A Distant Center Ha Jin. 2018-05-01 In the bold tradition of the "Misty Poets," Ha Jin confronts China's fraught political history while paying tribute to its rich culture and landscape. The poems of *A Distant Center* speak in a voice that is steady and direct, balancing contemplative longing with sober warnings from a writer who has confronted the traumas of censorship and state violence. With unadorned language and epigrammatic wit, Jin conjures scenes that encompass the personal, historical, romantic, and environmental, interrogating conceptions of foreignness and national identity as they appear and seep into everyday interactions and being. These are poems that offer solace in times of political reaction and uncertainty. Jin's voice is wise, comforting, and imploring; his words are necessary and his lessons are invaluable. Question your place in the world—do not be complacent—look for strength and hope in every nook: "Keep in mind the meaning of / your existence: wherever you land, / your footprints will become milestones."

Encyclopedia of African Literature Simon Gikandi. 2003-09-02 The most comprehensive reference work on African literature to date, this book covers all the key historical and cultural issues in the field. The Encyclopedia contains over 600 entries covering criticism and theory, African literature's development as a field of scholarship, and studies of established and lesser-known writers and their texts. While the greatest proportion of literary work in Africa has been a product of the twentieth century, the Encyclopedia also covers the literature back to the earliest eras of story-telling and oral transmission, making this a unique and valuable resource for those studying social sciences as well as humanities. This work includes cross-references, suggestions for further reading, and a comprehensive index.

Agamben and the Signature of Astrology Paul Colilli. 2015-10-16 The work of Giorgio Agamben, one of the world's most important living philosophers, has been the object of much scrutiny. Yet, there is one dimension of his thought that remains unexamined by scholars: the presence of the ancient science of astrology in his writings. This book, the first of its kind, identifies the astrological elements and explains the implications of their usage by Agamben. In so doing, this study challenges us to imagine Agamben's thought in a radically new light. A critical account of the presence of astrology and related themes in Agamben's writings, ranging from the earlier works to the more recent publications, illustrates that the astrological signature constitutes a mode of philosophical archaeology that allows for an enhanced understanding of concepts that are central to his works, such as potentiality, the signature, bare life and biopolitics.

Kafka's Other Trial Elias Canetti. 1988-04-12 Felice Bauer was Kafka's first great love and the inspiration for his first great fiction. Six weeks after they met, he wrote *The Judgment* for her in one night of feverish activity. Kafka always referred to the traumatic, public breaking-off of their engagement as his tribunal, and indeed he began work on *The Trial* within a month of that event. Kafka's letters to Felice offer rare insights into the writer's life and art. Elias Canetti's brilliant and sensitive examination of this moving correspondence shows the origins of Kafka's voice as a writer and his torment as a man.

Decoded Mai Jia. 2014-03-12 *Decoded* tells the story of Rong Jinzhen, one of the great code-breakers in the world. A semi-autistic mathematical genius, Jinzhen is recruited to the cryptography department of China's secret services, Unit 701, where he is assigned the task of breaking the elusive 'Code Purple'. Jinzhen rises through the ranks to eventually become China's greatest and most celebrated code-breaker; until he makes a mistake. Then begins his descent through the unfathomable darkness of the world of cryptology into madness. *Decoded* was an immediate success when it was published in 2002 in China and has become an international bestseller. With the pacing of a literary crime thriller, Mai Jia's masterpiece also combines elements of historical fiction and state espionage. Taking place in the shadowy world of Chinese secret security, where Mai Jia worked for decades, it introduces us to a place that is unfamiliar, intriguing and authentic. And with Rong Jinzhen, it introduces us to a character who is deeply flawed and fragile, yet possessing exceptional intelligence. *Decoded* is an unforgettable and gripping story of genius, brilliance, insanity and human frailty. Mai Jia (the pseudonym of Jiang Benhu) is arguably the most successful writer in China today. His books are constant bestsellers, with total sales over three million copies. He became the highest paid author in China last year with his new book, *Wind Talk*. He has achieved unprecedented success with film adaptation: all of his novels are made - or are being made - into major films or TV series, the screenplays of which are often written by Mai Jia himself. He is hailed as the forerunner of Chinese espionage fiction, and has created a unique genre that combines spycraft, code-breaking, crime, human drama, historical fiction, and metafiction. He has won almost every major award in China, including the highest literary honor - the Mao Dun Award.

Rambles in the Islands of Corsica and Sardinia Thomas Forester. 1861

Nativism Overseas Hsin-sheng C. Kao. 1993-01-01 This book examines five of the most influential Chinese-born women writers of the post-war era: Nie Hualing, Yu Lihua, Chen Ruoxi, Li Li, and Zhong Xiaoyang. They have become a dominating force in Chinese literature today, although they presently reside outside their homeland. This book raises a clear and consistent voice in line with the literature of exile and self discovery. As these writers talk of the 'root'--the self, and their social, cultural, and historical identities-- their varied voices share the unique characteristics of the literature of exile. These women, who continue to write in their native language, envision themselves as the literary mediators between their lost past and their newly adopted homeland. They compare each of these worlds in terms of the demons with which they have wrestled for identity, recognition, and freedom. The book is of interest not only to those with a particular interest in the phenomenon of these Chinese exiled intellectual émigrés and their role in the influence on the development of Chinese literature, but to those who seek to understand the development of women's studies and world literature as a whole, and the influence of East-West literary relations in particular.

Introducing Corpus-based Translation Studies Kaibao Hu. 2015-10-31 The book addresses different areas of corpus-based translation studies, including corpus-based study of translation features, translator's style, norms of translation, translation practice, translator training and interpreting. It begins by tracing the development of corpus-based translation studies and introducing the compilation of different types of corpora for translation research. The use of corpora in different research areas is then discussed in detail, and the implications and limitations of corpus-based translation studies are addressed. Featuring the use of figures, tables, illustrations and case studies, as well as discussion of methodological issues, the book offers a practical guide to corpus-based translation. It will be of interest to postgraduate students and professionals who are interested in translation studies, interpreting studies or computer-aided translation.

The Chinese Overseas Wang Gungwu. 2009-06-01 The Chinese overseas now number 25 to 30 million, yet the 2,000-year history of Chinese attempts to venture abroad and the underlying values affecting that migration have never before been presented in a broad overview. Despite centuries of prohibition against leaving the land and traveling and settling overseas, the earthbound Chinese--first traders, then peasants and workers--eventually found new sources of livelihood abroad. The practice of sojourning, being always temporarily away from home, was the answer the Chinese overseas found to deal with imperial and orthodox concerns. Today their challenge is to find an alternative to either returning or assimilating by seeking a new kind of autonomy in a world that will come to acknowledge the ideal of multicultural states. In pursuing this story, international scholar Wang

Gungwu uncovers some major themes of global history: the coming together of Asian and European civilizations, the ambiguities of ethnicity and diasporic consciousness, and the tension between maintaining one's culture and assimilation.

Information Structure Nomi Erteschik-Shir.2007-01-11 This introduction to the role of information structure in grammar discusses a wide range of phenomena on the syntax-information structure interface. It examines theories of information structure and considers their effectiveness in explaining whether and how information structure maps onto syntax in discourse. Professor Erteschik-Shir begins by discussing the basic notions and properties of information structure, such as topic and focus, and considers their properties from different theoretical perspectives. She covers definitions of topic and focus, architectures of grammar, information structure, word order, the interface between lexicon and information structure, and cognitive aspects of information structure. In her balanced and readable account, the author critically compares the effectiveness of different theoretical approaches and assesses the value of insights drawn from work in processing and on language acquisition, variation, and universals. This book will appeal to graduate students of syntax and semantics in departments of linguistics, philosophy, and cognitive science.

English Medium Instruction Ernesto Macaro.2018-02-19 Ernesto Macaro brings together a wealth of research on the rapidly expanding phenomenon of English Medium Instruction. Against a backdrop of theory, policy documents, and examples of practice, he weaves together research in both secondary and tertiary education, with a particular focus on the key stakeholders involved in EMI: the teachers and the students. Whilst acknowledging that the momentum of EMI is unlikely to be diminished, and identifying its potential benefits, the author raises questions about the ways it has been introduced and developed, and explores how we can arrive at a true cost-benefit analysis of its future impact. "This state-of-the-art monograph presents a wide-ranging, multi-perspectival yet coherent overview of research, policy, and practice of English Medium Instruction around the globe. It gives a thorough, in-depth, and thought-provoking treatment of an educational phenomenon that is spreading on an unprecedented scale." Europe Central William T. Vollmann.2005-11-14 A daring literary masterpiece and winner of the National Book Award In this magnificent work of fiction, acclaimed author William T. Vollmann turns his trenchant eye on the authoritarian cultures of Germany and the USSR in the twentieth century to render a mesmerizing perspective on human experience during wartime. Through interwoven narratives that paint a composite portrait of these two battling leviathans and the monstrous age they defined, Europe Central captures a chorus of voices both real and fictional— a young German who joins the SS to fight its crimes, two generals who collaborate with the enemy for different reasons, the Soviet composer Dmitri Shostakovich and the Stalinist assaults upon his work and life.

Units in Mandarin Conversation Hongyin Tao.1996-01-01 Hongyin Tao provides a new way of studying grammar based on the prosodic or intonation unit in spontaneous speech, rather than focusing on the unit of the artificially constructed sentence. Some notions developed from sentence-level data often do not account well for speech data. Contrary to the notion that the basic syntactic structure of a sentence comprises of both an NP and a VP, the author shows that a Mandarin sentence in spoken discourse can consist of a lone NP or a transitive verbal expression without any explicit argument (not anaphora). The author proposes the speech unit as one with which the grammar of Mandarin can better be understood. The book is of interest to scholars of discourse analysis, syntax, prosody, typology as well as of the Mandarin language.

Economy of the Unlost Anne Carson.2009-04-11 The ancient Greek lyric poet Simonides of Keos was the first poet in the Western tradition to take money for poetic composition. From this starting point, Anne Carson launches an exploration, poetic in its own right, of the idea of poetic economy. She offers a reading of certain of Simonides' texts and aligns these with writings of the modern Romanian poet Paul Celan, a Jew and survivor of the Holocaust, whose economies of language are notorious. Asking such questions as, What is lost when words are wasted? and Who profits when words are saved? Carson reveals the two poets' striking commonalities. In Carson's view Simonides and Celan share a similar mentality or disposition toward the world, language and the work of the poet. Economy of the Unlost begins by showing how each of the two poets stands in a state of alienation between two worlds. In Simonides' case, the gift economy of fifth-century b.c. Greece was giving way to one based on money and commodities, while Celan's life spanned pre- and post-Holocaust worlds, and he himself, writing in German, became estranged from his native language. Carson goes on to consider various aspects of the two poets' techniques for coming to grips with the invisible through the visible world. A focus on the genre of the epitaph grants insights into the kinds of exchange the poets envision between the living and the dead. Assessing the impact on Simonidean composition of the material fact of inscription on stone, Carson suggests that a need for brevity influenced the exactitude and clarity of Simonides' style, and proposes a comparison with Celan's interest in the negative design of printmaking: both poets, though in different ways, employ a kind of negative image making, cutting away all that is superfluous. This book's juxtaposition of the two poets illuminates their differences-- Simonides' fundamental faith in the power of the word, Celan's ultimate despair--as well as their similarities; it provides fertile ground for the virtuosic interplay of Carson's scholarship and her poetic sensibility.

Children with Specific Language Impairment Laurence B. Leonard.2014-06-13 Children with specific language impairment (SLI) show a significant deficit in spoken language that cannot be attributed to neurological damage, hearing impairment, or intellectual disability. More prevalent than autism and at least as prevalent as dyslexia, SLI affects approximately seven percent of all children; it is longstanding, with adverse effects on academic, social, and (eventually) economic standing. The first edition of this work established Children with Specific Language Impairment as the landmark reference on this condition, considering not only the disorder's history, possible origins, and treatment but also what SLI might tell us

about language organization and development in general. This second edition offers a complete update of the earlier volume. Much of the second edition is completely new, reflecting findings and interpretations based on the hundreds of studies that have appeared since the publication of the first edition in 1997. Topics include linguistic details (descriptive and theoretical), word and sentence processing findings, genetics, neurobiology, treatment, and comparisons to such conditions as autism spectrum disorders, ADHD, and dyslexia. The book covers SLI in children who speak a wide range of languages, and, although the emphasis is on children, it also includes studies of adults who were diagnosed with SLI as children or are the parents of children with SLI. Written by a leading scholar in the field, *Children with Specific Language Impairment* offers the most comprehensive, balanced, and unified treatment of SLI available.

The Columbia Companion to Modern East Asian Literature Joshua S. Mostow.2003-07-10 This extraordinary one-volume guide to the modern literatures of China, Japan, and Korea is the definitive reference work on the subject in the English language. With more than one hundred articles that show how a host of authors and literary movements have contributed to the general literary development of their respective countries, this companion is an essential starting point for the study of East Asian literatures. Comprehensive thematic essays introduce each geographical section with historical overviews and surveys of persistent themes in the literature examined, including nationalism, gender, family relations, and sexuality. Following the thematic essays are the individual entries: over forty for China, over fifty for Japan, and almost thirty for Korea, featuring everything from detailed analyses of the works of Tanizaki Jun'ichiro and Murakami Haruki, to far-ranging explorations of avant-garde fiction in China and postwar novels in Korea. Arrayed chronologically, each entry is self-contained, though extensive cross-referencing affords readers the opportunity to gain a more synoptic view of the work, author, or movement. The unrivaled opportunities for comparative analysis alone make this unique companion an indispensable reference for anyone interested in the burgeoning field of Asian literature. Although the literatures of China, Japan, and Korea are each allotted separate sections, the editors constantly kept an eye open to those writers, works, and movements that transcend national boundaries. This includes, for example, Chinese authors who lived and wrote in Japan; Japanese authors who wrote in classical Chinese; and Korean authors who write in Japanese, whether under the colonial occupation or because they are resident in Japan. The waves of modernization can be seen as reaching each of these countries in a staggered fashion, with eddies and back-flows between them then complicating the picture further. This volume provides a vivid sense of this dynamic interplay.

Seeing Voices Oliver Sacks.2011-03-04 Like *The Man Who Mistook His Wife for a Hat*, this is a fascinating voyage into a strange and wonderful land, a provocative meditation on communication, biology, adaptation, and culture. In *Seeing Voices*, Oliver Sacks turns his attention to the subject of deafness, and the result is a deeply felt portrait of a minority struggling for recognition and respect — a minority with its own rich, sometimes astonishing, culture and unique visual language, an extraordinary mode of communication that tells us much about the basis of language in hearing people as well. *Seeing Voices* is, as Studs Terkel has written, an exquisite, as well as revelatory, work.

The Fear of Barbarians Tzvetan Todorov.2010-10-15 The relationship between Western democracies and Islam, rarely entirely comfortable, has in recent years become increasingly tense. A growing immigrant population and worries about cultural and political assimilation—exacerbated by terrorist attacks in the United States, Europe, and around the world—have provoked reams of commentary from all parts of the political spectrum, a frustrating majority of it hyperbolic or even hysterical. In *The Fear of Barbarians*, the celebrated intellectual Tzvetan Todorov offers a corrective: a reasoned and often highly personal analysis of the problem, rooted in Enlightenment values yet open to the claims of cultural difference. Drawing on history, anthropology, and politics, and bringing to bear examples ranging from the murder of Theo van Gogh to the French ban on headscarves, Todorov argues that the West must overcome its fear of Islam if it is to avoid betraying the values it claims to protect. True freedom, Todorov explains, requires us to strike a delicate balance between protecting and imposing cultural values, acknowledging the primacy of the law, and yet strenuously protecting minority views that do not interfere with its aims. Adding force to Todorov's arguments is his own experience as a native of communist Bulgaria: his admiration of French civic identity—and Western freedom—is vigorous but non-nativist, an inclusive vision whose very flexibility is its core strength. The record of a penetrating mind grappling with a complicated, multifaceted problem, *The Fear of Barbarians* is a powerful, important book—a call, not to arms, but to thought.

Indeterminacy in Terminology and LSP Bassey Antia.2007-05-09 This book deals with the oft-neglected tensions between perspicuity and fuzziness in specialised communication. It describes the manifestations, functions and implications of indeterminacy phenomena in a range of LSP specialisations where it has been customary to expect precision and consistency. The volume presents case studies and methodological frameworks that draw on theoretical, anthropological and cognitive linguistics, safety-critical translating, history and theory of terminology studies, development of ontologies, software localisation, jurisprudence, macroeconomics and interoperability of digital knowledge representation resources. With chapters by leading scholars drawn from eleven countries, this book contributes to the benchmarking of indeterminacy scholarship in LSP studies and is a fitting tribute to its dedicatee, Professor Heribert Picht who, even in retirement, remains a constant presence in LSP and terminology studies. The book should be of interest to scholars of the aforementioned areas.

Sinophone Studies Shu-mei Shih, Chien-hsin Tsai, Brian Bernards. 2013-01-22 This definitive anthology casts Sinophone studies as the study of Sinitic-language cultures born of colonial and postcolonial influences. Essays by such authors as Rey Chow, Ha Jin, Leo Ou-fan Lee, Ien Ang, Wei-ming Tu, and David Wang address debates concerning the nature of Chineseness while introducing readers to essential readings in Tibetan, Malaysian, Taiwanese, French, Caribbean, and American Sinophone literatures. By placing Sinophone cultures at the crossroads of multiple empires, this anthology richly demonstrates the transformative power of multiculturalism and multilingualism, and by examining the place-based cultural and social practices of Sinitic-language communities in their historical contexts beyond China proper, it effectively refutes the diasporic framework. It is an invaluable companion for courses in Asian, postcolonial, empire, and ethnic studies, as well as world and comparative literature.

The Boundaries of Europe Pietro Rossi. 2015-04-24 Europe's boundaries have mainly been shaped by cultural, religious, and political conceptions rather than by geography. This volume of bilingual essays from renowned European scholars outlines the transformation of Europe's boundaries from the fall of the ancient world to the age of decolonization, or the end of the explicit endeavor to "Europeanize" the world. From the decline of the Roman Empire to the polycentrism of today's world, the essays span such aspects as the confrontation of Christian Europe with Islam and the changing role of the Mediterranean from "mare nostrum" to a frontier between nations. Scandinavia, eastern Europe and the Atlantic are also analyzed as boundaries in the context of exploration, migratory movements, cultural exchanges, and war. *The Boundaries of Europe*, edited by Pietro Rossi, is the first installment in the ALLEA book series *Discourses on Intellectual Europe*, which seeks to explore the question of an intrinsic or quintessential European identity in light of the rising skepticism towards Europe as an integrated cultural and intellectual region.

Celan Studies Peter Szondi. 2003 Peter Szondi's *Celan Studies* marked the beginning of critical work on Paul Celan, the most important German poet of the second half of the twentieth century. The book's three studies each concentrate on a different Celan poem. *The Poetry of Constancy: Paul Celan's Translation of Shakespeare's Sonnet 105* investigates a historical turn from a poetry that claims to present its object to a poetry that only promises to do so. *Reading 'Engführung'* follows the movement of poetic language into territory undisclosed to epistemic reason. *Eden addresses Du liegst*, a poem on the murder of Rosa Luxemburg and Karl Liebknecht; Szondi actually was with Celan when the poem was written. It analyzes the relation between the historical facts to which a poem refers and its composition. The book contains, as appendixes, Szondi's notes for three more projected studies of Celan poems, left unwritten at the time of his death in 1971.

Renaissance Civic Humanism James Hankins. 2000 The evolution of republican concepts compared to medieval and early modern traditions of political thought.

The Translator as Writer Susan Bassnett, Peter Bush. 2007-11-15 Over the last two decades, interest in translation around the world has increased beyond any predictions. International bestseller lists now contain large numbers of translated works, and writers from Latin America, Africa, India and China have joined the lists of eminent, bestselling European writers and those from the global English-speaking world. Despite this, translators tend to be invisible, as are the processes they follow and the strategies they employ when translating. *The Translator as Writer* bridges the divide between those who study translation and those who produce translations, through essays written by well-known translators talking about their own work as distinctive creative literary practice. The book emphasises this creativity, arguing that translators are effectively writers, or rewriters who produce works that can be read and enjoyed by an entirely new audience. The aim of the book is to give a proper prominence to the role of translators and in so doing to move attention back to the act of translating, away from more abstract speculation about what translation might involve.

The Expression of Information Structure Manfred Krifka, Renate Musan. 2013-01-01 Information structure deals with the linguistic forms and techniques that support the integration of what is said into the current informational and attentional state of the addressee. This shows in categories like topic-comment structuring, focus to highlight expressions, marking of givenness and of presupposed information, and ways to indicate that the information provided is restricted. The book relates information structure to theoretical models of grammar, to computation and modelling and brings together what is known about the expression of information structure in human language with regard to its empirical investigation, its psycholinguistic aspects and the acquisition of information structure. Since the need to integrate what is said into the informational and attentional state of the addressee is central to all human communication, it is not surprising that all natural languages have developed devices to express information structural categories. To illustrate this, the book also provides concrete and theory independent descriptions of the information structural encoding strategies of individual languages of different types. The book can be used as a textbook appropriate for advanced undergraduate and graduate courses; it also provides information for linguists that are not specialists in the field.

Transnational Chinese Frank N.
