**Performing the Archive** Simone Osthoff.2009 Instead of smoothing over contemporary art's violent and iconoclastic dimensions, instead of sanitizing and making complex artworks docile in terms of archival possibilities, this book suggests we abandon our fantasy of mastery over representation and respond in kind to the archive-as-artwork, to living archives, and to reenactments of history with their seamless connections between fiction and non-fiction. Among the concepts examined are Vilém Flusser's techno-imagination, Lygia Clark's and Hélio Oiticica's participatory aesthetics, and Paulo Bruscky's and Eduardo Kac's literal performances of the archive. They contribute to the erosion of the archive's former boundaries, stability, function, and meaning. Writing alongside the artists as much as about them, Osthoff examines the archive mise-en-abyme, as it grows increasingly recombinant and generative. Simone Osthoff received her Ph.D. from the European Graduate School and is Associate Professor of Critical Studies in the School of Visual Arts at Pennsylvania State University. An art critic and historian of contemporary art, her numerous essays, focusing on media art practices and issues of historiography, have been published internationally and translated into over eight languages.

The Making of Modern Colombia David Bushnell.1993-02-09 Colombia's status as the fourth largest nation in Latin America and third most populous—as well as its largest exporter of such disparate commodities as emeralds, books, processed cocaine, and cut flowers—makes this, the first history of Colombia written in English, a much-needed book. It tells the remarkable story of a country that has consistently defied modern Latin American stereotypes—a country where military dictators are virtually unknown, where the political left is congenitally weak, and where urbanization and industrialization have spawned no lasting populist movement. There is more to Colombia than the drug trafficking and violence that have recently gripped the world's attention. In the face of both cocaine wars and guerrilla conflict, the country has maintained steady economic growth as well as a relatively open and democratic government based on a two-party system. It has also produced an impressive body of art and literature. David Bushnell traces the process of state-building in Colombia from the struggle for independence, territorial consolidation, and reform in the nineteenth century to economic development and social and political democratization in the twentieth. He also sheds light on the modern history of Latin America as a whole.

*That Book Woman* Heather Henson.2011-07-26 An exquisitely illustrated paean to everyone who struggles to learn how to read, and to everyone who won't give up on them. Cal is not the readin' type. Living way high up in the Appalachian Mountains, he'd rather help Pap plow or go out after wandering sheep than try some book learning. Nope. Cal does not want to sit stoney-still reading some chicken scratch. But that Book Woman keeps coming just the same. She comes in the rain. She comes in the snow. She comes right up the side of the mountain, and Cal knows that's not easy riding. And all just to lend his sister some books. Why, that woman must be plain foolish—or is she braver than he ever thought? That Book Woman is a rare and moving tale that honors a special part of American history—the Pack Horse Librarians, who helped untold numbers of children see the stories amid the chicken scratch, and thus made them into lifetime readers.
