How to Give Your Kids \$1Million Each! Ashley Ormond.2011-09-19 This book appeals to every parents desire to provide wealth and security for their children, taking a simple, fun, low-risk approach. Ashley Ormond outlines a very simple plan for parents not only to build wealth for their kids but also to help teach them about money - how it works, how to manage it and how to make it grow. In a nutshell the plan is: \$1.00 per day + 1 hour per month = financial security for life. If parents start on the plan when the child is born, put a dollar a day into an investment fund, invest in growth assets and reinvest all the earnings, the fund will grow to \$1,000,000 when the child is 50 years old. As soon as your kids are old enough, you are encouraged to get them involved in their very own savings plan. The book comes with a money box that your children can cut out and piece together and start filling up! Sydney author, Ashley Ormond, has spent 25 years in the finance industry - 15 years in major banks and 10 years as a private consultant. He is a semi-retired 40-something and as well as embarking on a career as an author he sits on various boards. Ashley draws on his personal experience in developing the plan for his own two kids and his many years in the finance industry giving people financial solutions that actually work.

Money Does Grow on Trees Esra Banguoglu Ogut.2021-06-19 Abundance Awaits to Become You. We have been told over and over again: We have less because others have more. If we are materialistic, we can't be spiritual. The rich are the root of all evil. If we are not successful, we are not worthy. Only this way works. Money doesn't grow on trees. What is reality? Is it something outside of us, fixed, dictating the rules of the game, and we either get it right or wrong? Or is reality simply an exact reflection of our individually held beliefs being mirrored right back at us? Imagine, just for a second, you have your very own ATM machine, and that you can withdraw as much money as you need each and every time you visit it. What's more, when you do, others won't have less because of it. Who would you be being, in relationship to money, if that were the case? Money does grow on trees! What are some of the myths you created and live by?

Investing for Beginners Michael Henson.2015-03-10 There is no better time than NOW to start investing! People that are able to accumulate wealth often don't start out from a wealthy family. They make wise investments that continue to grow their money. If you want to have a solid future without money worries, you need to invest. Doing so takes time, and there is plenty to learn. However, you can invest time to learn the basics so you can get results that help you in the end. Now is the time to get started with successful investing. Below are some key elements you will find in this book: - Diversify your portfolio to balance out losses - Invest for the long term - Invest logically rather than letting your emotions control what you do - Create an investing strategy and stick with it - Evaluate your investing strategy and your individual investments every six months - Invest globally rather than just in your own country - Believe in yourself and take action! Are you tired of worrying about money each month? Do you fear you won't have enough money to live on when you retire? Do you think the economy is tough and that makes it harder to save money? All of this can be true, but in spite of it, you can invest. You need to start with reducing your spending and sticking to a budget. Everyone has the ability to invest and to make money. There are risks to investing, but the secret is to reduce those risks through good choices. Knowledge is power when it comes to investing, and you can use that to your benefit. You can learn ways to lower your tax responsibility and to increase your returns from various types of investments. Always do your homework and carefully choose what you will invest in. Never get too comfortable with putting your investments into one type of entity either. The more diversified you can make your portfolio, the easier it is for you to take a hit from a loss and still come out with more money than you invested. As your earnings grow from your investments, you can add some new things to your lifestyle. The goal, though, should be to add them slowly so you aren't spending more than you should. You don't want to spend all of your investment returns, as that doesn't give you financial security or financial freedom. While money can't buy happiness, the truth is money is a big part of every life. You can struggle to make ends meet and hope for the best in the future. The alternative is to change your mindset and make a plan of action for successful investing. If you don't do anything, you will never experience the benefits out there. The Law of Attraction for wealth accumulation is real, and it starts with you taking control. It starts with you making the decision that this is what you want for your future and that you are dedicated to making it happen. It begins with you allocating your time toward processes and tasks that will help you achieve your overall goal. It also means surrounding yourself with people that have a similar goal. Mistakes happen to every investor out there, even those who have been investing for a long time. Fear is what often

holds people back, so don't let it get the best of you. With calculated risk in place, you can make the best possible investment choices with the information you have. Learn from any mistakes so you can continue to move forward. Investing changes all the time due to the market, so be ready to modify your marketing strategy. Create smaller milestones to achieve your overall goals. Hold yourself accountable so that you can get results. You must take action if you are going to change the dream of financial freedom into something you get to experience in your life. So what are you waiting for? Grab your copy today, the keys to financial freedom are waiting for you!

Give and Grow Rich Omer Redden.2020-12-15 Most of us want to be rich; we just aren't sure how to get there. Do we fake it till we make it? Do we work smarter, not harder? Do we quit our day job and pursue our dream? What if the answer to becoming rich doesn't lie in the answers to any of these questions, but instead lies in our ability to change our mindset and imitate the greats? This book will show you just that: how to become rich by changing your mindset and by imitating men who are already rich. Give and Grow Rich has been designed so that you get maximum benefit in the least amount of time. Who has time to read more than 100 pages these days? Who would want to? If you want quick solutions, no fluff, and no silly get-rich-quick techniques, then this book is for you. It's like Napoleon Hill's Think and Grow Rich, but condensed, and more tangible. The same wisdom distilled in a third of the time (and pages). The wisdom doesn't come from me alone, for I started out a poor man just like you. To write this book, I interviewed 7 guys from 7 different income brackets, ranging from \$20,000 per year to \$1 million per year. I asked each of them the same 15 questions, and as I listened to their answers, I saw the trends between the poor, the middle, and the rich. Then, I read the biographies of 7 billionaires from 7 different sectors. Man, did I learn a lot. So I wanted to share the lessons I learned with you. Here's what you can expect: ***You will learn how the poor, middle, and rich think about money. You will learn how they spend, save, invest, and give.*** You will learn how your beliefs about money drive your actions.*** You will learn how two billionaires rose to the top, then gave it all away, and tried to die penniless.*** If you're a parent, you will learn how you can teach your kids about money. I benefited greatly from writing Give and Grow Rich, so I know you will benefit greatly from reading it. In fact, from the time I started writing the book, to the time I finished, my income doubled! I started thinking like a rich man, imitating rich men, and it is already benefiting me. The same is true for my friends who have implemented these lessons. One of them started out poor, the son of missionaries, and he is making nearly \$200,000 per year. Another started out poor, the son of a single mom, and he is making \$75,000 per year and has started two businesses. So if you want a jam-packed, practical, no fluff guide to becoming rich, read this book. Don't be the person who keeps repeating the past, who keeps spinning out in a financial rut. Don't think that the rich will always get richer and the poor will always get poorer. I am living proof that you can change your mind and change your income. You can imitate the greats and become great. My friends have done the same, and you can too. Be the person who becomes a success story and inspires your community. Be the person who gets out of the financial woes and wills yourself to riches. Change your mind and change your money. GIVE AND GROW RICH.

Fake Money, Real Danger Robert A. Wiedemer,David Wiedemer,Cindy S. Spitzer.2022-01-13 The latest must-read book from the authors of the New York Times and Wall Street Journal Bestselling Aftershock series of books, Fake Money, Real Danger strips away the confusion and exposes what’s really happening to our economy and investments—and shows you what to do about it now, before it’s too late. Picking up where Aftershock left off, Fake Money, Real Danger reveals how the Covid-19 pandemic—and the government’s massive money printing and borrowing in response to it—is providing investors with a once in a lifetime opportunity to build wealth in the near term, while also taking the crucial steps necessary to protect yourself and your investments from the inevitable Fake Money bubble pop in the longer term. What FAKE MONEY? Massive government money printing increased the U.S. money supply by more than 1,000% since 2008, printing more money in ONE MONTH in 2020 than during the two years of the Financial Crisis in 2008 and 2009. Mammoth federal debt is now at a staggering \$30 trillion—up \$3 trillion in 2020 and on track for continuous huge increases. The amount of federal debt is nearing 10 times our annual tax revenues. What REAL DANGER? All U.S. economic growth since the Financial Crisis is entirely due to government borrowing. All of it. Without massive government borrowing we’d have no growth at all. Stock markets will likely continue to rise because of Fake Money but face an inevitable crisis when continued massive money printing creates serious inflation. You and every investor are now at a crossroads. Your next move will decide your fate: protection and profits OR wealth destruction and regret.

The Bank On Yourself Revolution Pamela Yellen.2016-03-22 New York Times bestseller Do you know what your retirement account will be worth on the day you plan to tap into it? Do you know what the tax rates will be for the rest of your life? Do you know how long you're going to live? Most people have no clue...and that's the problem with conventional financial planning: It's based on things you can't predict or control. Wall Street lost more than 49% of the typical investor's money - twice - since the year 2000. And studies show that because they followed the conventional wisdom, almost half of all Boomers won't have enough money to cover even basic living expenses during their retirement years. Now the financial gurus whose advice got you into this mess in the first place are telling you to take more risk, work till you drop, and plan on spending less in retirement. Don't let them fool you again! In The Bank On Yourself Revolution, financial security expert Pamela Yellen details how hundreds of thousands of people of all ages and incomes have bucked the system to secure their families' financial futures without gambling in the Wall Street Casino or taking any unnecessary risks. You'll discover a proven step-by-step plan for growing your wealth safely, predictably, and guaranteed every single year - even when the markets are tumbling. And you'll learn how to bypass banks, credit card and financing companies to become your own source of financing for cars, vacations, a college education, business expenses and other major purchases. The Bank On Yourself Revolution isn't a get-rich-quick scheme; it's about having real wealth and financial security for as long as you live. You can finally know how much money you'll have next year, in 10, 20 or 30 years - and at every point along the way. Join the Revolution and take control of your own financial future!
