A Collectors Guide to Signature and Photo Decal Wood Tennis Rackets Dan White.2020-04 There have been several books and articles on collecting tennis rackets and tennis memorabilia, covering the history, condition and value associated with each item. There are no other books that attempt to visually catalog all of the wood endorsed tennis rackets - until now. This book is focused on endorsed wood rackets manufactured until about 1985, which I believe to be the end of the wood racket era. Endorsed, for the purpose of this book is defined as a racket manufacturers paid endorsement by a person's signature or photo or both. Collecting tennis rackets, especially wood ones, is a fun and challenging hobby. Wood rackets are a lost art whose construction is beautiful and sometimes ornate. If you are a beginner or an experienced collector of wood tennis rackets than you have, by now, discovered the lack of information on the subject. When I started collecting wood rackets there was a limited source of information on just how many rackets were produced. So how would you know if your collection is complete or more important, what to search for. The objective of *A Collectors Guide to Signature and Photo Decal Wood Tennis Rackets* is to identify as many of these endorsed wood rackets as possible in this racket niche to assist the collector in knowing what is out there and what to look for. Even though I have attempted to collect or identify all the rackets that were produced, I doubt if this goal is really possible. *A Collectors Guide to Signature and Photo Decal Wood Tennis Rackets* is not a coffee table book and is organized simply for identification purposes. The nearly 1100 rackets identified in this book, are accompanied by an Index with important identification information and over 700 photos. The condition of the rackets presented here was not as important as the the photograph itself, knowing that many of these rackets may never be seen again.

*The Future of Tennis* Philip Slayton.2018-08-07 At the heart of the men's tennis game for some years have been the Big Four: Novak Djokovic, Roger Federer, Andy Murray, and Rafael Nadal. Since 2006, only three other players have won a Grand Slam Tournament, and no one else has been ranked world No. 1. But since 2013, the dominance of the Big Four has come under sustained and increasing pressure. New players are challenging Djokovic, Federer, Murray, and Nadal. The rivalry between the old guard and (mostly) young contenders makes this the golden age of tennis. Nick Kyrgios beat Nadal in the fourth round of 2014 Wimbledon. In 2017, David Goffin beat Djokovic in Monte Carlo; Dominic Thiem beat Murray in Barcelona; Sascha Zverev beat Federer in Montreal; and Denis Shapovalov beat Nadal, also in Montreal. In *The Future of Tennis* Philip Slayton and Peter Figura examine a selection of the players outside of the Big Four and introduce the reader to the great depth of field in the men's game and the personalities that enliven the sport. Complete with stunning photography by Figura, this book will answer questions about who some of the other players on the tour are, what drives them, their foibles and eccentricities, and more. The perfect gift for tennis aficionados!

**Pictures, Quotations, and Distinctions** Robert Sokolowski.2022-01-14 *Pictures, Quotations, and Distinctions* presents an anthology of the essays of Robert Sokolowski, a thinker who excels in questions of conceptual analysis. The essays constitute Sokolowski's sustained project of critical phenomenological analysis of many different forms of presentation as well as many different forms of human experience. Aimed at the specialist in phenomenology and the generalist in the philosophical tradition, Sokolowski's work describes various ways in which things appear: as pictured, quoted, measured, distinguished, explained, meant, and referred to. Through the analysis of appearances, he probes the question of being and clarifies the human condition. The fourteen essays are grouped into pairs or triplets. *Picturing and Quotation* describe representation in image and speech. *Making Distinctions* clarifies how we can isolate something as an issue for thought, and *Explaining* discusses what we do after we have isolated it. *Timing and Measurement* describe two ways in which wholes are articulated into parts, and *Exact Science and the World in Which We Live* further develops the theme of measurement. *Exorcising Concepts and Referring* are a phenomenological attempt to treat sense and reference. *Grammar and Thinking and Tarskian Harmonies in Words and Pictures* discuss the formal composition of sentences and images and their relationship to the way things are disclosed. The final three essays are studies in the phenomenology of ethical performance. By providing concrete analysis of human themes familiar to everything, such as picturing and quotation, these examples of applied phenomenology take appearances seriously, while making philosophical distinctions among them.--

**Early Lawn Tennis in Great Britain as Shown by Photographic Images** Brandt Rowles, Gerald Gurney, Chris Elks.2006-12-01 This book is a photographic celebration of early lawn tennis, Lawn tennis in the 19th Century was essentially a game played by the upper social classes, although some homeowners of moderate income did build tennis courts on their property. Courts at the large country manors and estates were established on or near the croquet lawns and often provided a reasonable surface for play. The courts of lesser houses often were sloped, had uneven surfaces and included hazards such as boulders, shrubbery and trees. Players would wear their ordinary every-day clothes to play a game. The photographs in this book show a game very different from that of today. We will look into the faces of these departed people and enter the sunny landscapes of their distant years. Enjoy your journey back through time.

Shot Master Michael Cole.2023-08-31 The tributes paid by former players and colleagues are fulsome and fabulously flattering. Michael's father owned a photographic shop in Beckenham, Kent so the groundings were there. This led to him becoming serious about photography, though he began his working life as a graphic artist. Arthur, Michael's father, was mad about tennis and combined his passions by photographing Wimbledon, commencing straight after the war. From 1970 Cole covered Wimbledon and the other major tournaments, such as the US Open in New York, the French Open in Paris and the Stella Artois at Queen's. He travelled to Monaco, Portugal, Florida and Moscow to shoot the tennis stars in action, and often not in action. His speciality was the outré, the humorous and off-the-wall. Tennis Week stated, 'While everyone else is focused on forehands and backhands, Cole will notice the caterpillar climbing up the net post, the humorous moment as a ball kid tries to catch a moth. The combination of creativity and quirkiness,' takes Michael's photography to another level. One event was a particular favourite for him. He states 'The French Open lends itself so much to ambience pictures. The people there are so well dressed, there's women, hats and children... In fact, I had more non-tennis pictures in my files from the French Open than any other.' In this book is a distillation of Michael Cole's brilliant tennis photography. For him the biggest challenge in creating this wonderful visual celebration of lawn tennis was deciding what to exclude. He has a passion and emotional attachment to every single one of his stunning photographs. One can see why.
