History and Educational Philosophy for Social Justice and Human Rights Chowdhury, Jahid Siraz,Vadevelu,

Kumarashwaran,Zakaria, A.F.M.,Al-Mamun, Abdullah,Ahmed,

Sajib.2024-03-22 In the complex landscape of educational philosophy and policy, a difficult challenge arises – the entwined issues of racism and other demographic differences, and evolving education policies. Traditional historical accounts fall short of addressing the broader historical patterns that underscore these challenges, particularly their colonial legacy. The need for a fresh perspective becomes evident, one that transcends chronology and delves into the intricate dynamics shaping contemporary educational thought. History and Educational Philosophy for Social Justice and Human Rights emerges as a groundbreaking solution to this conundrum. Through a broad developmental and historical lens, the book provides a fresh perspective on the role of differences as the core, content, and subject of education. It advocates for cultural resistance and a permanent political struggle by political-cultural minorities and social movements, while also challenging public institutions, especially schools, to actively embrace and utilize differences in their foundational work. By engaging with the tensions and struggles around differences, the book contends that institutions can transform, becoming agents of positive change, and contributing to the foundation of an inclusive and participatory democracy. This book invites scholars and educators to not only understand the challenges but to actively participate in shaping a future where differences are not merely acknowledged but celebrated within the realms of education and society at large.

Byzantium Sean McLachlan. 2004 Long after Rome fell to the Germanic tribes, its culture lived on in Constantinople, the glittering capital of the Byzantine Empire. For more than 1000 years (AD 330-1453) Byzantium was one of the most advanced and complex civilisations the world had ever seen. As the Mediterranean outlet for the silk route, its trade networks stretched from Scandinavia to Sri Lanka; its artists created sombre icons and brilliant gold mosaics; its scholarship served as a vital cultural bridge between the Muslim East and the Catholic West; and it fostered the Orthodox Christianity that is the faith of millions today. This book shows the innovative art that inspired French kings and Arab emirs. It includes a gazetteer of historic Byzantine sites and monuments that travellers can visit today in Greece, Italy, Turkey and the Middle East. A chronology of Byzantine history and a list of emperors complete this ideal resource for the student, traveller or generally curious reader.
