Sensing Injustice Michael E. Tigar.2021-04-20 The remarkable life of a lawyer at the forefront of civil and human rights since the 1960s By the time he was 26, Michael Tigar was a legend in legal circles well before he would take on some of the highest-profile cases of his generation. In his first US Supreme Court case—at the age of 28—Tigar won a unanimous victory that freed thousands of Vietnam War resisters from prison. Tigar also led the legal team that secured a judgment against the Pinochet regime for the 1976 murders of Pinochet opponent Orlando Letelier and his colleague Ronni Moffitt in a Washington, DC car bombing. He then worked with the lawyers who prosecuted Pinochet for torture and genocide. A relentless fighter of injustice—not only as a human rights lawyer, but also as a teacher, scholar, journalist, playwright, and comrade—Tigar has been counsel to Angela Davis, Jamil Abdullah Al-Amin (H. Rap Brown), the Chicago Eight, and leaders of the Black Panther Party, to name only a few. It is past time that Michael Tigar wrote his memoir. *Sensing Injustice: A Lawyer's Life in the Battle for Change* is a vibrant literary and legal feat. In it, Tigar weaves powerful legal analysis and wry observation through the story of his remarkable life. The result is a compelling narrative that

blends law, history, and progressive politics. This is essential reading for lawyers, for law students, for anyone who aspires to bend the law toward change.

Case Studies in Forensic Anthropology Heather M.

Garvin, Natalie R. Langley. 2019-10-16 Through a set of unique case studies written by an international group of practicing forensic anthropologists, *Case Studies in Forensic Anthropology: Bonified Skeletons* prepares students and professionals for the diverse range of cases and challenges they will encounter in the field. Every forensic anthropology case is unique. Practitioners routinely face new challenges and unexpected outcomes. Courses and introductory texts generally address standard or ideal cases. In practice, however, forensic anthropologists must improvise frequently during forensic archaeological recoveries and laboratory analyses based on case circumstances. Most forensic anthropologists have encountered unconventional cases with surprising results. While these cases act as continuing education for practitioners—better preparing them for future encounters—such learning opportunities may be limited by the extent of personal experiences. This text exposes practitioners and students to a diverse array of case examples they may not otherwise encounter, sharing experiential knowledge and contributing to the advancement the field. *Case Studies in Forensic Anthropology* aims to both prepare aspiring forensic anthropologists and inform current practitioners. The cases are interesting and unique, detailing how specific challenges contribute to the body of forensic anthropological knowledge and practice. Key Features Full-color photographs illustrate the scenes and skeletal features Lessons Learned sections for each case study emphasize take-away points Thought-provoking Discussion Questions encourage readers to think critically and facilitate group discussions Actual case experiences by diverse array of forensic anthropologists who discuss innovative methods and unique challenges

Twelve Years a Slave Solomon Northup.2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Nortup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

Plastic Films in Food Packaging Sina Ebnesajjad.2012-12-31

The value of the groceries purchases in the USA is over \$500 billion annually, most of which is accounted for by packaged foods. Plastic packaging of foods is not only ubiquitous in developed economies, but increasingly commonplace in the developing world, where plastic packaging is instrumental in decreasing the proportion of the food supply lost to spoilage. This new handbook is a combination of new material and updated chapters, chosen by Dr. Sina Ebnesajjad, from recently published books on this subject. *Plastic Films in Food Packaging* offers a practical handbook for engineers, scientists and managers working in the food packaging industry, providing a tailor-made package of science and engineering fundamentals, best practice techniques and guidance on new and emerging technologies. By covering materials, design, packaging processes, machinery and waste management together in one book, the authors enable the reader to take a lifecycle approach to food packaging. The Handbook addresses questions related to film grades, types of packages for different types of foods, packaging technologies, machinery and waste management. Additionally the book provides a review of new and emerging technologies. Two chapters cover the development of barrier films for food packaging and the regulatory and safety aspects of food packaging. Essential information and practical guidance for engineers and scientists working at all stages of the food packaging lifecycle: from design through manufacture to

The Cactus Eaters Dan White.2009-10-13 “In the well-written, laugh-out-loud, self-deprecating spirit of Bill Bryson’s *A Walk In the Woods* and Nora Ephron’s *When Harry Met Sally*, Dan White takes us along for a walk on the wild side of adventure and love. I couldn’t put it down.” —Eric Blehm, *National Outdoor Book Award*-winning author of *The Last Season* When Dan White and his girlfriend Melissa set out to hike the Pacific Crest Trail, which stretches from Mexico to Canada through boiling desert and snowcapped mountain passes, his parents wondered how two people who had never shared an apartment could survive in a tent in the desert. But when Dan and Melissa, dubbed “The Lois and Clark Expedition” by a fellow hiker, quit their doldrum jobs to set out into the wilderness, the hardships of the trail provided these addled adventurers with a crystalline view of the American wilderness, themselves, and each other. In his wickedly funny memoir, Dan White also shares the story of Warren Rogers, who risked ruin to chart the trail during the Great Depression. As he walks in Rogers’ footsteps, he starts to wonder if he’s assumed the man’s bravery—or his insanity. Both hilarious and harrowing, this account of a young couple’s hike along the 2,650-mile Pacific Crest Trail is a testament to the power of nature to change us and the power of love to get us through the uphill climbs.
