Organizational Histories of Nonprofit Human Service Organizations Michael J. Austin.2013-09-13 This book is based on an important but complicated question: How have nonprofit human service organizations sustained themselves over time? It documents the organizational histories of pioneering nonprofits that have unique missions and significant longevity - in one case, 157 years. This volume provides one of the few documented histories of nonprofit human service organizations and includes a cross-case analysis of the major themes that help to expand our understanding of organizational lifecycles with respect to organizational growth and resilience. The major themes appear in the form of clusters of organizations that are exemplars of: leadership (experiences of either founding or long-term executive directors); internal operations (capacity to respond to changing community needs); and external relations (capacity to develop unique and/or sustained relationships with funding sources and/or donor populations). These cases also provide students of nonprofit management with opportunities for case-based learning that complements the more time-limited and episodic teaching cases which rarely provide learners with a longitudinal perspective of nonprofit organizations. This book was originally published as a special issue of the Journal of Evidence-Based Social Work.

Giving Done Right Phil Buchanan.2019-04-16 A practical guide to philanthropy at all levels of giving that seeks to educate and inspire A majority of American households give to charity in some form or another--from local donations to food banks, religious organizations, or schools, to contributions to prevent disease or protect basic freedoms. Whether you're in a position to give \$1 or \$1 million, every giver needs to answer the same question: How do I channel my giving effectively to make the greatest difference? In Giving Done Right, Phil Buchanan, the president of the Center for Effective Philanthropy, arms donors with what it takes to do more good more quickly and to avoid predictable errors that lead too many astray. This crucial book will reveal the secrets and lessons learned from some of the biggest givers, busting commonly held myths and challenging the idea that business thinking holds the answer to effective philanthropy. And it offers the intellectual frameworks, data-driven insights, tools, and practical examples to allow readers to understand exactly what it takes to make a difference.

Girls and Juvenile Justice Carla P. Davis.2017-02-14 This book offers an ethnographic study of the lives of girls in the juvenile justice system. Based on rich, narrative accounts, the girls at the center of the study are viewed as confronted with the power of simultaneous race, class, and gender hierarchies. Through this framework, we see how the girls navigate this challenge by seeking status in their everyday lives: in their families; juvenile justice institutions; and neighborhood organizations, including gangs. Through analyzing the ways that the girls strive for higher social status, this book provokes debate about how policies and programs may be creatively rethought to incorporate this pursuit. Girls and Juvenile Justice offers a glimpse into the hearts, minds, and souls of adolescent girls. It will be of great interest for scholars of criminal justice, sociology, women's studies, and social-psychology.

Delinquency and Juvenile Justice in American Society Randall G. Sheldon,Emily I. Troshynski.2019-07-16 What is delinquency? What are the pathways to offending? What prevention strategies exist? To understand delinquency, we need to overcome stereotypical thinking and implicit biases. This engaging, affordable text explores the impact of gendered, racial, and class attitudes on decisions to arrest, detain, adjudicate, and place youths in the juvenile justice system. Sheldon and Troshynski highlight the social, legal, and political influences on how the public perceives juveniles. They look at the influences of family and schools on delinquency, as well as the impact of gender, trauma, and mental health issues. Discussions of topics such as the school-to-prison pipeline, disproportionate minority contact, and inequality provide a nuanced perspective on delinquency—a critical examination of social policies intended to control delinquency and the populations most likely to enter the juvenile justice system. The authors also examine the dramatically declining juvenile crime rate and advances in neuroscience that have fostered substantive reforms. These alternatives to confinement are replacing the institutions that have repeatedly produced failure with rehabilitative programs that offer hope for a more promising future.

Queen Bee Bonnie McDaniel.2013-09-04 In a survey conducted by the American Management Association in 2011, from a pool of 1,000 working women, they found that 95 percent of women interviewed believed they had been undermined by another woman at some point in their careers. In another study by the University of Toronto from 2008, of 1,800 US employees, women who worked under female supervisors reported more instances of physical or psychological stress than in the case of those who worked under male supervisors. Queen Bee is a compelling narrative by Bonnie McDaniel, the founder of the Women Are Talking Initiative, examining the real issues surrounding women helping women and the impact it has on women's empowerment. In Queen Bee, McDaniel considers those issues embodied in seven disempowering habits practiced by women, and she provides a framework through which they can begin to adopt good practices in order to grow and occupy their true places of power in the world. McDaniel also shares effective tools for women on how to master the art of living and working in harmony with each other, while at the same time getting what they each want and deserve out of life. It is a turn away from modern, pervasive adversarial attitudes among women to one of women working together in a spirit of cooperativeness and supportiveness in order to finally achieve that higher and empowered goal. On May 3, 2013, McDaniel brought together one million women from thirty-four countries to host a first-ever Women Are Talking virtual global conversation using AT&T technology and social media to discuss their views and experiences on this topic. It is a gift for our mothers, daughters, sisters, and friends with a message of hope for what is already ours. Open your hearts, minds and hands to receive it!

Substance Abuse Prevention in Multicultural Communities Jeanette Valentine,Judith Dejong.2014-07-16 This insightful volume describes a sample of prevention demonstration projects of the Center for Substance Abuse Prevention (CSAP). Substance Abuse Prevention in Multicultural Communities illuminates various aspects of prevention theory, practice, and research with a focus on the design, implementation, adaptation, and outcome of specific demonstration programs. Researchers work with prevention professionals to describe, measure, and intensify effects of interventions upon both intermediate problems and the ultimate long-term goal of decreasing substance abuse. Chapters in Substance Abuse Prevention in Multicultural Communities demonstrate how the CSAP demonstration logic model works. The process of prevention program design begins with an analysis of the root causes of the problem as defined by the specific community and illuminated by theory. Comprehensive prevention programs that buttress community strengths and build on local resources are then designed to deal with these problems. The programs you'll learn from include: a leadership and substance abuse prevention program, based on the social influence model, for girls in grades 6-8 from four geographically and ethnically diverse communities a program intricately designed to build resiliency and protective factors within young at-risk American Indian children in a Head Start program which addresses school transition, school readiness, school attendance, and classroom-based prevention activities. a family skills training program for African American parents in substance abuse treatment, which evolved in response to client and evaluation feedback a program for Native American families, which uses a culturally oriented curriculum emphasizing traditional values, beliefs, and practices a coalition of neighborhood agencies, organized to provide a comprehensive array of school and community-based prevention services, which impacted gang membership in inner-city Latino youth. a prevention program specifically designed to serve the diverse needs of Asian-American youth from five different Asian ethnic communities a model substance abuse prevention program implemented to provide counseling, mentoring, and academic support to Hispanic and African-American students in an urban public middle school the nationally recognized FAST program which strengthens the family and brings parents and schools together in building up protective factors for high risk elementary students a program that combines several complementary strategies to develop personal and communal empowerment in Native American communities. Substance Abuse Prevention in Multicultural Communities illustrates the wealth of information generated by demonstration programs. Unlike a standard research protocol that imposes and tests a rigid, single-focused intervention under carefully controlled circumstances, these programs do science in real-life situations, documenting and measuring effects of multiple interventions.
