**Middle School Matters** Phyllis L. Fagell.2019-08-06 A counselor and popular Washington Post contributor offers a new take on grades 6-8 as a distinct developmental phase--and the perfect time to set up kids to thrive. Middle school is its own important, distinct territory, and yet it's either written off as an uncomfortable rite of passage or lumped in with other developmental phases. Based on her many years working in schools, professional counselor Phyllis Fagell sees these years instead as a critical stage that parents can't afford to ignore (and though middle school includes different grades in various regions, Fagell maintains that the ages make more of a difference than the setting). Though the transition from childhood to adolescence can be tough for kids, this time of rapid physical, intellectual, moral, social, and emotional change is a unique opportunity to proactively build character and confidence. Fagell helps parents use the middle school years as a low-stakes training ground to teach kids the key skills they'll need to thrive now and in the future, including making good friend choices, negotiating conflict, regulating their own emotions, be their own advocates, and more. To answer parents' most common questions and struggles with middle school-aged children, Fagell combines her professional and personal expertise with stories and advice from prominent psychologists, doctors, parents, educators, school professionals, and middle schoolers themselves.

*Middle-School Misfits: The Stained Glass Tree* Leona Lugan. 2019-03-01 Drama defines middle school, especially for Jilly. Not that she likes drama. She’d rather walk invisibly through the hallways than have any eyes turn toward her. But drama will always find Jilly. With Mom battling depression, and the family’s financial struggles, they move frequently. As the family bounces from town to town, Jilly changes schools... a lot! And there is nothing scarier than coming into a new school smack in the middle of the semester. With her country accent... clothes that are far from cool... an odd, funny-to-pronounce family name (that earns her a terrible nickname)... Jilly feels like an outcast. A misunderstood misfit. Can she find a way to fit in while still being true to herself? Independent readers and middle school students will relate to the challenges and joys that Jilly and her schoolmates experience in this timeless tale about facing your fears, making new friends (and frenemies), and avoiding, as much as possible, those humiliating middle school screw-ups. Discussion points and tips are included.

*Middle Grades Curriculum* Kathleen Roney, Richard P. Lipka. 2013 High stakes testing, standards, and accountability politics is taking us away from the importance of the affective domain in curriculum development. This critical learning domain is often an unrecognized and infrequently considered topic in the literature. Through this book we extend the current knowledge base by addressing a curriculum model developed in the 1980s. We add a 2012 knowledge base as we delineate the role of self-perceptions in school-related learning, how middle level curriculum affects self-perceptions, and the type of curriculum planning which enhances self-perceptions and improves learning in the cognitive, affective, and psychomotor domains. The combination of sound psychological principles and practical teaching and curriculum suggestions with an empirical basis makes the book attractive to both higher education and local school professional libraries. In the former it will serve as the primary text in graduate and advanced undergraduate middle level education programs and practices courses. It might also be a primary text in courses or workshops in affective education or other experiences which emphasize affective, values, and self-concept. It also has potential as a supplementary text in undergraduate educational psychology courses. At the in-service level this book could be used as a workshop resource or as a professional reference for middle level teachers, administrators, curriculum workers, and supervisors. Our interest in young adolescents and their school setting coincides with the fourth edition of *This We Believe* (NMSA, 2010). The self-enhancing school is characterized by from-to statements; for example, from avoiding parents to working with parents. Using theory and research we discuss the costs of staying in the from position and the benefits derived from moving to the to position. By combining educational psychology and curriculum development we make a unique contribution to middle grades curriculum developers.

**Sal and Gabi Break the Universe** Carlos Hernandez.2019-03-05 Best-selling author Rick Riordan presents a brilliant sci-fi romp with Cuban influence that poses this question: What would you do if you had the power to reach through time and space and retrieve anything you want, including your mother, who is no longer living (in this universe, anyway)? How did a raw chicken get inside Yasmany's locker? When Sal Vidon meets Gabi Real for the first time, it isn't under the best of circumstances. Sal is in the principal's office for the third time in three days, and it's still the first week of school. Gabi, student council president and editor of the school paper, is there to support her friend Yasmany, who just picked a fight with Sal. She is determined to prove that somehow, Sal planted a raw chicken in Yasmany's locker, even though nobody saw him do it and the bloody poultry has since mysteriously disappeared. Sal prides himself on being an excellent magician, but for this sleight of hand, he relied on a talent no one would guess . . . except maybe Gabi, whose sharp eyes never miss a trick. When Gabi learns that he's capable of conjuring things much bigger than a chicken—including his dead mother--and she takes it all in stride, Sal knows that she is someone he can work with. There's only one slight problem: their manipulation of time and space could put the entire universe at risk. A sassy entropy sweeper, a documentary about wedgies, a principal who wears a Venetian bauta mask, and heaping platefuls of Cuban food are just some of the delights that await in his mind-blowing novel gift-wrapped in love and laughter.

**Horace & Bunwinkle** PJ Gardner.2020-09-15 The first in a young middle grade animal series in which an anxious Boston Terrier and an exuberant potbellied pig team up to solve crimes in their barnyard—from debut author PJ Gardner, with illustrations by David Mottram. Perfect for fans of the Mercy Watson series, The Trouble with Chickens, and A Boy Called Bat. Horace Homer Higgins III despises dirt. And the outdoors. And ducks. But when his person, Ellie, moves to a farm called the Homestead, the anxious Boston Terrier is forced to adapt. As if that isn’t enough to strain his nerves, Ellie adopts a perpetually cheerful potbellied pig named Bunwinkle to be his baby sister. Bunwinkle is delighted to be on the farm despite the stuffiness of her new canine brother. She’s sure she’ll crack his shell eventually—no one can resist her cuteness for long—especially once they bond over watching a TV pet-tective show. When the duo discovers that some neighborhood animals have been disappearing, they decide to use their new detective skills to team up to solve this barnyard mystery. Is it a mountain lion? Or their suspiciously shot-loving veterinarians? Only one thing seems certain: if they don’t figure it out soon, one of them might be next.

**Equity & Cultural Responsiveness in the Middle Grades** Kathleen M. Brinegar,Lisa M. Harrison,Ellis Hurd.2019-04-01 While developmental responsiveness is a deservedly key emphasis of middle grades education, this emphasis has often been to the detriment of focusing on the cultural needs of young adolescents. This Handbook volume explores research relating to equity and culturally responsive practices when working with young adolescents. Middle school philosophy largely centers on young adolescents as a collective group. This lack of focus has great implications for young adolescents of marginalized identities including but not limited to those with culturally and linguistically diverse backgrounds, LGBTQ youth, and those living in poverty. If middle level educators claim to advocate for young adolescents, we need to mainstream conversations about supporting all young adolescents of marginalized identities. It empowers researchers, educators, and even young adolescents to critically examine and understand the intersectionality of identities that historically influenced (and continue to affect) young adolescents and why educators might perceive marginalized youth in certain ways. It is for these reasons that researchers, teachers, and other key constituents involved in the education of young adolescents must devote themselves to the critical examination and understanding of the historical and current socio-cultural factors affecting all young adolescents. The chapters in this volume serve as a means to open an intentional and explicit space for providing a critical lens on early adolescence—a lens that understands that both developmental and cultural needs of young adolescents need to be emphasized to create a learning environment that supports every young adolescent learner.
