On the Donation of Constantine Lorenzo Valla.2008 Valla (1407-1457) was the most important theorist of the humanist movement. His most famous work is the present volume, an oration in which Valla uses new philological methods to attack the authenticity of the most important document justifying the papacy's claims to temporal rule.

Biblical Theology of the Old Testament Bob Conway.2016-10-17 Biblical Theology of the Old Testament: A Lamp Shinning on the New Testament is a study of progressive biblical revelation from five centers that may be studied individually, but when combined shine light on both testaments. THE STRUCTURAL CENTER is God's four programs-Covenants, Kingdom, Messiah and Land-is the central motifs of every biblical doctrine and event. THE ETHICAL CENTER looks at every aspect of the Law and its applications under the Old Covenant and New Covenant. THE PROPHETICAL CENTER is an interpretation of the theology of each of the Old Testament prophets. THE HISTORICAL CENTER provides the biblical view of man along with God's plan of redemption for Israel and the Church. THE DIVINE CENTER is God's autobiography written on the pages of Scripture. Within this book, a critical assessment of Classic Theism and Open Theism is made that is based solely on Scripture, revealing that God is always at work-sustaining and overruling in all creation for His plans and purposes.

The Quest for Compromise Howard Louthan.2006-06-22 The Quest for Compromise is an interdisciplinary study of an imperial court in late-sixteenth-century Vienna, and a detailed examination of a fascinating moment of religious moderation. It investigates the rise and fall of an irenic movement through four individuals: an Italian artist (Jacopo Strada), a Silesian physician (Johannis Crato), a Dutch librarian (Hugo Blotius) and a German soldier (Lazarus von Schwendi), who sought peace and accommodation through a wide range of cultural, intellectual and political activity.

Old Testament Priests and the New Priest Albert Cardinal Vanhoye.2009-01-01 Recent decades have seen passionate debate in the Church about the nature of priesthood. Cardinal Vanhoye's classic

study, originally published in English in 1986, provides a much needed exegesis following the New Testament texts that speak of priests and priesthood. In the first century the question of priesthood was a distinct issue from that of ministries in the Church. This book identifies three series of texts about priesthood contained in the New Testament. In the first series the vocabulary of priesthood is used only in connection with Jewish priests and high priests, or - in one case only - in connection with pagan priests. In the second series, whose texts are all found together in a single piece of writing, the Epistle to the Hebrews, Christ himself is proclaimed, and with great insistence, priest and high priest, and the comparison is made between his priesthood and the old priesthood. Finally, in some other texts which make up a third series, priesthood is attributed to Christians themselves. By listening to the New Testament and being guided by the texts we share an increasing realisation of the profound meaning of priesthood. Cardinal Vanhoye does not try to impose solutions to the various problems and controversies as they arise but invites us to share an exegetical reflection that can transform our understanding. Albert Cardinal Vanhoye, SJ was born in 1923 at Hazebrouck in France. He taught at the Gregorian University and the Lateran University and, from 1963 as a professor, at the Pontifical Biblical Institute in Rome where he was Rector, 1984 - 1990. He has served as a member of the Pontifical Biblical Commission, 1984 - 2001, and as secretary 1990 - 2001. He has been a Consultor to the Sacred Congregations of Catholic Education from 1978 and of the Doctrine of the Faith from 1990. He was created Cardinal in 2006.

The Nature and Mission of Theology Joseph Ratzinger.2011-01-06 As Cardinal, Joseph Ratzinger wrote this book in response to the dialogue going on today concerning theology and the clarification of its methods, its mission and its limits which he thinks has become urgent. Ratzinger states: To do theology-as the Magisterium understands theology-it is not sufficient merely to calculate how much religion can reasonably be expected of man and to utilize bits and pieces of the Christian tradition accordingly. Theology is born when the arbitrary judgment of reason encounters a limit, in that we discover something which we have not excogitated ourselves but which has been revealed to us. For this reason, not every religious theory has the right to label itself as Christian or Catholic theology simply because it wishes to do so; whoever would lay claim to this title is obligated to accept as meaningful the prior given which goes along with it.

Court and Politics in Papal Rome, 1492-1700 Gianvittorio Signorotto,Maria Antonietta Visceglia.2002-03-21 This 2002 book attempts to overcome the traditional historiographical approach to the role of the early modern papacy by focusing on the actual mechanisms of power in the papal court. The period covered extends from the Renaissance to the aftermath of the peace of Westphalia in 1648 - after which the papacy was reduced to a mainly spiritual role. Based on research in Italian and other European archives, the book concentrates on the factions at the Roman court and in the college of cardinals. The sacred college came under great international pressure during the election of a new pope, and consequently such figures as foreign ambassadors and foreign cardinals are examined, as well as political liaisons and social contacts at court. Finally, the book includes an analysis of the ambiguous nature of Roman ceremonial, which was both religious and secular: a reflection of the power struggle both in Rome and in Europe.

All'ombra dei Lumi: Jacques-André Naigeon philosophe Mario Cosenza.2020-07-29 [Italiano]: Il presente lavoro costituisce una biografia intellettuale di Jacques-André Naigeon (1735-1810), importante figura del secolo dei Lumi francese. Biografo e primo editore di Diderot, Naigeon fu testimone privilegiato delle innumerevoli vicende politiche, sociali e culturali che sconvolsero la società francese. Ateo convinto, editore infaticabile, fine conoscitore della letteratura clandestina, il

giovane Naigeon fece in tempo a collaborare agli ultimi volumi dell'Encyclopédie e a partecipare, con il barone d'Holbach, alla propagazione di numerosi scritti eterodossi, materialisti e ferocemente anti-clericali; dopo la Rivoluzione - la quale lo spinse alla riflessione ma non ad un'attività politica propriamente detta - fu integrato dalla cultura "ufficiale" tramite l'elezione presso l'Institut de France: ma nonostante alcuni lavori editoriali di grande pregio, Naigeon resterà esclusivamente la testimonianza vivente di una stagione culturale ormai irripetibile ./[English]:This work aims at being an intellectual biography of Jacques-André Naigeon (1735-1810), an important figure of French Enlightenment. Not only was he very close to Diderot - of whom he was biographer and editor - but he was also a privileged witness of the countless political, social and cultural events that led to the French Revolution. Besides being a convinced atheist, a tireless publisher, a fine connoisseur of Clandestine literature, Naigeon had the opportunity to collaborate in writing the last volumes of the Encyclopédie and to participate in the propagation of heterodox, materialistic and fiercely anti-clerical writings. After the Revolution - at the beginning of which he tried in vain to make himself heard by the Assemblée Nationale - he was then integrated into the official culture through the election at the Institut de France: however, even if he is the author of some prestigious works, Naigeon remains exclusively the living testimony of a now unrepeatable cultural season.

Apollinaris .1994

A History of the Hussite Revolution Howard Kaminsky.2004-04-08 The religious reformation in fifteenth century Bohemia was also a social, political, and cultural revolution - the first of the great upheavals that transformed the medieval into the modern world. Beginning with a revival of evangelical pietism among the people of Prague, then coming under the leadership of the Czech intelligentsia of Prague's university, the reform movement reached its highest point under Master John Hus, who fused the fervor of pietism with the systematic political program developed by the English reformer John Wyclif. When Hus passed from the scene by submitting himself to the Council of Constance, leadership of the movement was taken up by the more radical Jakoubek of Stribro - pioneer of what was to become Hussitism's most characteristic practice, lay communion in both kinds (utraquism). At the same time, the propagation of the reform by Jakoubek's disciples among the townsmen and peasantry of the realm balanced the more conservative tendencies of the university masters and the Hussite feudality; by 1417 the Hussite movement was an uneasy coalition of religio-political tendencies ranging from extreme conservatism to Waldensian sectarianism. Out of the interplay among the Hussite parties and their various reactions to the pressures from Pope and Emperor there emerged two main types of reformation - one centered in Prague, the other in Tabor. Both were condemned by the Roman church, but the movement in Prague, less extreme, never ceased to hope for a reversal of that decision. Tabor, on the other hand, went all the way to heresy, schism, and revolution, ending with the form of the autonomous congregational community, organized as a city-state, in 'de facto' secession from the medieval order. Religious reformism, sectarian heresy of every sort, national passions, class hatreds, laicization, and anticlericalism - all the disturbing factors at work in late-medieval Europe came together in the Hussite revolution, which provided examples of virtually every form of change with which Europe would be concerned for the next three centuries.

Priest of Nature Rob Iliffe.2017-06-09 After Sir Isaac Newton revealed his discovery that white light was compounded of more basic colored rays, he was hailed as a genius and became an instant international celebrity. An interdisciplinary enthusiast and intellectual giant in a number of disciplines, Newton published revolutionary, field-defining works that reached across the scientific spectrum, including the Principia Mathematica and Opticks. His renown opened doors for him throughout his career, ushering him into prestigious positions at Cambridge, the Royal Mint, and the Royal Society. And yet, alongside his public success, Newton harbored religious beliefs that set him at odds with law and society, and, if revealed, threatened not just his livelihood but his life. Religion

and faith dominated much of Newton's life and work. His papers, never made available to the public, were filled with biblical speculation and timelines along with passages that excoriated the early Church fathers. Indeed, his radical theological leanings rendered him a heretic, according to the doctrines of the Anglican Church. Newton believed that the central concept of the Trinity was a diabolical fraud and loathed the idolatry, cruelty, and persecution that had come to define religion in his time. Instead, he proposed a simple Christianity--a faith that would center on a few core beliefs and celebrate diversity in religious thinking and practice. An utterly original but obsessively private religious thinker, Newton composed several of the most daring works of any writer of the early modern period, works which he and his inheritors suppressed and which have been largely inaccessible for centuries. In *Priest of Nature*, historian Rob Iliffe introduces readers to Newton the religious animal, deepening our understanding of the relationship between faith and science at a formative moment in history and thought. Previous scholars and biographers have generally underestimated the range and complexity of Newton's religious writings, but Iliffe shows how wide-ranging his observations and interests were, spanning the entirety of Christian history from Creation to the Apocalypse. Iliffe's book allows readers to fully engage in the theological discussion that dominated Newton's age. A vibrant biography of one of history's towering scientific figures, *Priest of Nature* is the definitive work on the spiritual views of the man who fundamentally changed how we look at the universe.

Night Conversations with Cardinal Martini: The Relevance of the Church for Tomorrow

Carlo Maria Martini, Georg Sporschill. 2014-05-14 Carlo M. Martini was cardinal of the largest diocese in the world, a scholar, and one of the most renowned men of the church. Georg Sporschill has worked in prisons and lived with drug-addicted street children in Romania and Moldavia. The two Jesuits met in Jerusalem and became firends: two worlds, one faith--and a passionate search for ways in which the message of Jesus of Nazareth can still be effective for tomorrow. In a series of conversations they ask what faith can mean for life, what future young people have in the church, and what must be changed so that Crhistianity itself has a future. The questions from young people are the catalyst for deep thought. Is the future only dark? Where are the rays of light on the horizon? What would Jesus say today?

The Mind of Pope Francis Massimo Borghesi. 2018-08-15 A commonly held impression is that Pope Francis is a compassionate shepherd and determined leader but that he lacks the intellectual depth of his recent predecessors. Massimo Borghesi's *The Mind of Pope Francis: Jorge Mario Bergoglio's Intellectual Journey* dismantles that image. Borghesi recounts and analyzes, for the first time, Bergoglio's intellectual formation, exploring the philosophical, theological, and spiritual principles that support the profound vision at the heart of this pope's teaching and ministry. Central to that vision is the church as a *coincidentia oppositorum*, holding together what might seem to be opposing and irreconcilable realities. Among his guiding lights have been the Jesuit saints, Ignatius and Peter Faber; philosophers Gaston Fessard, Romano Guardini, and Alberto Methol Ferrer; and theologians Henri de Lubac and Hans Urs von Balthasar. Recognizing how these various strands have come together to shape the mind and heart of Jorge Mario Bergoglio offers essential insights into who he is and the way he is leading the church. Notably, this groundbreaking book is informed by four interviews provided to the author, via audio recordings, by the pope himself on his own intellectual formation, major portions of which are published here for the first time.

Dogmatic Constitution on the Church .2000-11 The central document of the Second Vatican Council, *Lumen Gentium* was promulgated by Pope Paul VI on November 21, 1964. This document is the keystone of the Councils whole Magisterium. It focuses on the whole Church as a communion of charity. With it, according to John Paul II, the Second Vatican Council wished to shed light on the Church's reality: a wonderful but complex reality consisting of human and divine elements, visible and invisible.

My Struggle for Freedom Hans Küng. 2005-01-01 Hans Küng is undoubtedly one of the most important theologians of our time, but he has always been a controversial figure, and as the result of

a much-publicized clash over papal infallibility had his permission to teach revoked by the Vatican. Yet at seventy-five he is also something like a senior statesman, one of the 'Group of Eminent Persons' convened by the UN Secretary-General Kofi Annan, and a friend of heads of government like Tony Blair and President Mubarak of Egypt. In this fascinating autobiography he gives a frank and outspoken account of the first four decades of his life. He tells of his youth in Switzerland and his decision to become a priest; his doubts and struggles as he studied in Rome and Paris, and his experiences as a professor in Tübingen, where he received a chair at the amazingly early age of thirty-one. Most importantly, as one of the last surviving eye-witnesses he gives an authentic account of the struggles behind the scenes at the Second Vatican Council, in which he took part as a theological expert. Here it becomes clear just how major an influence he was, to the point of shaping the Council's agenda and drafting speeches for bishops to deliver in plenary sessions. With its rich thought and vivid narrative, Küng's book paints a moving picture of his personal convictions, and his struggle for a Christianity characterized not by the domination of an official church but by Jesus.

Papacy, Religious Orders, and International Politics in the Sixteenth and Seventeenth Centuries Autori Vari.2014-03-08T00:00:00+01:00 During the early modern age religious orders had to interpret papal strategies and directives in international politics in the light of a substantial ambiguity. They were loyal subjects of the pope, but also trusted agents and advisers of princes. They were operatives of the Holy See and, at the same time, of strategies not necessarily in line with Roman guidelines. This ambiguity resulted in conflicts, both overt and latent, between obedience to the pope and obedience to the sovereign, between membership in a universal religious order and individual «national» origins and personal ties, between observance of Roman directives and the need to maintain good relations with the authorities of the territory in which the religious orders lived and worked. This book aims to examine, through a series of case studies not only in Europe but also America and the Middle East, the roles played by religious orders in the international politics of the Holy See. It seeks to determine the extent to which the orders were mere objects or instruments; whether they were able to give life, more or less openly, to autonomous strategies, and for what reasons; and what awareness of their own identity groups or individuals developed in relation to the influences of international politics in an age of conflict.

Alta Vendita John Vennari.2016-07-11 The Permanent Instruction of the Alta Vendita is a document, originally published in Italian in the 19th century, purportedly produced by the highest lodge of the Italian Carbonari and written by Piccolo Tigre, codename for Giuseppe Mazzini. The document details an alleged Masonic plan to infiltrate the Catholic Church and spread liberal ideas within it. The Carbonari had strong similarities to Freemasonry and so the document is seen by some as a Masonic document. In the 19th century, Pope Pius IX[3] and Pope Leo XIII both asked for it to be published.

Adopting the Melody of Appearance: An Mental Symphony within **La Itinerario Conciliare Del Celibato Ecclesiasti**
