Overkill Eliot Borenstein.2011-05-02 Perestroika and the end of the Soviet Union transformed every aspect of life in Russia, and as hope began to give way to pessimism, popular culture came to reflect the anxiety and despair felt by more and more Russians. Free from censorship for the first time in Russia's history, the popular culture industry (publishing, film, and television) began to disseminate works that featured increasingly explicit images and descriptions of sex and violence. In *Overkill*, Eliot Borenstein explores this lurid and often-disturbing cultural landscape in close, imaginative readings of such works as *You're Just a Slut, My Dear!* (Ty prosto shliukha, dorogaia!), a novel about sexual slavery and illegal organ harvesting; the *Nympho* trilogy of books featuring a Chechen-fighting sex addict; and the *Mad Dog* and *Antikiller* series of books and films recounting, respectively, the exploits of the Russian Rambo and an assassin killing in the cause of justice. Borenstein argues that the popular cultural products consumed in the post-perestroika era were more than just diversions; they allowed Russians to indulge their despair over economic woes and everyday threats. At the same time, they built a notion of nationalism or heroism that could be maintained even under the most miserable of social conditions, when consumers felt most powerless. For Borenstein, the myriad depictions of deviance in pornographic and also detective fiction, with their patently excessive and appalling details of social and moral decay, represented the popular culture industry's response to the otherwise unimaginable scale of Russia's national collapse. The full sense of collapse, he writes, required a panoptic view that only the media and culture industry were eager to provide, amalgamating national collapse into one master narrative that would then be readily available to most individuals as a framework for understanding their own suffering and their own fears.

Learn Russian News Vol.1 Nik Marcel. LEARN RUSSIAN NEWS Vol.1: English & Russian THIS EDITION: The dual-language text has been arranged into sentences and shorter paragraphs for quick and easy cross-referencing. The source text is the Russian language edition of Voice of America (VOA). The Russian text has been translated into English for this dual-language project. The reader can choose between four formats: Section 1: English to Russian Section 2: Russian to English Section 3: English Section 4: Russian A methodology for getting the most out of this bilingual format is explained in the book's Foreword. The primary purpose of this text is to equip a foreign language learner with the ability to start reading news in the particular foreign language: to be able to read only in the foreign language, and extract enough understanding to continue the language learning process fruitfully this way. A reader might like to go back to reading dual-language news for reinforcement and further development, returning to foreign language only news with a deeper understanding. By going back to the same 'old' news, you are going over words, word patterns, and passages with which you already have a certain familiarity. The process of reinforcement, learning or retaining of what is new, and exposure to what is unfamiliar, is much easier this way — even though the news may seem a little dated. The aim of informing the reader about actual news is secondary, especially given that the content will become less current (and less relevant) over time. Russian, Book 3: Russian Through Poems and Paintings Mark Pettus.2018-10-24 This is Book 3 in a series of Russian language textbooks that began with *Russian Through Propaganda* (Books 1 and 2). This volume shifts its attention from the Soviet era to the Imperial era, illustrating its discussions of intermediate grammar with paintings depicting Russian history and culture. Classical poems by the likes of Pushkin and Lermontov provide examples of the grammar, which includes such topics as advanced aspect, prefixed verbs of motion, and deverbal forms - all of which are essential for reading real Russian literature. The book culminates with a reading selection that includes Pushkin's *The Bronze Horseman*, two short stories by Chekhov (*Death of a Clerk* and *A Little Joke*), and one by Tolstoy (*Alyosha the Pot*) - all of them extensively glossed. This series, which is geared toward ambitious students who wish to learn Russian culture along with the language, will continue with Book 4.

Stereotypes of Jews and Israel in Russian Detective Fiction Shimon Kreiz.2005 After a survey of the image of the Jews throughout Russian history, proceeds to study works by five authors of post-Soviet detective fiction: Alexandra Marinina, P. Dashkova, Friedrich Neznanski, Changiz Abdulaev, and Boris Akunin. Notes that Jews do not appear as heroes who solve crimes. States that none of these authors supports antisemitism and some even condemn it. However, Jewish stereotypes, such as greedy moneymakers, are common in their works. Sometimes Jews are shown as having been victimized by antisemitism, but also as overreacting. In all cases, Israel is presented more positively than in the anti-Zionist Soviet era. Overall, Jewish images are mixed, combining positive and negative features, with the ratios varying in different works.

A History of Women's Writing in Russia Adele Marie Barker,Jehanne M. Gheith.2002-07-11 A History of Women's Writing in Russia offers a comprehensive account of the lives and works of Russia's women writers. Based on original and archival research, this volume forces a re-examination of many of the traditionally held assumptions about Russian literature and women's role in the tradition. In setting about the process of reintegrating women writers into the history of Russian literature, contributors have addressed the often surprising contexts within which women's writing has been produced. Chapters reveal a flourishing literary tradition where none was thought to exist. They redraw the map defining Russia's literary periods, they look at how Russia's women writers articulated their own experience, and they reassess their relationship to the dominant male tradition. The volume is supported by extensive reference features including a bibliography and guide to writers and their works.

New Women's Writing in Russia, Central and Eastern Europe Rosalind Marsh.2020-12-07 Since the late 1980s, there has been an explosion of women's writing in Russia, Central and Eastern Europe greater than in any other cultural period. This book, which contains contributions by scholars and writers from many different countries, aims to address the gap in literature and debate that exists in relation to this subject. We investigate why women's writing has become so prominent in post-socialist countries, and enquire whether writers regard their gender as a burden, or, on the contrary, as empowering. We explore the relationship in contemporary women's writing between gender, class, and nationality, as well as issues of ethnicity and post-colonialism.
