Beyond Sport for Development and Peace Lyndsay M. C. Hayhurst,Tess Kay,Megan Chawansky.2015-10-05 Debates around the ‘sport for development and peace’ (SDP) movement have entered a new phase, moving on from simple questions surrounding the utility of sport as a tool of international development. Beyond Sport for Development and Peace argues that critical research and new perspectives and methodologies are necessary to balance the local aspects and global influences of sport and to better understand the power relations embedded in SDP on a transnational scale. As the era of the Millennium Development Goals gives way to a new agenda for sustainable development, this book considers the position of SDP. The book brings together contributors from 15 different countries across the developed and developing worlds, including academic researchers and ‘on the ground’ experts, practitioners and policy-makers, to provide one of the most diverse set of perspectives assembled in SDP scholarship. Looking to the renewed development agenda, its authors explore theoretical, policy and practical dimensions that address
the broadening geographical and cultural spread of SDP, the emergence of issues such as child protection within it, its increased capacity for critical reflection on practice, and its potential for new collaborative approaches to knowledge production. Through its combination of academically-led chapters paired with practice-oriented ‘responses’ it offers an important reconceptualization of SDP as a contributor to development policy, and opens up important new avenues for studying and ‘practising’ SDP. Beyond Sport for Development and Peace is therefore essential reading for all researchers, advanced students, policy-makers and practitioners working in sport development or international development.

Multiple Dimensions of Caregiving and Disability Ronda C. Talley, John E. Crews. 2012-06-27 Caring for people with disabilities often becomes an all-encompassing responsibility for one or more family members. To manage the multifaceted demands, caregivers must possess strong multitasking skills, including the ability to assist with daily life tasks; provide emotional support; help with financial affairs; mediate and advocate with health care providers. Maintaining balance within their own lives can become incredibly challenging for caregivers. More often than not, providing care for family members or loved ones occurs at the expense of the caregivers’ well-being. And for caregivers who themselves have disabilities, it further complicates matters. Multiple Dimensions of Caregiving and Disability addresses concerns that have been long familiar to the caregiver population and examines the current state of family care for individuals with disabilities. With a lifespan perspective, this concise reference reviews the literature on specific problems of caregivers and explores which care strategies are effective, promising, or lacking in available resources and support interventions. Contributors also explore the more fluid and subjective aspects of caregiving, such as feelings, spirituality, and family roles. Suggestions for future policy improvements, particularly within the
public health sector, are discussed as well. Topics covered include: • Family dynamics and caregiving for people with disabilities. • Parent caregiving of children with disabilities. • Race, ethnicity, socioeconomic status, and caregiving. • Educational, training, and support programs for caregivers. • Emerging technologies to aid caregivers. • Developing partnerships between caregivers and health care providers. Multiple Dimensions of Caregiving and Disability is a must-have resource for researchers, scientist-practitioners, policy makers, and graduate students across such disciplines as clinical psychology, nursing, social work, public health, medicine, and social and education policy.

A Blind Child's Pathway to Learning Dr. William Cavitt, Dr. Thomas Gwise.2013-12-13 Our intention in writing this book is to provide three distinct but closely related groups with insight into the factors required to help a blind child attain his/her maximum level of cognitive abilities. The first group consists of parents who face the day to day reality of helping their blind child deal with the challenges imposed by the lack of sight. The second group consists of beginning and future professionals who will find themselves deeply involved with providing social, psychological, and educational support of these parents. The third group includes friends, family, and others who are not and will not be on the front lines of working with blind children, but who are interested in understanding the issues for their own reasons. There are many articles and books available that discuss the various aspects of the development of both sighted and blind children from almost every possible perspective related to the factors that impact the learning and developmental processes of children. Unfortunately, the vast majority of these have been written by professionals to professionals, using the jargon of the author's chosen field of study. As a result, people who are not part of the in groups often find these publications hard to understand, boring, or both. In this book,
we do not aim to provide any new insights to established professionals or other individuals who are knowledgeable in this area. Rather, our purpose is to translate the knowledge provided by these professionals into ideas and concepts that can be readily understood and applied by parents, teachers, and other caregivers of blind children. Throughout the book, we will be dealing with highly specialized concepts and theories of education, psychology, and human development. We have done our best to translate the professional and academic jargon into what most people would call simple English. Throughout the text, we have provided our definitions of key terms as we have come to understand and apply those terms. We recognize that others may have different interpretations for the same terms, and we do not dispute that their definitions serve their particular purposes.

Teaching Social Skills to Youth, 4th Ed. Tom Dowd, Erin Green. 2022-09-13 This definitive guide to social skills instruction features thirteen new skills and their behavioral steps, fresh insights into providing culturally responsive treatment that respects individual identity, more inclusive language, and updated research on social-emotional learning and executive function. The 196 social and life skills showcased in this fourth edition will empower young people to have greater success in school, at home, on the job, and in their relationships. Several of the new skills promote the values and principles of diversity, equity, and inclusion. Those skills include: · Sticking Up for Yourself · Sticking Up for Others · Agreeing to Disagree · Recognizing Your Own Personal Biases or Opinions Other new skills focus on personal autonomy (Gaining Consent, Giving Consent, and Responding to Persons of Authority). Plus, there are new skills that teach young people how to interact with law enforcement (Being Prepared for an Interaction with Law Enforcement and Responding to Law Enforcement/Police Interactions). The manual reflects and focuses on the importance of teaching social skills to youth of all ages, the elements of social behavior (task and behavior analysis), individual and group teaching techniques, generalization of skills, the role of skill-based interventions for difficult youth problems, and the Boys Town Social Skills Curriculum itself. For
ease and convenience, there are four appendices that group skills by behavior problem areas, common situations or circumstances, social and emotional learning competencies (self-awareness, self-management, social awareness, relationship skills, and responsible decision-making), and skill type (social, emotional management, academic, moral/ethical, and independent living). Every skill is available for download and print through BoysTownPress.org. Skills are easily adaptable to reflect an individual’s specific abilities and cultural norms. Teaching Social Skills to Youth, Fourth Edition is ideal for classrooms, individual and group therapy, and job training programs. Educators and caregivers can use this guide to strengthen their cultural competence, increase the skill competency of children, help improve student behavior in school, and develop individualized service plans for troubled or at-risk youth. It is an excellent companion to the highly acclaimed Mental Health from Diagnosis to Delivery and Building Resiliency in Youth, both available from Boys Town Press. The authors have decades of experience working with children and families, and they are experts on issues related to youth aggression, antisocial behavior, abuse, delinquency, and mental health. Teaching Mindfulness Skills to Kids and Teens Christopher Willard,Amy Saltzman.2015-09-24 Packed with creative, effective ideas for bringing mindfulness into the classroom, child therapy office, or community, this book features sample lesson plans and scripts, case studies, vignettes, and more. Leading experts describe how to harness the unique benefits of present-focused awareness for preschoolers, school-age kids, and teens, including at-risk youth and those with special needs. Strategies for overcoming common obstacles and engaging kids with different learning styles are explored. Chapters also share ways to incorporate mindfulness into a broad range of children's activities, such as movement, sports, music, games, writing, and art. Giving clinicians and educators practices they can use immediately, the book includes clear explanations of relevant research.

*Early Childhood Education* Petr G. Grotewell, Yanus R. Burton. 2008 This book focuses on early childhood education which spans the human life from birth to age 8. Infants and toddlers experience life more holistically than any other age group. Social, emotional, cognitive, language, and physical lessons are not learned separately by very young children. Adults who are most helpful to young children interact in ways that understand that the child is learning from the whole experience, not just that part of the experience to which the adult gives attention. Although early childhood education does not have to occur in the absence of the parent or primary caregiver, this term is sometimes used to denote education by someone other than these the parent or primary caregiver. Both research in the field and early childhood educators view the parents as an integral part of the early childhood education process. Early childhood education takes many forms depending on the theoretical and educational beliefs of the educator or parent. Other terms that is often used interchangeably with early childhood education are early childhood learning, early care and early education. Much of the first two years of life are spent in the creation of a child's first sense of self or the building of a first identity. Because this is a crucial part of children's makeup—how they first see themselves, how they think they should function, how they expect others to function in relation to them, early care must ensure that in addition to carefully selected and trained caregivers, links with family, home culture, and home language are a central part of program policy. If care becomes a substitute for, rather than a support of, family, children may develop a less-than-positive sense of who they are and where they come from because of their child care experience.

Growing Children’s Social and Emotional Skills

Joanna Grace Phillips, Sivanes Phillipson, Gaye Tyler-Merrick. 2021-08-30

Growing Children’s Social and Emotional Skills examines how parent-educator partnerships can be achieved to enhance the development of children’s social and
emotional skills. The book presents the TOGETHER programme, a training programme that emphasises the importance of the relationship between caregivers and teachers with the children in their care, as well as deepening the collaborative partnerships between teachers, educators and caregivers. Using a case study approach, the book explores the application of the TOGETHER programme across various home and early childhood education contexts through the unique voices of those involved. The TOGETHER programme presented in this book is:

- Easy to implement and adaptable, requiring minimal training time for parents, teachers and educators
- Designed to emphasise the importance of relationships in developing children’s social and emotional skills
- Supported by photocopiable resources and a downloadable e-manual that can be used to implement the training

With the vision to empower caregivers to take an active role in building children’s social and emotional competence, this book is written in a way that will appeal to academic researchers and tertiary students, early childhood educators and other caregivers. It will assist in recognising children’s strengths and deepening collaborative partnerships between families, educators and other caregivers.

Thinking Critically About Child Development
Jean Mercer, Stephen D. A. Hupp, Jeremy Jewell
2019-02-12
With a unique focus on inquiry, Thinking Critically About Child Development presents 74 claims related to child development for readers to examine and think through critically. Author Jean Mercer and new co-authors Stephen Hupp and Jeremy Jewell use anecdotes to illustrate common errors of critical thinking and encourage students to consider evidence and logic relevant to everyday beliefs. New material in the Fourth Edition covers adolescence, adverse childhood experiences, genetics, LGBT issues for both parents and children, and other issues about sexuality, keeping readers up to date on the latest scholarship in the field.

Love Me As I Am Monica C. MacLennan. 2008 Love Me As I Am is an affordable book of theoretical and practical information, in dealing with children of all ages. The author holds a degree in Montessori, Child Development and Development of Human Resources. The ideas in the book were used by the author, with extraordinary success. Love Me As I Am, as the title suggests is a book, that was written to give parents, grandparents, teachers, and other caregivers of children positive ways of guiding children under their care, in their development needs. The book deals with children from infancy to adolescence. The reader is advised to read every topic because he/she can benefit from it, even though it may not apply for the situation at hand. The suggestions may help with other concerns. The goal to achieve is not perfection. Adults should make it their goal to treat children with understanding and compassion. They can then positively guide youngsters to achieve a healthy self-esteem and to face life with a confident spirit. Children in turn will fulfill their ambitions and become well-adjusted adults, caring and contributing to family and society. Do you think, or has a teacher told you, your child may have ADD or ADHD? Read this informative book to find options and make intelligent decisions about your child. Relieve stress and frustration and enjoy children in your care. Children are unique masterpieces. If treated with understanding, compassion, love, and respect they will become an asset to you and themselves. Buy this invaluable book and pass one on to a friend.

Quality Play and Media
Kate Highfield, Margaret Sims, C. Glenn Cupit. In the early years, children learn mostly through play. Their receptive young minds are formed and their physical skills are developed as they begin to explore the world around them. They learn how to get along with others as they develop social skills and learn how to handle their emotions. What impact is using digital technology having on how children are developing? Is it harming them or is it helping them? What role do parents and caregivers have in all this? These are some of the questions this e-book sets out to answer. Some of our best minds contribute important ideas on what parents, educators and caregivers need to know about the impact of electronic media on our children’s development. More importantly they offer us guidance on what we can do to avoid the pitfalls and make use of the ways it can enhance children’s learning.

Pediatric Psychosocial Oncology: Textbook for Multidisciplinary Care
Annah N. Abrams, Anna C. Muriel, Lori Wiener. 2015-11-16 This textbook walks clinicians through the psychosocial issues and challenges faced by children and adolescents with cancer and their families. Through a developmental lens, the text provides guidance and resources that will enable clinicians to
understand the physical and emotional impact of the disease from diagnosis onwards, to work with families in distress, and to diagnose and treat a range of behavioral, psychological, and psychiatric issues. The book also addresses the burgeoning fields of social media, complementary therapies, palliative care, and survivorship. Among the variety of useful resources supplied are assessment tools, websites, and additional reading materials. The psychosocial issues that arise for children and their families during the course of treatment are an important yet often overlooked aspect of pediatric oncology care. The reader will find that Pediatric Psychosocial Oncology: Textbook for Multidisciplinary Care covers these issues at the forefront of clinical care in a direct and approachable way, integrating research literature with practical clinical guidance. 

Parent to Parent B. Janine Fulla.2017-10-23 Planned Parenthood isn’t just about planning the right time in your life to have a child. It’s also about making choices regarding how you want to raise your child by understanding yourself, discovering your own coaching abilities, and developing a conscious map that allows for a few side excursions along the way. It’s about opening the drapes and letting the light in, taking deep breaths, and embracing all the sweet, inconvenient, laughable, stressful, playful ups and downs of this great adventure. At its heart, this book is a personal journey of raising children to be empowered, authentic and confident in themselves. It is about helping the parent engage in effective communication, teaching skills such as, leading your children to be responsible for their choices and actions and teaching them to trust their own intuitive signals along with, insights on breaking old parenting patterns. Parenting has changed dramatically since you were raised, and by the time you raise your children, it will dramatically change again. This is known as the Highway of Life and as such, there are times you will find the process... slow. Other times you will find the ride is going way too fast, and just want to put your foot on the brakes. Every child is
different, every child has challenges they will test you with, and every experience can be the most profoundly moments of your life. This book is for parents of children of all ages, including grandparents, caregivers, teachers, coaches, babysitters – anyone who interacts with growing children, in any setting. They say it takes a village to raise a child. This book is for the village.

1001 Best Internet Sites for Educators Mark Treadwell. 2001-06 This second edition of a resource designed to help teachers find relevant information on the Internet for both themselves and their students, provides concise reviews of more than 1,000 Web sites sorted by subject area. Each site is evaluated with one to five stars for content, presentation and grade level. Easy-to-follow explanations are provided of how each site can be used in the classroom. Also presented are search tips to help teacher find more sites on their own. Besides the rating of Internet sites, the book includes information on hardware and software requirements, safety on the Internet, plug-ins, and helpful information such as criteria for site selection and searching the Web. An element called Finding Where You Have Been helps teachers relocate sites they have viewed. Other helpful features are Searching the Web and a Glossary of Terms to familiarize teachers and students with the Internet. The introductory material on Safety on the Internet provides guidelines for teachers. A generic Acceptable Use Policy is also included that is copyright-free for schools to adapt to their needs. Recommendations for filtering software are offered for Internet use in places where individual monitoring is not possible, such as libraries. Data is provided on an Internet license system in which parents or caregivers sign an agreement for their child to access the Internet. Sites are provided under the following curriculum areas: language arts; mathematics; science; foreign languages; general and professional sites for educators; health and physical education; information and communication; music and performing arts; technology in education; and visual arts. Making Play Just Right: Unleashing the Power of Play in Occupational Therapy Heather Kuhaneck, Susan L. Spitzer. 2022-05-19 At the heart of Making Play Just Right: Unleashing the Power of Play in Occupational Therapy is the belief that the most effective way to ensure pediatric occupational therapy is through incorporating play. The Second Edition is a unique resource on pediatric activity and therapy analysis for occupational therapists and students. This text provides the background, history, evidence, and general knowledge needed to use a playful approach to pediatric occupational therapy, as well as the specific examples and recommendations needed to help therapists adopt these strategies.

Parents and Caregivers Across Cultures Brien K. Ashdown, Amanda N. Faherty. 2020-02-04 This book explores diverse parent-child relationships from around the world, drawing on connections between culture and parenting values and challenges. It identifies parenting practices within various countries’ unique historical, political, and cultural backgrounds, reframing parenting as a cultural process whose goals are to encourage culturally-specific child behaviors and outcomes. Chapters focus on parenting research in a range of countries, such as Australia, Bolivia, China, Egypt, Guatemala, India, Rwanda, Namibia, Saudi Arabia, and the United States. Chapters also discuss social, emotional, and physical developmental topics throughout the lifespan, including infancy, early childhood, adolescence, emerging adulthood, and adulthood. Topics featured in this book include: The link between cultural differences in academic success to parents’ academic socialization practices. The impact of culturally-specific parental engagement in positive developmental outcomes in children. Transgender children and their parents. The relationship between religious and secular values and their influence on creating polygamous teenagers. How to implement a micro-cultural lens to studying parent-child relationships during emerging adulthood. Differences and similarities...
in grandparenting among different cultures. Parents and Caregivers Across Cultures is a must-have resource for researchers, professors, graduate students as well as clinicians, professionals, and policymakers in the fields of developmental and cross-cultural psychology, parenting and family studies, social work, and related disciplines.

**What Successful Schools Do to Involve Families**
Neal A. Glasgow, Paula Jameson Whitney. 2009

It's clear that students learn best when they are supported by a community that values education and includes not only teachers but also parents, families, and other mentors. Yet schools often find it difficult to successfully involve parents and families in children's educational lives. Based on solid educational research that reflects culturally diverse communities, this important new book offers teachers and administrators 55 practical strategies for forming effective partnerships with every type of family group. The authors cover a wide range of opportunities for collaborating with families, from homework, parent conferences, and open houses to family literacy and math activities, to hot-button topics like bullying and discipline. Each strategy offers: - a synthesis of the related research - a description of how to use the strategy in a classroom or broader school setting - precautions and pitfalls for consideration to help make implementation reasonably error free - research sources for optional follow-up.

**Parenting Matters** National Academies of Sciences, Engineering, and Medicine, Division of Behavioral and Social Sciences and Education, Board on Children, Youth, and Families, Committee on Supporting the Parents of Young Children. 2016-11-21 Decades of research have demonstrated that the parent-child dyad and the environment of the family—which includes all primary caregivers—are at the foundation of children's well-being and healthy development. From birth, children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and
shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body of science on early childhood, increases in funding for programs and services for families, changing demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. Parenting Matters identifies parenting knowledge, attitudes, and practices associated with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their participation in effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy, research, and practice in the United States.

Helping Children Live with Death and Loss Dinah Seibert, Judy Catherine Drolet, Joyce V. Fetro. 2003 Helping Children Live with Death and Loss is a practical guide for parents, caregivers, teachers, clergy, funeral directors, and other adults who may interact with young children between the ages of two and ten. Utilizing a developmental approach that is critical for understanding the unique
characteristics and needs among children under ten, the volume is enhanced by an accessible style and format, numerous illustrations, and the positive attitude that make it possible for any reader to comprehend and apply the concepts when discussing death and loss with young children. The scope of concepts ranges from adult self-assessment to knowledge of children’s developmental stages in learning. Building on that foundation, the book provides four basic content areas for teaching, supplies sample questions and answers, and suggests strategies for teaching general death education as well as strategies for responding to a current death or loss. The resource concludes with print and internet sources for adults and children. Helping Children Live with Death and Loss also aids adults and children in improving their communication and coping skills, which are critical for managing loss and preparing for a healthier future.

Start Where You Are, But Don’t Stay There, Second Edition H. Richard Milner.2021-11-18 2021 PROSE Award Finalist, Education Practice and Theory Category In the thoroughly revised second edition of Start Where You Are, But Don’t Stay There, H. Richard Milner IV addresses the knowledge and insights required on the part of teachers and school leaders to serve students of color. Milner focuses on a crucial issue in teacher training and professional education: the need to prepare teachers for the racially diverse student populations in their classrooms. The book, anchored in real world experiences, centers on case studies that exemplify the challenges, pitfalls, and opportunities facing teachers in diverse classrooms. The case studies—of teachers in urban and suburban settings—are presented amid current discussions about race and teaching. In addition, the second edition includes a new chapter dedicated to opportunity gaps in education and an expanded discussion of how Opportunity Centered Teaching can address these gaps. Start Where You Are, But Don’t Stay There strives to help educators in the fight for social justice, equity, inclusion, and
transformation for all students. It is a book urgently needed in today's increasingly diverse classrooms.

*Resources in Education* .2001

*Young Children, Parents and Professionals* Margaret Henry. 2012-10-12 As early year education and very early child care increase, parents and professionals face many difficult questions. What are the effects of early education on children? Are parents fulfilling their roles? What should teachers' roles be? Seldom asked are more basic questions: What are the fundamental needs of young children? Or parents? Or professionals? How can these differing sets of needs be met? Margaret Henry proposes three dimensions of caregiving behaviour through which parents and professionals not only help young children to develop, but can also help one another's development. Evidence of positive change comes both from her own research in family day care and from the work of her students, practicing teachers and child care personnel. Their examples involve often hard-to-reach parents - those who are tired, employed, alienated, bossy and culturally and ethnically diverse. There are practical suggestions here for professionals and parents interested in enhancing their relationships with one another and the outcomes for young children.

*Buzzy's Adventures in Online Privacy* Bilal Soylu, Patricia Aluskewicz. 2019 In today's rapidly changing world, children are being exposed to digital devices at younger and younger ages. Now nicknamed Digital Natives, our children have never lived in a world without screens. Without guidance, however, they are left to interpret what they don't understand and fend for themselves in the increasingly complex arena that wasn't created with them in mind. In this first book of its kind,
Buzzy's Adventures in Online Privacy, kindergartener Buzzy the Bee runs into unforeseen trouble while having fun on the internet. Through the tales of him and his friends, young children and early fluent readers learn about online privacy and the possible dangers in communication with others on the internet. *Interbehaviorism* Linda J. Hayes, Mitch J Fryling. 2023-04-01 A comprehensive guide to the work of Jacob Robert Kantor, and a must-have for anyone interested in behavior analysis or cognitive behavioral science. Often overlooked or misunderstood, the work of American psychologist Jacob Robert Kantor is finally being recognized for its contribution to contextual behavior sciences. This important volume brings Kantor’s prescient work into the twenty-first century, teaching readers the foundations and unique features of interbehaviorism in a straightforward way, and exploring the profound effects it has in applied domains like perspective-taking, feelings and emotions, interpersonal relationships, and more. In this volume, you’ll find detailed explanations of Kantor’s theory, as well as its research assumptions and foundations. Whether you’re a behavior therapist, contextual behavior scientist, behavior analyst, student of behavior analysis, or simply interested in the history of interbehaviorism and its modern applications, this book is an essential addition to your professional library.

*Service-Learning in Physical Education and Other Related Professions: A Global Perspective* Marybeth P. Miller, James D. Nendel. 2010-10-27 The study and application of service
learning as a pedagogy has become widespread. Service-Learning in Physical Education and Other Related Professions: A Global Perspective demonstrates how faculty in physical education and other related professions have designed, implemented, assessed, and conducted action research involving service-learning as a teaching and learning method, both locally and globally, as a means of both serving the community and enriching the lives of their students. This text is broken down into three parts: •Part I provides a definition of service learning, examines the parameters that have been explored in physical education and higher education in general, and the integration of standards to ensure high-quality service-learning. •Part II focuses on the pedagogical frameworks in which service-learning thrives and explores how the model specifically meets national standards and best practices. It also explores the emerging role of research as a measurement tool of the effectiveness of service learning. •Part III explores a variety of programs from around the globe that utilize service-learning in their pedagogical framework, and provides the nuts and bolts of what they have done and their accomplishments.

**Literacy Techniques for Teachers and Parents** Peter Edwards.2003 The main aim of the book is to present 50 key literacy techniques for instructional purposes, in outline and graphic form, which preserve the essential elements of each technique. Literacy Techniques is designed to assist literacy instruction in four main ways: 1. The 50 literacy techniques represent a major 'knowledge base' for individuals who need to develop effective teaching techniques in literacy. 2. The 50 literacy techniques have been carefully selected from a wide range of resources in the field. Most of the techniques are not available in a single publication. 3. The 50 literacy techniques act as an up-date for individuals who are not currently aware of the latest instructional developments in the field. 4. The over 50 web sites provide access to an enormous amount of literacy resources that can be used
in the classroom and in the home. A major benefit of using the book is that it provides summaries of literacy techniques that can be quickly applied to a variety of learning situations. The book can be used by undergraduate and graduate students, by pre-service and practicing teachers, as well as other caregivers involved in home schooling, family literacy, or working as literacy volunteers. The techniques enable them to use interesting and valuable activities to strengthen and encourage their students to achieve their full learning potential. The literacy techniques are not intended for use solely with remedial readers. They include ideas suitable for use with primary, elementary, middle and high school students, as well as with students requiring special assistance or acceleration in their programs. A wide variety of hands-on activities, including the use of computer programs, is a natural follow-up to most of the techniques included in Literacy Technique: For Teachers and Parents.

**35 Strategies for Developing Content Area Vocabulary** Brenda H. Spencer, Andrea M.
Guillaume.2009 Offering teachers concrete directives for addressing vocabulary instruction in content area lessons, this text categorizes strategy presentation in four explicit ways: preparing to learn words, building word knowledge, applying word knowledge, and encouraging word learning. **How to Keep Your Children Safe** Yvonne Marie Vissing.2006 Winner of the New England Sociological Association Sociologist of the Year (2008) Life in contemporary American society requires that children spend considerable time in the care of other people. These people include teachers, coaches, babysitters, camp counselors, ministers, neighbors, friends, and extended family. While most people who work with children do a good job, some caregivers fail to adequately care for kids, while others actually put them in harm's way. Parents may assume that caregivers of all kinds are uniformly evaluated and approved, but this is not always the case. American society, despite a superficial rhetoric of concern for children, has not instituted strong national, state, or local safety nets to protect them. And because there is no comprehensive commitment to ensure child safety, there is no systematic, or even partial, oversight of adults charged with their care. As a result, parents are put in the difficult position of deciding whether caregivers of all kinds are sufficiently skilled and responsible to look after children. How to Keep Your Children Safe is essential reading for any parent concerned about child safety. It takes a hard look at the hidden side of children's lives--the times when they're in contact with caregivers who aren't doing their jobs properly. It provides detailed information on places where children are under the care of others, including day care, recreational settings, religious and civic organizations, schools, and summer camps. Vissing investigates the potential perils of each setting and enumerates ways in which parents can better monitor, or take control of, their child's safety. By writing a realistic assessment of commonplace settings that every parent and child can relate to, and offering a road map to child safety, Vissing...
empowers parents to make critical decisions about their children's lives.

The Children in Our Lives  Jane Adan. 1991-01-01 I was born at midnight. That means I can see ghosts when they want to be invisible, writes fourth-grader David, demonstrating a child's capacity for making sense of personal experience. The Children in Our Lives explores this capacity, as well as how adult misperceptions of children's experiences affect those children. It invites dialogue between teachers, parents, other caregivers, and the general public who value children for their own sakes. Adan looks for disparities between a child's experience and the adult's interpretation of that experience. In questioning middle-class nurturance, she focuses on connections between experience and interpretation based on dominant, traditional, or mainstream values. She argues that force of habit as well as a preoccupation with public image predisposes adults to embrace the abstractions that distort perception. Consequently, children are impaired--as adults are--in their ability to generate communities that are grounded in a creative concern for all human beings.
