**Yakuza Moon** Shoko Tendo.2010-07-15 Yakuza Moon is the shocking, yet intensely moving memoir of 37-yearold Shoko Tendo, who grew up the daughter of a yakuza boss. Tendo lived her life in luxury until the age of six, when her father was sent to prison, and her family fell into terrible debt. Bullied by classmates who called her the yakuza girl, and terrorized at home by a father who became a drunken, violent monster after his release from prison, Tendo rebelled. A regular visitor to nightclubs at the age of 12, she soon became a drug addict and a member of a girl gang. By the age of 15 she found herself sentenced to eight months in a juvenile detention center. Adulthood brought big bucks and glamour when Tendo started working as a bar hostess during Japan's booming bubble economy of the nineteen- eighties. But among her many rich and loyal patrons there were also abusive clients, one of whom beat her so badly that her face was left permanently scarred. When her mother died, Tendo plunged into such a deep depression that she tried to commit suicide twice. Tendo takes us through the bad times with warmth and candor, and gives a moving and inspiring account of how she overcame a lifetime of discrimination and hardship. Getting tattooed, from the base of her neck to the tips of her toes, with a design centered on a geisha with a dagger in her mouth, was an act that empowered her to start making changes in her life. She quit her job as a hostess. On her last day at the bar she looked up at the full moon, a sight she never forgot. The moon became a symbol of her struggle to become whole, and the title of the book she wrote as an

epitaph for herself and her family.

*Terrorism, Economic Development, and Political Openness* Philip Keefer, Norman Loayza.2008-02-11 To what extent are terrorism and development related? What are the relative weights of the economic, political, and social aspects of development? What is the development impact of different

responses to terrorism? This volume addresses these crucial questions, synthesizing what we know about the development links with terrorism and pointing out what we do not. Contributors to this volume examine the economic and fiscal costs of terrorism and the response to terrorism. They conclude that the economic costs of terrorism in rich countries are low, relative to the economic costs of combating terrorism; both are likely high in poor countries. They also report evidence on how development affects terrorism. This work supports the hypothesis that political development - political openness and the quality of government - is inversely associated with the emergence of terrorist organizations, but not that poverty per se is directly responsible for terrorism.

*Economic Development and Transition* Justin Yifu Lin.2009-02-12 In *Economic Development and Transition*, renowned development economist Justin Yifu Lin argues that economic performance in developing countries depends largely on government strategy. If the government plays a facilitating role, enabling firms to exploit the economy's comparative advantages, its economy will develop successfully. However, governments in most developing countries attempt to promote industries that go against their comparative advantages by creating various kinds of distortion to protect nonviable firms in priority industries. Failing to recognize the original intention of many distortions, most governments in transition economies attempt to eliminate those distortions without addressing firms' viability problems, causing economic performance to deteriorate in their transition process. Governments in successful transition economies adopt a pragmatic dual-track approach that encourages firms to enter sectors that were suppressed previously and gives necessary support to firms in priority industries before their viability issue is addressed.

Political Power and Corporate Control Peter A. Gourevitch,James Shinn.2010-06-20 Why does corporate governance--front page news with the collapse of Enron, WorldCom, and Parmalat--vary so dramatically around the world? This book explains how politics shapes corporate governance--how managers, shareholders, and workers jockey for advantage in setting the rules by which companies are run, and for whom they are run. It combines a clear theoretical model on this political interaction, with statistical evidence from thirty-nine countries of Europe, Asia, Africa, and North and South America and detailed narratives of country cases. This book differs sharply from most treatments by explaining differences in minority shareholder protections and ownership concentration among countries in terms of the interaction of economic preferences and political

institutions. It explores in particular the crucial role of pension plans and financial intermediaries in shaping political preferences for different rules of corporate governance. The countries examined sort into two distinct groups: diffuse shareholding by external investors who pick a board that monitors the managers, and concentrated blockholding by insiders who monitor managers directly. Examining the political coalitions that form among or across management, owners, and workers, the authors find that certain coalitions encourage policies that promote diffuse shareholding, while other coalitions yield blockholding-oriented policies. Political institutions influence the probability of one coalition defeating another.

*Hana's Suitcase* Karen Levine. 2002-08-07 New edition with foreword by Nobel Peace Prize winner Desmond Tutu: "How extraordinary that this humble suitcase has enabled children all over the world to learn through Hana's story the terrible history of what happened and that it continues to urge them to heed the warnings of history." In the spring of 2000, Fumiko Ishioka, the curator of a small Holocaust education centre for children in Tokyo, received a very special shipment for an exhibit she was planning. She had asked the curators at the Auschwitz museum if she could borrow some artifacts connected to the experience of children at the camp. Among the items she received was an empty suitcase. From the moment she saw it, Fumiko was captivated by the writing on the outside that identified its owner - Hana Brady, May 16, 1931, Waisenkind (the German word for orphan). Children visiting the centre were full of questions. Who was Hana Brady? Where did she come from? What was she like? How did Hana become an orphan? What happened to her? Fueled by the children's curiosity and her own need to know, Fumiko began a year of detective work, scouring the world for clues to the story of Hana Brady. Writer Karen Levine follows Fumiko in her search through history, from present-day Japan, Europe and North America back to 1938 Czechoslovakia

and the young Hana Brady, a fun-loving child with a passion for ice skating. Together with Fumiko, we learn of Hana's loving parents and older brother, George, and discover how the family's happy life in a small town was turned upside down by the invasion of the Nazis. Based on an award-winning CBC documentary, *Hana's Suitcase* takes the reader on an incredible journey full of mystery and memories, which come to life through the perspectives of Fumiko, Hana and later Hana's brother, who now lives in Canada. Photographs and original wartime documents enhance this extraordinary story that bridges cultures, generations and time. Ideal for young readers aged 9 and up. *Hana's Suitcase* is part of the award-winning Holocaust Remembrance Series for Young Readers.

The Problem of China Bertrand Russell.1922 A European lately arrived in China, if he is of a receptive and reflective disposition, finds himself confronted with a number of very puzzling questions, for many of which the problems of Western Europe will not have prepared him. Russian problems, it is true, have important affinities with those of China, but they have also important differences; moreover they are decidedly less complex. Chinese problems, even if they affected no one outside China, would be of vast importance, since the Chinese are estimated to constitute about a quarter of the human race. In fact, however, all the world will be vitally affected by the development of Chinese affairs, which may well prove a decisive factor, for good or evil, during the next two centuries. This makes it important, to Europe and America almost as much as to Asia, that there should be an intelligent understanding of the questions raised by China, even if, as yet, definite answers are difficult to give.

news for you, digital bookworms — you can get in a good read without spending a dime. The internet is filled with free e-book resources so you can download new reads and old classics from the comfort of your iPad. There are over 58,000 free Kindle books that you can download at Project Gutenberg. Use the search box to find a specific book or browse through the detailed categories to find your next great read. You can also view the free Kindle books here by top downloads or recently added. You'll be able to download the books at Project Gutenberg as MOBI, EPUB, or PDF files for your Kindle. Free-Ebooks.net is a platform for independent authors who want to avoid the traditional publishing route. You won't find Dickens and Wilde in its archives; instead, there's a huge array of new fiction, non-fiction, and even audiobooks at your fingertips, in every genre you could wish for. There are many similar sites around, but Free-Ebooks.net is our favorite, with new books added every day. Much of its collection was seeded by

Project Gutenberg back in the mid-2000s, but has since taken on an identity of its own with the addition of thousands of self-published works that have been made available at no charge.
