Perhaps it is an arrest involving a use of force. Or a new criminal offense discovered. Really, it is for any situation that requires documentation. Anything that your employer, or your intuition, tells you needs to be documented. You have to document anything that places you or your organization in a position of liability. You must be able to complete that report in a timely, accurate and detailed manner. This ebook will guide you through that process.

Therapeutic Correctional Relationships Sarah Lewis.2016-04-20 The relationship between offender and criminal justice practitioner has shifted throughout rehabilitative history, whether situated within psychological interventions, prison or probation. This relationship has evolved and adapted over time, but interpersonal processes remain central to offender work. However, little work has critically focused upon the challenging task of developing and sustaining positive relationships with offenders. This book addresses this gap, providing an in-depth exploration of the processes which underpin correctional relationships within probation. Through an innovative methodology, it examines how practitioners can enhance their practice by understanding how relationships form, deepen and end effectively. For the first time, it draws on the experiences of offenders and practitioners to uncover the darker side to relationships, identifying how they can rupture and break down. From this exploration, it presents alternative ways in which relationships can be repaired and safeguarded within correctional practice. In essence, this book assists practitioners in becoming successful supporters of change. In an increasingly competitive and politicised climate, this book outlines how political and organisational tensions can impact upon the flow of relationships across the criminal justice system. Uniquely, this book examines how these tensions can be overcome to produce transformative changes. Lewis suggests that therapeutic correctional relationships can thrive within a number of correctional settings and presents the core principles of relational practice and dynamic model of therapeutic correctional relationships to assist in achieving quality and sustainable practice. This book will appeal to criminological and psychological scholars as well as students studying probation and prison practice, offender rehabilitation and desistance.

The SON'S City Reentry Management Systems Victor Ramsey.2019-10-01 The title of this work The SON'S City Reentry Management Systems is the result of viewing it as a lighted path for those who have been subjected to darkness in their life due to addiction to alcohol and other drugs and have been victims of frequent trips to penal institutions and constant use and abuse of said substances. The word SON'S refers to the Lord. The balance of the title is indicative of the knowledge that Jesus loved the city and that much of His ministry was founded there according to this author. The play on words SON'S versus sun's is to infer that the light produced by the sun is not comparable to the light

induced in each of us by the Light of our life. This light is on the path that can lead one to successfully entering a life void of the pitfalls of those that keep one in the revolving door in and out of both addictions to drugs and prison.

Irrational Indictment & Imprisonment Jon Schiller.2008-06 This is a horrible, true story of an unbelievable and unfair indictment and imprisonment of a loyal American whose only crime was to misread the USG export regulations. He spent all his money on an expensive lawyer who said, 2 days before the trial, 'You are going to prison.' Dr. Ernest Kelly replied, 'How can I be imprisoned since I did nothing wrong?' His lawyer answered, 'The prisons are full of people who did nothing wrong ' Terrified, Ernest and his wife caught the next plane to Europe and spent the next 17 years living a new life in Spain until he was arrested and learned what it was like to live in a Spanish prison. Extradited to Los Angeles, on the advice of his lawyer he agreed to a plea bargain and pled guilty since he didn't have enough money for a trial. The judge ignored the advice of the probation officer assigned by the court to evaluate Dr. Kelly's case that he be released with time served and instead sentenced him to 2 years in prison and 2 years' probation.

The Probation Officer Investigates Paul W. Keve.1960 The Probation Officer Investigates was first published in 1960.Paul W. Keve is an outstanding practitioner in the field of probation and parole. From his own experience and observation, he has prepared this guide to help others in an important aspect of their work. He points out: Each probation officer makes his own contribution to the public's eventual acceptance of a constructive penal philosophy by the high quality of his daily work. If that work is to be truly and consistently rehabilitative, it must be based upon sound diagnosis of each case, and this, of course, is the concern of this book.A major task of probation officers is to investigate offenders before their courts and then to write comprehensive and analytical reports about the offenders, for the use of the court. In this book, Mr. Keve explains the philosophy of the preparation of pre-sentence reports and discusses in specific detail the techniques of preparing these reports in a significant, diagnostic way. He considers the problems of confidentiality, relationships with attorneys, techniques of interviewing, and style and format in the writing of the report. He proposes a form for a standard report, and discusses, separately, each category of material to be included. He reproduces two examples of actual (but disguised) reports in an appendix.The book will be particularly helpful to new probation officers. It will be useful, also, to the more experienced staff members, for inservice training programs, and in academic courses in the correctional field. For judges and attorneys, it provides insight into the philosophy and purposes of the probation report.
