Not only that you have a lot of free stuff to choose from, but the eBooks can be read on most of the reading platforms like, eReaders, Kindle, iPads, and Nooks. Because this site is dedicated to free books, there's none of the

hassle you get with filtering out paid-for content on Amazon or Google Play Books. We also love the fact that all the site's genres are presented on the homepage, so you don't have to waste time trawling through menus. Unlike the bigger stores, Free-Ebooks.net also lets you sort results by publication date, popularity, or rating, helping you avoid the weaker titles that will inevitably find their way onto open publishing platforms (though a book has to be really quite poor to receive less than four stars). The Literature Network: This site is organized alphabetically by author. Click on any author's name, and you'll see a biography, related links and articles, quizzes, and forums. Most of the books here are free, but there are some downloads that require a small fee.
