Food in the Migrant Experience Anne J. Kershen.2017-03-02 At its most basic, food is vital to our survival there can be no form of life without it. But in economically developed and thriving societies there is more to eating and drinking than just surviving. As the centuries have passed, the marketing, preparation and presentation of food has become an intrinsic part of the modern consumer society. Food operates in the religious sphere too, with consumption and abstinence playing their part in religious ritual whilst methods of animal slaughter have moved into the political, as well as the religious arena. Food not only sustains the migrant on both the real and metaphorical journey from home to elsewhere, it also provides a bridge between the familiar and the unfamiliar. Food acts as a catalyst for cultural fusion and excitement but it can also endanger: change of diet all too frequently creating as many health problems as it resolves. Its multi-disciplinary nature enables Food in the Migrant Experience to address all the above issues in chapters written by leading academics in the fields of migration, economics, nutrition, medicine and history. As we continue to explore the minutiae of the immigrant experience, this book will be essential reading to all those engaged in the study of migration.

Watanabe.2010-06-16 Practical Flatfish Culture and Stock Enhancement is a key reference on culture methods, offering both practical applications and essential biological information.

Throughout the text, the culture and stock enhancement issues are treated simultaneously, integrating these two perspectives. By looking to the outcomes of hatchery culture methods, including the economics and fish behavior, Practical Flatfish Culture and Stock Enhancement is a valuable tool in making management decisions. With chapters on disease diagnosis and treatment, culture methods for a number of specific species, and the use of flatfish as model organisms in laboratory settings, Practical Flatfish Culture and Stock Enhancement comprehensively covers the subject of culture and stock enhancement. The book is especially useful for aquaculture professionals, industry personnel, researchers, biologists, and aquaculture and fisheries management students.

The Last Anglo-Jewish Gentleman Todd M. Endelman.2022-09-06 Redcliffe Salaman (1874-1955) was an English Jew of many facets: a country gentleman, a physician, a biologist who pioneered the breeding of blight-free strains of potatoes, a Jewish nationalist, and a race scientist. A well-known figure in his own time, The Last Anglo-Jewish Gentleman restores him to his place in the history of British science and the British Jewish community. Redcliffe Salaman was also a leading figure in the Anglo-Jewish community in the 20th century. At the same time, he was also an incisive critic of the changing character of that community. His groundbreaking book, The History and Social Influence of the Potato, first published in 1949 and in print ever since, is a classic in social history. His wife Nina was a feminist, poet, essayist, and translator of medieval Hebrew poetry. She was the first (and to this day, only) woman to deliver a sermon in an Orthodox synagogue in Britain. The Last-Anglo Jewish Gentleman offers a compelling biography of a unique individual. It also provides insights into the life of English Jews during the late-19th and early-20th centuries and brings to light largely unknown controversies and tensions in Jewish life.
