Perchance to DREAM Michael A. Olivas, Bill Richardson. 2019-01-08 The first comprehensive history of the DREAM Act and Deferred Action for Childhood Arrivals (DACA). In 1982, the Supreme Court of the United States ruled in *Plyler v. Doe* that undocumented children had the right to attend public schools without charge or impediment, regardless of their immigration status. The ruling raised a question: what if undocumented students, after graduating from the public school system, wanted to attend college? *Perchance to DREAM* is the first comprehensive history of the DREAM Act, which made its initial congressional appearance in 2001, and Deferred Action for Childhood Arrivals (DACA), the discretionary program established by President Obama in 2012 out of Congressional failure to enact comprehensive immigration reform. Michael A. Olivas relates the history of the DREAM Act and DACA over the course of two decades. With the Trump Administration challenging the legality of DACA and pursuing its elimination in 2017, the fate of DACA is uncertain. *Perchance to DREAM* follows the political participation of DREAMers, who have been taken hostage as pawns in a cruel game as the White House continues to advocate anti-immigrant policies. *Perchance to DREAM* brings to light the many twists and turns that the legislation has taken, suggests why it has not gained the required traction, and offers hopeful pathways that could turn this darkness to dawn.

Social Pathways to Health Vulnerability Dula F. Pacquiao, Marilyn "Marty" Douglas. 2018-11-30 Primarily intended for DNP and PhD students in nursing and health care who are expected to design research to identify health-related problems and solutions, this book focuses on the concepts, theories and processes of how social determinants affect the health of populations. Using specific social determinants as an organizing framework, it presents ample scientific evidence from health and social disciplines of the universal processes that produce the social patterning of health inequities. This book is organized into three major parts, beginning with the social pathways to health vulnerability, followed by research methods and subsequently frameworks for action. The methods section provides selected research approaches suitable for studying the impact of social variables on population health, as well as the outcomes of multilevel interventions. Each chapter provides an in-depth presentation of relevant theoretical knowledge and research-based examples of work conducted in the area. The book addresses the specific implications for health professional leaders such as nurses or health policy makers, highlighting their role in achieving macrosocial changes to promote health among specific vulnerable populations. Both of the book's editors are prominent and highly respected scholars in their field. The team of authors is highly multidisciplinary, including experts from the fields of medicine, public health, education and epidemiology who have conducted research on the social determinants of population health. Combining their varied perspectives, this book offers a valuable resource for graduate students (PhD, MD, DNP, MSN, etc.), faculty, researchers and clinicians in health professions.

Housing the Poor on the African Continent Mfundo Mandla Masuku, Oliver Mtapuri, Primrose Thandekile Sabela, Nomusa M. Mlondo. 2022-10-13 This book explores the circumstances surrounding state-provided, low-cost housing for people at the lower end of the housing market in Africa. It deploys Ubuntu philosophy to unpack the provision of housing security to citizens, arguing that interpreting housing rights within Ubuntu philosophy recognises the spirit of reciprocity and collective solidarity as fundamental to meeting the housing needs of low-income groups. In essence, the volume reflects on the values of Ubuntu and informs both policy and practice by guiding policymakers, researchers, and practitioners with the episteme of basic human rights and the Ubuntu philosophy. It pointedly grapples with issues that resonate with efforts by African governments to protect vulnerable citizens from multidimensional poverty, homelessness, gender-neutral policies, and self-help housing schemes. The book's insights raise red flags concerning the realisation of Ubuntu as a vehicle earmarked to deliver adequate and sustainable housing delivery outcomes. The volume is a must-read for academics, researchers, practitioners, government officials, and leaders from various sectors.

Singapore's Multiculturalism Chan Heng Chee, Sharon Siddique. 2019-03-15 Since independence in 1965, Singapore has developed its own unique approach to managing the diversity of Race, Religion, Culture, Language, Nationality, and Age among its citizens. This approach is a consequence of many factors, including its very distinct ethnic makeup compared with its neighbours, its ambitions as a globally oriented city-state, and its small physical size. Each of these factors and many others have presented Singapore society with a range of challenges and opportunities, and will in all likelihood continue to do so for the foreseeable future. In the writing of this book, the author team set themselves the task of projecting the impact of current domestic and international social trends into the future, to anticipate what Singapore society might look like by around 2040. In doing so, they analyse the particular path that Singapore has taken since independence, in comparison with other multicultural societies and with regard to the balance between the necessity of forging a new national identity after British rule and departure from Malaysia, and the need to ensure that Singapore's ethnic minority populations remain socially enfranchised. They further consider how current trends may develop over the next couple of decades, what new challenges this may present to Singapore society, and what might be the likely responses to such challenges. In this book, Singapore is a case study of a global city facing the challenges of developed-world modernity in frequently acute ways.

Antimicrobial Activity of Nanoparticles Gregory Guisbiers. 2022-08-30 Antimicrobial Activity of Nanoparticles: Applications in Wound Healing and Infection Treatment presents the state of the art among nanotechnological approaches used in the treatment of infections. This field has gained a large amount of interest over the past few years, in response to the increasing resistance of pathogens to antibiotics. Leading researchers from around the world discuss the synthesis routes of nanobiomaterials, characterization, and their applications as antimicrobial agents. The book covers various aspects: from antiviral and antibacterial nanoparticles, to the functionalization of nanoparticles and their toxicity to human cells. This book offers an advanced reference text for biomedical engineers, materials scientists, clinicians, and biochemists, with an interest in nanomedicine and infection control. Provides a targeted nanomaterial-based focus in antimicrobial medicine, bridging the gap between biological, clinical, and materials science disciplines Describes the synthesis and characterization of nanoparticles for infection and wound healing, including chemical routes, biological routes, and physical routes Covers each microbial subgroup and associated antimicrobial nanoparticles in individual, digestible sections

Antiviral and Antimicrobial Coatings Based on Functionalized Nanomaterials Shahid Ul Islam,Chaudhery Mustansar Hussain,Sudheesh K. Shukla.2023-06-15 Antiviral and Antimicrobial Coatings Based on Functionalized Nanomaterials: Design, Applications, and Devices is the first book on functionalized nanoparticles-based coatings that encompasses the majority of aspects of antimicrobial and antiviral coatings. The use of functionalized nanoparticles has revolutionized all fields of science and engineering, and this book provides the reader with a fundamental, interdisciplinary look at this emerging field. It focuses on the most advanced coating systems being utilized by various industries including a discussion of the current challenges to be considered during manufacturing. This book provides both academics and those working in industry with a broad-based introduction to the area of modern antimicrobial coatings practices. Describes functionalized nanoparticles-based antimicrobial and antiviral coatings utilized in modern industrial platforms Evaluates functionalized nanoparticles-based antimicrobial and antiviral coatings as prime options for sustainable and transformational opportunities Serves as a reference for scientists and engineers who are searching for modern design techniques for antimicrobial and antiviral coatings systems

Job interview questions and answers for hiring on Offshore Oil and Gas Rigs Petrogav International.2020-01-11 Petrogav International provides courses for participants that intend to work on offshore drilling and production platforms. Faith Communities and the Fight for Racial Justice Robert Wuthnow.2023-11-14 The work for racial justice in the U.S. in the decades after the high-water mark of the Civil Rights movement is a significant yet too often neglected chapter of American religious history- a chapter overshadowed to a great extent by the Religious Right, which has gotten much more scholarly attention. For decades, little known faith leaders across the U.S. did what they could to create fair and affordable housing, contribute to community development, advocate for affirmative action, protest racial profiling, and mobilize voter registration. Many of these leaders were affiliated with mainstream majority-White Protestant denominations, Black denominations, Roman Catholic groups, and Jewish organizations. Many of the Protestants were African Methodist Episcopal, Baptist, Lutheran, Methodist, Presbyterian, or United Church of Christ. Some were Brethren, Disciples of Christ, Mennonites, Moravians, or Quakers. The leaders often formed coalitions of faith-based and nonsectarian organizations. The focus of Wuthnow's new book will be on local, unsung struggles for racial justice-- happening in response to local events, led by local clergy, and drawing on local networks. This was advocacy work that wasn't covered by national or international news media, and the achievements of these struggles were often small (rather than sweeping and dramatic). These struggles will be covered in a series of thematic chapters; one chapter on concerted action by faith groups & leaders in particular U.S. communities for fair, affordable, desegregated housing; another chapter on affirmative action and busing; a third on efforts to advocate for policy reform and for the end of racial profiling, etc. Wuthnow will discuss the systematic racism that these racial justice advocates confronted -- racism that's thoroughly ingrained in institutional structures, and that has proven to be impervious to strategies that involve personal approaches to sensitizing hearts and minds to the evils of racism. Wuthnow argues that this historical record provides lessons for contemporary racial justice warriors working either within or outside of faith communities. Progressive religious groups have been most effective in supporting civil rights efforts when they're focused on very specific tasks -- e.g. voting rights, gerrymandering, discrimination in hiring, inequality on the job, and lack of access to equal opportunity in education -- and when they organize strategically, form coalitions, use the right kinds of knowledge and expertise, and adapt to new situations--

The Routledge Handbook of Planning Megacities in the Global South Deden Rukmana.2020-06-04 Cities are now home to 55% of the world's population, and that number is rising. Urban populations across the world will continue to grow, including in megacities with populations over ten million. In 2016 there were 31 megacities globally, according to the United Nations' World Cities Report, with 24 of those cities located in the Global South. That number is expected to rise to 41 by 2030, with all ten new megacities in the Global South where the processes of urbanization are intrinsically distinct from those in the Global North. The Routledge Handbook of Planning Megacities in the Global South provides rigorous comparative analyses, discussing the challenges, processes, best practices, and initiatives of urbanization in Middle America, South America, the Middle East, Africa, South Asia, East Asia, and Southeast Asia. This book is indispensable reading for students and scholars of urban planning, and its significance as a resource will only continue to grow as urbanization reshapes the global population.

Geographies of Development Robert Potter,Tony Binns,Jennifer A. Elliott,Etienne Nel,David W. Smith.2019-03-07 Now in its fourth edition, *Geographies of Development: An Introduction to Development Studies* remains a core, balanced and comprehensive introductory textbook for students of Development Studies, Development Geography and related fields. This clear and concise text encourages critical engagement by integrating theory alongside practice and related key topics throughout. It demonstrates informatively that ideas concerning development have been many and varied and highly contested - varying from time to time and from place to place. Clearly written and accessible for students, who have no prior knowledge of development, the book provides the basics in terms of a geographical approach to development what situation is, where, when and why. Over 200 maps, charts, tables, textboxes and pictures break up the text and offer alternative ways of showing the information. The text is further enhanced by a range of pedagogical features: chapter outlines, case studies, key thinkers, critical reflections, key points and summaries, discussion topics and further reading. *Geographies of Development* continues to be an invaluable introductory text not only for geography students, but also anyone in area studies, international studies and development studies.

Handbook of Research on Managing the Urban-Rural Divide Through an Inclusive Framework Popoola, Ayobami Abayomi,Magidimisha-Chipungu, Hangwelani Hope,Chipungu, Lovemore.2023-02-10 In recent years, the growing disparities between rural and urban areas in developing countries have been a cause of major concern. The rural-urban gap remains the single most well-documented development and welfare disparity in the developing world. This gap can be seen in the low economic activities, higher poverty levels, and lower quality infrastructure and services in rural

areas as opposed to urban areas. While the magnitude of this rural-urban divide is well-documented, very little has been documented about its impact on inclusive and sustainable urban development. The Handbook of Research on Managing the Urban-Rural Divide Through an Inclusive Framework aims to capture the spatial and socio-economic divide between rural and urban areas and provides a road map to revamping the discussion that surrounds the urban-rural sphere. Covering key topics such as development, food security, and rural regions, this premier reference source is ideal for policymakers, government officials, industry professionals, researchers, academicians, practitioners, scholars, instructors, and students.

Green Techniques for Organic Synthesis and Medicinal Chemistry Wei Zhang, Berkeley W. Cue. 2018-03-19 An updated overview of the rapidly developing field of green techniques for organic synthesis and medicinal chemistry Green chemistry remains a high priority in modern organic synthesis and pharmaceutical R&D, with important environmental and economic implications. This book presents comprehensive coverage of green chemistry techniques for organic and medicinal chemistry applications, summarizing the available new technologies, analyzing each technique's features and green chemistry characteristics, and providing examples to demonstrate applications for green organic synthesis and medicinal chemistry. The extensively revised edition of Green Techniques for Organic Synthesis and Medicinal Chemistry includes 7 entirely new chapters on topics including green chemistry and innovation, green chemistry metrics, green chemistry and biological drugs, and the business case for green chemistry in the generic pharmaceutical industry. It is divided into 4 parts. The first part introduces readers to the concepts of green chemistry and green engineering, global environmental regulations, green analytical chemistry, green solvents, and green chemistry metrics. The other three sections cover green catalysis, green synthetic techniques, and green techniques and strategies in the pharmaceutical industry. Includes more than 30% new and updated material—plus seven brand new chapters Edited by highly regarded experts in the field (Berkeley Cue is one of the fathers of Green Chemistry in Pharma) with backgrounds in academia and industry Brings together a team of international authors from academia, industry, government agencies, and consultancies (including John Warner, one of the founders of the field of Green Chemistry) Green Techniques for Organic Synthesis and Medicinal Chemistry, Second Edition is an essential resource on green chemistry technologies for academic researchers, R&D professionals, and students working in organic chemistry and medicinal chemistry.

Managing for Social Impact Mary J. Cronin, Tiziana C. Dearing. 2017-02-09 This book presents innovative strategies for sustainable, socially responsible enterprise management from leading thinkers in the fields of corporate citizenship, nonprofit management, social entrepreneurship, impact investing, community-based economic development and urban design. The book's integration of research and practitioner perspectives with focused best practice examples offers an in-depth, balanced analysis, providing new insights into the social issues that are most relevant to organizational stakeholders. This integrated focus on sustainable social innovation differentiates the book from academic research monographs on stakeholder theory and practitioner guides to managing traditional Corporate Social Responsibility (CSR) programs. Managing for Social Impact features 15 contributed chapters written by thought leaders, industry analysts, and managers of global and local organizations who are engaged with innovative models of sustainable social impact. The editors also provide a substantive introductory chapter describing a new strategic framework for enhancing the Return on Social Innovation (ROSI) through four pillars of social change: Open Circles, Focused Purpose Sharing, Mutuality of Success, and a Persistent Change Perspective.

Recent Developments in Electrical and Electronics Engineering Poonam Singhal, Sakshi Kalra, Bhim Singh, R. C. Bansal. 2023-04-28 This book contains cutting-edge research content presented by researchers, engineers, developers, and practitioners from academia and industry at the International Conference on Recent Developments in Electrical and Electronics Engineering (ICRDEEE 2022). The materials in the book include theory and applications for different areas of Electrical and Electronics Engineering. The topics covered include power systems and protection, energy, electric

vehicles, smart grid, semiconductor technologies, electrical machines and drives, control systems with artificial intelligence, etc. The content is useful for researchers, professionals, and academicians in understanding current research trends, findings, and future scope of research in electrical and electronics engineering models.

Xenophobia and Nativism in Africa, Latin America, and the Caribbean Sabella O. Abidde, Michael R. Hall, José de Arimatéia da Cruz. 2023-07-31 This book historicises and analyses the increasing incidence of xenophobia and nativism in Africa, Latin America, and the Caribbean. It examines how xenophobia and nativism impact the political cohesion and social fabric of states and societies in the regions and offers solutions to aid policy formation and implementation. Rather than utilising an overarching framework, individual theory is applied to chapters to analyse the diverse connections between xenophobia and nativism in the regions. The book explores the economic, nationalistic, political, social, cultural, and psychological triggers for xenophobia and nativism and their impact on an increasingly interconnected and interrelated world. In addition to the individual and comparative examination of these triggers, the book outlines how they can be decreased or altered and argues that Pan-Africanism and the unity of purpose among diverse groups in the western hemisphere is still an ideal to which Africa, Latin America, and the Caribbean can aspire. This book will be of interest to academics in the field of African history, African Studies, Caribbean and Latin American studies, cultural anthropology and comparative sociology.

Handbook of Environmental Psychology and Quality of Life Research Ghazlane Fleury-Bahi, Enric Pol, Oscar Navarro. 2016-08-12 This Handbook presents a broad overview of the current research carried out in environmental psychology which puts into perspective quality of life and relationships with living spaces, and shows how this original analytical framework can be used to understand different environmental and societal issues. Adopting an original approach, this Handbook focuses on the links with other specialties in psychology, especially social and health psychology, together with other disciplines such as geography, architecture, sociology, anthropology, urbanism and engineering. Faced with the problems of society which involve the quality of life of individuals and communities, it is fundamental to consider the relationships an individual has with his different living spaces. This issue of the links between quality of life and environment is becoming increasingly significant with, at a local level, problems resulting from different types of annoyances, such as pollution and noise, while, at a global level, there is the central question of climate change with its harmful consequences for humans and the planet. How can the impact on well-being of environmental nuisances and threats (for example, natural risks, pollution, and noise) be reduced? How can the quality of life within daily living spaces (home, cities, work environments) be improved? Why is it important to understand the psychological issues of our relationship with the global environment (climatic warming, ecological behaviours)? This Handbook is intended not only for students of various disciplines (geography, architecture, psychology, town planning, etc.) but also for social decision-makers and players who will find in it both theoretical and methodological perspectives, so that psychological and environmental dimensions can be better taken into account in their working practices.

Renewable Energy and Sustainability Imran Khan. 2022-06-22 Renewable Electricity and Sustainability: Prospects in Developing Economies is the first book of its kind to be dedicated entirely to the needs of emerging economies. It provides readers with a comprehensive review of current renewable energy technologies, their status in emerging economies, and the potential for sustainable renewable electricity generation in those countries. A multidisciplinary approach is used to assess the needs and challenges of each region, which is supported by quantitative analyses of the current and future potential for renewable electricity generation. Real-world examples are also provided from the respective electricity sectors of

each region. This resource is a unique reference for graduates and researchers on the social, technical and economic landscape of renewable energy in emerging economies and would also be useful to NGO's and policymakers in developing countries or those working in sustainable development. Focuses specifically on the renewable energy and sustainability needs of developing economies Explores the renewable energy potential of developing countries and how this can be converted to sustainable electricity generation, supported by quantitative analyses and real-world case studies Addresses energy efficiency, energy management and the socioeconomic aspects of renewable electricity generation in developing countries, in addition to each renewable energy resource

Austerity Bites Mary O'Hara.2015-04-16 Since taking power in 2010, the Coalition Government in the United Kingdom has pushed through a drastic program of cuts to public spending, all in the name of austerity. The effects on large segments of the population, dependent on programs whose funding was slashed, have been devastating and will continue to be felt for generations. This timely book by journalist Mary O'Hara chronicles the real-world effects of austerity, removing it from the bland, technocratic language of politics and showing just what austerity means to ordinary lives. Drawing on hundreds of hours of first-person interviews with a wide range of people and, in the paperback edition, featuring an updated afterword by the author, the book explores the grim reality of living amid the biggest reduction of the welfare state in the postwar era and offers a compelling corrective to narratives of shared sacrifice.

Housing India Urmi Sengupta,Annapurna Shaw,Debolina Kundu.2024-02-15 In this unique book on housing in India, 11 leading scholars come together to offer a critical appraisal of current housing policies and programmes in India. Contributions contextualise and conceptualise the Indian housing paradigm with an integrated perspective, covering diverse regions and themes related to housing, such as: · Financial constraints to adequate housing in India · Policy implementation dynamics of national housing programmes in India, using evidence from Madhya Pradesh · Indigenous urbanism and mass housing programmes in Aizawl, Mizoram · Studies of the peripheralisation of low income housing in Ahmedabad, Gujarat and Chennai, Tamil Nadu The chapters in the book show how each theme affects the other, and suggest policy directions on the basis of past successes and failures. They seek new vocabularies to describe the processes of housing over 1.3 billion Indians—particularly capturing urban formations in the small and big cities of India, where housing plays the most dominant role. The book offers varied perspectives representing diverse regions and themes, together presenting a microcosm of housing problems and solutions in India Housing India will be a key resource for researchers and practitioners of housing and social policy, urban sociology, built environment, urban planning, public policy, development studies and economics. It will also appeal to housing professionals aiming to obtain qualifications and wanting a broad understanding of the housing provision in India. This book was originally published as a special issue of the International Journal of Housing Policy.

All Rise Dikgang Moseneke.2021-08-02 At the young age of fifteen, Dikgang Moseneke was imprisoned for participating in anti-apartheid activities. During his ten years of incarceration, he completed his schooling by correspondence and earned two university degrees. Afterwards he studied law at the University of South Africa. After some years in general legal practice and at the Bar, and a brief segue into business, Moseneke was persuaded that he would best serve the country's young democracy by taking judicial office. All Rise covers his years on the bench, with particular focus on his fifteen-year term as a judge at South Africa's apex court, the Constitutional Court, including as the deputy chief justice. His insights into the Constitutional Court's structures, the personalities peopling it, the values it embodies, the human dramas that shook it and the cases that were

brought to it make for fascinating reading. From the Constitutional Court of Arthur Chaskalson to the Mogoeng Mogoeng era, Moseneke's understated but astute commentary is a reflection on the country's ongoing but not altogether comfortable journey to a better life for all.

Popular Catholicism in 20th-Century Ireland Síle de Cléir.2017-10-05 For much of the 20th century, Catholics in Ireland spent significant amounts of time engaged in religious activities. This book documents their experience in Limerick city between the 1920s and 1960s, exploring the connections between that experience and the wider culture of an expanding and modernising urban environment. Síle de Cléir discusses topics including ritual activities in many contexts: the church, the home, the school, the neighbourhood and the workplace. The supernatural belief underpinning these activities is also important, along with creative forms of resistance to the high levels of social control exercised by the clergy in this environment. De Cléir uses a combination of in-depth interviews and historical ethnographic sources to reconstruct the day-to-day religious experience of Limerick city people during the period studied. This material is enriched by ideas drawn from anthropological studies of religion, while perspectives from both history and ethnology also help to contextualise the discussion. With its unique focus on everyday experience, and combination of a traditional worldview with the modernising city of Limerick - all set against the backdrop of a newly-independent Ireland - Popular Catholicism in 20th-century Ireland presents a fascinating new perspective on 20th-century Irish social and religious history.

Religion and Development in the Asia-Pacific Matthew Clarke,Anna Halafoff.2016-08-25 Community development is most effective and efficient when it is situated and led at the local level and considers the social behaviours, needs and worldviews of local communities. With more than eight out of ten people globally self-reporting religious belief, Religion and Development in the Asia-Pacific: Sacred places as development spaces argues that the role and impact of religions on community development needs to be better understood. It also calls for greater attention to be given to the role of sacred places as sites for development activities, and for a deeper appreciation of the way in which sacred stories and teachings inspire people to work for the benefit of others in particular locations. The book considers theories of 'place' as a component of successful development interventions and expands this analysis to consider the specific role that sacred places - buildings and social networks - have in planning, implementing and promoting sustainable development. A series of case studies examine various sacred places as sites for development activities. These case studies include Christian churches and disaster relief in Vanuatu; Muslim shrines and welfare provision in Pakistan; a women's Buddhist monastery in Thailand advancing gender equity; a Jewish aid organisation providing language training to Muslim Women in Australia; and Hawaiian sacred sites located within a holistic retreat centre committed to ecological sustainability. Religion and Development in the Asia-Pacific demonstrates the important role that sacred spaces can play in development interventions, covering diverse major world religions, interfaith and spiritual contexts, and as such will be of considerable interest for postgraduate students and researchers in development studies, religious studies, sociology of religion and geography.
