-11-07 The Light Rangers and Project Mind Machine is real science fiction; not a pseudo-science/techno fantasy. His Story Jeffrey L. Walling.2017-11-14 There is an ongoing battle in regard to the authenticity of Gods Word raging in our homes and communities, not between science and the Bible, but rather between humanistic (atheistic) theology and Christianity. This publication seeks to cover the gambit of historical and scientific evidence from A to Z that could be used as a textbook for Christian educators. Our churches are not teaching this in their Sunday schools. Christian schools and homeschoolers are not getting this on chalkboards. Parents dont have the resources or tools to prepare and protect their teenagers heading into secular high schools and colleges from the onslaught of anti-Christ teachings. The scripture says in Hosea 4:6, My people are destroyed for lack of knowledge: because thou hast rejected knowledge, I will also reject thee, that thou shalt be no priest to me: seeing thou hast forgotten the law of thy God, I will also forget thy children. As an added benefit, students going into high school reading this book who have not decided what field of study they are interested in will get an opportunity to be exposed to several areas of interest. Fields of study that include geology, literary analysis, genomics, anthropology, archaeology, paleontology, zoology, meteorology, genealogy, astronomy, earth sciences, evolution, and biblical studies are all interrogated to a significant depth.

Forming Ethical Identities in Early Childhood Play Brian Edmiston.2007-10-08 Through compelling examples, Brian Edmiston presents the case for why and how adults should play with young children to create with them a 'workshop for life'. In a chapter on 'mythic play' Edmiston confronts adult discomfort over children's play with pretend weapons, as he encourages adults both to support children's desires to experience in imagination the limits of life and death, and to travel with children on their transformational journeys into unknown territory. This book provides researchers and students with a sound theoretical framework for re-conceptualising significant aspects of pretend play in early childhood. Its many practical illustrations make this a compelling and provocative read for any student taking courses in Early Childhood Studies.

Get ready to see Jesus like you've never seen him before—a battle-scarred Combatant who stared death in the face and won. This is no Sunday-school Jesus, meek and mild. Now, he calls us to continue his mission and fight for others—our families, our communities, and the world. In Jesus Was an Airborne Ranger, Army Chaplain John McDougall offers an alternative to the soft, gentle caricature of Jesus. Only the Warrior Christ can impact our broken world.
