With wisdom and practical insight, Clark and Healy walk you through biblical texts, dispel misconceptions, and show that there is an endless variety of gifts. They also show how the gifts are not just for a select few, but distributed freely by the Holy Spirit among believers. After laying this foundation, the authors reveal how you can activate the gifts in your own life and use them to benefit others. International Handbook of Inter-religious Education Kath Engebretson, Marian de Souza, Gloria Durka, Liam Gearon. 2010-08-17 This Handbook is based on the conviction of its editors and contributing authors that understanding and acceptance of, as well as collaboration between religions has essential educational value. The development of this Handbook rests on the further assumption that interreligious education has an important role in elucidating the global demand for human rights, justice, and peace. Interreligious education reveals that the creeds and holy books of the world's religions teach about spiritual systems that reject violence and the individualistic pursuit of economic and political gain, and call their followers to compassion for every human being. It also seeks to lead students to an awareness that the followers of religions across the world need to be, and to grow in, dialogical relationships of respect and understanding. An essential aim of interreligious education is the promotion of understanding and engagement between people of different religions and, therefore, it has great potential to contribute to the common good of the global community. Interreligious education has grown from the interfaith movement, whose beginning is usually identified with the World Parliament of Religions held in Chicago in 1893. This was the first time in history that leaders of the eastern and western religions had come together for dialogue, and to consider working together for global unity.

Hunt, James C. Carper. 2012-08-06 Exploring a subject that is as important as it is divisive, this two-volume work offers the first current, definitive work on the intricacies and issues relative to America's faith-based schools. The Praeger Handbook of Faith-Based Schools in the United States, K-12 is an indispensable study at a time when American education is increasingly considered through the lenses of race, ethnicity, gender, and social class. With contributions from an impressive array of experts, the two-volume work provides a historical overview of faith-based schooling in the United States, as well as a comprehensive treatment of each current faith-based school tradition in the nation. The first volume examines three types of faith-based schools—Protestant schools, Jewish schools, and Evangelical Protestant homeschooling. The second volume focuses on Catholic, Muslim, and Orthodox schools, and addresses critical issues common to faith-based schools, among them state and federal regulation and school choice, as well as ethnic, cultural, confessional, and practical factors. Perhaps most importantly for those concerned with the questions and controversies that abound in U.S. education, the handbook grapples with outcomes of faith-based schooling and with the choices parents face as they consider educational options for their children.

Prisms of Faith Robert E. Alvis,Ryan LaMothe.2015-12-17 In Prisms of Faith, a diverse and distinguished group of scholars approach the theme of religious education and Catholic identity from their respective disciplinary perspectives, offering compelling insights of interest to scholars, catechists, and the general reader alike. The first three chapters are more historical in nature, offering targeted studies that focus on the Apostolic Fathers as a resource in the formation of faithful Catholics, the preaching of St. Augustine, and religious education in modern Poland. The last four chapters have a more contemporary focus, approaching current initiatives and challenges in the formation of faithful Catholics. Issues under consideration include the rights and obligations enshrined in the 1983 Code of Canon Law, the catechetical dimension of liturgy, current obstacles and opportunities in the moral formation of Catholics, and a comparative analysis of three dominant approaches to Catholic religious education. Taken together, these seven chapters form a coherent whole, illustrating well the perennial importance of Catholic religious education, the various resources and methods employed in this work, and the stubborn challenges that effective formation entails.

A Handbook for Catholic Preaching Edward Foley. 2016-11-02 While admitting particular parameters and priorities for Roman Catholic preachers, this volume was intentionally envisioned as a handbook for catholic preaching in the broadest and most universal sense of that term. Cosponsored by the Catholic Academy of Liturgy, the Catholic Association of Teachers of Homiletics, and the Federation of Diocesan Liturgical Commissions, it covers the role of the Scriptures in preaching, the challenges of preaching in a digital age, sermonizing in an interfaith context, and the need for a liberative and prophetic word that cuts across denominations and even faith traditions. Intended to aid those who teach or direct the preaching arts, the design and writing style of this book are particularly calibrated to graduate students in ministerial studies. Every article is a self-contained overview of a particular historical period, genre of preaching, homiletic theory, or contemporary issue. This more encyclopedic approach—devoid of footnotes, yet supported by pertinent bibliography and an extensive index—provides a sufficiently rich yet thoroughly accessible gateway to major facets of the preaching arts at this stage of the twenty-first century. The definitive aim of catechesis is to put people not only in touch but in communion, in intimacy, with Jesus Christ. These words of Pope John Paul II are quoted in the first sentence of the United States Catholic Bishops Doctrinal Elements of a Curriculum Framework for the Development of Catechetical Materials for Young People of High School Age. The intention of the new Framework is similar: it provides the course structure and content instruction to serve as a way for high school

students to know Jesus Christ, to grow in relationship with him, and to live according to the truth he has given us. After several consultations through its development with bishops, diocesan leaders, teachers, catechists, and publishers, the full body of the United States Conference of Catholic Bishops unanimously approved the Framework in 2007. One of its first objectives was to provide guidance to publishers who create instructional materials for use both in Catholic high schools and parish youth ministry programs. Scope and Sequence Besides providing doctrinal elements for a curriculum, the Framework also strongly suggests a sequence to shape a four-year, eight-semester course of catechetical studies. There are six coresemester-length courses that the bishops strongly recommend be offered in the order they appear in the Framework. Those courses are: I. The Revelation of Jesus Christ in Scripture The Scriptures trace the coming of Jesus, the Christ. II. Who Is Jesus Christ? Jesus is the ultimate revelation from God. III. The Mission of Jesus Christ (The Paschal Mystery) Our redemption only comes in and through Jesus. IV. Jesus Christ Continues the Mission in the Church. The Church is the Body of Christ where we meet Jesus today. V. Sacraments as Privileged Encounters with Jesus Christ We can encounter Christ in a full and complete way in the Sacraments. VI. Life in Jesus Christ There are moral principles that govern the life of Christ's disciples. In addition five possible elective courses appear in this Framework as options for the other two semesters. Those courses have been titled Sacred Scripture, History of the Catholic Church, Living as a Disciple of Jesus Christ in Society (Social Justice), Responding to the Call of Jesus Christ (Marriage and Holy Orders), Ecumenical and Interreligious Issues Online Resources Include: - PowerPoint - Presentation - Study Guide - Crossword Puzzles - Review Questions - Prayer Services - And More! Religious Education Theodore Gerald Soares. 1928 This volume is an expansion of the Earl Lectures delivered at the Pacific School of Religion, Berkeley, California, in February, 1927. It is an attempt to restate the theory of religious education. As this subject is taking its place in the curricula of colleges and schools of theology, there is generally a fundamental course in the Principles of Religious Education. To provide a textbook for such a course has been the primary object in the preparation of this volume in its present form. It is hoped, however, that the general reader may find here such a treatment of the subject as will meet his interests and needs. While it is quite unlikely that he will care to undertake the work indicated in the Subjects for Study and the Suggestions for

the Autobiography appended to each chapter, he is recommended to read the statements, as they afford a development of the argument and are not merely class exercises

First Steps in Religious Education Brendan Hyde, Richard Rymarz. 2008 FIRST STEPS IN RELIGIOUS EDUCATION is an interactive handbook designed to assist those preparing to teach religious education in early years' classrooms. Both authors have been highly experienced and successful teachers of religious education in Catholic schools, and are effective teacher educators in the discipline. This book is infused with their experience and knowledge. Through a balance of theory and practice, the reader-participants are led to consider the nature and purpose of religious education, and to begin to develop a personal vision of themselves as teachers of religious education.

Becoming a Church of Lifelong Learners John Roberto. 2006 The key in the Generations approach to faith formation is that it builds on the strengths of a parish's current catechetical program, while creating a lifelong faith formation plan and intergenerational learning programs that gather all the generations to learn together and nurture faith at home throughout the life cycle. The CD-ROM includes PowerPoint presentations for each chapter, along with articles by religious education theorists who have been instrumental in developing a new paradigm of lifelong faith formation. The book is ideal for parish pastoral and catechetical leaders, as well as university courses in religious education and pastoral ministry.
