Primate Tourism Anne E. Russon, Janette Wallis. 2014-09-11 This book considers primate tourism as a primate conservation tool, weighing its effects and developing informed guidelines for ongoing and future tourism ventures.

Women, Agency, and the State in Guinea Carole Ammann. 2020-03-05 This book examines how women in Guinea articulate themselves politically within and outside institutional politics. It documents the everyday practices that local female actors adopt to deal with the continuous economic, political, and social insecurities that emerge in times of political transformations. Carole Ammann argues that women's political articulations in Muslim Guinea do not primarily take place within women's associations or institutional politics such as political parties; but instead women's silent forms of politics manifest in their daily agency, that is, when they make a living, study, marry, meet friends, raise their children, and do household chores. The book also analyses the relationship between the female population and the local authorities, and discusses when and why women's claim making enjoys legitimacy in the eyes of other men and women, as well as representatives of 'traditional' authorities and the local government. Paying particular attention to intersectional perspectives, this book will be of interest to scholars of African studies, social anthropology, political anthropology, the anthropology of gender, urban anthropology, gender studies, and Islamic studies.

**Forgotten War** Henry Reynolds. 2022-07-01 'We are at war with them,' wrote a Tasmanian settler in 1831. 'What we call their crime is what in a white man we should call patriotism.' Australia is dotted with memorials to soldiers who fought in wars overseas. So why are there no official memorials or commemorations of the wars that were fought on Australian soil between First Nations people and white colonists? Why is it more controversial to talk about the frontier wars now than it was one hundred years ago? In this updated edition of *Forgotten War*, winner of the 2014 Victorian Premier's Award for non-fiction, influential historian Henry Reynolds makes it clear that there can be no reconciliation without acknowledging the wars fought on our own soil. 'Impressive ... In terse, uncompromising sentences, Reynolds lays out a new road map towards true reconciliation.' — Raymond Evans, *The Age* 'A brilliant light shone into a dark forgetfulness: ground-breaking, authoritative, compelling.' — Kate Grenville 'Forgotten War invites us to recognise and applaud the courage and tenacity of those Aborigines who defended their lands against impossible odds and to recognise the cost to them and to their descendants.' — Franklin Richards 'Forgotten War is a work of passion by one of Australia's greatest living historians, a scholar who has helped to redefine the relationships between white and black Australians ... His measured prose and scholarly authority should be heeded.' — Peter Stanley, *Sydney Morning Herald* 'Henry Reynolds' *Forgotten War* calls for the principle of 'lest we forget' to include all Australians who died in defending their country, including Indigenous people. Timely historical analysis of newly collated and discovered evidence shows that the coming of European settlers to Aboriginal territories was firmly defined as a frontier war ... Reynolds makes a compelling and measured case that we should officially honour and acknowledge the tens of thousands of people who died in our frontier wars.' — Judges' Report, The Victorian Premier's Literary Awards

*Culture and History in the Pacific* Jukka Siikala.2021-09-29 Culture and History in the Pacific is a collection of essays originally published in 1990. The texts explore from different perspectives the question of culture as a repository of historical information. They also address broader questions of anthropological writing at the time, such as the relationship between anthropologists' representations and local conceptions. This republication aims to make the book accessible to a wider audience, and in the region it discusses, Oceania. A new introductory essay has been included to contextualize the volume in relation to its historical setting, the end of the Cold War era, and to the present study of the Pacific and indigenous scholarship. The authors of Culture and History in the Pacific include prominent anthropologists of the Pacific, some of whom - Roger Keesing and Marilyn Strathern, to name but two - have also been influential in the anthropology of the late 20th and early 21st century in general.

Let's Go to Hell James Burns.2015-08-21 The Butthole Surfers remain one of the most enigmatic bands in the history of rock music. Most of their records have no information of any kind, and often with the suggestion that you play them at 69 rpm.... They lived like nomads through much of the 1980s, and built their reputation upon tours that never ended, and shows that resembled hedonistic acid tests. They left a heap of former band members in their wake, and have often alienated as many fans as they've attracted. Here for the first time is the complete story of one of the most controversial and dangerous bands to have emerged from the ashes of the punk rock movement. 'Let's Go to Hell' compiles the scattered memories into the first comprehensive overview of the band. Featuring exclusive interviews, tons of rare and unpublished photographs, and analysis of the band's vast recorded (and unrecorded) efforts, 'Let's Go to Hell' finally tells the story that was thought (and often hoped) would never be told...

*More Brilliant than the Sun* Kodwo Eshun. 2020-02-04 The classic work on the music of Afrofuturism, from jazz to jungle *More Brilliant than the Sun: Adventures in Sonic Fiction* is one of the most extraordinary books on music ever written. Part manifesto for a militant posthumanism, part journey through the unacknowledged traditions of diasporic science fiction, this book finds the future shock in Afrofuturist sounds from jazz, dub and techno to funk, hip hop and jungle. By exploring the music of such musical luminaries as Sun Ra, Alice Coltrane, Lee Perry, Dr Octagon, Parliament and Underground Resistance, theorist and artist Kodwo Eshun mobilises their concepts in order to open the possibilities of sonic fiction: the hitherto unexplored intersections between science fiction and organised sound. Situated between electronic music history, media theory, science fiction and Afrodiasporic studies, *More Brilliant than the Sun* is one of the key works to stake a claim for the generative possibilities of Afrofuturism. Much referenced since its original publication in 1998, but long unavailable, this new edition includes an introduction by Kodwo Eshun as well as texts by filmmaker John Akomfrah and producer Steve Goodman aka kode9.

*Harlem of the West* Elizabeth Pepin, Lewis Watts. 2006 *Harlem of the West* reveals a forgotten slice of San Francisco history and the African-American experience on the West Coast: the thriving jazz scene of the Fillmore in the 1940s and 1950s. With archival photographs and oral accounts from the residents and musicians who experienced it, this vividly illustrated tour will delight jazz fans and history aficionados.

**Athenian Black-Figure Cups from the Campana Collection in the National Archaeological Museum of Florence** Pieter Heesen, Mario Iozzo. 2019 The volume presents 304 Athenian black-figure cups and fragments, predominantly Little-Master cups, once part of one of the largest private collections in 19th century, compiled by Giovanni Pietro Campana. For the first time, the entire group was systematically studied, resulting in new attributions, the discovery of unique scenes, as well as new joins, both within the Florence cluster of fragments as well as outside: illustrated in photo-reconstructions are the 49 connections and joins (so-called *disiecta membra*) that were found with fragments in other European collections, thus illustrating the unfortunate effects of the eventual dispersion of the Campana collection. The publication of this group of cups and fragments aims to further enhance our knowledge about the products of Athenian craftsmen and their Etruscan

customers in the sixth century B.C.

*Children's Literature in Translation* Jan Van Coillie, Walter P. Verschueren. 2014-07-16 Children's classics from Alice in Wonderland to the works of Astrid Lindgren, Roald Dahl, J.K. Rowling and Philip Pullman are now generally recognized as literary achievements that from a translator's point of view are no less demanding than 'serious' (adult) literature. This volume attempts to explore the various challenges posed by the translation of children's literature and at the same time highlight some of the strategies that translators can and do follow when facing these challenges. A variety of translation theories and concepts are put to critical use, including Even-Zohar's polysystem theory, Toury's concept of norms, Venuti's views on foreignizing and domesticating translations and on the translator's (in)visibility, and Chesterman's prototypical approach. Topics include the ethics of translating for children, the importance of child(hood) images, the 'revelation' of the translator in prefaces, the role of translated children's books in the establishment of literary canons, the status of translations in the former East Germany; questions of taboo and censorship in the translation of adolescent novels, the collision of norms in different translations of a Swedish children's classic, the handling of 'cultural intertextuality' in the Spanish translations of contemporary British fantasy books, strategies for translating cultural markers such as juvenile expressions, functional shifts caused by different translation strategies dealing with character names, and complex translation strategies used in dealing with the dual audience in Hans Christian Andersen's fairy tales and in Salman Rushdie's *Haroun and the Sea of Stories*.

**Translating for Children** Ritta Oittinen. 2002-06 *Translating for Children* is not a book on translations of children's literature, but a book on translating for children. It concentrates on human action in translation and focuses on the translator, the translation process, and translating for children, in particular. Translators bring to the translation their cultural heritage, their reading experience, and in the case of children's books, their image of childhood and their own child image. In so doing, they enter into a dialogic relationship that ultimately involves readers, the author, the illustrator, the translator, and the publisher. What makes *Translating for Children* unique is the special attention it pays to issues like the illustrations of stories, the performance (like reading aloud) of the books in translation, and the problem of adaptation. It demonstrates how translation and its context takes precedence can take over efforts to discover and reproduce the original author's intentions. Rather than the authority of the author, the book concentrates on the intentions of the readers of a book in translation, both the translator and the target-language readers.

**Social and Environmental Dimensions of Organizations and Supply Chains** Marcus Brandenburg, Gerd J. Hahn, Tobias Rebs. 2017-07-13 This book focuses on environmental and social factors in international supply chains and industry networks. It explores whether socially-responsible and environmentally-conscious operations are complementary or conflictive to economic targets. The book elaborates on innovative approaches to manage the economic, ecological and social performance in supply networks from different perspectives. In addition, it links sustainability to operational processes and illustrates specific application contexts. Moreover, it covers the social dimension of sustainability. The rise of sustainability in management forces enterprises to revisit the concept of profitability that drives their operations. Social standards and ecological targets represent critical factors that challenge industry networks. The interplay of these goals requires new insights from scientific research and managerial practice. New approaches and systems are needed to minimize environmental and social harms and to promote sustainability.

Musical guest stars appearing in the book include: Steve

Reich, Stockhausen, Moondog, Mark E Smith, Sonic Youth, Robert Wyatt, Suicide, Kraftwerk, Crass, Lou Reed, Jandek, Throbbing Gristle, Sleep and many more. Development-Induced Displacement and Resettlement Bogumil Terminski.2014-05-01 This book explores the issue of development-induced resettlement, with a particular emphasis on the humanitarian, legal, and social aspects of this problem. Today, so-called 'development-induced displacement and resettlement' (DIDR) is one of the dominant causes of internal spatial mobility worldwide. Each year over 15 million people are forced to abandon their homes to make space for economic development infrastructure. The construction of dams and irrigation projects, the expansion of communication networks, urbanization and re-urbanization, the extraction and transportation of mineral resources, forced evictions in urban areas, and population redistribution schemes count among the many possible causes. Terminski aims to present the issue of development-caused displacement as a highly diverse, global social problem occurring in all regions of the world. As a human rights issue it poses a challenge to public international law and to institutions providing humanitarian assistance. A significant part of this book is devoted to the current dynamics of development-caused resettlement in Europe, which has been neglected in the academic literature so far.

*Children's Literature in Translation* Jan Van Coillie,Jack McMartin.2020-10-30 For many of us, our earliest and most meaningful experiences with literature occur through the medium of a translated children's book. This volume focuses on the complex interplay that happens between text and context when works of children's literature are translated: what contexts of production and reception account for how translated children's books come to be made and read as they are? How are translated children's books adapted to suit the context of a new culture? Spanning the disciplines of Children's Literature Studies and Translation Studies, this book brings together established and emerging voices to provide an overview of the analytical, empirical and geographic richness of current research in this field and to identify and reflect on common insights, analytical perspectives and trajectories for future interdisciplinary research. This volume will appeal to an interdisciplinary audience of scholars and students in Translation Studies and Children's Literature Studies and related disciplines. It has a broad geographic and cultural scope, with contributions dealing with translated children's literature in the United Kingdom, the United States, Ireland, Spain, France, Brazil, Poland, Slovenia, Hungary, China, the former Yugoslavia, Sweden, Germany, and Belgium.

**Some People Let You Down** Mike Alberti.2020-11-13 The nine stories in Mike Alberti's debut collection shine a sharp light on small-town American life —not the Arcadian small towns of yesteryear, but the old mill towns hanging on after the mill has stopped running, the deserted agricultural communities in the middle of vast industrial farms, places where bad luck has become part of the weather. But even in these blighted, neglected landscapes, the possibility of renewal always presents itself: there is hope for these places and the characters who inhabit them. In these fresh, innovative stories, some people let you down, but some people don't.

'An essential read for anyone with the slightest interest in the birth of Grime' *The Wire* 'Sharp and nostalgic' *The Observer* A group of kids in the 90s had a dream to make their voice heard - and this book documents their seminal impact on today's pop culture. A movement that permeates deep into British culture and beyond. Household names were borne out of those housing estates, and the music industry now jumps to the beat of their gritty reality rather than the tune of glossy aspiration. *Grime Kids* has shaken the world and Target is revealing its explosive and expansive journey in full, using his own unique insight and drawing on the input of grime's greatest names. **Poverty Reduction Through Non-Timber Forest Products** Deepa Pullanikkatil,Charlie M. Shackleton.2018-11-23 This book narrates personal stories of people from around the world who have used natural products, in particular Non Timber Forest Products (NTFPs) as a means to come out of poverty. Ending poverty remains a major worldwide challenge and is the number one goal under the UN Sustainable Development Goals. The book fills an important knowledge gap; that of personal stories of NTFP users. This has not been part of past publications on NTFPs which tend to focus on statistics and analysis of numbers, thus, the human faces of NTFP users are missing. Narrative stories provide a wealth of data about people and their experiences rather than aggregated classifications, categories and characteristics of poverty. The objective of this book is to illustrate the poverty alleviation potential of NTFPs through documenting the personal life stories of individuals and households that lifted themselves out of poverty through trade of NTFPs. This book is for all who are interested in poverty alleviation and NTFPs.

**Flyboy 2** Greg Tate.2016-07-15 Since launching his career at the Village Voice in the early 1980s Greg Tate has been one of the premiere critical voices on contemporary Black music, art, literature, film, and politics. Flyboy 2 provides a panoramic view of the past thirty years of Tate's influential work. Whether interviewing Miles Davis or Ice Cube, reviewing an Azealia Banks mixtape or Suzan-Lori Parks's Topdog/Underdog, discussing visual artist Kara Walker or writer Clarence Major, or analyzing the ties between Afro-futurism, Black feminism, and social movements, Tate's resounding critical insights illustrate how race, gender, and class become manifest in American popular culture. Above all, Tate demonstrates through his signature mix of vernacular poetics and cultural theory and criticism why visionary Black artists, intellectuals, aesthetics, philosophies, and politics matter to twenty-first-century America.

**Abortion and Contraception in Modern Greece, 1830-1967** Violetta Hionidou.2020-05-15 The book examines the history of abortion and contraception in Modern Greece from the time of its creation in the 1830s to 1967, soon after the Pill became available. It situates the history of abortion and contraception within the historiography of the fertility decline and the question of whether the decline was due to adjustment to changing social conditions or innovation of contraceptive methods. The study reveals that all methods had been in use for other purposes before they were employed as contraceptives. For example, Greek women were employing emmenagogues well before fertility was controlled; they did so in order to 'put themselves right' and to enhance their fertility. When they needed to control their fertility, they employed abortifacients, some of which were also emmenagogues, while others had been used as expellants in earlier times. Curettage was also employed since the late nineteenth century as a cure for sterility; once couples desired to control their fertility curettage was employed to procure abortion. Thus couples did not need to innovate but rather had to repurpose old methods and materials to new birth control methods. Furthermore, the role of physicians was found to have been central in advising and encouraging the use of birth control for 'health' reasons, thus facilitating and speeding fertility decline in Greece. All this occurred against the backdrop of a state and a church that were at times neutral and at other times disapproving of fertility control.

**Where the Water Goes** David Owen.2018-04-10 "Wonderfully written...Mr. Owen writes about water, but in these polarized times the lessons he shares spill into other arenas. The world of water rights and wrongs along the Colorado River offers hope for other problems." —Wall Street Journal

An eye-opening account of where our water comes from and where it all goes. The Colorado River is an essential resource for a surprisingly large part of the United States, and every gallon that flows down it is owned or claimed by someone. David Owen traces all that water from the Colorado's headwaters to its parched terminus, once a verdant wetland but now a million-acre desert. He takes readers on an adventure downriver, along a labyrinth of waterways, reservoirs, power plants, farms, fracking sites, ghost towns, and RV parks, to the spot near the U.S.-Mexico border where the river runs dry. Water problems in the western United States can seem tantalizingly easy to solve: just turn off the fountains at the Bellagio, stop selling hay to China, ban golf, cut down the almond trees, and kill all the lawyers. But a closer look reveals a vast man-made ecosystem that is far more complex and more interesting than the headlines let on. The story Owen tells in *Where the Water Goes* is crucial to our future: how a patchwork of engineering marvels, byzantine legal agreements, aging infrastructure, and neighborly cooperation enables life to flourish in the desert—and the disastrous consequences we face when any part of this tenuous system fails.

Mammals of South America, Volume 2 James L. Patton, Ulyses F. J. Pardiñas, Guillermo

D'Elía. 2015-03-09 The second installment in a planned three-volume series, this book provides the first substantive review of South American rodents published in over fifty years. Increases in the reach of field research and the variety of field survey methods, the introduction of bioinformatics, and the explosion of molecular-based genetic methodologies have all contributed to the revision of many phylogenetic relationships and to a doubling of the recognized diversity of South American rodents. The largest and most diverse mammalian order on Earth—and an increasingly threatened one—Rodentia is also of great ecological importance, and *Rodents* is both a timely and exhaustive reference on these ubiquitous creatures. From spiny mice and guinea pigs to the oversized capybara, this book covers all native rodents of South America, the continental islands of Trinidad and Tobago, and the Caribbean Netherlands off the Venezuelan coast. It includes identification keys and descriptions of all genera and species; comments on distribution; maps of localities; discussions of subspecies; and summaries of natural, taxonomic, and nomenclatural history. *Rodents* also contains a detailed list of cited literature and a separate gazetteer based on confirmed identifications from museum vouchers and the published literature.
