Dark Continent Mark Mazower. 2009-05-20 An unflinching and intelligent alternative history of the twentieth century that provides a provocative vision of Europe's past, present, and future. [A] splendid book. —The New York Times Book Review Dark Continent provides an alternative history of the twentieth century, one in which the triumph of democracy was anything but a forgone conclusion and fascism and communism provided rival political solutions that battled and sometimes triumphed in an effort to determine the course the continent would take. Mark Mazower strips away myths that have comforted us since World War II, revealing Europe as an entity constantly engaged in a bloody project of self-invention. Here is a history not of inevitable victories and forward marches, but of narrow squeaks and unexpected twists, where townships boast a bronze of Mussolini on horseback one moment, only to melt it down and recast it as a pair of noble partisans the next.

Pediatric and Neonatal Mechanical Ventilation Peter C. Rimensberger. 2014-11-12 Written by outstanding authorities from all over the world, this comprehensive new textbook on pediatric and neonatal ventilation puts the focus on the effective delivery of respiratory support to children, infants and newborns. In the early chapters, developmental issues concerning the respiratory system are considered, physiological and mechanical principles are introduced and airway management and conventional and alternative ventilation techniques are discussed. Thereafter, the rational use of mechanical ventilation in various pediatric and neonatal pathologies is explained, with the emphasis on a practical step-by-step approach. Respiratory monitoring and safety issues in ventilated patients are considered in detail, and many other topics of interest to the bedside clinician are covered, including the ethics of withdrawal of respiratory support and educational issues. Throughout, the text is complemented by numerous illustrations and key information is clearly summarized in tables and lists.

Handwriting of the Twentieth Century Rosemary Sassoon. 1999 This fascinating and wide-ranging book charts developments in the teaching and study of handwriting over the course of the twentieth century. The book shows how changing educational policies, economic forces and inevitable technological advance have combined to alter the priorities and form of handwriting. This 'long and sometimes sorry story' tells also of the sheer pain and hard work of children forced to follow the style of the day, and of the reformers who have sought to simplify the teaching and learning of handwriting over the years. Illustrated throughout with examples from copybooks and personal handwriting from across the world, the book is a compelling historical record of techniques, styles and methods.

India Unbound Gurcharan Das. 2002-04-09 India today is a vibrant free-market democracy, a nation well on its way to overcoming decades of widespread poverty. The nation's rise is one of the great international stories of the late twentieth century, and in India Unbound the acclaimed columnist Gurcharan Das offers a sweeping economic history of India from independence to the new millennium. Das shows how India's policies after 1947 condemned the nation to a hobbled economy until 1991, when the government instituted sweeping reforms that paved the way for extraordinary growth. Das traces these developments and tells the stories of the major players from Nehru through today. As the former CEO of Procter & Gamble India, Das offers a unique insider's perspective and he deftly interweaves memoir with history, creating a book that is at once

vigorously analytical and vividly written. Impassioned, erudite, and eminently readable, *India Unbound* is a must for anyone interested in the global economy and its future.

The Upstairs Wife Rafia Zakaria.2016-01-05 A memoir of Karachi through the eyes of its women An Indies Introduce Debut Authors Selection For a brief moment on December 27, 2007, life came to a standstill in Pakistan. Benazir Bhutto, the country's former prime minister and the first woman ever to lead a Muslim country, had been assassinated at a political rally just outside Islamabad. Back in Karachi—Bhutto's birthplace and Pakistan's other great metropolis—Rafia Zakaria's family was suffering through a crisis of its own: her Uncle Sohail, the man who had brought shame upon the family, was near death. In that moment these twin catastrophes—one political and public, the other secret and intensely personal—briefly converged. Zakaria uses that moment to begin her intimate exploration of the country of her birth. Her Muslim-Indian family immigrated to Pakistan from Bombay in 1962, escaping the precarious state in which the Muslim population in India found itself following the Partition. For them, Pakistan represented enormous promise. And for some time, Zakaria's family prospered and the city prospered. But in the 1980s, Pakistan's military dictators began an Islamization campaign designed to legitimate their rule—a campaign that particularly affected women's freedom and safety. The political became personal when her aunt Amina's husband, Sohail, did the unthinkable and took a second wife, a humiliating and painful betrayal of kin and custom that shook the foundation of Zakaria's family but was permitted under the country's new laws. The young Rafia grows up in the shadow of Amina's shame and fury, while the world outside her home turns ever more chaotic and violent as the opportunities available to post-Partition immigrants are dramatically curtailed and terrorism sows its seeds in Karachi. Telling the parallel stories of Amina's polygamous marriage and Pakistan's hopes and betrayals, *The Upstairs Wife* is an intimate exploration of the disjunction between exalted dreams and complicated realities.

Computers and Typography 2 Rosemary Sassoon.2002 This second Volume of *Computers and Typography* reflects new developments in this rapidlychanging field. This book complements without in any way supplanting Volume1 through an extensive elaboration of issues that were considered only briefly the first Volume. The Charmed Circle of Ideology Geoff Boucher.2009-03 Set against the collapse of social theory into a theory of ideological discourse, Geoff Boucher sets to work a rigorous mapping of the contemporary field, targeting the relativist implications of this new form of philosophical idealism. Offering a detailed and immanent critique, Boucher concentrates his critical attention on the 'postmarxism' of Laclau and Mouffe, Butler and Žižek. In response Boucher points to 'intersubjectivity' as an exit from postmarxist theory's charmed circle of ideology.

Lens Epithelium and Posterior Capsular Opacification Shizuya Saika,Liliana Werner,Frank J. Lovicu.2014-08-12 This book is the first to summarize the current knowledge of the cell biology of lens epithelial cells in relation to and in the development of posterior capsular opacification (PCO). PCO remains the most common long-term complication of modern cataract surgery, occurring months or years after cataract surgery, unlike most other complications that tend to arise during or soon after the procedure. Opacification of the posterior capsule appears to be linked to lens epithelial cells that are left behind in the eye during cataract removal. These cells proliferate, migrate across the posterior lens capsule, and undergo changes that result in fibrous or pearl-type opacities in the capsule. The first section of the text explains the molecular mechanism and biology of lens epithelial cells that lead to the incidence of PCO. In the second part, in addition to a description of the mechanism and pathological condition of PCO, surgical methods and devices for preventing PCO are discussed in detail. *Lens Epithelium and Capsular Opacification* will benefit not only young clinical residents and junior researchers, but also established faculty in the clinical or basic academic field.

Baby Boomers and Generational Conflict Jennie Bristow.2015-05-12 The dominant cultural script is that the Baby Boomers have 'had it all', thereby depriving younger generations of the opportunity to create a life for themselves. Bristow provides a critical account of this discourse by locating the problematisation of the Baby Boomers within a wider ambivalence about the legacy of the Sixties.

A Farewell to Alms Gregory Clark. 2008-12-29 Why are some parts of the world so rich and others so poor? Why did the Industrial Revolution--and the unprecedented economic growth that came with it--occur in eighteenth-century England, and not at some other time, or in some other place? Why didn't industrialization make the whole world rich--and why did it make large parts of the world even poorer? In *A Farewell to Alms*, Gregory Clark tackles these profound questions and suggests a new and provocative way in which culture--not exploitation, geography, or resources--explains the wealth, and the poverty, of nations. Countering the prevailing theory that the Industrial Revolution was sparked by the sudden development of stable political, legal, and economic institutions in seventeenth-century Europe, Clark shows that such institutions existed long before industrialization. He argues instead that these institutions gradually led to deep cultural changes by encouraging people to abandon hunter-gatherer instincts--violence, impatience, and economy of effort--and adopt economic habits--hard work, rationality, and education. The problem, Clark says, is that only societies that have long histories of settlement and security seem to develop the cultural characteristics and effective workforces that enable economic growth. For the many societies that have not enjoyed long periods of stability, industrialization has not been a blessing. Clark also dissects the notion, championed by Jared Diamond in *Guns, Germs, and Steel*, that natural endowments such as geography account for differences in the wealth of nations. A brilliant and sobering challenge to the idea that poor societies can be economically developed through outside intervention, *A Farewell to Alms* may change the way global economic history is understood.

Introducing Social Semiotics Theo Van Leeuwen. 2005 *Introducing Social Semiotics* uses a wide variety of texts including photographs, adverts, magazine pages and film stills to explain how meaning is created through complex semiotic interactions. Practical exercises and examples as wide ranging as furniture arrangements in public places, advertising jingles, photojournalism and the rhythm of a rapper's speech provide readers with the knowledge and skills they need to be able to analyse and also produce successful multimodal texts and designs. The book traces the development of semiotic resources through particular channels such as the history of the Press and advertising; and explores how and why these resources change over time, for reasons such as advancing technology. Featuring a full glossary of terms, exercises, discussion points and suggestions for further reading, *Introducing Social Semiotics* makes concrete the complexities of meaning making and is essential reading for anyone interested in how communication works.

Sind Revisited Sir Richard Francis Burton. 1877 The English explorer and author Sir Richard Francis Burton (1821-90) began his long and adventurous career in India, where he arrived in 1842 to join the 18th regiment of Bombay infantry as a young commissioned officer. In 1844 Burton's regiment was posted to Sind, the province located in present-day southeastern Pakistan, at that time only recently annexed by the British. Burton lived in Sind for a number of years and published three early books based on his experiences and observations: *Scinde, or, The Unhappy Valley* (two volumes, 1851), *Sindh, and the Races that Inhabit the Valley of the Indus* (1851), and *Falconry in the Valley of the Indus* (1852). The unhappy valley of the title of his first book refers to the valley of the Indus, which, along with the Indus River delta, largely defines the geography of Sind. More than two decades later, in 1875-76, Burton and his wife Isabel made a return visit to the province. *Sind Revisited*, published in London in 1877, is a result of this later journey. The book contains Burton's observations on the cities of Karachi and Hyderabad; the state of the Anglo-Indian army; relations among Muslims and Hindus and, in particular, the relentless pressure on the Hindus to convert to Islam; Sindi men and women; the Indus Valley Railway; and many other topics. Throughout, Burton uses the literary device of a fictitious traveling companion, Mr. John Bull, to whom he addresses comments and asides. He also includes translations of poems and summaries of colorful local tales and legends, for example, that of the seven headless prophets. In concluding remarks, Burton judges British rule to have had a positive influence, by bringing improvements in health and access to education for the Sindi people. The book is indexed but has no maps or illustrations.

Mary and Early Christian Women Ally Kateusz. 2019-02-18 This book is open access under a CC BY-NC-ND license. This book reveals exciting early Christian evidence that Mary was remembered as a powerful role model for women leaders--women apostles, baptizers, and presiders at the ritual meal. Early Christian art portrays Mary and other women clergy serving as deacon, presbyter/priest, and bishop. In addition, the two oldest surviving artifacts to depict people at an altar table inside a real church depict women and men in a gender-parallel liturgy inside two of the most important churches in Christendom--Old Saint Peter's Basilica in Rome and the second Hagia Sophia in Constantinople. Dr. Kateusz's research brings to light centuries of censorship, both ancient and modern, and debunks the modern imagination that from the beginning only men were apostles and clergy.

The Moronic Inferno Martin Amis. 2010-12-23 At the age of ten, when Martin Amis spent a year in Princeton, New Jersey, he was excited and frightened by America. As an adult he has approached that confusing country from many arresting angles, and interviewed its literati, filmmakers, thinkers, opinion makers, leaders and crackpots with characteristic discernment and wit. Included in a gallery of Great American Novelists are Norman Mailer, Gore Vidal, Truman Capote, Joseph Heller, William Burroughs, Kurt Vonnegut, John Updike, Paul Theroux, Philip Roth and Saul Bellow. Amis also takes us to Dallas, where presidential candidate Ronald Reagan is attempting to liaise with born-again Christians. We glimpse the beau monde of Palm Beach, where each couple tries to out-Gatsby the other, and examine the case of Claus von Bulow. Steven Spielberg gets a visit, as does Brian de Palma, whom Amis asks why his films make no sense, and Hugh Hefner's sybaritic fortress and sanitised image are penetrated. There can be little that escapes the eye of Martin Amis when his curiosity leads him to a subject, and America has found in him a superlative chronicler.

Not So Quiet... Helen Zenna Smith. 1993-01-01 Praised by the Chicago Sun-Times for its "furious, indignant power," this story offers a rare, funny, bitter, and feminist look at war. First published in London in 1930, *Not So Quiet...* (on the Western Front) describes a group of British women ambulance drivers on the French front lines during World War I, surviving shell fire, cold, and their punishing commandant, Mrs. Bitch. The novel takes the guise of an autobiography by Smith, pseudonym for Evadne Price. The novel's power comes from Smith's outrage at the senselessness of war, at her country's complacent patriotism, and her own daily contact with the suffering and the wounded.

The Journals of Sylvia Plath Sylvia Plath. 2013-01-16 Sylvia Plath began keeping a diary as a young child. By the time she was at Smith College, when this book begins, she had settled into a nearly daily routine with her journal, which was also a sourcebook for her writing. Plath once called her journal her "Sargasso," her repository of imagination, "a litany of dreams, directives, and imperatives," and in fact these pages contain the germs of most of her work. Plath's ambitions as a writer were urgent and ultimately all-consuming, requiring of her a heat, a fantastic chaos, even a violence that burned straight through her. The intensity of this

struggle is rendered in her journal with an unsparing clarity, revealing both the frequent desperation of her situation and the bravery with which she faced down her demons. Written in electrifying prose, The Journals of Sylvia Plath provide unique insight, and are essential reading for all those who have been moved and fascinated by Plath's life and work.

Stem Cells in Aesthetic Procedures Melvin A. Shiffman, Alberto Di Giuseppe, Franco Bassetto. 2014-07-21 Interest in the use of stem cells in aesthetic procedures has been increasing rapidly, reflecting the widespread acknowledgment of the tremendous potential of stem cell fat transfer. This is, however, the first book to be devoted entirely to the subject. The book opens by reviewing the history of the development of pluripotent stem cells and the results of research into the biochemistry and physiology of stem cells. Adipose tissue anatomy and survival are discussed and the wide range of aesthetic procedures involving stem cell fat transfer are then described in detail. These procedures relate to the face, breast, buttocks, legs, hands, penis and Poland syndrome. In addition, potential risks and complications are identified. The book has been written by leading experts and will be an invaluable source of information for students, beginners and experienced surgeons in a range of specialties.

Auricle / Icebreaker Alisha Piercy. 2010 Auricle: Inspired by a real, but unnamed medical subject from the 1850's, Marie was born with growths on her neck, other ears which may or may not provide her with extra-sensory perception. According to her mother, and her doctor, Birkett, with whom she falls in love, they must be cut off. The operation is to take place in Buenos Aires. Wandering and waiting in a foreign city these off-the-map relationships seem to lie just outside the boundaries of what is perceived. Only Marie's mother dreams outwards past Argentina: to her pen-pal F, and an island house she's loaned to him for a double-recuperation: of both his health, and their childhood romance. Icebreaker: Alice's summer job is to work as a hostess and chambermaid on an icebreaker ship which has been converted to a B&B. She is islanded, both by the permanently docked ship and by her inner world. Like a sailor lost-at-sea herself, her real occupation is to harbour drunken friends in the abandoned rooms of the ship and to will her lover G to come be with her there. Whether he exists or not. Icebreaker circles around the appearance and disappearance of a first love, and explores the hazy territory of what may or may not have happened when we were thirteen. The physical, the trivial, and the traumatic take on divine proportions in these spaces where everything is perceived in precise, ritualistic terms, where the secret to transcendence is not in occupying an otherworld but in living differently in this world.

Understanding Mass Incarceration James Kilgore. 2015-08-11 We all know that orange is the new black and mass incarceration is the new Jim Crow, but how much do we actually know about the structure, goals, and impact of our criminal justice system? Understanding Mass Incarceration offers the first comprehensive overview of the incarceration apparatus put in place by the world's largest jailer: the United States. Drawing on a growing body of academic and professional work, Understanding Mass Incarceration describes in plain English the many competing theories of criminal justice—from rehabilitation to retribution, from restorative justice to justice reinvestment. In a lively and accessible style, author James Kilgore illuminates the difference between prisons and jails, probation and parole, laying out key concepts and policies such as the War on Drugs, broken windows policing, three-strikes sentencing, the school-to-prison pipeline, recidivism, and prison privatization. Informed by the crucial lenses of race and gender, he addresses issues typically omitted from the discussion: the rapidly increasing incarceration of women, Latinos, and transgender people; the growing imprisonment of immigrants; and the devastating impact of mass incarceration on communities. Both field guide and primer, Understanding Mass Incarceration will be an essential resource for those engaged in criminal justice activism as well as those new to the subject.

Handwriting Rosemary Sassoon. 2003-03-18 `I found this a fascinating book to read, I could identify with my time at school when I would often write with my paper almost in at right angles to my body because I found this comfortable, and the teacher's insistence that the paper be straight in front of me. This then made me twist my body into a ridiculous shape, and would sometimes result in punishment for not sitting on the chair correctly....if only the teacher had understood the same principles as Rosemary Sassoon, who in this book emphasizes flexibility and clear thinking about essential issues, rather than to impose solutions' - Spare-Chair `Handwriting: The Way to Teach It should be required reading wherever Primary school teachers are trained, then perhaps there would be fewer young people still struggling to communicate in legible writing in Secondary school and later life' - Handwriting Today `This is a comprehensive textbook, and an extremely accessible and practical guide which should be on the bookshelf of every practitioner. I recommend it highly' - Jeni Riley, Head of Early Childhood and Primary Education, Institute of Education, University of London This book is an essential classroom guide to the teaching of handwriting. It covers all aspects of the subject: from whole-school planning, to classroom management and the teaching of letters in a highly illustrated and practical sequence; and from initial letter forms through to joined writing. The author presents many examples and imaginative ideas to make learning to write more effective and interesting for children and for teachers. This Second Edition includes material on problems which children can have with handwriting, and how to diagnose and remedy them. The author offers strategies for better teaching, and her aim throughout the book is to encourage flexibility and clear thinking about essential issues, rather than to impose solutions.
