Godard On Godard Jean-luc Godard.1986-03-22 Jean-Luc Godard, like many of his European contemporaries, came to filmmaking through film criticism. This collection of essays and interviews, ranging from his early efforts for *La Gazette du Cinéma* to his later writings for *Cahiers du Cinéma*, reflects his dazzling intelligence, biting wit, maddening judgments, and complete unpredictability. In writing about Hitchcock, Welles, Bergman, Truffaut, Bresson, and Renoir, Godard is also writing about himself-his own experiments, obsessions, discoveries. This book offers evidence that he may be even more original as a thinker about film than as a director. Covering the period of 1950-1967, the years of *Breathless*, *A Woman Is a Woman*, *My Life to Live*, *Alphaville*, *La Chinoise*, and *Weekend*, this book of writings is an important document and a fascinating study of a vital stage in Godard's career. With commentary by Tom Milne and Richard Roud, and an extensive new foreword by Annette Michelson that reassesses Godard in light of his later films, here is an outrageous self-portrait by a director who, even now, continues to amaze and bedevil, and to chart new directions for cinema and for critical thought about its history.

Human Trafficking in Medieval Europe Christopher Paoletta.2020-08-25 Human trafficking has become a global concern over the last 20 years, but its violence has terrorized and traumatized its victims and survivors for millennia. This study examines the deep history of human trafficking from Late Antiquity to the Early Modern Period. It traces the evolution of trafficking patterns: the growth and decline of trafficking routes, the ever-changing relationships between traffickers and authorities, and it examines the underlying causes that lead to vulnerability and thus to exploitation. As the reader will discover, the conditions that lead to human trafficking in the modern world, such as poverty, attitudes of entitlement, corruption, and violence, have a long and storied past. When we understand that past, we can better anticipate human trafficking's future, and then we are better able to fight it.

Lives, Identities and Histories in the Central Middle Ages Julie Barrau,David Bates.2021-10-07 Offers a new take on the identities and life histories of medieval people, in their multi-layered and sometimes contradictory dimensions.

Leonard Cohen, the Modern Troubadour Jiří Měšic.2020-12-23 This monograph arose from thinking about the literary tradition as described by the Anglo-American modernist writers Ezra Pound and T. S. Eliot. In their view, the tradition of European love-lyrics crystallized in the work of the medieval Occitan troubadours, who represented the cultural and political milieu of the Occitanie of that period and whose work reflected the religious influences of Judaism, Christianity, and Islam. The main subject of their poetry was the worship of a divinized feminine character resembling the Virgin Mary, the Gnostic Sophia, or the ancient Mother Goddess. Their literary preoccupations further flourished in Tuscany, as well as among the German Minnesängers, and at the court of the Sicilian King Frederick II (1194-1250), from where they infiltrated into English literature during the Renaissance. In this period, Classical literature, in combination with troubadour poetry, became the cornerstone of English artistic production. However, it is not so well known that troubadour poetry took as its model the medieval poetry written in Andalusian Arabic. This enigmatic essence is what makes this literature so relevant as it is the first instance of the synthesizing of religions, mythologies, philosophies, literatures, symbols, and motifs coming from cultures other than our own. Nowadays, it is not surprising that contemporary artists draw on the troubadour poets and that they are even contrasted with them by critics. Such is the case of Leonard Cohen, who, during his career, revealed erudition in medieval poetry and religion and whose work shows many parallels with the work of his Occitan and Andalusian predecessors. For this reason, the book presents a comparison of the texts and motifs present in their works and refers to another important facet of their œuvre: religion and mysticism. The purpose is to highlight the importance of troubadour poetry in the rise of popular culture in the second half of the 20th century.

The Power of Character David Tjeder.2003 This is a study of continuity and change in middle-class conceptions of ideal manhood. The theoretical cues in this work are the notions of the male as an unproblematised and genderless norm, masculinity as homosocial, and George L. Mosse's use of counter

The Economics of Fantasy Sharon Stockton.2006 The author examines the evolution of the rape narrative in twentieth-century literature: What accounts for the persistence of the old story of male power and violence, and female passivity and penetrability? How has the story changed over the course of the twentieth century? She investigates the manner in which the violation of the female body serves as a metaphor for a synthesis of masculinity and political economy.

Man and His Symbols Carl G. Jung.2012-02-01 The landmark text about the inner workings of the unconscious mind—from the symbolism that unlocks the meaning of our dreams to their effect on our waking lives and artistic impulses—featuring more than a hundred images that break down Carl Jung's revolutionary ideas "What emerges with great clarity from the book is that Jung has done immense service both to psychology as a science and to our general understanding of man in society."—The Guardian "Our psyche is part of nature, and its enigma is limitless." Since our inception, humanity has looked to dreams for guidance. But what are they? How can we understand them? And how can we use them to shape our lives? There is perhaps no one more equipped to answer these questions than the legendary psychologist Carl G. Jung. It is in his life's work that the unconscious mind comes to be understood as an expansive, rich world just as vital and true a part of the mind as the conscious, and it is in our dreams—those personal, integral expressions of our deepest selves—that it communicates itself to us. A seminal text written explicitly for the general reader, *Man and His Symbols* is a guide to understanding the symbols in our dreams and using that knowledge to build fuller, more receptive lives. Full of fascinating case studies and examples pulled from philosophy, history, myth, fairy tales, and more, this groundbreaking work—profusely illustrated with hundreds of visual examples—offers invaluable insight into the symbols we dream that demand understanding, why we seek meaning at all, and how these very symbols affect our lives. By illuminating the means to examine our prejudices, interpret psychological meanings, break free of our influences, and recenter our individuality, *Man and His Symbols* proves to be—decades after its conception—a revelatory, absorbing, and relevant experience.

Malleus Maleficarum - The Witch Hammer James Sprenger,Heinrich Kramer.2016-11-30 The *Malleus Maleficarum* is a seminal treatise regarding witchcraft and demons, presented here complete with an authoritative translation to modern English by Montague Summers. At the time this book was published in 1487, the Christian church had considered witchcraft a dangerous affront to the faith for many centuries. Executions of suspected witches were intermittent, and various explanations of behaviors deemed suspect were thought to be caused by possession, either by the devil or demon such as an incubus or succubus. Kramer wrote this book after he had tried and failed to have a woman executed for witchcraft. Unhappy at the verdict of the court, he authored the *Malleus Maleficarum* as a manual for other witch seekers to refer to. For centuries the text was used by Christians as a reference source on matters of demonology, although it was not used directly by the Inquisition who became notorious for their tortures and murders. Contrary to popular supposition, Kramer's work does not exclusively recommend death by burning as a punishment for witches. It also describes various methods of exorcism, whereby the demonic force may be banished from the body of the suffering witch. However the book openly advocates discrimination against women, albeit while acknowledging that a minority of witchcraft practitioners are male. A theory on why the vast majority of witches are female is posited, rooted in the presence of woman in the Biblical canon; as with Eve, the wife of Adam, and Mary; the mother of Jesus Christ. By the end of the book, it is agreed that witches are created from a pact made with the Devil himself, with whom they engage in sexual liaisons. The witch is then summoned by flight to an evil assembly headed by

the Devil, encouraged to practice illicit forms of sex, and then granted the powers of maleficent magic. Decades after the initial publication, the name of James Sprenger was credited. Scholars disagree on whether he was a meaningful contributor who expanded the core text. Whatever the case may be, for its thoroughness the *Malleus Maleficarum* is the single most complete source on Christian attitudes to witchcraft and demons in existence. This translation to English by Montague Summers underwent revision and refinement over the years. This edition contains the original introductions, wherein the translator explains the process by which he strove for the greatest accuracy possible.

Célébrons Nos Réussites Féministes Karen Blackford, Marie-Luce Garceau, Sandra Kirby. 1999 Abuses by international corporations, withdrawal of social services and implementation of regressive legislation continue to impoverish women and reduce the quality of their everyday lives: women have reason to be demoralized. Recognizing this challenging and difficult situation, this volume reviews women's successes at feminizing Canadian institutions. It is intended to hearten the women's movement and show the potential for feminist change and suggest ways to realize this potential. Bilingual edition.

Adrienne Julien Green. 1991 In this reissue of Green's 1926 novel, his heroine has spent all of her life in the Villa des Charmes, a neurasthenic household dominated by her father, a wildly suspicious old man whose only concern is the sanctity of his daily routine, and her bitter older sister, who nurses both a chronic illness and a closely held secret.

The Unmaking of Fascist Aesthetics Kriss Ravetto. 2001 In works by filmmakers from Bertolucci to Spielberg, debauched images of Nazi and fascist eroticism, symbols of violence and immorality, often bear an uncanny resemblance to the images and symbols once used by the fascists themselves to demarcate racial, sexual, and political others. This book exposes the madness inherent in such a course, which attests to the impossibility of disengaging visual and rhetorical constructions from political, ideological, and moral codes. Kriss Ravetto argues that contemporary discourses using such devices actually continue unacknowledged rhetorical, moral, and visual analogies of the past. Against postwar fictional and historical accounts of World War II in which generic images of evil characterize the Nazi and the fascist, Ravetto sets the more complex approach of such filmmakers as Pier Paolo Pasolini, Liliana Cavani, and Lina Wertmüller. Her book asks us to think deeply about what it means to say that we have conquered fascism, when the aesthetics of fascism still describe and determine how we look at political figures and global events. Invention of Hysteria Georges Didi-Huberman. 2004-09-17 The first English-language publication of a classic French book on the relationship between the development of photography and of the medical category of hysteria. In this classic of French cultural studies, Georges Didi-Huberman traces the intimate and reciprocal relationship between the disciplines of psychiatry and photography in the late nineteenth century. Focusing on the immense photographic output of the Salpêtrière hospital, the notorious Parisian asylum for insane and incurable women, Didi-Huberman shows the crucial role played by photography in the invention of the category of hysteria. Under the direction of the medical teacher and clinician Jean-Martin Charcot, the inmates of Salpêtrière identified as hysterics were methodically photographed, providing skeptical colleagues with visual proof of hysteria's specific form. These images, many of which appear in this book, provided the materials for the multivolume album *Iconographie photographique de la Salpêtrière*. As Didi-Huberman shows, these photographs were far from simply objective documentation. The subjects were required to portray their hysterical type—they performed their own hysteria. Bribed by the special status they enjoyed in the purgatory of experimentation and threatened with transfer back to the inferno of the incurables, the women patiently posed for the photographs and submitted to presentations of hysterical attacks before the crowds that gathered for Charcot's Tuesday Lectures. Charcot did not stop at voyeuristic observation. Through techniques such as hypnosis, electroshock

therapy, and genital manipulation, he instigated the hysterical symptoms in his patients, eventually giving rise to hatred and resistance on their part. Didi-Huberman follows this path from complicity to antipathy in one of Charcot's favorite cases, that of Augustine, whose image crops up again and again in the *Iconographie*. Augustine's virtuosic performance of hysteria ultimately became one of self-sacrifice, seen in pictures of ecstasy, crucifixion, and silent cries.

Postdramatic Theatre Hans-Thies Lehmann.2006-09-27 Newly adapted for the Anglophone reader, this is an excellent translation of Hans-Thies Lehmann's groundbreaking study of the new theatre forms that have developed since the late 1960s, which has become a key reference point in international discussions of contemporary theatre. In looking at the developments since the late 1960s, Lehmann considers them in relation to dramatic theory and theatre history, as an inventive response to the emergence of new technologies, and as an historical shift from a text-based culture to a new media age of image and sound. Engaging with theoreticians of 'drama' from Aristotle and Brecht, to Barthes and Schechner, the book analyzes the work of recent experimental theatre practitioners such as Robert Wilson, Tadeusz Kantor, Heiner Müller, the Wooster Group, Needcompany and Societas Raffaello Sanzio. Illustrated by a wealth of practical examples, and with an introduction by Karen Jürs-Munby providing useful theoretical and artistic contexts for the book, *Postdramatic Theatre* is an historical survey expertly combined with a unique theoretical approach which guides the reader through this new theatre landscape.

The Female Thermometer Terry Castle.1995 A collection of the author's essays on the history and development of female identity from the 18th to the early 20th centuries. Genette illustrates the examples by referring to other literary works. His systemic theory of narrative deals with the structure of fiction, including fictional devices that go unnoticed and whose implications fulfill the Western narrative tradition.

The Optical Unconscious Rosalind E. Krauss.1994-07-25 *The Optical Unconscious* is a pointed protest against the official story of modernism and against the critical tradition that attempted to define modern art according to certain sacred commandments and self-fulfilling truths. The account of modernism presented here challenges the vaunted principle of vision itself. And it is a very different story than we have ever read, not only because its insurgent plot and characters rise from below the calm surface of the known and law-like field of modernist painting, but because the voice is unlike anything we have heard before. Just as the artists of the optical unconscious assaulted the idea of autonomy and visual mastery, Rosalind Krauss abandons the historian's voice of objective detachment and forges a new style of writing in this book: art history that insinuates diary and art theory, and that has the gait and tone of fiction. *The Optical Unconscious* will be deeply vexing to modernism's standard-bearers, and to readers who have accepted the foundational principles on which their aesthetic is based. Krauss also gives us the story that Alfred Barr, Meyer Shapiro, and Clement Greenberg repressed, the story of a small, disparate group of artists who defied modernism's most cherished self-descriptions, giving rise to an unruly, disruptive force that persistently haunted the field of modernism from the 1920s to the 1950s and continues to disrupt it today. In order to understand why modernism had to repress the optical unconscious, Krauss eavesdrops on Roger Fry in the salons of Bloomsbury, and spies on the toddler John Ruskin as he amuses himself with the patterns of a rug; we find her in the living room of Clement Greenberg as he

complains about smart Jewish girls with their typewriters in the 1960s, and in colloquy with Michael Fried about Frank Stella's love of baseball. Along the way, there are also narrative encounters with Freud, Jacques Lacan, Georges Bataille, Roger Caillois, Gilles Deleuze, and Jean-François Lyotard. To embody this optical unconscious, Krauss turns to the pages of Max Ernst's collage novels, to Marcel Duchamp's hypnotic Rotoreliefs, to Eva Hesse's luminous sculptures, and to Cy Twombly's, Andy Warhol's, and Robert Morris's scandalous decoding of Jackson Pollock's drip pictures as Anti-Form. These artists introduced a new set of values into the field of twentieth-century art, offering ready-made images of obsessional fantasy in place of modernism's intentionality and unexamined compulsions.

An Anglo-Norman Reader Jane Bliss.2018-02-08 This book is an anthology with a difference. It presents a distinctive variety of Anglo-Norman works, beginning in the twelfth century and ending in the nineteenth, covering a broad range of genres and writers, introduced in a lively and thought-provoking way. Facing-page translations, into accessible and engaging modern English, are provided throughout, bringing these texts to life for a contemporary audience. The collection offers a selection of fascinating passages, and whole texts, many of which are not anthologised or translated anywhere else. It explores little-known byways of Arthurian legend and stories of real-life crime and punishment; women's voices tell history, write letters, berate pagans; advice is offered on how to win friends and influence people, how to cure people's ailments and how to keep clear of the law; and stories from the Bible are retold with commentary, together with guidance on prayer and confession. Each text is introduced and elucidated with notes and full references, and the material is divided into three main sections: Story (a variety of narrative forms), Miscellany (including letters, law and medicine, and other non-fiction), and Religious (saints' lives, sermons, Bible commentary, and prayers). Passages in one genre have been chosen so as to reflect themes or stories that appear in another, so that the book can be enjoyed as a collection or used as a resource to dip into for selected texts. This anthology is essential reading for students and scholars of Anglo-Norman and medieval literature and culture. Wide-ranging and fully referenced, it can be used as a springboard for further study or relished in its own right by readers interested to discover Anglo-Norman literature that was written to amuse, instruct, entertain, or admonish medieval audiences.

The Violence of Modernity Debarati Sanyal.2020-03-03 The Violence of Modernity turns to Charles Baudelaire, one of the most canonical figures of literary modernism, in order to reclaim an aesthetic legacy for ethical inquiry and historical critique. Works of modern literature are commonly theorized as symptomatic responses to the trauma of history. In a climate that tends to privilege crisis over critique, Debarati Sanyal argues that it is urgent to rethink literary experience in terms that recall its contestatory potential. Examining Baudelaire's poems afresh, she shifts the focus of critical attention toward an account of modernism as an active engagement with violence, specifically the violence of history in nineteenth-century France. Sanyal analyzes a literary current that uses the traditional hallmarks of modernism—irony, intertextuality, self-reflexivity, and formalism—to challenge the historical violence of modernity. Baudelaire and the committed ironists writing in his wake teach us how to read and resist the violence of history, and thereby to challenge the melancholy tenor of our contemporary wound culture. In a series of provocative readings, Sanyal presents Baudelaire's poetry as an aesthetic form that contests historical violence through rhetorical strategies of complicity, counterviolence, and critique. The book develops a new account of Baudelaire's significance as a modernist by dislodging him both from his traditional status as a practitioner of art for art's sake and from his more recent incarnation as the poet of trauma. Following her extended analysis of Baudelaire's poetry, Sanyal in later chapters considers a number of authors influenced by his strategies—including Rachilde, Virginie Despentes, Albert Camus, and

Jean-Paul Sartre—to examine the relevance of their interventions for our current climate of trauma and terror. The result is a study that underscores how Baudelaire's legacy continues to energize literary engagements with the violence of modernity.

The Sword of Judith Kevin R. Brine,Elena Ciletti,Henrike Lähnemann.2010 The Book of Judith tells the story of a fictitious Jewish woman beheading the general of the most powerful imaginable army to free her people. The parabolic story was set as an example of how God will help the righteous. Judith's heroic action not only became a validating charter myth of Judaism itself but has also been appropriated by many Christian and secular groupings, and has been an inspiration for numerous literary texts and works of art. It continues to exercise its power over artists, authors and academics and is becoming a major field of research in its own right. The Sword of Judith is the first multidisciplinary collection of essays to discuss representations of Judith throughout the centuries. It transforms our understanding across a wide range of disciplines. The collection includes new archival source studies, the translation of unpublished manuscripts, the translation of texts unavailable in English, and Judith images and music.

Stigmata Hélène Cixous.2002-01-31 Hélène Cixous -- author, playwright and French feminist theorist -- is a key figure in twentieth-century literary theory. *Stigmata* brings together her most recent essays for the first time. Acclaimed for her intricate and challenging writing style, Cixous presents a collection of texts that get away -- escaping the reader, the writers, the book. Cixous's writing pursues authors such as Stendhal, Joyce, Derrida, and Rembrandt, da Vinci, Picasso -- works that share an elusive movement in spite of striking differences. Along the way these essays explore a broad range of poético-philosophical questions that have become characteristic of Cixous' work: * love's labours lost and found * feminine hours * autobiographies of writing * the prehistory of the work of art *Stigmata* goes beyond theory, becoming an extraordinary writer's testimony to our lives and times.

The Originality of the Avant-Garde and Other Modernist Myths Rosalind E. Krauss.1986-07-09 Co-founder and co-editor of *October* magazine, a veteran of *Artforum* of the 1960s and early 1970s, Rosalind Krauss has presided over and shared in the major formulation of the theory of postmodernism. In this challenging collection of fifteen essays, most of which originally appeared in *October*, she explores the ways in which the break in style that produced postmodernism has forced a change in our various understandings of twentieth-century art, beginning with the almost mythic idea of the avant-garde. Krauss uses the analytical tools of semiology, structuralism, and poststructuralism to reveal new meanings in the visual arts and to critique the way other prominent practitioners of art and literary history write about art. In two sections, *Modernist Myths* and *Toward Postmodernism*, her essays range from the problem of the grid in painting and the unity of Giacometti's sculpture to the works of Jackson Pollock, Sol Lewitt, and Richard Serra, and observations about major trends in contemporary literary criticism.

Cahiers Du Cinéma, the 1950s Jim Hillier.1985 The *Cahiers du Cinéma* has played a major role in establishing film theory and criticism as an essential part of the late 20th century culture. This volume contains articles from the 1950s.

The Virtual Community, revised edition Howard Rheingold.2000-10-23 Howard Rheingold tours the virtual community of online networking. Howard Rheingold has been called the First Citizen of the Internet. In this book he tours the virtual community of online networking. He describes a community that is as real and as much a mixed bag as any physical community—one where people talk, argue, seek information, organize politically, fall in love, and dupe others. At the same time that

he tells moving stories about people who have received online emotional support during devastating illnesses, he acknowledges a darker side to people's behavior in cyberspace. Indeed, contends Rheingold, people relate to each other online much the same as they do in physical communities. Originally published in 1993, *The Virtual Community* is more timely than ever. This edition contains a new chapter, in which the author revisits his ideas about online social communication now that so much more of the world's population is wired. It also contains an extended bibliography.

Bachelors Rosalind E. Krauss.2000-08-25 These essays on nine women artists are framed by the question, born of feminism, What evaluative criteria can be applied to women's art? Since the 1970s Rosalind Krauss has been exploring the art of painters, sculptors, and photographers, examining the intersection of these artists concerns with the major currents of postwar visual culture: the question of the commodity, the status of the subject, issues of representation and abstraction, and the viability of individual media. These essays on nine women artists are framed by the question, born of feminism, What evaluative criteria can be applied to women's art? In the case of surrealism, in particular, some have claimed that surrealist women artists must either redraw the lines of their practice or participate in the movement's misogyny. Krauss resists that claim, for these bachelors are artists whose expressive strategies challenge the very ideals of unity and mastery identified with masculinist aesthetics. Some of this work, such as the part object (Louise Bourgeois) or the formless (Cindy Sherman) could be said to find its power in strategies associated with such concepts as *écriture féminine*. In the work of Agnes Martin, Eva Hesse, or Sherrie Levine, one can make the case that the power of the work can be revealed only by recourse to another type of logic altogether. *Bachelors* attempts to do justice to these and other artists (Claude Cahun, Dora Maar, Louise Lawler, Francesca Woodman) in the terms their works demand.

Critical Terrains Lisa Lowe.2018-03-15 Examining and historicizing the concept of otherness in both literature and criticism, Lisa Lowe explores representations of non-European cultures in British and French writings from the eighteenth through the twentieth century. Lowe traces the intersections of culture, class, and sexuality in Lady Mary Wortley Montagu's *Turkish Embassy Letters* and Montesquieu's *Lettres persanes* and discusses tropes of orientalism, racialism, and romanticism in Flaubert. She then turns to debates in Anglo-American and Indian criticism on Forster's *Passage to India* and on the utopian projection of China in the poststructuralist theories of Julia Kristeva and Roland Barthes and in the journal *Tel Quel*.

Dressing Modern Frenchwomen Mary Lynn Stewart.2020-03-03 At a glance, high fashion and feminism seem unlikely partners. Between the First and Second World Wars, however, these forces combined femininity and modernity to create the new, modern French woman. In this engaging study, Mary Lynn Stewart reveals the fashion industry as an integral part of women's transition into modernity. Analyzing what female columnists in fashion magazines and popular women novelists wrote about the new silhouette, Stewart shows how bourgeois women feminized the more severe, masculine images that elite designers promoted to create a hybrid form of modern that both emancipated women and celebrated their femininity. She delves into the intricacies of marketing the new clothes and the new image to middle-class women and examines the nuts and bolts of a changing industry—including textile production, relationships between suppliers and department stores, and privacy and intellectual property issues surrounding ready-to-wear couture designs. *Dressing Modern Frenchwomen* draws from thousands of magazine covers, advertisements, fashion columns, and features to uncover and untangle the fascinating relationships among the fashion industry, the development of modern marketing techniques, and the evolution of the modern woman as active, mobile, and liberated.

The Cambridge History of Medieval Music Mark Everist, Thomas Forrest Kelly.2018-08-09 Spanning a millennium of musical history, this monumental volume brings together nearly forty leading authorities to survey the music of Western Europe in the Middle Ages. All of the major aspects of

medieval music are considered, making use of the latest research and thinking to discuss everything from the earliest genres of chant, through the music of the liturgy, to the riches of the vernacular song of the trouvères and troubadours. Alongside this account of the core repertory of monophony, *The Cambridge History of Medieval Music* tells the story of the birth of polyphonic music, and studies the genres of organum, conductus, motet and polyphonic song. Key composers of the period are introduced, such as Leoninus, Perotinus, Adam de la Halle, Philippe de Vitry and Guillaume de Machaut, and other chapters examine topics ranging from musical theory and performance to institutions, culture and collections.
