Dying in America Institute of Medicine, Committee on Approaching Death: Addressing Key End-of-Life Issues. 2015-03-19 For patients and their loved ones, no care decisions are more profound than those made near the end of life. Unfortunately, the experience of dying in the United States is often characterized by fragmented care, inadequate treatment of distressing symptoms, frequent transitions among care settings, and enormous care responsibilities for families. According to this report, the current health care system of rendering more intensive services than are necessary and desired by patients, and the lack of coordination among programs increases risks to patients and creates avoidable burdens on them and their families. Dying in America is a study of the current state of health care for persons of all ages who are nearing the end of life. Death is not a strictly medical event. Ideally, health care for those nearing the end of life harmonizes with social, psychological, and spiritual support. All people with advanced illnesses who may be approaching the end of life are entitled to access to high-quality, compassionate, evidence-based care, consistent with their wishes. Dying in America evaluates strategies to integrate care into a person- and family-centered, team-based framework, and makes recommendations to create a system that coordinates care and supports and respects the choices of patients and their families. The findings and recommendations of this report will address the needs of patients and their families and assist policy makers, clinicians and their educational and credentialing bodies, leaders of health care delivery and financing organizations, researchers, public and private funders, religious and community leaders, advocates of better care, journalists, and the public to provide the best care possible for people nearing the end of life.

Medical Terminology Online for the Language of Medicine (User Guide, Access Code and Textbook Package) Davi-Ellen Chabner.2007-04-02 Vibrational Waters. The Therapeutical Properties of Sacred Springs By Fabio Nocentini This book addresses in detail the subject of vibrational waters: waters that flow in locations of high energy and that can be used in a similar way to homeopathic and Bach flower remedies to promote mental and physical wellbeing. Some of them are also called Marian Waters or Holy Waters, when they originate in a place dedicated to the Catholic faith, yet they are all considered vibrational remedies in every respect, as they have specific energy frequencies. Available in many countries, these waters can be found in shrines or temples of various religions, but also in archaeological or naturalist sites: from Lourdes to the Japanese temple of Kibune, from Fatima and Santa Lucia to Machu Picchu, from the River Ganges and River Jordan to grottos and monasteries. 50 different waters have been studied, using techniques such as dowsing and kinesiological testing. Each water is accurately described in an individual Descriptive Profile, that contains a large amount of information on the curative properties of the water for emotional and mental problems, how it can improve the related physical disturbances, its special uses (for example, application on the body or purification of the environment), the meridians (Traditional Chinese Medicine) and chakras on which it acts and the analogy with Bach flower remedies. Other chapters are dedicated to the ways of using vibrational waters, the procedure to faithfully reproduce them and the methods adopted to discover their characteristics. The final chapter reports some Summarizing Tables to find the most appropriate waters in relation to different problems. LIST OF THE 50 WATERS PRESENTED IN THE E-BOOK: Banneux (Belgium), Boa Vontade (Brazil), Shrine of Caravaggio (Italy), Chalice Well (United Kingdom), Collevaenza (Italy), Delphi (Greece), Einsiedeln (Switzerland), Ephesus (Turkey), Fatima (Portugal), Fonte delle Fate (Italy), Gallinaro (Italy), River Ganges (India), Gibilmanna (Italy), River Jordan (Israel), Kibune (Japan), Saint Konrad (Germany), La Salette (France), Lichen (Poland), Loreto (Italy), Lourdes (France), Machu Picchu (Peru), Madonna del Sasso (Italy), Maranatha (USA), Maria SS. della Fontenova (Italy), Maria SS. dello Splendore (Italy), Medjugorje (Bosnia and Herzegovina), Montichiari (Italy), Notre-Dame du Folgoet (France), Notre-Dame de la Guerison (Italy), Omiwa (Japan), Oropa (Italy), Otto (Italy), Our Lady of Knock (Ireland), Shrine of Padre Pio (Italy), Sacro Speco (Italy), Saint Ann (USA), Saint Columba (United Kingdom), Saint Nectan (United Kingdom), Saint Paraskevi (USA), Saint-Sulpice (France), San Damiano (Italy), San Filippo Benizi (Italy), San Lazzaro degli Armeni (Italy), Santa Lucia (Italy), Santa Maria alla Fontana (Italy), Santa Maria de Guadalupe (Mexico), Santa Maria della Salute (Italy), Santa Maria in Via (Italy), Santiago de Compostela (Spain), Su Tempiesu (Italy).
