Louisa May Alcott (1832 - 1888) was an American short story writer, novelist, and poet most famous for writing the novel “Little Women”, as well as its sequels “Little Men” and “Jo's Boys”. She grew up in New England and became associated with numerous notable intellectuals of her time, including Nathaniel Hawthorne, Ralph Waldo Emerson, Henry Wadsworth Longfellow, and Henry David Thoreau. Other notable works by this author include: An Old-Fashioned Girl (1886), Eight Cousins (1869), and A Long Fatal Love Chase (1875). Many vintage books such as this are becoming increasingly scarce and expensive. We are republishing this volume now in an affordable, modern, high-quality edition complete with the original text and artwork.

Care, and Racial Justice Mai-Linh K. Hong, Chrissy Yee Lau, Preeti Sharma. 2021-11-02 The Auntie Sewing Squad Guide to Mask Making, Radical Care, and Racial Justice is a community manifesto of essays, poems, recipes, and art describing people who stepped up in the absence of government leadership. In March 2020, when the US government failed to provide personal protective equipment in the face of COVID-19, the Auntie Sewing Squad emerged to meet a critical need--sewing masks--and to critique the US government failure to protect the public's health. Led primarily by Asian American women and other women of color, including some who learned to sew from refugee mothers and grandmothers working in sweatshops, the Auntie Sewing Squad openly tells a history of exploited immigrant labor, while turning it on its head. The Auntie Sewing Squad became a cadre of dispersed mask-sewers who nimbly funneled masks to asylum seekers, indigenous communities, incarcerated people, and many others in need of protection. Sewing masks became a way not only to meet a public health need, but also to come together in mutual aid and to support cross-racial solidarity and political action in a moment of social upheaval--

world are health workers attending to infected persons or people who are either sneezing or coughing. However, as the days go by, we get to read more and more precautionary measures to prevent the spread of the virus. Now, the CDC (Center for Disease Control and Prevention) has advised us all to wear a face mask whenever we go out, especially in places where it may be hard to practice social distancing like the health stores and malls, even for people who are not sick or exposed to infected persons. However, even the health care workers do not have enough supplies of face masks and have been calling for donations from people, and so, people who need face masks for their personal use should make their own at home so that our health professionals can have enough to keep them safe while they attend to infected people. So, this book has compiled all the different methods to make your own face mask at home, whether for personal use or donations to health facilities. This book covers the following topics: What is a medical face mask Types of face mask and why we need them How and when to use facemask How to wear and remove the facemask Taking custom measurements and drafting your pattern Preparing your fabric Assembling your DIY medical face mask Additional safety precautions to observe How to prevent infections Step by step masks for kids and adults Risks of improper mask use Masks work ...And much more There are lots of information available online on how to make face mask in minutes, but you need to ask yourself if the face mask you are making will help to keep you and people around you safe. The crucial question should be, what material should I use to make a good and protective face mask? Before you can confidently answer this question, you need to consider two vital aspects of mask making. Effectiveness of a face mask You need to consider two factors when choosing the fabric for making your face mask. These factors are: Particle capture: An effective face mask should be able to keep most particles and viruses away. This cannot be achieved with just any material. Breathability It's one thing to

have a face mask that can capture a high percentage of particles and another thing to be able to breathe through the mask. If you have to continually lift your mask to be able to breathe, then it means the mask is not effectively serving its purpose. Ready to get started? Click Buy Now!

The Face Mask In COVID Times Deborah Lupton, Clare Southerton, Marianne Clark, Ash Watson. 2021-04-19 The simple fabric face mask is a key agent in the fight against the global spread of COVID-19. However, beyond its role as a protective covering against coronavirus infection, the face mask is the bearer of powerful symbolic and political power and arouses intense emotions. Adopting an international perspective informed by social theory, *The Face Mask in COVID Times: A Sociomaterial Analysis* offers an intriguing and original investigation of the social, cultural and historical dimensions of face-masking as a practice in the age of COVID. Rather than Beck's 'risk society', we are now living in a 'COVID society', the long-term effects of which have yet to be experienced or imagined. Everything has changed. The COVID crisis has generated novel forms of sociality and new ways of living and moving through space and time. In this new world, the face mask has become a significant object, positioned as one of the key ways people can protect themselves and others from infection with the coronavirus. The face mask is rich with symbolic meaning as well as practical value. In the words of theorist Jane Bennett, the face mask has acquired a new 'thing-power' as it is coming together with human bodies in these times of uncertainty, illness and death. The role of the face mask in COVID times has been the subject of debate and dissension, arousing strong feelings. The historical and cultural contexts in which face masks against COVID contagion are worn (or not worn) are important to consider. In some countries, such as Japan and other East Asian nations, face mask wearing has a long tradition. Full or partial facial coverings, such as veiling, is common practice in regions such as the Middle East. In many other countries, including most countries in the Global North,

most people, beyond health care workers, have little or no experience of face masks. They have had to learn how to make sense of face masking as a protective practice and how to incorporate face masks into their everyday practices and routines. Face masking practices have become highly political. The USA has witnessed protests against face mask wearing that rest on 'sovereign individualism', a notion which is highly specific to the contemporary political climate in that country. Face masks have also been worn to make political statements: bearing anti-racist statements, for example, but also Trump campaign support. Meanwhile, celebrities and influencers have sought to advocate for face mask wearing as part of their branding, while art makers, museums, designers and novelty fashion manufacturers have identified the opportunity to profit from this sudden new market. Face masks have become a fashion item as well as a medical device: both a way of signifying the wearer's individuality and beliefs and their ethical stance in relation to the need to protect their own and others' health. *The Face Mask in COVID Times: A Sociomaterial Analysis* provides a short and accessible analysis of the sociomaterial dimensions of the face mask in the age of COVID-19. The book presents seven short chapters and an epilogue. We bring together sociomaterial theoretical perspectives with compelling examples from public health advice and campaigns, anti-mask activism as well as popular culture (news reports, blog posts, videos, online shopping sites, art works) to illustrate our theoretical points, and use Images to support our analysis.

Face and Mask Hans Belting.2022-06-14 A cultural history of the face in Western art, ranging from portraiture in painting and photography to film, theater, and mass media This fascinating book presents the first cultural history and anthropology of the face across centuries, continents, and media. Ranging from funerary masks and masks in drama to the figural work of contemporary artists including Cindy Sherman and Nam June Paik, renowned art historian Hans Belting emphasizes that while the face plays a critical role in human communication, it defies attempts at visual representation. Belting divides his book into three parts: faces as masks of the self, portraiture as a constantly evolving mask in Western culture, and the fate of the face in the age of mass media. Referencing a vast array of sources, Belting's insights draw on art history, philosophy, theories of visual culture, and cognitive science. He demonstrates that Western efforts to portray the face have repeatedly failed, even with the developments of new media such as photography and film, which promise ever-greater degrees of verisimilitude. In spite of sitting at the heart of human expression, the face resists possession, and creative endeavors to capture it inevitably result in masks—hollow signifiers of the humanity they're meant to embody. From creations by Van Eyck and August Sander to works by Francis Bacon, Ingmar Bergman, and Chuck Close, Face and Mask takes a remarkable look at how, through the centuries, the physical visage has inspired and evaded artistic interpretation.

The Unreasoning Mask Philip José Farmer.1983

Unmasked Ian Miller.2022-02-11 Masks have been a ubiquitous and oft-politicized aspect of the COVID-19 pandemic. Years of painstakingly organized pre-pandemic planning documents led public health experts to initially discourage the use of masks, or even insinuate that they could lead to increased rates of spread. Yet seemingly in a matter of days in spring 2020, leading infectious disease scientists and organizations reversed their previous positions and recommended masking as the key tool to slow the spread of COVID and dramatically reduce infections. *Unmasked* tells the story of how effective or ineffective masks and mask mandate policies were in impacting the trajectory of the pandemic throughout the world. Author Ian Miller covers the earliest days of the pandemic, from experts such as Dr. Anthony Fauci contradicting their previous statements and recommending masks as the most important policy intervention against the spread of COVID, to the months afterward as many locations around the globe mandated masks in nearly all public settings. With easy-to-understand charts and visual aids, along with detailed, clear explanations of the dramatic shift in policy and expectations, *Unmasked* makes the data-driven case that masks might not have achieved the goals that Fauci and other public health experts created.

Mask .2019-09-24 2020 IBPA Awards Winner! *Mask* presents a striking collection of rare masks steeped in ancient tradition, captured through the lens of one of the world's most celebrated documentary photographers. Celebrated photographer Chris Rainier has documented indigenous and endangered cultures worldwide. What began as a focus on the masks of New Guinea—where modernity threatened to erase ancient rituals and cultures—became an expansive journey to find and photograph traditional masks that has taken Rainier across six continents over the past thirty years. The result is this mesmerizing photographic collection of masks—some of them ancient, some newer, many hidden at the edges of the known world and rarely revealed to outsiders. Traditional masks are so often seen behind the glass of museum cabinets, divorced from their spiritual significance. But the masks in this collection are still being danced today, in countless cultures all over the world. Rainier conveys them pulsing with the rhythms of life, full of power and spiritual relevance. Through his stunning photography—at once mysterious and unguarded—Rainier takes us on a pilgrimage to experience masks and mask rituals: from those found at initiation rituals in Burkina Faso to Bön Buddhist masks long hidden in a Nepalese monastery in the high Himalayas, the raven and bear regalia of North American First Nation potlatches, and the terrifying, child-chasing Krampus masks of the Austrian Alps. Accompanying these striking images are a foreword by renowned essayist Pico Iyer, ethnographic notes from anthropologist Robert L.
