Southern Edwardseans Obbie Tyler Todd.2022-01-17 The founders and forerunners of the Southern Baptist Convention were fundamentally shaped by the thought of Puritan theologian Jonathan Edwards and his theological successors. While Baptists in the antebellum South boasted a different theological pedigree than Presbyterians or Congregationalists, and while they inhabited a Southern landscape unfamiliar to the bustling cities and tall forests of New England, they believed their similarities with Edwards far outweighed their differences. Like Edwards, these Baptists were revivalistic, Calvinistic, loosely confessional, and committed to practical divinity. In these four things, Southern Edwardseanism lived, moved, and had its being. In the nineteenth-century, when so many Presbyterians scoffed at Edwards's innovation and Methodists scorned his Calvinism, Baptists found in Edwards a man after their own heart. By 1845, at the first Southern Baptist Convention, Southern Edwardseans had laid the groundwork for a convention marked by the theology of Jonathan Edwards.

The Forgotten Rohingya: Their Struggle for Human Rights in Burma Habib Habib Siddiqui.2019 Imagine that you are living in a country that does not recognize you as a citizen in spite of the fact that your people have maintained a continuous existence there for several centuries. If that was not enough of a traumatic experience, consider that because of your racial, ethnic and religious identity other ethnic groups that are fighting the brutal military regime in your country for their self-determination and human rights consider you as settlers from a neighboring country. It must be your worst nightmare when you realize that half of your people (almost 2 million) have been forced to take asylum or refuge outside, and you may be the next in line to seek a way out of this living hell of xenophobia, discrimination, intolerance, racism and bigotry.The victims are the Rohingya people of Burma (Myanmar). Because of their religion, race, ethnicity, color and language they are the most discriminated and persecuted people in our planet. Some argue that they are also one of the most forgotten. The Myanmar military regime has denied their citizenship rights, claiming that they are illegal settlers from nearby Bangladesh who have moved into Arakan during the British occupation of Burma in the 19th century. Is there any truth to such allegations? Does the military junta apply the same litmus test against all ethnic and religious groups in matters of citizenship? What is the basis for a nation's claim to self-determination? Must a people wander in the wilderness for two millennia and suffer repeated persecution, humiliation and genocide to qualify? How about the rights of a minority community to survive with their culture and traditions intact? Do they need to be 'children' of a 'higher' God to qualify? What makes the children of a 'lesser' God to be forgotten and denied the same treatment and privilege that was granted hitherto to other nations?For much of its history, Burma has been ruled by military. As has once again been demonstrated recently they are brutal, savage and tyrannical. They have ignored people's verdict in the election and imprisoned leaders and workers of the democracy movement. They cannot be guarantors or protectors of human rights of anyone, let alone religious and ethnic minorities. Do you know that the Rohingyas - face cruel restriction on marriage and those married without government authorization are paraded naked on the streets?- Are restricted from traveling outside their villages?- Have no legal right to own land or property?- Are restricted from getting education, finding work, getting medical and health care? - Are subjected to land confiscation, forced eviction and destruction of homes, offices, schools, mosques, shops, etc., and face religious persecution on a daily basis? - Are victims of staged riots, forced starvation, arbitrary taxation, extortion, arrest, torture and extra-judicial killings?- Are forced to do slave labor for establishment of government infrastructure, new Buddhist settlements, pagodas and monasteries on evicted lands with the government intent of changing the landscape and demography of Arakan?- Are forced to convert to Buddhism &/or worship Buddha? Do you know that when it comes to the Rohingya people, the Burmese government doesn't uphold any of the Articles of the Universal Declaration of Human Rights?Nothing can excuse us from the criminal silence that we practice in not voicing our concern about the plight of the Rohingya people. The Forgotten Rohingya makes a strong case for mobilizing concerned citizens of our globe to ease their sufferings. The author analyzes origin of the Rohingya people and offers ideas to solve their problem. The author also discusses problems of xenophobia and racism, which are so rampant in this country of many races, ethnicities and religions. He also analyzes the role of Daw Suu Kyi and failure of Burma's orange revolution.

Henri Matisse, Ellsworth Kelly Henri Matisse,Rémi Labrusse,Éric de Chassey,Musee national d'art moderne. Galerie d'art graphique,Inverleith House, Royal Botanic Garden.2002 This collection of work by Henri Matisse and Ellsworth Kelly is based on an exhibition of more than 100 rarely exhibited drawings organized by the Centre Pompidou in Paris. A comparative display, the exhibition focuses on the relief drawing in the work of these two distinctly different 20th-century masters.Henri Matisse (1869-1954) is recognized for the lyrical form and decorative aesthetic seen in his paintings and colourful paper cut-outs. Ellsworth Kelly (born 1923) is known for the monumental abstract forms of his sculpture and the bold colours of his hard-edge paintings. Yet both artists explored their concepts in prolific studies of plants, often in series in which each drawing existed on its own terms as well as part of an infinite process.

Sculpture Workshops as Space and Concept Jane Fejfer,Kristine Bøggild Johannsen.2022-03-20 This book explores the multifaceted aspects of sculptor's workshops from the Renaissance to the early nineteenth century. Contributors take a fresh look at the sculptor's workshop as both a physical and discursive space. By studying some of the most prominent artists' sculptural practices, the workshop appears as a multifaceted, sociable and practical space. The book creates a narrative in which the sculptural workshop appears as a working laboratory where new measuring techniques, new materials and new instruments were tested and became part of the lived experience of the artist and central to the works coming into being. Artists covered include Donatello, Roubilliac, Thorvaldsen, Canova, and Christian Daniel Rauch. The book will be of interest to scholars studying art history, sculpture, artist workshops, and European studies.

Atomism in the Aeneid Matthew M. Gorey. 2021 This book examines the role of philosophical metaphor and allegory in the Aeneid, focusing on tendentious allusions to Lucretian atomism. It argues that Virgil, drawing upon a popular strain of anti-atomist and anti-Epicurean arguments in Greek philosophy, deploys atomic imagery as a symbol of cosmic and political disorder. The first chapter of this study investigates the development of metaphors and analogies in philosophical texts ranging from Aristotle to Cicero that equate atomism with cosmological caprice and instability. The following three chapters track how Virgil applies this interpretation of Epicurean physics to the Aeneid, in which chaotic atomic imagery is associated with various challenges to the poem's dominant narrative of divine order and Roman power. For Aeneas, the specter of atomic disorder arises at moments of distress and hesitation, while the association of various non-Trojan characters with atomism characterizes them as agents of violent disorder needing to be contained or vanquished. The final chapter summarizes findings, showing how Virgilian allusion to Lucretian physics often conflates poetic, political, and cosmological narratives, blurring the boundaries between their respective modes of discourse and revealing a general preference for hierarchical, teleological models of order--

Unknown Quantity John Derbyshire. 2006-06-02 Prime Obsession taught us not to be afraid to put the math in a math book. Unknown Quantity heeds the lesson well. So grab your graphing calculators, slip out the slide rules, and buckle up! John Derbyshire is introducing us to algebra through the ages-and it promises to be just what his die-hard fans have been waiting for. Here is the story of algebra. With this deceptively simple introduction, we begin our journey. Flanked by formulae, shadowed by roots and radicals, escorted by an expert who navigates unerringly on our behalf, we are guaranteed safe passage through even the most treacherous mathematical terrain. Our first encounter with algebraic arithmetic takes us back 38 centuries to the time of Abraham and Isaac, Jacob and Joseph, Ur and Haran, Sodom and Gomorrah. Moving deftly from Abel's proof to the higher levels of abstraction developed by Galois, we are eventually introduced to what algebraists have been focusing on during the last century. As we travel through the ages, it becomes apparent that the invention of algebra was more than the start of a specific discipline of mathematics-it was also the birth of a new way of thinking that clarified both basic numeric concepts as well as our perception of the world around us. Algebraists broke new ground when they discarded the simple search for solutions to equations and concentrated instead on abstract groups. This dramatic shift in thinking revolutionized mathematics. Written for those among us who are unencumbered by a fear of formulae, Unknown Quantity delivers on its promise to present a history of algebra. Astonishing in its bold presentation of the math and graced with narrative authority, our journey through the world of algebra is at once intellectually satisfying and pleasantly challenging.
