**BRICS Media** Daya Kishan Thussu, Kaarle Nordenstreng. 2020-12-28 Bringing together distinguished scholars from BRICS nations and those with deep interest and knowledge of these emerging powers, this collection makes a significant intervention in the ongoing debates about comparative communication research and thus contributes to the further internationalization of media and communication studies. The unprecedented expansion of online media in the world's major non-Western nations, exemplified by BRICS (Brazil, Russia, India, China and South Africa) is transforming global communication. Despite their differences and divergences on key policy issues, what unites these five nations, representing more than 20 per cent of the global GDP, is the scale and scope of change in their communication environment, triggered by a multilingual, mobile Internet. The resulting networked and digitized communication ecology has reoriented international media and communication flows. Evaluating the implications of globalization of BRICS media on the reshaping of international communication, the book frames this within the contexts of theory-building on media and communication systems, soft power discourses and communication practices, including in cyberspace. Adopting a critical approach in analysing BRICS communication strategies and their effectiveness, the book assesses the role of the BRICS nations in reframing a global communication order for a 'post-American world'. This critical volume of essays is ideal for students, teachers and researchers in journalism, media, politics, sociology, international relations, area studies and cultural studies.

Marx's Economics Michio Morishima. 1973 Professor Morishima concentrates on the three volumes of Das Kapital and their contributions to the major topics of traditional Marxian economics. He provides a rigorous mathematisation of the labour theory of value, the theory of exploitation, the transformation problem, the reproduction scheme, the law of relative surplus population, the falling rate of capital and the turnover of capital. After proving Marxian propositions in a rigorous way, he argues that in order to combine Marx's model with von Neumann's in a new growth theory it is necessary to abandon the labour theory of value. Professor Morishima feels that this sacrifice is well worth making, because it enables Marxian economics to be integrated with orthodox theory into a new Marx-von Neumann theory of growth, and this to make an important contribution to the development of the subject.

*Cinema Genre* Raphaëlle Moine. 2009-01-26 Genre - or 'type' - is a core concept in both film production and the history of film. Genres play a key role in how moviegoers perceive and rate films, and is likely to determine a film's production values and costs. Written in a clear, engaging, jargon-free style, this volume offers a cutting-edge theoretical overview of the topic of genre as practiced in British, American and French film criticism. Organized by a series of simple but fundamental questions, the book uses numerous examples from classic Hollywood cinema (the western, drama, musical comedy, and film noir) as well as some more contemporary examples from European or Asian cinema that are so often neglected by other studies in the field. How do we characterize genre and what are its various functions? In what ways does genre give a film its identity? How do genres emerge? What is the cultural significance of genre and how does it circulate within and across national boundaries? Informative and user-friendly, Moine's book is accessible to general readers and adapts easily to a wide range of teaching approaches.

**Management Practices in Asia** Christiane Prange, Ralph Kattenbach. 2019-08-20 Asia is a continent of contradictions and boundaries; it offers exciting business opportunities, but is also characterized by unpredictability and conflict. While flexibility and creativity are in the DNA of many

startups in China, major players like Xiaomi and Alibaba have also emerged as global giants, challenging established global competitors. The authors of this book show that these companies are crossing various boundaries – between cultures, mindsets, and perspectives. At the same time, Western companies entering Asian markets face challenges that are very different from those on their home turf. This book addresses the needs of current and future managers doing business in Asia, who need to understand the individual, social and business challenges that can arise from crossing boundaries. The respective case studies provide essential insights on how several Asian companies have made impressive strides towards becoming established players; how the revival of local brands and growing pride in local products has become a major challenge for global competition; how the need to actively practice corporate social responsibility in Asian markets is currently challenging many companies; and how the need for individual and team coaching among the members of management to support a company's development has grown tremendously, calling for new solutions.

**Issues in Curating Contemporary Art and Performance** Judith Rugg, Michèle Sedgwick.2007 To stay relevant, art curators must keep up with the rapid pace of technological innovation as well as the aesthetic tastes of fickle critics and an ever-expanding circle of cultural arbiters. *Issues in Curating Contemporary Art and Performance* argues that, despite these daily pressures, good curating work also requires more theoretical attention. In four thematic sections, a distinguished group of contributors consider curation in light of interdisciplinary and emerging practices, examine conceptions of curation as intervention and contestation, and explore curation's potential to act as a reconsideration of conventional museum spaces. Against the backdrop of cutting-edge developments in electronic art, art/science collaboration, nongallery spaces, and virtual fields, contributors propose new approaches to curating and new ways of fostering critical inquiry. Now in paperback, this volume is an essential read for scholars, curators, and art enthusiasts alike.

**The Acharnians** Aristophanes.2021-04-25 *Acharnians* is the earliest of the existent comedies of Aristophanes, produced in 425 BCE. It is a direct attack on the folly of war. The story deals with an Athenian farmer, Dikaiopolis, who surprisingly obtains a private peace treaty with the Spartans and enjoys the benefits of peace despite resistance from some of his fellow Athenians. This drama is celebrated for its absurd humor and its innovative appeal for an end to the Peloponnesian War.

*Arabian Medicine* Edward G. Browne.2008-10 PREFACE. THE Author of this very practical treatise on Scotch Loch - Fishing desires clearly that it may be of use to all who had it. He does not pretend to have written anything new, but to have attempted to put what he has to say in as readable a form as possible. Everything in the way of the history and habits of fish has been studiously avoided, and technicalities have been used as sparingly as possible. The writing of this book has afforded him pleasure in his leisure moments, and that pleasure would be much increased if he knew that the perusal of it would create any bond of sympathy between himself and the angling community in general. This section is interleaved with blank sheets for the readers notes. The Author need hardly say that any suggestions addressed to the case of the publishers, will meet with consideration in a future edition. We do not pretend to write or enlarge upon a new subject. Much has been said and written-and well said and written too on the art of fishing but loch-fishing has been rather looked upon as a second-rate performance, and to dispel this idea is one of the objects for which this present treatise has been written. Far be it from us to say anything against fishing, lawfully practised in any form but many pent up in our large towns will bear us out when me say that, on the whole, a days loch-fishing is the most convenient. One great matter is, that the loch-fisher is dependent on nothing but enough wind to curl the water, -and on a large loch it is very seldom that a dead calm prevails all day, -and can make his arrangements for a day, weeks beforehand whereas the stream- fisher is dependent for a good take on the state of the water and however pleasant and easy it may be for one living near the banks of a good trout stream or river, it is quite another matter to arrange for a days river-fishing, if one is looking forward to a holiday at a date some weeks ahead. Providence may favour the expectant angler with a good day, and the water in order but experience has taught most of us that the good days are in the minority, and that, as is the case with our rapid running streams, -such as many of our northern streams are, -the water is either too large or too small, unless, as previously remarked, you live near at hand, and can catch it at its best. A common belief in regard to loch-fishing is, that the tyro and the experienced angler have nearly the same chance in fishing, -the one from the stern and the other from the bow of the same boat. Of all the absurd beliefs as to loch-fishing, this is one of the most absurd. Try it. Give the tyro either end of the boat he likes give him a cast of ally flies he may fancy, or even a cast similar to those which a crack may be using and if he catches one for every three the other has, he may consider himself very lucky. Of course there are lochs where the fish are not abundant, and a beginner may come across as many as an older fisher but we speak of lochs where there are fish to be caught, and where each has a fair chance. Again, it is said that the boatman has as much to do with catching trout in a loch as the angler. Well, we dont deny that. In an untried loch it is necessary to have the guidance of a good boatman but the same argument holds good as to stream-fishing...

*Dictionnaire Des Devises Historiques Et Héraldiques: Dictionnaire des devises nobiliaires et historiques* Alphonse Chassant, Henri Tausin. 1878  
The Crisis of Reason J. W. Burrow. 2002-11-01 This elegantly written book explores the history of ideas in Europe from the revolutions of 1848 to the beginning of the First World War. Broader than a straight survey, deeper and richer than a textbook, this work seeks to place the reader in the position of an informed eavesdropper on the intellectual conversations of the past. J. W. Burrow first outlines the intellectual context of the mid-nineteenth century, using ideas taken from physics, social evolution, and social Darwinism, and anxieties about modernity and personal identity, to explore the impact of science and social thought on European intellectual life. The discussion encompasses powerful and fashionable concepts in evolution, art, myth, the occult, and the unconscious mind; the rise of the great cities of Berlin, Paris, and London; and the work of literary writers, philosophers, and composers. Most of the great intellectual figures of the age—and many of the lesser known—populate the book, among them Mill, Bakunin, Nietzsche, Bergson, Renan, Pater, Proust, Clough, Flaubert, Wagner, and Wilde. The author wears his erudition lightly, and this distinguished book will be both entertaining and accessible to scholars, students, and general readers alike.

**A Guide to the Latin American Art Song Repertoire** Maya Hoover. 2010-04-29 A reference guide to the vast array of art song literature and composers from Latin America, this book introduces the music of Latin America from a singer's perspective and provides a basis for research into the songs of this richly musical area of the world. The book is divided by country into 22 chapters, with each chapter containing an introductory essay on the music of the region, a catalog of art songs for that country, and a list of publishers. Some chapters include information on additional sources. Singers and teachers may use descriptive annotations (language, poet) or pedagogical annotations (range, tessitura) to determine which pieces are appropriate for their voices or programming needs, or those of their students. The guide will be a valuable resource for vocalists and researchers, however familiar they may be with this glorious repertoire.

Experiences in Translation Umberto Eco. 2008-01-01 In this book Umberto Eco argues that translation is not about comparing two languages, but about the interpretation of a text in two different languages, thus involving a shift between cultures. An author whose works have appeared in many languages, Eco is also the translator of Gérard de Nerval's *Sylvie* and Raymond Queneau's *Exercices de style* from French into Italian. In *Experiences*

in Translation he draws on his substantial practical experience to identify and discuss some central problems of translation. As he convincingly demonstrates, a translation can express an evident deep sense of a text even when violating both lexical and referential faithfulness. Depicting translation as a semiotic task, he uses a wide range of source materials as illustration: the translations of his own and other novels, translations of the dialogue of American films into Italian, and various versions of the Bible. In the second part of his study he deals with translation theories proposed by Jakobson, Steiner, Peirce, and others. Overall, Eco identifies the different types of interpretive acts that count as translation. An enticing new typology emerges, based on his insistence on a common-sense approach and the necessity of taking a critical stance.

**Modernism Reborn** Michael Webb, Roger Straus. 2001 In the first book of its kind, architectural critic Michael Webb and Esto photographer Roger Straus III examine 35 extraordinary modern houses that have been restored, enhanced, or extended by new owners who see them as timeless classics. Built in the heyday of modernism, from the 1930s through the early 1960s, these houses were designed by exceptional architects for themselves or for adventurous clients. A few were preserved as time capsules, but most endured years of neglect or abuse and might easily have been torn down. Webb explores how these houses were created-- as daring experiments or as creative responses to site and climate-- and the research and effort that went into their restoration. Included here are villas that fuse craft and invention, machines for living, and residences that embrace the landscape. Here, too, are houses inspired by the purity of classical temples, and frugal dwellings that have been sensitively enlarged. After a long eclipse, these houses and the enlightened attitudes they embody are being rediscovered by creative individuals searching for distinctive, open, light-filled places to live. Modernism is a way of living, more than a style, and this book celebrates the architects and owners who respect its character and scale. Also included are nearly 200 photographs taken by Roger Straus, all of which were specially commissioned for this book.

In the small French village of Cressy-la-Valoise, a local piano contest brings together two brilliant young players: Julien Dubois, the privileged heir of a wealthy family, and François Samson, the janitor's son. One wins, one loses, and both are changed forever. 1997. In a huge mansion stained with cigarette smoke and memories, a bitter old man is shaken by the unexpected visit of an interviewer. Somewhere between reality and fantasy, Julien composes, like in a musical score, a complex and moving story about the cost of success, rivalry, redemption, and flying pianos. When all is said and done, did anyone ever truly win? And is there any music left to play?

*Historical Knowledge, Historical Error* Allan Megill.2007-02 In the past thirty years, historians have broadened the scope of their discipline to include many previously neglected topics and perspectives. They have chronicled language, madness, gender, and sexuality and have experimented with new forms of presentation. They have turned to the histories of non-Western peoples and to the troubled relations between “the West” and the rest. Allan Megill welcomes these developments, but he also suggests that there is now confusion among historians about what counts as a justified account of the past. In *Historical Knowledge, Historical Error*, Megill dispels some of the confusion. Here, he discusses issues of narrative, objectivity, and memory. He attacks what he sees as irresponsible uses of evidence while accepting the art of speculation, which incomplete evidence forces upon historians. Along the way, he offers succinct accounts of the epistemological road historians have traveled from Herodotus and Thucydides through Leopold von Ranke and Alexis de Tocqueville, and on to Hayden White, Natalie Zemon Davis, and Lynn Hunt.

It features a massive database of free eBooks collated from across the world. Since there are thousands of pages, you need to be very well versed with the site to get the exact content you are looking for. Here is an updated version of the \$domain website which many of our East European book trade customers have been using for some time now, more or less regularly. We have just introduced certain upgrades and changes which should be interesting for you. Please remember that our website does not replace publisher websites, there would be no point in duplicating the information. Our idea is to present you with tools that might be useful in your work with individual, institutional and corporate customers. Many of the features have been introduced at specific requests from some of you. Others are still at preparatory stage and will be implemented soon. There are specific categories of books on the website that you can pick from, but only the Free category guarantees that you're looking at

free books. They also have a Jr. Edition so you can find the latest free eBooks for your children and teens. All of the free books at ManyBooks are downloadable — some directly from the ManyBooks site, some from other websites (such as Amazon). When you register for the site you're asked to choose your favorite format for books, however, you're not limited to the format you choose. When you find a book you want to read, you can select the format you prefer to download from a drop down menu of dozens of different file formats.
