France and the Americas [3 volumes] Bill Marshall.2005-05-24 A unique, multidisciplinary encyclopedia covering the impacts that French and American politics, foreign policy, and culture have had on shaping each country's identity. From 17th-century fur traders in Canada to 21st-century peacekeepers in Haiti, from France's decisive role in the Revolutionary War leading to the creation of the United States to recent disagreements over Iraq, *France and the Americas* charts the history of the inextricable links between France and the nations of the Americas. This comprehensive survey features an incisive introduction and a chronology of key events, spanning 400 years of France's transatlantic relations. Students of many disciplines, as well as the lay reader, will appreciate this comprehensive survey, which traces the common themes of both French policy, language, and influence throughout the Americas and the wide-ranging transatlantic influences on contemporary France.

Life M. Kronegger,Anna-Teresa Tymieniecka.2012-12-06 In her Introduction, Tymieniecka states the core theme of the present book sharply: Is culture an excess of nature's prodigious expansiveness - an excess which might turn out to be dangerous for nature itself if it goes too far - or is culture a 'natural',

congenial prolongation of nature-life? If the latter, then culture is assimilated into nature and thus would lose its claim to autonomy: its criteria would be superseded by those of nature alone. Of course, nature and culture may both still be seen as being absorbed by the inner powers of specifically human inwardness, on which view, human being, caught in its own transcendence, becomes separated radically in kind from the rest of existence and may not touch even the shadow of reality except through its own prism. Excess, therefore, or prolongation? And on what terms? The relationship between culture and nature in its technical phase demands a new elucidation. Here this is pursued by excavating the root significance of the 'multiple rationalities' of life. In contrast to Husserl, who differentiated living types according to their degree of participation in the world, the phenomenology of life disentangles living types from within the onto-poietic web of life itself. The human creative act reveals itself as the Great Divide of the Logos of Life - a divide that does not separate but harmonizes, thus dispelling both naturalistic and spiritualistic reductionism.

The Fascist Turn in the Dance of Serge Lifar Mark

Franko.2020-06-19 Ukrainian dancer and choreographer Serge Lifar (1905-86) is recognized both as the modernizer of French ballet in the twentieth century and as the keeper of the flame of the classical tradition upon which the glory of French ballet was founded. Having migrated to France from Russia in 1923 to join Diaghilev's Ballets Russes, Lifar was appointed star dancer and ballet director at the Paris Opéra in 1930. Despite being rather unpopular with the French press at the start of his appointment, Lifar came to dominate the Parisian dance scene-through his publications as well as his dancing and choreography-until the end of the Second World War, reaching the height of his fame under the German occupation of Paris (1940-44). Rumors of his collaborationism having remained inconclusive throughout the postwar era, Lifar retired in 1958. This book not only reassesses Lifar's career, both aesthetically and politically, but also provides a broader reevaluation of the situation of dance-specifically balletic neoclassicism-in the first half of the twentieth century.

only to discuss the resistance to Lifar in the French press at the start of his much-mythologized career, but also the first to present substantial evidence of Lifar's collaborationism and relate it to his artistic profile during the preceding decade. In examining the political significance of the critical discussion of Lifar's body and technique, author Mark Franko provides the ground upon which to understand the narcissistic and heroic images of Lifar in the 1930s as prefiguring the role he would play in the occupation. Through extensive archival research into unpublished documents of the era, police reports, the transcript of his postwar trial and rarely cited newspaper columns Lifar wrote, Franko reconstructs the dancer's political activities, political convictions, and political ambitions during the Occupation.

multi-cultural dialogue. In this collection of theoretically and politically aware close readings of contemporary cultural production, the focus of analysis rests on the multiple and complex global convergences and interferences of cultural influences. The collection foregrounds the work of innovative writers who seek to express the ungraspable presence of cultural “newness” at the same time as situating themselves in the richness of detail of local lives. This volume, most particularly, finds a balance of critical approach between the everyday attempts at negotiation and survival, and the insight brought to the reader by postcolonial, syncretic and feminist theoretical analysis.

Nobel de littérature 2008. La question de la « métaphore exotique » sert ici de fil conducteur et permet d'éclairer le corpus leclézien d'un triple point de vue textuel, anthropologique et psychanalytique. L'inscription problématique de l'espace et du voyage domine en effet toute la production littéraire de Le Clézio; et cette inscription s'accompagne d'une certaine ambiguïté générique. D'une part l'analyse montre que l'écriture du voyage fonctionne chez Le Clézio, comme chez Segalen, comme une « écriture des limites », c'est-à-dire comme un déplacement du sujet et du sens. Mais d'autre part l'analyse montre que l'écriture du voyage dessine chez Le Clézio un rapport singulier et ambivalent à l'espace postmoderne, au désenchantement du monde et à la disparition des grands mythes fondateurs, interrogeant l'acte même de la création littéraire. A la fois humaniste et antidogmatique, l'oeuvre de J.M.G. Le Clézio se situe ainsi de façon originale dans les marges des grands mouvements littéraires du XXe et du XXIe siècle, du Nouveau Roman des années 60 à la « littérature-monde » d'aujourd'hui.
