environmental themes and questions about the evolving relationship between humans and animals in nine modern and contemporary French novels. Considering arguments from both environmentalists and ecoskeptics, it concludes that, far from distancing itself from humanism as it often has, environmentalism must embrace an inclusive and ecological humanism.

The Growth Strategies of Hotel Chains Onofre Martorell Cunill. 2006 How did Accor, Cendant, Choice Hotels International, Marriott, and Hilton become the largest hotel chains in the world and what strategies will they use to continue their growth? This first-of-its-kind textbook presents a balanced overview of the theory and practice of hotel chains' growth strategies. It explains in-depth

how and why the largest worldwide hotel chains achieved dominant international status and shows how to forecast future developments. Authentic international examples in every chapter bring theoretical concepts into sharp focus. The Growth Strategies of Hotel Chains: Best Practices by Leading Companies is comprised of thirteen chapters, each divided into two parts. The first part sets forth the theory behind an important aspect of growth strategy. The second part of each chapter brings these theoretical arguments to life with specific case examples. For example, in the chapter on franchising, the ten largest hotel franchise businesses in the world are discussed in detail including their actual fees and how they function, with helpful commentary on each. This format, designed with educators' needs in mind, is consistent throughout the text. Charts, tables, and figures make complex information easy to access and understand. The Growth Strategies of Hotel Chains: Best Practices by Leading Companies examines: the question of diversification vs. specialization vertical, horizontal, and diagonal integration acquisitions, mergers, and strategic alliances franchise contracts, management contracts, leaseholds, and ownership branding and globalization why European chains usually expand via property acquisitions and rentals while most American chains prefer management contracts and franchising Packed with information yet written in language that students and hospitality executives can understand, this unique, comprehensive textbook deserves a place in every teaching/training/professional library.

SHAPING THE LAW OF OBLIGATIONS .2023

Fundamentalism in the Modern World Vol 2 Ulrika Martensson, Jennifer Bailey, Priscilla Ringrose, Asbjorn Dyrendal. 2011-06-30 How does religious fundamentalism operate in modern global society? This two-volume series analyses the dynamics of fundamentalism and its relationship to the modern state, the public sphere and globalisation. This second volume explores the links between fundamentalism and communication: the rise of fundamentalism as a mass media phenomenon, fundamentalist communication in the public sphere, national cultural identities and the rise of a 'global society'. Expert scholars in the field address specific contemporary and past fundamentalist movements that have emerged from within mainstream Islam, Christianity, Baha'ism, Hinduism, Judaism and Buddhism. This is an important study of an increasingly significant and virulent aspect of modern society, and will be essential reading in the fields of Religion, Politics, Communications and Media Studies.

Chinese Electric Vehicle Trailblazers Jan Y. Yang, Yunyi Gu, Zi Ling Tan. 2023-03-31 From business models to unique selling propositions, from product offerings to sales, marketing and pricing

strategies, this book reveals what sets Chinese electric car manufacturers apart from their Western counterparts. Chinese automakers are gradually establishing themselves as the new trendsetters in the automotive industry as they make technological advances in various fields, especially in electric vehicles. As more of them look overseas for opportunities, especially in the European market, it is time for the local players to better understand who they are up against and take steps to keep up with the rapid growth of their Far Eastern competitors. Based on Simon-Kucher's project experience, this book shows what is going on behind the Great Wall, informs readers about the latest technological trends and advances in China, and offers suggestions on what Chinese newcomers should bring with them when they come to town. Sharing valuable insights for all readers with an interest in the electric vehicle (EV) industry, this book will be particularly relevant for managers and decision-makers at Western OEMs, suppliers, and other relevant players in the automotive industry.

Taurus Frederick Lynn.2024-02-19T00:00:00Z Époque future imprécise. Un planétoïde industriel, propriété privée. Population d'employés qui s'ennuie prodigieusement. Certains se droguent, se suicident, rejoignent des sectes farfelues/syndicats, s'improvisent explorateurs spéléologues: il faut bien faire quelque chose pour se distraire. Une banale inspection gouvernementale, les événements s'enchainent au sommet de la direction, comme en bas de la chaîne de travail. Intérêts divergents, volontés contraires, les gens polis et civilisés régressent et se débarrassent de leurs inhibitions, entre les bâtiments de plastique morne, de métal corrodé, sous le vent ou des nuages de pollutions acres, entourés d'un océan hostile. Roman réalisé à tâtons et dans l'ignorance quasi totale (et volontaire) du paysage littéraire actuel, ce qui peut induire le meilleur comme le pire.

Globalia Jean-Christophe Rufin.2016-05-19T00:00:00+02:00 Dall'autore de L'uomo dei sogni, un libro che merita di stare a fianco di Orwell e Huxley sullo scaffale delle grandi distopie del nostro

tempo. In un futuro prossimo, così prossimo da apparirci verosimile in maniera preoccupante, il pianeta è un unico grande stato in cui vige la democrazia perfetta. A Globalia non c'è più povertà, non ci sono guerre, c'è totale libertà di opinione. La medicina ha fatto tali progressi che la vita umana sfida i secoli e la tecnologia è talmente progredita che non c'è più nemmeno il brutto tempo. È come se Globalia si fosse isolata dai problemi che affliggono il mondo ordinario. E l'isolamento è concreto, oltre che metaforico, perché i suoi territori sono protetti da gigantesche cupole di vetro che la separano da tutto il resto. Il resto sono le non-zone, i territori che Globalia non ha ritenuto opportuno inglobare e che, lasciati a se stessi e precipitati nel degrado, sono abitati da un'umanità regredita alla barbarie, un'umanità violenta, diffidente, brutale. Nelle non-zone si vive in uno stato di libertà sfrenata. A Globalia tutto è regolamentato, anche la libertà, e tutto secondo quella che è l'ideologia massima: le leggi di mercato. A tenere le fila di un sistema che apparentemente tutela l'individuo, ma in realtà lo controlla in maniera ossessiva, è un ristretto pull di magnati ultracentenari guidati da Ron Altman, da cui dipendono tutte le fonti di energia. A sfidare quella finta perfezione e a cercare di barattare la sicurezza con la responsabilità, l'anestesia etica con il rischio, e il conformismo con la passione, penseranno Baikal e Kate, due fra i pochissimi giovani rimasti in quel mondo popolato da vegliardi, con un avventuroso tentativo di evasione che li porterà a confrontarsi direttamente con Ron Altman in una rocambolesca successione di colpi di scena.

Marketing turístico Manuel Rey Moreno.2020-02-27 Nacido de una confluencia multidisciplinar entre aportaciones propias y otras múltiples extraídas de diversos campos del conocimiento científico, el marketing es un proceso transversal que, más allá de lo comercial, abarca todos los ámbitos funcionales y jerárquicos de la organización. En un mercado turístico conectado como el actual, los consumidores mantienen vínculos virtuales entre ellos en respuesta a la incredulidad ante

los mensajes empresariales. Desde la disciplina del Marketing, parcialmente culpable de esta situación, se puede ayudar a recuperar la confianza perdida. Esta obra propone un concepto de marketing turístico enfocado hacia la generación conjunta de valor entre empresas, turistas y Administración Pública, así como al diseño de estrategias que aseguren el disfrute de experiencias al visitante y la distribución justa de riqueza a las comunidades residentes. En este escenario, la orientación hacia la ética, la responsabilidad y la sostenibilidad surgen como principios básicos e indisolubles de la toma de decisiones de marketing. Esta nueva edición del libro Marketing turístico. Fundamentos y dirección es una continuación actualizada de las publicadas por los autores en 2015 y 2017. El resultado final es un manual renovado, diseñado desde el conocimiento, la experiencia de gestión y la implicación con la docencia y la investigación de sus autores. Ofrece contenidos actuales y prácticos que permiten usarlo como manual de referencia por estudiantes del grado de Turismo, así como por otro segmento de lectores que busquen respuestas concretas a problemas vinculados con su desarrollo profesional en el sector turístico. Los contenidos se presentan con un lenguaje sencillo y estructurados según un orden académico lógico. Este esfuerzo por cuidar los aspectos didácticos del manual se ha hecho sin reducir la rigurosidad de los elementos tratados, permitiendo al lector introducirse en el conocimiento del marketing turístico con facilidad, (cont.)

Frank Zappa and the And Paul Carr.2016-04-15 This collection of essays, documented by an international and interdisciplinary array of scholars, represents the first academically focused volume exploring the creative idiolect of Frank Zappa. Several of the authors are known for contributing significantly to areas such as popular music, cultural, and translation studies, with expertise and interests ranging from musicology to poetics. The publication presents the reader with an understanding of the ontological depth of Zappa's legacy by relating the artist and his texts to a range of cultural, social, technological and musicological factors, as encapsulated in the book's title -

Frank Zappa and the And. Zappa's interface with religion, horror, death, movies, modernism, satire, freaks, technology, resistance, censorship and the avant-garde are brought together analytically for the first time, and approached non chronologically, something that strongly complies with the non linear perspective of time Zappa highlights in both his autobiography and recordings. The book employs a variety of analytical approaches, ranging from literary and performance theory, 'horrorality' and musicology, to post modern and textually determined readings, and serves as a unique and invaluable guide to Zappa's legacy and creative force.

Hidden Champions in the Chinese Century Hermann Simon.2022-06-06 “Hidden Champions” are medium-sized, unknown companies with annual revenues under \$5 billion that have quietly, under the radar, become world market leaders in their respective industries. In this new instalment to his worldwide bestselling *Hidden Champions* volumes, Hermann Simon takes readers on in-depth exploration of the ever changing operating conditions and the greater uncertainty and volatility that defines the global business sphere over the next ten years. In particular, in this book he focuses on China’s continued impact on the business world since its rise in the global business and economic

sphere over recent decades. In this regard, Dr. Simon shows the reader how the current status evolved, and then offers concrete and actionable recommendations. New driving forces such as digitalization, business ecosystems and sustainability receive special attention. While the main focus is on companies in German-speaking countries as they comprise 56 percent of the world's Hidden Champions, the success factors mentioned in this book can be applied globally to mid-sized companies in other regions as they strive to become global market leaders. Whether a company is a "Hidden Champion", aspires to be one, or wants to emulate their success model, Dr. Simon's new book provides essential food for thought as executives and managers chart their course into the future.

Developing an Innovative Teaching Concept: "Hidden Champions. Departure to Globalia"

Roman Horschig.2015-12-02 Master's Thesis from the year 2015 in the subject Business economics -

Miscellaneous, grade: 1,0, , language: English, abstract: The aim of this thesis is to contribute valuable input to the process of teaching in general. New ideas and teaching concepts are required due to fast changing educational circumstances. By developing a teaching concept that increases the involvement of students throughout the whole semester this thesis adds new ideas in the area of modern teaching. Professors, students and other members of the staff have been interviewed to find out what good teaching is about. After gathering information and interpretation of the findings, the thesis describes teaching tools that fit into a new innovative teaching concept. Especially Hidden Champions show new ways to compete in a highly competitive market. Therefore the lecture, which is the basis of the whole concept, discusses these companies. They are extremely successful and mostly unknown by the general society. Hidden Champions and their factors for success are core topics of the thesis. Furthermore, elements like a power point presentation and the way of using the teaching tools are described. The results of the thesis show that many issues in teaching are already at a high quality level, but there are many possibilities to add new ideas. The point of improvement the thesis works on is to continuously motivate students throughout the whole semester.

French 'Ecocritique' Stephanie Posthumus.2017-10-31 French *Écocritique* is the first book-length study of the culturally specific ways in which contemporary French literature and theory raise questions about nature and environment. Stephanie Posthumus's ground-breaking work brings together thinkers such as Guattari, Latour, and Serres with recent ecocritical theories to complicate what might otherwise become a reductive notion of French ecocriticism. Working across contemporary philosophy and literature, the book defines the concept of the ecological as an attentiveness to specific nature-culture contexts and to a text's many interdiscursive connections. Posthumus identifies four key concepts, ecological subjectivity, ecological dwelling, ecological

politics, and ecological ends, for changing how we think about human-nature relations. French *Écocritique* highlights the importance of moving beyond canonical ecocritical texts and examining a diversity of cultural and literary traditions for new ways of imagining the environment.

Contemporary French and Francophone Futuristic Novels Emmanuel Buzay.2023-03-12 This book sheds a new light on the metafictional aspects of futuristic and science fiction novels, at the crossroads of information and media studies, possible worlds theories applied to cognitive narratology, questions related to the criticism of post-humanity, and, more broadly, contemporary French and Francophone literature. It examines the fictional minds of characters and their conceptions of resistance to the anticipated worlds they inhabit, particularly in novels by Pierre Bordage, Marie Darrieussecq, Michel Houellebecq, Amin Maalouf, Jean-Christophe Rufin, Antoine Volodine, and Élisabeth Vonarburg. It also explores how corporal postures serve as a matrix for philosophical quests in novels by Amélie Nothomb, Alain Damasio, and Romain Lucazeau. More

specifically, from the fictional readers' points of view, it provides a critical approach to the mythologies of writing, in the wake of the French philosophical tales by authors including Cyrano de Bergerac and Voltaire, to question the traditionally expressed formulations of the mythologies of writing, that is, of the metaphors of the book (the book of life, nature, and the world), to rethink the idea of a humanity within its limits.

Global Perspectives on the Politics of Multiculturalism in the 21st Century Fethi Mansouri, Boulou Ebanda de B'éri. 2014-06-05 Multiculturalism is now seen by many of its critics as the source of intercultural and social tensions, fostering communal segregation and social conflicts. While the cultural diversity of contemporary societies has to be acknowledged as an empirical and demographic fact, whether multiculturalism as a policy offers an optimal conduit for intercultural understanding and social harmony has become increasingly a matter of polarised public debate. This book examines the contested philosophical foundations of multiculturalism and its, often controversial, applications in the context of migrant societies. It also explores the current theoretical debates about the extent to which multiculturalism, and related conceptual constructs, can account for the various ethical challenges and policy dilemmas surrounding the management of cultural diversity in our contemporary societies. The authors consider common conceptual and empirical features from a transnational perspective through analysis of the case studies of Australia, Canada, Columbia, Germany, New Zealand, the United Kingdom and Uruguay. This book will be of interest to students and scholars of political science, comparative politics, international studies, multiculturalism, migration and political sociology.
