The Broken Ornament Tony DiTerlizzi.2018-09-18 When a beloved ornament breaks, will it ruin the holidays or save them? New York Times bestselling author and Caldecott Honor-winning illustrator Tony DiTerlizzi offers a brand-new Christmas story that is sure to be a holiday classic. Jack wants this to be the best Christmas ever, and he knows just how to make it happen... More! More lights, more presents, more cookies, more treats. More. More. More! So, when Jack breaks a dusty old ornament, he's not sure why his mom is so upset. They can always get more ornaments, so what's the big deal? Turns out the ornament was an heirloom, precious for more reasons than one. And Jack has a lot to learn about the true meaning of Christmas. A fairy emerges from the shattered ornament. She has the power to make the most magical Christmasy things happen. Suddenly trees are sprouting, reindeer are flying, and snowmen are snowball fighting. All of it is so perfect, or it would be if she could fix Mom's ornament. But she can't. So it's up to Jack to make some Christmas magic of his own.

Heidel.1949 Cuneiform records made some three thousand years ago are the basis for this essay on the ideas of death and the afterlife and the story of the flood which were current among the ancient peoples of the Tigro-Euphrates Valley. With the same careful scholarship shown in his previous volume, *The Babylonian Genesis*, Heidel interprets the famous Gilgamesh Epic and other related Babylonian and Assyrian documents. He compares them with corresponding portions of the Old Testament in order to determine the inherent historical relationship of Hebrew and Mesopotamian ideas.

Falnama Massumeh Farhad,Serpil Bağcı.2009 Praised by the New York Times as a highly important exhibition book, this lavishly produced catalog reproduces illustrated texts from the groundbreaking exhibition at the Arthur M. Sackler Gallery. Called fabulous by the Washington Post, Falnama was the first show of its kind dedicated to the art of divination in the Islamic

world. The Falnama were brilliantly painted compositions created in Safavid Iran and Ottoman Turkey in the sixteenth and early seventeenth centuries. Falnama: The Book of Omens combines rare images with scholarly texts on the deeper meaning of dreams, omens, and divination. Featured in this first publication ever devoted to the Falnama as a genre are intact volumes as well as text folios and illustrations now dispersed among international public and private collections. Essays by scholars of Safavid, Ottoman, and Byzantine history and language, complemented by full-color illustrations, offer detailed analysis of the form, content, and meaning of these rarely seen works of art. The first-ever translations of three of the four monumental copies provide insight into a vivid and enduring aspect of human concern--the unknown.--Publisher's website.

Minecraft: The Mountain Max Brooks. 2021-03-02 In the thrilling sequel to the New York Times bestselling novel *Minecraft: The Island*, a stranded hero stumbles upon another castaway—and discovers that teamwork might just be the secret to survival. Wandering a vast, icy tundra, the explorer has never felt more alone. Is there anything out here? Did I do the right thing by leaving the safety of my island? Should I give up and go back? So many questions, and no time to ponder—not when dark is falling and dangerous mobs are on the horizon. Gurgling zombies and snarling wolves lurk in the night, and they're closing in. With nowhere to hide, the lone traveler flees up a mountain,

trapped and out of options . . . until a mysterious figure arrives, fighting off the horde singlehandedly. The unexpected savior is Summer, a fellow castaway and master of survival in these frozen wastes. Excited to find another person in this strange, blocky world, the explorer teams up with Summer, whose impressive mountain fortress as a safe haven . . . for now. But teamwork is a new skill for two people used to working alone. If they want to make it home, they will have to learn to work together—or risk losing everything.

Kenny & the Book of Beasts Tony DiTerlizzi.2020-09-22 In this highly anticipated sequel to New York Times bestselling and Caldecott Honor-winning author Tony DiTerlizzi's *Kenny and the Dragon*, Kenny must cope with many changes in his life—including the fear that he's losing his best friend. What can come between two best friends? Time has passed since Kenny Rabbit's last adventure with his best friend, the legendary dragon Grahame, and a lot has changed in the sleepy village of Roundbrook. For starters, Kenny has a whole litter of baby sisters. His friends are at different schools and Sir George is off adventuring. At least Kenny still has his very best friend, Grahame. That's before Dante arrives. Dante is a legendary manticore and an old friend of Grahame's. Old friends spend a lot of time catching up. And that catching up does not involve Kenny. But there's a Witch to defeat, a pal to rescue, and a mysterious book to unlock. And those are quests for best friends, not old friends. Right?

Threads and Traces Carlo Ginzburg.2012-09-02 This book is a translation of historian Carlo Ginzburg's latest collection of essays. Through the detective work of uncovering a wide variety of stories or microhistories from fragments, Ginzburg takes on the bigger questions: How do we draw the line between truth and fiction? What is the relationship between history and memory? Stories range from medieval Europe, the inquisitional trial of a witch, seventeenth-century antiquarianism, and twentieth-century historians--Provided by publisher.

How to Practice Dharma Lama Zopa Rinpoche.2012 This expanded edition contains both of the very popular Lama Yeshe booklets, *Becoming Your Own Therapist* and *Make Your Mind an Ocean*.*Becoming Your Own Therapist*First published in 1998, this booklet contains three public talks by Lama Yeshe on the general topic of Buddhism. Each lecture is followed by a question and answer session. Lama and his audiences always enjoyed the give and take of these lively exchanges, and pretty much anything

went. Although these talks were called lectures, Lama would have each of us use them as a mirror for our minds and look beyond the words, find ourselves, and become our own psychologist. Make Your Mind an Ocean The talks in this booklet are on the general topic of the mind. Two were lunchtime lectures at Melbourne and Latrobe Universities. One was an evening lecture given to the general public. Perhaps of greatest interest is the lecture entitled A Buddhist Approach to Mental Illness. Lama presented this talk to a group of psychiatrists at Prince Henry's Hospital who were delighted to meet and question Lama, and this historic exchange underscores the difference between Western and Buddhist concepts of mental health.

Cultural Techniques Bernhard Siegert. 2015-05-01 In a crucial shift within posthumanistic media studies, Bernhard Siegert dissolves the concept of media into a network of operations that reproduce, displace, process, and reflect the distinctions fundamental for a given culture. *Cultural Techniques* aims to forget our traditional understanding of media so as to redefine the concept through something more fundamental than the empiricist study of a medium's individual or collective uses or of its cultural semantics or aesthetics. Rather, Siegert seeks to relocate media and culture on a level where the distinctions between object and performance, matter and form, human and nonhuman, sign and channel, the symbolic and the real are still in the process of becoming. The result is to turn ontology into a domain of all that is meant in German by the word *Kultur*. Cultural techniques comprise not only self-referential symbolic practices like reading, writing, counting, or image-making. The analysis of artifacts as cultural techniques emphasizes their ontological status as "in-betweens," shifting from first-order to second-order techniques, from the technical to the artistic, from object to sign, from the natural to the cultural, from the operational to the representational. *Cultural Techniques* ranges

from seafaring, drafting, and eating to the production of the sign-signal distinction in old and new media, to the reproduction of anthropological difference, to the study of trompe-l'oeils, grids, registers, and doors. Throughout, Siegert addresses fundamental questions of how ontological distinctions can be replaced by chains of operations that process those alleged ontological distinctions within the ontic. Grounding posthumanist theory both historically and technically, this book opens up a crucial dialogue between new German media theory and American postcybernetic discourses.

The Lost Constellations John C. Barentine.2015-10-23 Casual stargazers are familiar with many classical figures and asterisms composed of bright stars (e.g., Orion and the Plough), but this book reveals not just the constellations of today but those of yesteryear. The history of the human identification of constellations among the stars is explored through the stories of some influential celestial cartographers whose works determined whether new inventions survived. The history of how the modern set of 88 constellations was defined by the professional astronomy community is recounted, explaining how the constellations described in the book became permanently “extinct.” Dr. Barentine addresses why some figures were tried and discarded, and also directs observers to how those figures can still be picked out on a clear night if one knows where to look. These lost constellations are described in great detail using historical references, enabling observers to rediscover them on their own surveys of the sky. Treatment of the obsolete constellations as extant features of the night sky adds a new dimension to stargazing that merges history with the accessibility and immediacy of the night sky.
