*Military Expenditure Data in Africa* Wuyi Omitoogun.2003 The international reporting of military expenditure data for African states is poor in many respects. Figures that are published are often at variance with the socio-economic realities of the countries. This study examines the availability and reliability of official military expenditure data for six countries in West, Central and East Africa, using a combination of interviews with key actors in the military budgeting process and analysis of official documents in the countries selected. The author concludes that data are indeed available in many of these countries but that the quality of the data varies from country to country. Two main factors account for this - the influence of the donors of economic aid, whose insistence that attain certain maximum level of expenditure on defence should not be exceeded has encouraged the manipulation of data by the countries concerned; and the general loss of capacity in several countries to compile the necessary statistics.

**Connected CRM** David S. Williams.2014-02-19 Praise for Connected CRM “Many books explore the subject of CRM. In this book the ‘m’ is for Marketing and David’s seasoned perspective indeed makes it a capital ‘M.’ Taking core direct response marketing techniques and moving beyond the simple use of data and analytics, he explores how today’s marketers can leverage advances in technology to create successful customer-centric business strategies.” —Ted Ward, VP of Marketing, GEICO “A must-read for CMOs, and more importantly CEOs, to simplify all

the buzzwords around 'big data' and dimensionalize the organizational change necessary to become truly customer centric." —Theresa McLaughlin, Chief Marketing and Communications Officer, Citizens Financial Group "Big Data, Social, and Cloud have become overused buzzwords with ambiguous meaning, but David brings to bear his years of industry leadership and experiences to break down today's trends and opportunities in a practical, actionable fashion. A must-read for anyone who prefers profit over PowerPoint." —Manish Bhatt, SVP and Chief Digital Officer, MetLife "In a data-rich world, consumers demand that marketers turn data into highly relevant and personal experiences—'Don't talk with me as a member of a segment, talk with me about how you will meet my unique expectations and solve my unique problems.' For those of us who grew up in the marketing world of mass and broadcast, this is a tall order. Connected CRM helps marketers unpack customer centricity for their organizations, providing real insight into the development of a framework for enterprise customer centricity; a framework that promises true sustainable advantage." —Tom Lamb, CMO, Lowe's "Never before has customer data been more available, more necessary to build sales and loyalty, and more confusing to act on. David shows exactly what needs to be done. It's about time. And we should all thank him. A lot!" —Steve Cone, EVP of Integrated Value and Strategy, AARP "The marketers who truly learn to harness the power of customer analytics and big data will take the spoils in an increasingly digital age. Those who don't will quickly find themselves on a growing heap of failed marketing plans." —Paul Guyardo, Chief Revenue and Marketing Officer, DIRECTV

### **The Use of Force in UN Peace Operations** Trevor

Findlay, Stockholm International Peace Research Institute. 2002

One of the most vexing issues that has faced the international community since the end of the Cold War has been the use of force by the United Nations peacekeeping forces. UN intervention

in civil wars, as in Somalia, Bosnia and Herzegovina, and Rwanda, has thrown into stark relief the difficulty of peacekeepers operating in situations where consent to their presence and activities is fragile or incomplete and where there is little peace to keep. Complex questions arise in these circumstances. When and how should peacekeepers use force to protect themselves, to protect their mission, or, most troublingly, to ensure compliance by recalcitrant parties with peace accords? Is a peace enforcement role for peacekeepers possible or is this simply war by another name? Is there a grey zone between peacekeeping and peace enforcement? Trevor Findlay reveals the history of the use of force by UN peacekeepers from Sinai in the 1950s to Haiti in the 1990s. He untangles the arguments about the use of force in peace operations and sets these within the broader context of military doctrine and practice. Drawing on these insights the author examines proposals for future conduct of UN operations, including the formulation of UN peacekeeping doctrine and the establishment of a UN rapid reaction force.

**The Death of Economics** Paul Ormerod.1995 This text questions the abilities of the economists who influence political decisions on the economy. Ormerod aims to show that traditional economists view the world in a way which ensures they will never be able to understand it. He suggests that economies are not machines, but dynamic organisms.

**The Security Economy** OECD.2004-06-09 With the market for security goods and services having expanded rapidly since 9/11, this study examines the potential costs of major disruptions, the trade-offs between tighter security and economic efficiency, and the implications of tighter security for privacy and other democratic liberties.

*Terrorism and the International Business Environment* Gabriele G. S. Suder.2004-01-01 The volume reveals how the pre-9/11-era of contemporary economic history gave birth to a nexus of a) globalization b) increased systemic vulnerability and complexity

and c) the transitions of terrorism. As a result, the post-9/11-era is one which should incorporate risk analysis audits on a regular basis, political and geopolitical risk research, the use of quantitative risk assessment and qualitative risk analysis to implement risk strategy planning, its management and appropriate risk transfer considerations.

Business Writing Baden Eunson.2012-01-30 The ability the write well in professional situations is a much sought-after and all too rare skill. **Transparency in Nuclear Warheads and Materials** Nicholas Zarimpas.2003 These studies address the technical means and procedures for establishing transparency in nuclear warheads and materials in the nuclear weapons states.

*Globalizing Europe* Thomas L. Brewer,Paul Brenton,Gavin Boyd.2002-01-01 'The contributors to this volume are internationally recognised scholars in the field. The result is an extremely comprehensive and authoritative assessment of European integration, particularly from an economic-political perspective.' - Economic Outlook and Business Review Globalizing Europe examines the involvement of the European Union in the deepening integration that results as trade and transnational production link markets and economic systems across the world. This process is posing a unique challenge to European decision-makers to implement measures that will maximize the benefits

and reduce the costs of globalization.

**Executive Policing** Renata Dwan, Stockholm International Peace Research Institute. 2002 In this book seven authors examine the legal and political implications, the training of international police in a multinational and multicultural context, the use of community policing, the crucial issue of cooperation between the military and the civilian police components, and what has been learned about planning for the handover to local authority.

**Conflict Prevention** Andreas Wenger, Daniel Möckli. 2003 Offering a new perspective, the authors show how efforts to prevent violent civil wars could be much more effective if they incorporate the business sector.

**Europe 1992** Gary Clyde Hufbauer. 1990 This book explores the ramifications of the European Community's newly energized approach to competition policy, as well as examining the negotiating strategy that will best serve U.S. economic interests.

**Budgeting for the Military Sector in Africa** Wuyi

Omitoogun, Eboe Hutchful. 2006 In this comprehensive study, 15 African experts describe and analyse the military budgetary processes and degree of parliamentary oversight and control in nine countries of Africa, spanning across all the continent's sub-regions. Each case study addresses a wide range of questions, such as the roles of the ministries of finance, budget offices, audit departments and external actors in the military budgetary processes, the extent of compliance with standard public expenditure management procedures, and how well official military expenditure figures reflect the true economic resources devoted to military activities in these countries.

**The Sustainable Enterprise Fieldbook** Jeana

Wirtenberg, William Russell, David Lipsky. 2017-09-29 Today, managers and leaders of organizations, in both the private sector and civil society, are being challenged as never before to find ways to play a proactive role in addressing the concerns of sustainable development. But they are often overwhelmed by a

bombardment of conflicting messages from the media, shareholders, customers, employees, and NGOs. The Sustainable Enterprise Fieldbook helps managers deal with this confusion. It teaches them how to strike a better balance, moving from an either/or mind-set to one that holistically embraces social, environmental and economic issues simultaneously. It addresses the what (what is a sustainable strategy for a company or organization?) as well as the how (how do we go about building a sustainable enterprise?). The Sustainable Enterprise Fieldbook has been put together by an outstanding network of experts from business (Microsoft, Sony, Philips, and AIG), consultancies, and academia. Its aim is to teach and guide leaders, managers, practitioners, students, and professors in every sector of society, and in every industry, in creating a successful and sustainable enterprise. By making the steps needed clear, understandable, and simple to follow, the book naturally engages readers in their journey and encourages their participation in three key ways: by increasing their understanding and awareness of what sustainability means at a conceptual and practical, as well as a personal, level; by energizing and expanding people's commitment to building sustainable enterprises; and by providing readers with extensive tools and techniques so they can individually and collectively take actions that will improve the social, environmental, and economic performance of their organizations in both the short and long term. Each chapter of the book illustrates through models, tools, cases, stories, and examples from a wide range of companies how to integrate sustainability into the day-to-day realities of running a business. Managers are coached, facilitated, and guided to enable them to create a better balance between the short and long term, to help them to become change agents in their organizations and to provide answers to the question How do I make a difference? Some of the areas covered are leadership, strategy, managing change, employee engagement, metrics and measurement,

networks, and globalization. Readers of The Sustainable Enterprise Fieldbook will find access to the innovative Living Fieldbook, which is an online community support service providing ongoing updated assistance in building a sustainable enterprise. The Sustainable Enterprise Fieldbook offers an ingredient that has been missing in the enormous outpouring of information on organizations and sustainability: an holistic integration of solutions, which will make the journey personal for each reader.

Profiling The Fraudster Simon Padgett. 2014-12-31 Detect and combat corporate fraud with new profiling techniques Profiling the Fraudster: Removing the Mask to Prevent and Detect Fraud takes a step-by-step approach beyond the Fraud Triangle to identify characteristics in potential fraudsters, employees and new hires that will sound alarm bells before they get their hands on your organization's assets. The typical organization loses a staggering 5% of its annual revenue to fraud. Traditional fraud investigations focus on the breakdown of internal controls but what happens when the human beings forming a key component of that chain of control are inherently dishonest? This book shows you how to recognize the characteristics and behavioral patterns of potential fraudsters who are entrusted with safeguarding corporate assets. The book includes: An in-depth look at fraud investigation techniques and how these can be enhanced by using the characteristics of fraudulent behavior, A detailed look at profiling potential perpetrators of fraud, A detailed breakdown of how to compile a fraud profile, A discussion of a wide range of organizational fraud, including abuse of power, embezzlement, computer fraud, expense abuse, and more, Tables, illustrations, and diagrams to enhance the narrative If you're a corporate fraud investigator, auditor, forensic accountant, law enforcement professional, or anyone challenged with safeguarding your organizations assets—Profiling the Fraudster shows you how to remove the mask and prevent and detect fraud.

**Business and Security** Alyson J. K. Bailes, Isabel Frommelt. 2004 Bringing together a variety of experts in business, government and international organizations, this is a major new evaluation of the growing interdependence of the private and public sectors in tackling present-day security challenges.
