*Mosby's Textbook for Long-term Care Assistants* Sheila A. Sorrentino, Bernie Gorek. 2003 This popular text provides complete coverage of the knowledge and skills nursing assistants need to work in a long-term care facility. The concise, readable, highly visual format appeals to learners of all levels. The clear, logical presentation of procedures, with hundreds of large, full-color photos and drawings, makes it easy for students to learn and understand. This new edition addresses the expanding role of the nursing assistant in long-term care, providing additional coverage of assisted living, restraint alternatives, transfers, wound care, elderly abuse, and restorative nursing. Covers all of the knowledge and skills needed by the nursing assistant in long-term care. An attractive, full-color design engages students' interest. Over 100 procedures stressing the quality of life are divided into pre-, procedure, and post-procedure sections for easier learning. Hundreds of full-color photos and drawings add visual appeal and show students how to perform important tasks. What You Will Learn and Key Terms with definitions help students focus on essential information and better understand chapter content. Caring About Culture boxes provide insight and awareness about the practices of various cultures. NNAAPT Highlighted skills alert students to procedures that are part of the National Nurse Aide Assessment Program (NNAAPT) Residents with Dementia boxes detail special care considerations for residents with Alzheimer's disease and other dementias. Quality of Life boxes present actions and considerations that nursing assistants can use to provide care according to the OBRA mandate to enhance/protect residents' rights and improve their overall well-being. OBRA content is highlighted throughout to reinforce the importance of adhering to these federal standards. Focus on Rehabilitation and Subacute Care boxes provide students with information and insights to effectively care for these special residents. Chapter Review Questions help students evaluate learning. UNIQUE! Mosby's Nursing Assistant CD-ROM, bound in the text,

includes 25 procedures with corresponding video clips & exercises, an audio glossary, and Body Spectrum - an electronic anatomy coloring book. Lower reading level (6.7) makes comprehension easy for all levels of learners. Delegation Guidelines detail what the student needs to know and understand before accepting delegated tasks. Charting examples demonstrate correct recording methods. Safety Alerts highlight actions that ensure the safety of both residents and staff. New chapter on Restraint Alternatives and Safe Restraint Use. New chapter on Assisted Living discusses caring for residents in these settings.

**Nursing Care in Pediatric Respiratory Disease** Concettina Tolomeo.2012-01-03 Pediatric respiratory disorders are responsible for a number of acute and chronic health conditions and are a leading cause of pediatric emergency room visits and hospitalizations. More than ever, nurses and nurse practitioners must have an understanding of the anatomy, pathophysiology, diagnosis and state of the art treatments in pediatric respiratory disease as they are often the first to come in contact with and recognize respiratory problems in children. Nursing Care in Pediatric Respiratory Disease seeks to provide both nurses and nurse practitioners with this information in order to aid them in the diagnosis and treatment of children suffering from acute and chronic respiratory disorders. Nursing Care in Pediatric Respiratory Disease opens with an overview of the anatomy and physiology of the respiratory system, best practices for assessing respiratory symptoms in children, and common respiratory therapies and treatment methods. It then proceeds through an examination of varying acute and chronic upper and lower respiratory diseases spanning from asthma and cystic fibrosis to vocal cord paralysis and sinusitis in both hospital and ambulatory settings. Nursing Care in Pediatric Respiratory Disease provides nurses and other health care providers with a comprehensive and practical resource which allows them to collaborate and advocate more

effectively, as well as educate both the family and child in management of respiratory disorders. *Residential, Home and Community Aged Care Workbook* Carla Unicomb, Wendy Bell. 2023-09-15
