The Cambridge Companion to Tacitus A. J. Woodman.2010-01-21 Tacitus is universally recognised as ancient Rome's greatest writer of history, and his account of the Roman Empire in the first century AD has been fundamental in shaping the modern perception of Rome and its emperors. This Companion provides a new, up-to-date and authoritative assessment of his work and influence which will be invaluable for students and non-specialists as well as of interest to established scholars in the field. First situating Tacitus within the tradition of Roman historical writing and his own contemporary society, it goes on to analyse each of his individual works and then discuss key topics such as his distinctive authorial voice and his views of history and freedom. It ends by tracing Tacitus' reception, beginning with the transition from manuscript to printed editions, describing his influence on political thought in early modern Europe, and concluding with his significance in the twentieth century.

Plug&Play Places Robert Nadler.2014-10-08 In post-industrial societies more and more people earn an income in creative knowledge work, a highly flexible labour market segment that demands a geographically mobile workforce. Creative knowledge work is based on an understanding of language, culture and symbolic meanings. This can best be obtained through local and national embeddedness. Yet, this necessity for embeddedness stands in contrast to the demand in geographical mobility. How is this contradiction solved by individuals? What new forms of place attachment does this bring about? This book introduces a showcase of 25 multilocal creative knowledge workers, who live in different countries at the same time. It investigates how continuous mobility becomes part of their lifeworld, and how it changes their feelings of belonging and practices of place attachment. Applying an innovative methodological mix of social phenomenology, hermeneutics and mental mapping, this book takes a detailed look at biographies and the role of places in mobile lifeworlds. Plug&Play Places brings forth the idea that places have to be understood as individual items, which are configured and then plugged into the 'system' of the own lifeworld. They can be 'played' without great effort once an individual needs to make use of them. This new type of place attachment is a form of subjective standardization of place, which complements the well-known models of objective standardization of places. Plug&Play Places is relevant for scientists who deal with mobility and its impact on individual lifeworlds, with transnational multilocality and with flexibilized labour markets. Furthermore, the book provides a detailed qualitative perspective which can enrich the explanations of quantitative research in the same field. It is an interesting reading also for practitioners engaged in urban planning, housing and real estate development. Robert Nadler holds a doctoral degree in Urban and Local European Studies from the University of Milan-Bicocca. He is a researcher at the Leibniz Institute for Regional Geography and published on

creative industries, multilocality and labour mobility.

Cell Differentiation Lutz Nover, M. Luckner, B. Parthier. 2011-12-16 Three years have elapsed since the publication of the first edition of this book (in German). The continued interest of our readers and the rapid progress of our knowledge in many fields necessitates a thoroughly revised and somewhat enlarged new edition. Cell differentiation is a prerequisite of life. It is defined as the process leading to the qualitatively and quantitatively selective realization of distinct parts of a given genetic material. Cell differentiation comprises five main aspects: (1) signal reception and transformation, (2) selective rearrangements of the genetic material, (3) differential gene expression, (4) organization of gene expression programs and (5) intercellular coordination of cell differentiation within the developmental programs of multicellular organisms. Despite the bewildering multiplicity of its results, i.e., the differentiated phenotypes of cells, there are apparently fundamental similarities with respect to the molecular mechanisms of the process itself. These mechanisms constitute the central subject of this book.

Railways and the Economic Development of Western Europe, 1830-1914 Patrick O'Brien. 1983-06-18

Anatolica Ronald Syme. 1995 No historian of ancient Rome in this century has had a greater influence on historical research or won greater international acclaim than Sir Ronald Syme (1903-89). His outstanding position was due mainly to his first two books, *The Roman Revolution*, which appeared in 1939, and *Tacitus* (two volumes, 1958) - although he went on to produce many more monographs, and seven volumes of his *Roman Papers* have so far appeared. The long gap between his first two books is partly explained by the war, which took him on official duties to Belgrade and Ankara; and he spent the years 1943-5 at Istanbul as Professor of Classical Philology. It was known that in spite of the war, Syme had continued to write in these years, in particular

`Strabonia', investigations into the famous ancient Geography composed by Strabo, a native of Asia Minor in the time of Augustus. After Syme's death, the manuscript was discovered among his papers: he had not quite completed the work, but what he had written, with almost complete annotation, represents a substantial and fascinating study of the historical geography of Anatolia in the Hellenistic and early Roman period. Syme ruthlessly dissects the often incoherent and inconsistent text of Strabo, at the same time providing rich detail on client kings, Roman generals and emperors, writers and travellers. Above all, he shows unequalled ability to understand the landscape and settlement of Anatolia; and the work is composed in the same forceful and elegant style that made his other books classics of historical literature.

Politics and Industrialization Colleen A. Dunlavy. 1994 Dunlavy examines the rich political context of a seeming paradox: authoritarian, centralized Prussia adopted a largely hands-off policy toward the railroads, but the more liberal, fragmented American government sought vigorously both to promote and to regulate the new industry. By also fragmenting interests and technological choices, the American structure impeded the emergence of the railroad as a system, while the centralized Prussian structure facilitated it.

Repressed, Remitted, Rejected Dr. Karl Heinz Roth, Hartmut Rübner. 2021-12-10 Since unification, the Federal Republic of Germany has made vaunted efforts to make amends for the crimes of the Third Reich. Yet it remains the case that the demands for restitution by many countries that were

occupied during the Second World War are unresolved, and recent demands from Greece and Poland have only reignited old debates. This book reconstructs the German occupation of Poland and Greece and gives a thorough accounting of these debates. Working from the perspective of international law, it deepens the scholarly discourse around the issue, clarifying the 'never-ending story' of German reparations policy and making a principled call for further action. A compilation of primary sources comprising 125 annotated key texts (512 pages) on the complexity of reparations discussions covering the period between 1941 and the end of 2017 is available for free on the Berghahn Books website, doi: 10.3167/9781800732575.dd.

Cultural Property and Contested Ownership Brigitta Hauser-Schäublin, Lyndel V. Prott. 2016-06-10 Against the backdrop of international conventions and their implementation, Cultural Property and Contested Ownership explores how highly-valued cultural goods are traded and negotiated among diverging parties and their interests. Cultural artefacts, such as those kept and trafficked between art dealers, private collectors and museums, have become increasingly localized in a 'Bermuda triangle' of colonialism, looting and the black market, with their re-emergence resulting in disputes of ownership and claims for return. This interdisciplinary volume provides the first book-length investigation of the changing behaviours resulting from the effect of

the 1970 UNESCO Convention on the Means of Prohibiting and Preventing the Illicit Import, Export and Transfer of Ownership of Cultural Property. The collection considers the impact of the Convention on the way antiquity dealers, museums and auction houses, as well as nation states and local communities, address issues of provenance, contested ownership, and the trafficking of cultural property. The book contains a range of contributions from anthropologists, lawyers, historians and archaeologists. Individual cases are examined from a bottom-up perspective and assessed from the viewpoint of international law in the Epilogue. Each section is contextualised by an introductory chapter from the editors.

The Andes Axel Borsdorf, Christoph Stadel. 2015-03-12 The Andes are attracting global interest again: they hold valuable mineral resources, tourists appreciate their great natural beauty and the diversity of indigenous cultures, climbers scale rock and ice faces, while many others are intrigued by regional political developments, such as the Bolivarian revolution in Venezuela or the almost unfettered hegemony of the neoliberal economic model in Chile. This volume is the first attempt for decades to present a complete overview of the longest mountain chain on the planet – a region of remarkable climatic, floristic and geologic diversity, where advanced civilization developed well before the arrival of the Spanish. Today the Andes continue to be characterized by their ethnic, demographic, cultural and economic diversity, as well as by the disparity of local socioeconomic groups. The Andean countries pursue a wide range of approaches to tackle the challenges of making the best use of their natural and cultural potential without damaging their ecological basis, as well as to overcome economic disparity and foster social cohesion. This book provides insights into this unique region and its most pressing issues, complemented by a wealth of pictures and comprehensive diagrams, which, in sum, help to better understand these fascinating mountains.

Between Republic and Empire Kurt A. Raaflaub, Mark Toher. 2023-04-28 Representing five major areas of Augustan scholarship—historiography, poetry, art, religion, and politics—the nineteen contributors to this volume bring us closer to a balanced, up-to-date account of Augustus and his principate.

Kraft Jonas Lüscher. 2020-11-10 Jonas Lüscher, the author of *Barbarian Spring*—“a most humorous and convincing satire of the ridiculous excesses of those responsible for the financial crisis” (The New York Times Book Review)—returns to the topic of neoliberal arrogance in his Swiss Book Prize-winning, hilarious, and wicked novel about a man facing the ruins of his life, and his world. Richard Kraft, a German professor of rhetoric and aging Reaganite and Knight Rider fan, is unhappily married and badly in debt. He sees no way out of his rut until he is invited to participate in a competition to be held in California and sponsored by a Silicon Valley tycoon and “techno-optimist.” The contest is to answer a literal “million-dollar question”: each competitor must compose an eighteen-minute lecture on why our world is still, despite all evidence, the best of all possible worlds, and how we might improve it even further through technology. Entering into a surreal American

landscape, Kraft soon finds what's left of his life falling to pieces as he struggles to justify as "best" a planet in the hands of such blithe neoliberal cupidity as he encounters on his odyssey to California. Still, with the prize money in his pocket, perhaps Kraft could finally buy his way to a new life . . . But what contortions—physical and philosophical—will he have to subject himself to in order to claim it? Jonas Lüscher's second novel, *Kraft*, is a hilarious and wicked tale about a man facing the ruins of his life, and his world.

The Protected Landscape Approach Jessica Brown, Nora J. Mitchell, Michael Beresford. 2005 The traditional patterns of land use that have created many of the world's cultural landscapes contribute to biodiversity, support ecological processes, provide important environmental services, and have proven sustainable over the centuries. Protected landscapes can serve as living models of sustainable use of land and resources, and offer important lessons for sustainable development. Examples of these landscapes and the diverse strategies needed to maintain this essential relationship between people and the land are provided.

Enlargement of the European Union Allan F. Tatham.2009-01-26 The development of EU enlargement has raised many thorny issues unanticipated by the framers of the EC Treaty. A significant upshot of these issues is that the concept of European identity – defined in terms of such factors as culture, history and economics – has supplanted the long-dominant theme of ‘widening and deepening,’ particularly since the Union’s expansion has become primarily eastward. The major contribution of this important book lies in its analysis of the conceptualization and perception of enlargement from various points of view, focusing on the concerns of stakeholders and the ‘identity’ conflicts and uncertainties incurred by enlargement initiatives. In the course of its presentation, it details the actual pre-accession Europeanization process and its complex history. Among the key elements discussed are the following: the conflict between ‘widening’ and ‘deepening’ and the effect on EU institutional reform; institutional requirements on candidate countries; pre-accession criteria and negotiations; administrative capacity, judicial capacity, and legal approximation in accession states; capacity of the EU to absorb new Member States; and EC law as part of European identity. Also covered are specific historical details of particular pre-accession negotiations (e.g., Greece, Spain, Portugal, Malta, and Cyprus), the still inconclusive negotiations with Turkey and the Western Balkan states, and political factors involved in the non-accession of Norway, Iceland and Switzerland. Assembling powerful evidence and applying incisive analysis, the author’s conclusion shows that, absent further (and major) EU institutional reform, it will be difficult for an enlarging

Union to continue to 'deliver the goods.' A watershed in the continuing great debate on the fulfilment of the EC Treaty's determination to foster and promote 'an ever closer union of the peoples of Europe,' this book will prove invaluable to anybody interested in the European integration project, particularly lawyers, academics, officials and policymakers in the EU Member States.

Brazzaville Beach William Boyd.2009-10-13 A primatologist flees her broken marriage for a job in war-torn Africa in the renowned author's "brilliant . . . stunningly magical" novel (Washington Post Book World). William Boyd's classic Brazzaville Beach has been called a "bold seamless blend of philosophy and suspense . . . [that] nevertheless remains accessible to general readers on a level of pure entertainment." (Boston Globe). When her marriage to a brilliant but unstable mathematician finally shatters, Hope Clearwater leaves England to join a team of primate researchers in a remote African country. Though she is there to study chimps, the greater challenge is her attempt to grapple with her own recent past—as well as her fellow scientists. And when she discovers evidence of supposedly peaceful chimps engaging in extreme violence, Hope finds herself drawn into a war of desperate egos and ruthless ambitions.

The U.S.-Japan Security Alliance T. Inoguchi,G. John Ikenberry.2011-09-12 In this book, American and Japanese experts examine to what extent diverging priorities in the U.S.-Japan alliance are real and whether they are not remedied with political and diplomatic leadership and other processes. Distributed Objects Liana Chua,Mark Elliott.2013-03-30 One of the most influential anthropological works of the last two decades, Alfred Gell's Art and Agency is a provocative and

ambitious work that both challenged and reshaped anthropological understandings of art, agency, creativity and the social. It has become a touchstone in contemporary artifact-based scholarship. This volume brings together leading anthropologists, archaeologists, art historians and other scholars into an interdisciplinary dialogue with Art and Agency, generating a timely re-engagement with the themes, issues and arguments at the heart of Gell's work, which remains salient, and controversial, in the social sciences and humanities. Extending his theory into new territory – from music to literary technology and ontology to technological change – the contributors do not simply take stock, but also provoke, critically reassessing this important work while using it to challenge conceptual and disciplinary boundaries.

The New Arab Journalist Lawrence Pintak.2010-12-18 The Arab media is in the midst of a revolution that will inform questions of war and peace in the Middle East, political and societal reform, and relations between the West and the Arab World. Drawing on the first broad cross-border survey of Arab journalists, first-person interviews with scores of reporters and editors, and his three decades' experience reporting from the Middle East, Lawrence Pintak examines how Arab journalists see themselves and their mission at this critical time in the evolution of the Arab media. He explores how, in a diverse Arab media landscape expressing myriad opinions, journalists are still under siege as governments fight a rear-guard action to manage the message. This innovative book breaks through the stereotypes about Arab journalists to reveal the fascinating and complex reality - and what it means for the rest of us.

Here for the first time was a description of the methods by which the few most politically important clans in Rome, originally patrician, had expanded to take in so many promising plebeians - not only from Rome but from all over Italy - and make them part of the governing class. Originally published in German in 1920, Roman Aristocratic Parties and Families is now available for the first time in English translation. This edition is also the first to contain an index and a bibliography, making it of value to scholars who are already familiar with the original work.
