Venezuela Rafael Uzcategui.2012-01-01 A critical look at the Chavez regime from a leftist Venezuelan perspective, this account debunks claims made by Venezuelan and U.S. rightists that the regime is antidemocratic and dictatorial. Instead, the book argues that the Chavez government is one of a long line of Latin American populist organizations that have been ultimately subservient to the United States as well as multinational corporations. Explaining how autonomous Venezuelan social, labor, and environmental movements have been systematically disempowered by the Chavez regime, this analysis contends that these movements are the basis of a truly democratic, revolutionary alternative.

The United Nations world water development report 2020 UNESCO World Water Assessment Programme.2020-03-23 The 2020 edition of the WWDR, titled 'Water and Climate Change' illustrates the critical linkages between water and climate change in the context of the broader sustainable development agenda. Supported by examples from across the world, it describes both the challenges and opportunities created by climate change, and provides potential responses - in terms of adaptation, mitigation and improved resilience - that can be undertaken by enhancing water resources management, attenuating water-related risks, and improving access to water supply and sanitation services for all in a sustainable manner. It addresses the interrelations between water, people, environment and economics in a changing climate, demonstrating how climate change can be a positive catalyst for improved water management, governance and financing to achieve a sustainable and prosperous world for all. The report provides a fact-based, water-focused contribution to the knowledge base on climate change. It is complementary to existing scientific assessments and designed to support international political frameworks, with the goals of helping the water community tackle the challenges of climate change, and informing the climate change community about the opportunities that improved water management offers in terms of adaptation and mitigation.

The Fall of Mussolini Philip Morgan.2008-06-11 The dramatic story of Mussolini's fall from power in July 1943, illuminating both the causes and the consequences of this momentous event. Morgan shows how Italians of all classes coped with the extraordinary pressures of wartime living, both on the military and home fronts, and how their experience of the country at war eventually distanced them from the dictator and his fascist regime. Looking beyond Mussolini's initial fall from power, Morgan examines how the Italian people responded to the invasion, occupation, and division of their country by Nazi German and Anglo-American forces - and how crucial the experience of this period was in shaping Italy's post-war sense of nationhood and transition to democracy.

Política y geopolítica para rebeldes, irreverentes y escépticos Augusto Zamora.2022-02-21 Nueva edición de un libro que, en poco más de un año, se ha convertido en un referente en el ámbito del análisis geopolítico, con nuevos materiales sobre lo acontecido en torno a Irán, Turquía, Siria, Libia, Estados Unidos, Rusia o China. Recibimos más información que nunca, y, sin embargo, también está más condicionada que nunca, pues la constitución de un oligopolio mediático hace que dicha información tenga un claro sesgo que sirve a los intereses de sus dueños. Y este hecho se ve reflejado con particular crudeza en el ámbito de la política y la geopolítica, donde la visión global de un mundo dividido entre «buenos» (neoliberales) y «malos» (todos los demás) es continuamente martilleada por televisiones, radios y cabeceras periodísticas. De ahí que, para entender bien nuestro mundo (y tratar de cambiarlo, ahora que aún estamos a tiempo), sea necesario casi partir de cero. Tal es el objeto de este libro. Dirigido a un público joven de 18 a 90 años, en sus páginas se desgranar los conceptos, las teorías y los protagonistas que han dado y dan forma al contexto sociopolítico que nos rodea. De las proyecciones cartográficas a la Guerra Fría, de los «Estados fallidos» a los «Estados canallas», de Estados Unidos a Afganistán, de la Guerra Fría a los bancos, ofrece un panorama que sin duda sorprenderá al lector, pues no acaba de cuadrar con la «versión oficial». Un texto ameno e irónico que, sin perder el rigor, se dirige a todos los «escépticos, sumisos e inadaptados» que no comulgan con lo que dicta el establishment ni con las supuestas «verdades» sobre las que se cimenta la [triste] realidad. Y no sólo a los que ya son conscientes de ello, sino a los que aún no lo saben.

Spatial and Temporal Dimensions for Legal History Massimo Meccarelli, María Julia Solla Sastre.2016-07-01 <http://dx.doi.org/10.12946/gplh6><http://www.epubli.de/shop/buch/53894>The spatiotemporal conjunction is a fundamental aspect of the juridical reflection on the historicity of law. Despite the fact that it seems to represent an issue directly connected with the question of where legal history is heading today, it still has not been the object of a focused inquiry. Against this background, the book's proposal consists in rethinking key confluences related to this problem in order to provide coordinates for a collective understanding and dialogue. The aim of this volume, however, is not to offer abstract methodological considerations, but rather to rely both on concrete studies, out of which a reflection on this conjunction emerges, as well as on the reconstruction of certain research lines featuring a spatiotemporal component. This analytical approach makes a contribution by providing some suggestions for the employment of space and time as coordinates for legal history. Indeed, contrary to those historiographical attitudes reflecting a monistic conception of space and time (as well as a Eurocentric approach), the book emphasises the need for a delocalized global perspective. In general terms, the essays collected in this book intend to take into account the multiplicity of the spatiotemporal confines, the flexibility of those instruments that serve to create chronologies and scenarios, as well as certain processes of adaptation of law to different times and into different spaces. The spatiotemporal dynamism enables historians not only to detect new perspectives and dimensions in foregone themes, but also to achieve new and compelling

interpretations of legal history. As far as the relationship between space and law is concerned, the book analyses experiences in which space operates as a determining factor of law, e.g. in terms of a field of action for law. Moreover, it outlines the attempted scales of spatiality in order to develop legal historical research. With reference to the connection between time and law, the volume sketches the possibility of considering the factor of time, not just as a descriptive tool, but as an ascriptive moment (quasi an inner feature) of a legal problem, thus making it possible to appreciate the synchronic aspects of the 'juridical experience'. As a whole, the volume aims to present spatiotemporality as a challenge for legal history. Indeed, reassessing the value of the spatiotemporal coordinates for legal history implies thinking through both the thematic and methodological boundaries of the discipline.

The Politics of Change W. Bonefeld, K. Psychopedis. 2000-09-25 This work takes a critical view of the debate on globalization and assesses revamped versions of structuralist thought, which underpin much of the globalization discourse. Kiss of the Spider Woman Manuel Puig. 2010-09-01 Kiss of the Spider Woman is a graceful, intensely compelling novel about love and victimization. In an Argentine prison, two men share a cell: Molina, a gay window dresser who is self-centered, self-denigrating, yet charming as well; and Valentin, an articulate, fiercely dogmatic revolutionary haunted by memories of a woman he left for the cause. Both are gradually transformed by their guarded but growing friendship and by Molina's obsession with the fantasy and romance of the movies.

The United Nations World Water Development Report 2021 . 2021-03-22 Water is a finite and non-substitutable resource. As the foundation of life, societies and economies, it carries multiple values and benefits. But unlike most other natural resources, it has proven extremely difficult to determine its true 'value'. The 2021 edition of the United Nations World Water Development Report, titled "Valuing Water" assesses the current status of and challenges to the valuation of water across different sectors and perspectives and identifies ways in which valuation can be promoted as a tool to help improve its management and achieve global sustainable development.

Indigenous Life Projects and Extractivism Cecilie Vindal Ødegaard, Juan Javier Rivera Andía. 2019-01-01 Exploring indigenous life projects in encounters with extractivism, the present open access volume discusses how current turbulences actualise questions of indigeneity, difference and ontological dynamics in the Andes and Amazonia. While studies of extractivism in South America often focus on wider national and international politics, this contribution instead provides ethnographic explorations of indigenous politics, perspectives and worlds, revealing loss and suffering as well as creative strategies to mediate the extralocal. Seeking to avoid conceptual imperialism or the imposition of exogenous categories, the chapters are grounded in the respective authors' long-standing field research. The authors examine the reactions (from resistance to accommodation), consequences (from anticipation to rubble) and materials (from fossil fuel to water) diversely related to extractivism in rural and urban settings. How can Amerindian strategies to preserve localised communities in extractivist contexts contribute to ways of thinking otherwise?

La Administración del protectorado español en Marruecos Varios autores. 2014-05-01 Esta obra se publicó con motivo del centenario de la creación del Protectorado español en Marruecos. A estos efectos, trece profesores de Universidad han reunido sus esfuerzos para ofrecer al lector una trama argumental lo más amplia, objetiva y completa posible del Protectorado que España ejerció en Marruecos desde 1912 hasta 1956, centrándose preferentemente en los aspectos político-administrativos e institucionales más relevantes. No es, por tanto, una Historia definitiva, pero sí una perspectiva metodológica imprescindible. En ese año de 1912 cuando se inicia uno de los episodios de nuestra Historia, que más tópicos ha producido en el imaginarios histórico hispano: el

desastre de Annual, el desembarco de Alhucemas, el mundo de los africanistas, el servicio militar en Marruecos o el Tercio de extranjeros. La visión de esta etapa sólo podría completarse desde una triple perspectiva: la de los españoles peninsulares, la de los marroquíes y la de quienes vivieron y asumieron ese pequeño territorio bajo aquella singular organización política durante casi medio siglo. La función de la Alta Comisaría del Protectorado, la acción protectora a través de la oficina de intervención, el dispensario médico y la escuela, la figura de los interventores, la organización sanitaria, las instituciones educativas y culturales, las instituciones judiciales y el derecho hispano-marroquí, la Administración Militar y los últimos años del Protectorado, son algunos de los temas que se han abordado en esta obra. Por supuesto que aunque la historia del Protectorado no se agota en estas trece visiones, al menos, los trabajos agrupados en esta obra tratan los aspectos más relevantes de la historia del Protectorado. De hecho, este libro formula interrogantes, propone reflexiones y deja la puerta abierta a nuevas interpretaciones. En definitiva, aún queda trabajo para los historiadores en este campo del Protectorado, que no siempre lo fue de batalla.

The Powers of Literacy (RLE Edu I) Bill Cope, Mary Kalantzis. 2014-06-17 Literacy remains a contentious and polarized educational, media and political issue. What has emerged from the continuing debate is a recognition that literacy in education is allied closely with matters of language and culture, ideology and discourse, knowledge and power. Drawing perspectives variously from critical social theory and cultural studies, poststructuralism and feminisms, sociolinguistics and the ethnography of communication, social history and comparative education, the contributors begin a critical interrogation of taken-for-granted assumptions which have guided educational policy, research and practice.

We Dream Together Anne Eller. 2016-11-18 In *We Dream Together* Anne Eller breaks with dominant narratives of conflict between the Dominican Republic and Haiti by tracing the complicated history of Dominican emancipation and independence between 1822 and 1865. Eller moves beyond the small body of writing by Dominican elites that often narrates Dominican nationhood to craft inclusive, popular histories of identity, community, and freedom, summoning sources that range from trial records and consul reports to poetry and song. Rethinking Dominican relationships with their communities, the national project, and the greater Caribbean, Eller shows how popular anticolonial resistance was anchored in a rich and complex political culture. Haitians and Dominicans fostered a common commitment to Caribbean freedom, the abolition of slavery, and popular democracy, often well beyond the reach of the state. By showing how the island's political roots are deeply entwined, and by contextualizing this history within the wider Atlantic world, Eller demonstrates the centrality of Dominican anticolonial struggles for understanding independence and emancipation throughout the Caribbean and the Americas.

The Globalization of Poverty and the New World Order Michel Chossudovsky.2003 In this new and expanded edition of Chossudovskys international best-seller, the author outlines the contours of a New World Order which feeds on human poverty and the destruction of the environment, generates social apartheid, encourages racism and ethnic strife and undermines the rights of women. The result as his detailed examples from all parts of the world show so convincingly, is a globalisation of poverty. This book is a skilful combination of lucid explanation and cogently argued critique of the fundamental directions in which our world is moving financially and economically. In this new enlarged edition -- which includes ten new chapters and a new introduction -- the author reviews the causes and consequences of famine in Sub-Saharan Africa, the dramatic meltdown of financial markets, the demise of State social programs and the devastation resulting from corporate downsizing and trade liberalisation. The book has been published in 11 languages. Over 100,000 copies sold world-wide.

The Haitians Jean Casimir.2020-09-29 In this sweeping history, leading Haitian intellectual Jean Casimir argues that the story of Haiti should not begin with the usual image of Saint-Domingue as the richest colony of the eighteenth century. Rather, it begins with a reconstruction of how individuals from Africa, in the midst of the golden age of imperialism, created a sovereign society based on political imagination and a radical rejection of the colonial order, persisting even through the U.S. occupation in 1915. The Haitians also critically retheorizes the very nature of slavery, colonialism, and sovereignty. Here, Casimir centers the perspectives of Haiti's moun andeyo—the largely African-descended rural peasantry. Asking how these systematically marginalized and silenced people survived in the face of almost complete political disenfranchisement, Casimir identifies what he calls a counter-plantation system. Derived from Caribbean political and cultural practices, the counter-plantation encompassed consistent reliance on small-scale landholding. Casimir shows how lakou, small plots of land often inhabited by generations of the same family, were and continue to be sites of resistance even in the face of structural disadvantages originating in colonial times, some of which continue to be maintained by the Haitian government with support from outside powers.

How to Write the History of the New World Jorge Cañizares-Esguerra.2001 An Economist Book of the Year, 2001. In the 18th century, a debate ensued over the French naturalist Buffon's contention that the New World was in fact geologically new. Historians, naturalists, and philosophers clashed over Buffon's view. This book maintains that the "dispute" was also a debate over historical authority: upon whose sources and facts should naturalists and historians reconstruct the history of the New World and its people. In addressing this question, the author offers a strikingly novel interpretation of the Enlightenment.

Memoirs of a Beatnik Diane Di Prima.2002 Memoirs of a Beatnik is an account of a young artist coming of age sensually and intellectually. The book grew out of the author's own experience as a bold and independent woman who dropped out of college at the age of 18 in order to write.

This Ghostly Poetry Daniel Aguirre-Otezia.2020-04-02 The Spanish Civil War was idealized as a poet's war. The thousands of poems written about the conflict are memorable evidence of poetry's high cultural and political value in those historical conditions. After Franco's victory and the repression that followed, numerous Republican exiles relied on the symbolic agency of poetry to uphold a sense of national identity. Exilic poems are often read as claim-making narratives that fit national literary history. This Ghostly Poetry critiques this conventional understanding of literary history by arguing that exilic poems invite readers to seek continuity with a traumatic past just as they prevent their narrative articulation. The book uses the figure of the ghost to address temporal challenges to historical continuity brought about by memory, tracing the discordant, disruptive ways in which memory is interwoven with history in poems written in exile. Taking a novel approach to cultural memory, This Ghostly Poetry engages with literature, history, and politics while exploring issues of voice, time, representation, and disciplinarity.

21st Century Political Science: A Reference Handbook John T Ishiyama, Marijke Breuning.2011 This volume, meant to be the first in a series of catalogues documenting the Barnes Foundation's entire holdings, is the first major survey of the Barnes Collection since Great French Paintings from the Barnes Foundation: Impressionist, Post-Impressionist, and Early Modern (CH, Oct'93, 31-0715). Wattenmaker, a former student and instructor at the Barnes Foundation and former director of the Archives of American Art, is more than qualified to complete such a scholarly work. Beginning the catalogue with an essay on Barnes himself, Wattenmaker apparently felt compelled to defend the reputation of this irascible and sometimes antagonistic individual by deploying extensive quotations (from hitherto inaccessible archival documentation) that shed light on Barnes's motives. Next are in-depth essays on William J. Glackens, Alfred Maurer, and others who have major works in the Barnes Foundation. The final section, Additional Works by American Artists, is organized alphabetically. Each image is accompanied by extensive scholarly footnotes. The photographs are richly textured. The few photographs of the paintings hanging in situ provide a teasing glimpse into the experience

of the visitor to Merion, Pennsylvania, the original home of this collection (soon to be closed to the public, in preparation for the museum's move to a new building in Philadelphia).
