Globalisation of Economic Activity and Third World Cities Morshidi Sirat, Suriati Ghazali. 1999

Asian Case Studies Firend Alan Rasch. 2016-11-01 The South East Asian market, which comprises of (Indonesia, Singapore, Malaysia, Thailand, Myanmar, Cambodia, Vietnam and the Philippines) is a market greater of 500 million people. The growing middle-class in Asia is creating an unprecedented demand for products and services, and fuelling global growth. A slowdown in the Chinese economy (the world's second largest) most definitely will impact global economic growth. Although Malaysia is a relatively small economy with population of 30 million, yet it provides an insight into the Asia-Pacific region with its strategic location in South-East Asia. This book will be followed by a series of other books that provides insight into more Asian companies. In 2010, Malaysia sat a target to become a high-income nation by the year of 2020 with the initiation of Economic Transformation Program (ETP). ETP is a comprehensive blueprint to move Malaysia's economy into developed economy with a projected Gross National Income (GNI) of US\$523 billion and per capita income at US\$15,000 by 2020.

From Micro to Macro: Dealing with Uncertainties in the Global Marketplace Felipe Pantoja, Shuang Wu. 2022-04-04 The focus of the volume is on dealing with uncertainties and challenges within the global marketplace brought by digital technology companies that are leveraging artificial intelligence, machine learning, cloud computing, robotic automation, augmented reality, and other recent advancements. Additionally, these companies operate in the sharing economy and offer collaborative consumption opportunities. Featuring contributions presented at the 2020 Academy of Marketing Science (AMS) Virtual Annual Conference, the enclosed contributions assess the impact of these radical and disruptive innovations on long-standing incumbents and traditional industries, as well as consumer experiences. Founded in 1971, the Academy of Marketing Science is an international organization dedicated to promoting timely explorations of phenomena related to the science of marketing in theory, research, and practice. Among its services to members and the community at large, the Academy offers conferences, congresses, and symposia that attract delegates from around the world. Presentations from these events are published in this Proceedings series, which offers a comprehensive archive of volumes reflecting the evolution of the field. Volumes deliver cutting-edge research and insights, complementing the Academy's flagship journals, the Journal of the Academy of Marketing Science (JAMS) and AMS Review. Volumes are edited by leading scholars and practitioners across a wide range of subject areas in marketing science

Cross-Cultural Interaction: Concepts, Methodologies, Tools, and Applications Management Association, Information Resources. 2014-01-31 In a globalized society, individuals in business, government, and a variety of other fields must frequently communicate and work with individuals of different cultures and backgrounds. Effectively bridging the culture gap is critical to success in such scenarios. *Cross-Cultural Interaction: Concepts, Methodologies, Tools, and Applications* explores contemporary research and historical perspectives on intercultural competencies and transnational organizations. This three-volume compilation will present a compendium of knowledge on cultural diversity and the impact this has on modern interpersonal interactions. Within these pages, a variety of researchers, scholars, professionals, and leaders who interact regularly with the global society will find useful insight and fresh perspectives on the field of cross-cultural interaction.

Proceedings of the 6th CIRP-Sponsored International Conference on Digital Enterprise Technology George Q. Huang, K.L. Mak, Paul G.

Maropoulos. 2009-12-12 This Proceedings volume contains articles presented at the CIRP-Sponsored International Conference on Digital Enterprise Technology (DET2009) that takes place December 14-16, 2009 in Hong Kong. This is the 6th DET conference in the series and the first to be held in Asia. Professor Paul Maropoulos initiated, hosted and chaired the 1st International DET Conference held in 2002 at the University of Dham. Since this inaugural first DET conference, DET conference series has been successfully held in 2004 at Seattle, Washington USA, in 2006 at Setubal Portugal, in 2007 at Bath England, and in 2008 at Nantes France. The DET2009 conference continues to bring together International expertise from the academic and industrial fields, pushing forward the boundaries of research knowledge and best practice in digital enterprise technology for design and manufacturing, and logistics and supply chain management. Over 120 papers from over 10 countries have been accepted for presentation at DET2009 and inclusion in this Proceedings volume after stringent refereeing process. On behalf of the organizing and program committees, the Editors are grateful to the many people who have made DET2009 possible: to the authors and presenters, especially the keynote speakers, to those who have diligently reviewed submissions, to members of International Scientific Committee, Organizing Committee and Advisory Committee, and to colleagues for their hard work in sorting out all the arrangements. We would also like to extend our gratitude to DET2009 sponsors, co-organizers, and supporting organizations.

Contemporary Studies of Risks in Emerging Technology Simon Grima, Kiran Sood, Ercan Özen. 2023-05-10 With the rapid development of technologies, it becomes increasingly important for us to remain up-to-date on new and emerging technologies. This series, therefore, aims to deliver content on current and future technologies and how the young generation benefits from this.

Soft Computing in Data Science Michael W. Berry, Azlinah Hj. Mohamed, Bee Wah Yap. 2016-09-17 This book constitutes the refereed proceedings of the International Conference on Soft Computing in Data Science, SCDS 2016, held in Putrajaya, Malaysia, in September 2016. The 27 revised full papers presented were carefully reviewed and selected from 66 submissions. The papers are organized in topical sections on artificial neural networks; classification, clustering, visualization; fuzzy logic; information and sentiment analytics.

Internet Communication Technology (ICT) for Reconciliation Iyad Muhsen AlDajani. 2020-06-15 The book explores Applied Phronesis in internet communication technology and Netnography application, introducing it on Facebook and YouTube usages. It defines two pillars for the research dynamics, "Episteme" and "Techne." - the know-how, how-to, and the power dynamics. The "Episteme" explores the dynamics of reconciliation in the middle of conflict, Internet communication technologies for transformation, Moderation in Islam, online Deliberative Democracy. The second pillar, "Techne," is explored through Internet communication technology for the advancement of reconciliation in the middle of a conflict. The book describes the Phronetic Approach in internet research in academic discourse adopting Phronesis "an Aristotelian concept and method defined by Bent Flyvbjerg," and exploring Netnography for Kozinets, in Mixed-Method research design and applying methodological triangulation in research and testing the hypothesis using qualitative content analysis for Krippendorff, developing a methodological discourse for interdisciplinary research using internet communication technologies as part of understanding big-data, introducing Applied Digital Humanities.

Facilitating Global Collaboration and Knowledge Sharing in Higher Education With Generative AI Yu, Poshan, Mulli, James, Syed, Zain Ali

Shah, Umme, Laila. 2023-12-29 Chatbots powered by artificial intelligence (AI) have captivated the academic world as tools for human-like interaction across various settings. Within the realm of education, AI-powered chatbots, such as ChatGPT, hold the potential to revolutionize teaching, learning, and research processes. By simulating human conversation through vast data and machine learning algorithms, generative AI has unveiled new opportunities for personalized and adaptive learning experiences. *Facilitating Global Collaboration and Knowledge Sharing in Higher Education With Generative AI* delves into the promising prospects and challenges of applying generative AI in education while employing a critical interdisciplinary perspective. The book offers comprehensive insights into the transformative effects of generative AI on teaching, learning, and research. However, the application of generative AI in education also brings ethical, pedagogical, and technical challenges to the forefront. Concerns over privacy, data protection, and the impact of automation on human interaction and creativity demand thorough examination and practical solutions. Intended for

educators, researchers, and administrators in higher education institutions, as well as policymakers and industry professionals at the intersection of AI and higher education. The book encompasses a wide range of themes, including the impact of AI-generated content on student engagement and performance in online learning environments, ethical implications of automating education through AI-powered chatbots, personalization of learning experiences for diverse student populations, and the challenges of integrating generative AI into traditional classroom settings.

50 Short Case Studies in Business Management (UUM Press) Dileep Kumar M.2012-01-01 The Higher Education Institutions that run business management programs in Malaysia is under severe criticism from industry that the passing out management graduates do not have adequate practical exposure to the industry and lack of practical skills to deal industrial issues proactively as the catalyst of change. This indicates that the traditional management education curriculum, as presently constituted, may not be adequately preparing individuals for the challenges they experience as professional managers. To deal with this issue, many management institutes are adopting case study as a pedagogy, a hypothetical or actual business situation to formulate a recommended policy or decision based on the facts and figures provided, to induce practical exposure to the students by simulating case situations, which improve students analytical skills and decision-making skills. A case study in business management course is a rigorous analysis of an incident, situation, person, crisis or any such phenomenon or concept, in relation to industry, business or people in the organisations.

4th Kuala Lumpur International Conference on Biomedical Engineering 2008 Noor Azuan Abu Osman, Prof. Ir. Dr Fatimah Ibrahim, Wan Abu Bakar Wan Abas, Herman Shah Abdul Rahman, Hua Nong Ting.2008-07-30 It is with great pleasure that we present to you a collection of over 200 high quality technical papers from more than 10 countries that were presented at the Biomed 2008. The papers cover almost every aspect of Biomedical Engineering, from artificial intelligence to biomechanics, from medical informatics to tissue engineering. They also come from almost all parts of the globe, from America to Europe, from the Middle East to the Asia-Pacific. This set of papers presents to you the current research work being carried out in various disciplines of Biomedical Engineering, including new and innovative researches in emerging areas. As the organizers of Biomed 2008, we are very proud to be able to come-up with this publication. We owe the success to many individuals who worked very hard to achieve this: members of the Technical Committee, the Editors, and the International Advisory Committee. We would like to take this opportunity to record our thanks and appreciation to each and every one of them. We are pretty sure that you will find many of the papers illuminating and useful for your own research and study. We hope that you will enjoy yourselves going through them as much as we had enjoyed compiling them into the proceedings. Assoc. Prof. Dr. Noor Azuan Abu Osman Chairperson, Organising Committee, Biomed 2008

Innovation-Driven Business and Sustainability in the Tropics Emiel L. Eijdenberg, Malobi Mukherjee, Jacob Wood.2023-08-04 The edited volume presents the conference proceedings from the "Sustainability, Economics, Innovation, Globalisation and Operational Psychology Conference 2023" (SEIGOP 2023), organized by the Centre for International Trade and Business in Asia (CITBA) at James Cook University, Singapore. This edited volume places the highly dynamic, but also, jeopardized climatological - geographical region of the Tropics centre stage. The region is developing rapidly, with significant progress being made through the development of innovative technologies. The Tropics represent a region in which people live amid the greatest level of biodiversity anywhere on the planet. Nonetheless, propelled by rapid population growth, the Tropics is a region on the rise, with higher living standards and increased levels of international trade and investment. Densely populated emerging countries like India, Indonesia and Nigeria will be among the largest economies of the world by the end of the century. These upward socioeconomic trends are compromised by the impact of climate change on the Tropics' biodiversity. Such developments have forced policymakers, businesses, and local communities to search for more sustainable and creative ways to live and work. For these reasons, this edited volume presents theory-driven conceptual, qualitative, quantitative and mixed-methods studies on the impact of innovation-driven businesses on the complex interplay of socio-cultural, economic, and environmental factors in the Tropics.

The Routledge Handbook of Halal Hospitality and Islamic Tourism C. Michael Hall, Girish Prayag.2019-05-20 The Routledge Handbook of Halal Hospitality and Islamic Tourism provides a greater understanding of the current debates associated with Islamic tourism and halal hospitality in the context of businesses, communities, destinations, and the wider socio-political context. It therefore sheds substantial light on one of the most significant travel and consumer markets in the world today and the important role of religion in contemporary hospitality and tourism. The book examines halal hospitality and lodging, Islamic markets, product developments, heritage, certification, and emerging and future trends and issues. It integrates case studies from a range of countries and destinations and in doing so emphasises the significant differences that exist with respect to regulating and commodifying halal, as well as stressing that the Islamic market is not monolithic. Written by highly regarded international

academics, it offers a range of perspectives and enables a comprehensive discussion of this integral part of Islam and contemporary society. This handbook will be of significant interest to upper level students, researchers, and academics in the various disciplines of Tourism, Hospitality, Food Studies, Marketing, Religious Studies, Geography, Sociology, and Islamic Studies.

The Route Towards Global Sustainability Pardeep Singh,Yulia Milshina,André Batalhão,Sanjeev Sharma,Marlia Mohd Hanafiah.2023-03-11 This volume discusses topics of global sustainability involving sustainability indicators, stakeholders' participation, and technological and strategic advances with the goal of thinking locally to act globally. Scientists, academics, policymakers, and planners are currently focused on escalating global socioeconomic and ecological issues, such as rising inequality, adverse anthropogenic impacts on the environment, and deficiencies in natural resources. These variables are pushing the earth system's resistance capacity past its breaking point, with additional pressures incurred by a global pandemic. Therefore, this book looks to impart knowledge on participatory learning action research for human and environmental health and well-being. Sustainable development planning and management are needed in these pressing circumstances, and they necessitate an analytical interpretation of ongoing processes, current and future challenges, and an understanding of available tools and technologies. The main sections of the book focus on challenges and management practices for global sustainability, promoting educational values, smart initiatives in urban contexts, and integrating emerging sustainability dimensions in policies and legislation. The primary audience for the work is policy makers, urban planners, social scientists, economists, NGOs, and students, researchers, and educators engaged in environmental social science and sustainability management.

Enterprise Architecture for Strategic Management of Modern IT Solutions Tiko Iyamu.2022-03-16 The popularity of enterprise architecture (EA) has increased in the last two decades, in both business and academic domains. Despite the cumulative interest from all sectors, the implementation and practice of EA have been entangled with numerous challenges and complexities. Consequently, some organisations continue to theorise the concept, which has ramifications on practice and return on investment (ROI). This has led to many studies that have been conducted, to understand the complexities impacting the implementation and practice of EA in organisations. Yet, the trajectory of some convolutions remains mystery in many quarters. This attributes to the struggle to articulate the value of EA in many environments. Hence many organisations find it difficult to apply EA for strategic management of modern information technology (IT) solutions. *Enterprise Architecture for Strategic Management of Modern IT Solutions* provides guidance on how to employ EA in deploying and managing IT solutions from pragmatic and implementable strategies' perspectives. Until now, implementation and practice of EA have been slow, despite its growing popularity and interest from all sectors. The author employs sociotechnical theories such as actor-network theory (ANT) and structuration theory (ST) as lenses to examine and explain why and how challenges and complexities exist and derail the implementation or practice of EA in organisations. By doing so, this serves to enable practitioners and readers to gain fresh insights on why the challenges exist and how they can be addressed in creating collaborative capabilities for business enhancement, sustainability, and competitiveness. The book provides detailed insights on how to apply EA for organisational purposes, from three main fronts. First, it explains the implications that lack of understanding of EA have on organisational activities and processes. Second, it examines the challenges and complexities that hinder the implementation and practice of EA in organisations. Third, it proposes models and frameworks on how EA can be applied for strategic management of modern IT solutions in organisations. Written for postgraduates, researchers, academics, and professionals in the fields of EA, IT, and information systems, this book provides a valuable resource that will enable and enhance implementation and practice of EA including future studies.

Enterprise Information Systems José Cordeiro,Yannis Manolopoulos,Joaquim Filipe,Panos Constantopoulos.2008-02-08 This book contains the best papers of the 8th International Conference on Enterprise Information Systems (ICEIS 2006), held in the city of Paphos (Cyprus), organized by the Institute for Systems and Technologies of Information, Control and Communication (INSTICC) in collaboration with the University of Cyprus, Aristotle University of Thessaloniki and Athens University of Economics and Business. ICEIS has become a major point of contact between research scientists, engineers and practitioners in the area of business applications of information systems. This year, five simultaneous tracks were held, covering different aspects related to enterprise computing, including: "Databases and Information Systems Integration," "Artificial Intelligence and Decision Support Systems," "Information Systems Analysis and Specification," "Software Agents and Internet Computing" and "Human-Computer Interaction." All tracks focus on real world applications and highlight the benefits of Information Systems and Technology for industry and services, thus making a bridge between Academia and Enterprise. Following the success of 2005, ICEIS 2006 received 404 paper submissions from more than 40 countries spanning all continents. In all, 63 papers were published and presented as full papers, i.e., completed work (8 pages in proceedings / 30-min oral presentations), 102 papers reflecting work-in-progress or position papers were accepted for short presentation and another 75 for poster presentation.
