*Soundscapes of Liberation* Celeste Day Moore.2021-08-23 In *Soundscapes of Liberation*, Celeste Day Moore traces the popularization of African American music in postwar France, where it signaled new forms of power and protest. Moore surveys a wide range of musical genres, soundscapes, and media: the US military's wartime records and radio programs; the French record industry's catalogs of blues, jazz, and R&B recordings; the translations of jazz memoirs; a provincial choir specializing in spirituals; and US State Department-produced radio programs that broadcast jazz and gospel across the French empire. In each of these contexts, individual intermediaries such as educators, producers, writers, and radio deejays imbued African American music with new meaning, value, and political power. Their work resonated among diverse Francophone audiences and transformed the lives and labor of many African American musicians, who found financial and personal success as well as discrimination in France. By showing how the popularity of African American music was intertwined with contemporary structures of racism and imperialism, Moore demonstrates this music's centrality to postwar France and the convergence of decolonization, the expanding globalized economy, the Cold War, and worldwide liberation movements.

**Made in France** Gérôme Guibert,Catherine Rudent.2017-11-06 *Made in France: Studies in Popular Music* serves as a comprehensive introduction to the history, sociology, and musicology of contemporary French popular music. The volume consists of essays by scholars of French popular music, and covers the major figures, styles, and social contexts of pop music in France. The book first presents a general description of the history and background of popular music in France, followed by essays that are organized into thematic sections: The Mutations of French Popular Music During the Trente Glorieuses; Politicising Popular Music; Assimilation, Appropriation, French Specificity; and From Digital Stakes to Cultural Heritage: French Contemporary Topics. **Reinventing French Aid** Laure Humbert.2021-05-20 Laure Humbert explores how humanitarian aid in occupied Germany was influenced by French politics of national recovery and Cold War rivalries. She examines the everyday encounters between French officials, members of new international organizations, relief workers, defeated Germans and Displaced Persons, who remained in the territory of the French zone prior to their repatriation or emigration. By rendering relief workers and Displaced Persons visible, she sheds lights on their role in shaping relief practices and addresses the neglected issue of the gendering of rehabilitation. In doing so, Humbert highlights different cultures of rehabilitation, in part rooted in pre-war ideas about 'overcoming' poverty and war-induced injuries and, crucially, she unearths the active and bottom-up nature of the restoration of France's prestige. Not only were relief workers concerned about the image of France circulating in DP camps, but they also drew DP artists into the orbit of French cultural diplomacy in Germany.

*Consentement et contrainte dans les soins en psychiatrie* Jean-Charles Pascal,Cécile Hanon.2014-04-14 Le soin psychiatrique est le seul (ou presque) pour lequel une procédure d'intervention sans le consentement est prévue. En effet, la nature même de certains troubles psychiques peut altérer la capacité à consentir, et dans ce cas, le cadre légal de la contrainte permet d'assurer des soins « sans consentement ». Un débat complexe abordé à travers 3 axes complémentaires : - Le cheminement historique, le cadre juridique, de la loi de 1838, à celle de 1990 jusqu'à la réforme de 2011-2013 pour comprendre la mise en place, l'évolution et les différentes options des soins sans consentement. - Les exemples d'application de la loi dans certains cas particuliers : soins en milieu carcéral, prise en charge de personnes démentes, auteurs d'agressions sexuelles... - Le panorama des soins sous contraintes pratiqués dans d'autres pays européens.

**Le plus bel âge** Ludivine Bantigny.2007 Crise de la jeunesse , fossé des générations , nouvelle classe dangereuse : ces expressions ont rythmé les discours sociaux, politiques et médiatiques de la Libération jusqu'au cœur des Trente Glorieuses. Enquêtes, sondages et réquisitoires divers entendaient sans répit cerner les contours de l'identité des jeunes. De Tricheurs en nouvelle vague, le cinéma les porta en haut de l'affiche. Les blousons noirs effrayaient. Cynisme d'une génération désabusée, recrudescence de la délinquance juvénile, symptômes d'une France troublée par son entrée en croissance accélérée : tous les ingrédients semblaient réunis pour ériger, pour la première fois, la jeunesse en véritable enjeu de société. Au même moment, les sciences humaines et sociales commençaient à faire des jeunes un sujet d'étude privilégié. La psychologie, la psychanalyse parfois pénétraient les institutions chargées de les encadrer : l'école, l'armée, la justice des mineurs, les centres d'éducation surveillée... Des politiques publiques se mettaient en place qui devaient déboucher sur la création d'un ministère de la Jeunesse. Dans les partis politiques et les syndicats, les aspirations et revendications des générations montantes tenaient à présent une place non négligeable. Pour ces jeunes, les difficultés ne manquaient en effet pas. Les prémisses de la massification mettaient en évidence l'inadaptation du système scolaire à les accueillir convenablement. Pour les jeunes travailleurs, l'âge créait davantage d'obstacles qu'il n'en résolvait. Surtout, nés au temps des classes creuses , ces jeunes formèrent aussi une génération de la double guerre, celle qu'ils connurent enfants dans les affres de la défaite et de l'occupation, et celle qui hanta et happa leur jeunesse, la guerre d'Algérie. Tout cela justifie qu'on n'accrole pas à leurs vingt ans le qualificatif éculé de plus bel âge .

*Sounds French* Jonathyne Briggs.2015-03-02 *Sounds French* examines the history of popular music in France between the arrival of rock and roll in 1958 and the collapse of the first wave of punk in 1980, and the connections between musical genres and concepts of community in French society. During this period, scholars have tended to view the social upheavals associated with postwar reconstruction as part of debates concerning national identity in French culture and politics, a tendency that developed from political figures' and intellectuals' concerns with French national identity. In this book, author Jonathyne Briggs reorients the scholarship away from an exclusive focus on national identity and instead towards an investigation of other identities that develop as a result of the increased globalization of culture. Popular music, at once individual and communal, fixed and plastic, offers an illuminating window into such transformations in social structures through the ways in which musicians, musical consumers, and critical intermediaries re-imagined themselves as part of novel cultural communities, whether local, national, or supranational in nature. Briggs

argues that national identity was but one of a panoply of identities in flux during the postwar period in France, demonstrating that the development of hybridized forms of popular music provided the French with a method for expressing and understanding that flux. Drawing upon an array of printed and aural sources, including music publications, sound recordings, record sleeves, biographies, and cultural criticism, *Sounds French* is an essential new look at popular music in postwar France.
