**Venice and the Veneto in the Early Renaissance** John Easton Law.2000 John Law is concerned here with the administration of the Venetian state in the late 14th and 15th centuries, and specifically with its possessions on the mainland of Italy. These gave Venice dangerously exposed and lengthy land frontiers, and also included a number of cities whose loyalties were not to be taken for granted. Verona, Friuli and the Trentino are the focus of several articles, while others look at the people and families involved, and at Venice's relations with its powerful neighbours, from Milan to Hungary. The studies demonstrate the substantial nature of Venetian involvement with the 'Terraferma', well-established by the start of the 15th century, and examine the impact on the Venetian government itself of these mainland dominions.

*Venice's Secret Service* Ioanna Iordanou. 2019-10-24 Venice's Secret Service is the untold and arresting story of the world's earliest centrally-organised state intelligence service. Long before the inception of SIS and the CIA, in the period of the Renaissance, the Republic of Venice had masterminded a remarkable centrally-organised state intelligence organisation that played a pivotal role in the defence of the Venetian empire. Housed in the imposing Doge's Palace and under the direction of the Council of Ten, the notorious governmental committee that acted as Venice's spy chiefs, this 'proto-modern' organisation served prominent intelligence functions including operations (intelligence and covert action), analysis, cryptography and steganography, cryptanalysis, and even the development of lethal substances. Official informants and amateur spies were shipped across Europe, Anatolia, and Northern Africa, conducting Venice's

stealthy intelligence operations. Revealing a plethora of secrets, their keepers, and their seekers, Venice's Secret Service explores the social and managerial processes that enabled their existence and that furnished the foundation for an extraordinary intelligence organisation created by one of the early modern world's most cosmopolitan states.

**Building for Eternity** C.J. Brandon,R.L. Hohlfelder,M.D.

Jackson,J.P. Oleson.2014-08-29 One marker of the majesty of ancient Rome is its surviving architectural legacy, the stunning remains of which are scattered throughout the circum-Mediterranean landscape. Surprisingly, one truly remarkable aspect of this heritage remains relatively unknown. There exists beneath the waters of the Mediterranean the physical remnants of a vast maritime infrastructure that sustained and connected the western world's first global empire and economy. The key to this incredible accomplishment and to the survival of structures in the hostile environment of the sea for two thousand years was maritime concrete, a building material invented and then employed by Roman builders on a grand scale to construct harbor installations anywhere they were needed, rather than only in locations with advantageous geography or topography. This book explains how the Romans built so successfully in the sea with their new invention. The story is a stimulating mix of archaeological, geological, historical and chemical research, with relevance to both ancient and modern technology. It also breaks new ground in bridging the gap between science and the humanities by integrating analytical materials science, history, and archaeology, along with underwater exploration. The book will be of interest to anyone interested in Roman architecture and engineering, and it will hold special interest for geologists and mineralogists studying the material characteristics of pyroclastic volcanic rocks and their alteration in seawater brines. The demonstrable durability and longevity of Roman maritime concrete structures may be of special interest to engineers

working on cementing materials appropriate for the long-term storage of hazardous substances such as radioactive waste. A pioneering methodology was used to bore into maritime structures both on land and in the sea to collect concrete cores for testing in the research laboratories of the CTG Italcementi Group, a leading cement producer in Italy, the University of Berkeley, and elsewhere. The resulting mechanical, chemical and physical analysis of 36 concrete samples taken from 11 sites in Italy and the eastern Mediterranean have helped fill many gaps in our knowledge of how the Romans built in the sea. To gain even more knowledge of the ancient maritime technology, the directors of the Roman Maritime Concrete Study (ROMACONS) engaged in an ambitious and unique experimental archaeological project – the construction underwater of a reproduction of a Roman concrete pier or pila. The same raw materials and tools available to the ancient builders were employed to produce a reproduction concrete structure that appears to be remarkably similar to the ancient one studied during ROMACONS's fieldwork between 2002-2009. This volume reveals a remarkable and unique archaeological project that highlights the synergy that now exists between the humanities and science in our continuing efforts to understand the past. It will quickly become a standard research tool for all interested in Roman building both in the sea and on land, and in the history and chemistry of marine concrete. The authors also hope that the data and observations it presents will stimulate further research by scholars and students into related topics, since we have so much more to learn in the years ahead.

**Intentional History** Lin Foxhall,Hans-Joachim Gehrke,Nino Luraghi.2010 The contributions assembled in this volume study

the social function and functioning of notions and ideas about the past held by groups and individuals, with a special focus on ancient Greece but including comparative contributions on early China and on the function of the classical past in modern European culture. Special attention is devoted to the past as a foundation for collective identities and to the ways in which the goals and needs of specific groups impacted its representation and transmission. Contributions range in time from the archaic age to the Roman Empire, covering aspects such as the representation of the past in visual arts, the function of myth and its representation in literary and visual genres, the relationship of historiography to social memory, and the way that the past features in Greek religion. Monuments, literary texts, and inscriptions are investigated in order to reconstruct the rich texture of Greek social memory and its development over time.

The Roving Shadows Pascal Quignard.2024-03-07 A bold and adventurous work of literature that explores the relationship between reading, writing, sex, and death. The first book in Pascal Quignard's Last Kingdom series, *The Roving Shadows* can be read as a long meditation on reading and writing that strives to situate these otherwise innocuous activities in a profound relationship to sex and death. Writing and reading can in fact be linked to our animal natures and artistic strivings, to primal forces and culturally persistent fascinations. With dexterity and inventiveness, Quignard weaves together historical anecdotes, folktales from the East and West, fragments of myth, and speculative historical reconstructions. The whole, written in a musical style not far removed from that of Couperin, whose piano composition *Les Ombres errantes* lends the book its title, coheres into a work of literature that reverberates in the psyche long after one has laid it down. *The Roving Shadows* is a rare and wondrous tour de force that cements Quignard's reputation in contemporary world literature. Available now in English, this boldly adventurous work will find a new and welcoming audience.

**Mysterious Solidarities** Pascal Quignard.2021-11-19 When translator Claire Methuen travels back to her hometown of Dinard for a family wedding, she runs into her old piano teacher Madame Ladon. After befriending the ageing woman, Methuen begins to toy with the idea of a permanent return to live in Brittany. She becomes increasingly obsessed by her childhood sweetheart, Simon Quelen, who, now married and a father, still lives in a village further down the coast where he is the local pharmacist and mayor. Having moved into a farmhouse, she soon spends her days walking the heathland above the cliffs and spying on him as he sails in the bay. As she walks, she is at one with the land of her childhood and youth, her skull emptying into the landscape. And when her younger brother Paul comes to join her there, the web of solidarities is further enriched. This is a tale of dramatic episodes, told through intermingling voices and the atmospherics of the austere Breton landscape. Ultimately, it is a story of obsessional love and of a parallel sibling bond that is equally strong.

*The Hatred of Music* Pascal Quignard.2016-03-28 Throughout Pascal Quignard's distinguished literary career, music has been a recurring obsession. As a musician he organized the International Festival of Baroque Opera and Theatre at Versailles in the early 1990s, and thus was instrumental in the rediscovery of much forgotten classical music. Yet in 1994 he abruptly renounced all musical activities. The Hatred of Music is Quignard's masterful exploration of the power of music and what history reveals about

the dangers it poses. From prehistoric chants to challenging contemporary compositions, Quignard reflects on music of all kinds and eras. He draws on vast cultural knowledge—the Bible, Greek mythology, early modern history, modern philosophy, the Holocaust, and more—to develop ten accessible treatises on music. In each of these small masterpieces the author exposes music’s potential to manipulate, to mesmerize, to domesticate. Especially disturbing is his scrutiny of the role music played in the concentration camps of Nazi Germany. Quignard’s provocative book takes on particular relevance today, as we find ourselves surrounded by music as never before in history.

**The Sexual Night** Pascal Quignard.2014 In *The Sexual Night*, renowned French writer and critic Pascal Quignard meditates on a remarkable collection of illustrations of sexual imagery. He moves from the annals of global art to ancient and modern, from Bosch and Dürer to Rembrandt and Tintoretto, from Caspar David Friedrich and Caravaggio to Bacon and Jean Rustin. The meditations are wonderfully woven together, presenting a reflection on the sexual image that psychoanalysis calls the primal scene--a concept introduced by Freud as the first sexual scene witnessed by a child; a scene that is unexplained, unforgettable, and ultimately haunting. Throughout the course of twenty-seven chapters that draw on the mythological and artistic resources of Western and Far Eastern culture--including the tragic love of Dido and Aeneas; the scandalous figure of Mary Magdalen; Lascaux and Golgotha; voyeurism and melancholy; Saint Augustine and Freud--the book is a disquisition on vision, temporality, generation, and creation in all its forms. Forty-eight brilliant and sensual color images accompany the text, as Quignard questions the origin of our being and explains the unexplainable, while noted translator Chris Turner lends a crisp voice to the entire collection.

Sister Beatrice Maurice Maeterlinck, Bernard Miall. 2001-07  
Maurice Maeterlinck (1862-1949) was a Belgian author, the outstanding exponent of symbolist drama and the author of *The Blue Bird* and *Pelleas and Melisande*. Maeterlinck was born August 29, 1862, in Ghent and educated in law at the university there. He abandoned the legal profession when he moved to Paris in 1886 and came under the influence of the symbolist poets. Reacting against the prevailing naturalism of French literature, Maeterlinck wrote some symbolist poetry, notably *Les serres chaudes* (Hothouses, 1889). He is known principally for his plays, for which he received the 1911 Nobel Prize. He lectured in the U.S. in 1921 and spent World War II there. Maeterlinck returned to Europe following the war and died May 6, 1949, in Nice, France. Maeterlinck's plays are characterized by clear and simple writing, by a dreamlike atmosphere, and by the suggestion rather than the direct expression of ideas and emotions. His early plays are marked by an attitude of profound melancholy and pessimism in the face of evil and death; in his later plays this attitude gives way to a belief in the redeeming power of love and in the reality of human happiness. His plays include *The Princess Maleine* (1889); the melancholy fantasy masterpiece *Pelleas et Melisande* (1892), made into an opera (1902) by the French composer Claude Debussy; and *The Blue Bird* (1909), which has become a classic for children. Less popular are *Monna Vanna* (1902) and *The Burgomaster of Stilmonde* (1918). Maeterlinck was also the

author of many works in prose that deal with philosophic questions and with nature; they include *The Treasure of the Humble* (1896), *The Life of the Bee* (1901), and *The Intelligence of Flowers* (1907).

**Enrico Dandolo and the Rise of Venice** Thomas F.

Madden. 2003-09-15 Winner of the 2005 Otto Grundler Award, the International Congress on Medieval Studies Between the eleventh and thirteenth centuries, Venice transformed itself from a struggling merchant commune to a powerful maritime empire that would shape events in the Mediterranean for the next four hundred years. In this magisterial new book on medieval Venice, Thomas F. Madden traces the city-state's extraordinary rise through the life of Enrico Dandolo (c. 1107-1205), who ruled Venice as doge from 1192 until his death. The scion of a prosperous merchant family deeply involved in politics, religion, and diplomacy, Dandolo led Venice's forces during the disastrous Fourth Crusade (1201-1204), which set out to conquer Islamic Egypt but instead destroyed Christian Byzantium. Yet despite his influence on the course of Venetian history, we know little about Dandolo, and much of what is known has been distorted by myth. The first full-length study devoted to Dandolo's life and times, *Enrico Dandolo and the Rise of Venice* corrects the many misconceptions about him that have accumulated over the centuries, offering an accurate and incisive assessment of Dandolo's motives, abilities, and achievements as doge, as well as his role—and Venice's—in the Fourth Crusade. Madden also examines the means and methods by which the Dandolo family rose to prominence during the preceding century, thus illuminating medieval Venice's singular political, social, and religious environment. Culminating with the crisis precipitated by the failure of the Fourth Crusade, Madden's groundbreaking work reveals the extent to which Dandolo and his successors became torn between the anxieties and apprehensions of Venice's citizens and its escalating obligations as a Mediterranean power.

**Seapower States** Andrew Lambert.2018-11-27 “A fascinating geopolitical chronicle . . . A superb survey of the perennial opportunities and risks in what Herman Melville called ‘the watery part of the world.’” —The Wall Street Journal In this volume, one of the most eminent historians of our age investigates the extraordinary success of five small maritime states. Andrew Lambert, author of *The Challenge: Britain Against America in the Naval War of 1812*—winner of the prestigious Anderson Medal—turns his attention to Athens, Carthage, Venice, the Dutch Republic, and Britain, examining how their identities as “seapowers” informed their actions and enabled them to achieve success disproportionate to their size. Lambert demonstrates how creating maritime identities made these states more dynamic, open, and inclusive than their lumbering continental rivals. Only when they forgot this aspect of their identity did these nations begin to decline. Recognizing that the United States and China are modern naval powers—rather than seapowers—is essential to understanding current affairs, as well as the long-term trends in world history. This volume is a highly original “big think” analysis of five states whose success—and eventual failure—is a subject of enduring interest, by a scholar at the top of his game. “An intriguing series of stories of communities thinking seriously about how to stand their own ground when outpowered, how to do so in ways that are consistent with their values, and sometimes how to negotiate the descent from being a great power when the cards just aren’t in their favor any more. These are timely questions.” —Times Higher Education Supplement “Lambert is, without a doubt, the most insightful naval historian writing today.” —The Times

**Yevgeny Vakhtangov** Andrei Malaev-Babel.2013-06-26 Yevgeny Vakhtangov was a pioneering theatre artist who married Stanislavski's demands for inner truth with a singular imaginative vision. Directly and indirectly, he is responsible for the making of our contemporary theatre: that is Andrei Malaev-Babel's argument in this, the first English-language monograph to consider Vakhtangov's life and work as actor and director, teacher and theoretician. Ranging from Moscow to Israel, from Fantastic Realism to Vakhtangov's futuristic projection, the theatre of the 'Eternal Mask', Yevgeny Vakhtangov: A Critical Portrait: considers his input as one of the original teachers of Stanislavsky's system, and the complex relationship shared by the two men; reflects on his directorship of the First Studio of the Moscow Art Theatre and the Habima (which was later to become Israel's National Theatre) as well as the Vakhtangov Studio, the institution he established; examines in detail his three final

directorial masterpieces, Erick XIV, The Dybbuk and Princess Turandot. Lavishly illustrated and elegantly conceived, Yevgeny Vakhtangov represents the ideal companion to Malaev-Babel's Vakhtangov Sourcebook (2011). Together, these important critical interventions reveal Vakhtangov's true stature as one of the most significant representatives of the Russian theatrical avant-garde.

**The Silent Crossing** Pascal Quignard.2024-03-07 A haunting homage to life and liberty, to society and solitude, and to the binding and unbinding that constitute the weft of our lives. Drawing on materials from across many cultures, Pascal Quignard makes an effort to establish shared human values as the breeding ground for a modern Enlightenment. Considering atheism as a spiritual liberation, suicide as a free act, and the rejection of society as a free choice, the author explores philosophical themes that have run through human civilizations--most often as heresies--from our earliest days. In his search for freedom, Quignard questions the binding dependency of religion, querying how, in a world where all forms of society presuppose that someone (or some collective) is looking over our shoulders, we can be free. These reflections, he implies, are the essential spiritual exercise for our times. Few voices in contemporary French literature are more distinct than that of Quignard. By reading this fragmentary, episodic assemblage of intimate experiences and borrowed tales, we open up a space of liberty, creating for the reader space for meditation and, perhaps, liberation.

*Death Waits in the Dark* Mark Edward Langley.2020-08-04 It took all of thirty seconds for two shots to bring the world of Margaret Tabaaha crashing down around her. After losing her husband in Afghanistan during the first year of Operation Enduring Freedom, her two sons were all she had left. Now they had been taken from

her violently, deliberately, plunging her into a whiskey bottle and stripping away her reason for living. When Arthur Nakai receives a call from his first love, Margaret, her voice pleading for his help, it comes as he is attending a wake for one of the men he considered a brother from his days in the Marines 6th LAR Wolf Pack Battalion. Feeling a deep and responsible obligation to help her, Arthur soon finds himself involved in the multi-billion-dollar world of the oil and gas industry and coming face-to-face with an old adversary, Elias Dayton. Their paths had crossed when Arthur was a member of the Shadow Wolves, an elite tactical unit within US Customs and Border Protection. Now Dayton runs Patriot Security, a Blackwater-type firm that keeps the oil rigs, gas wells, and man camps secure from the Water Protectors, protesters pushing to stop the fracking and poisoning of Native lands. As Arthur works through the case from his end, Navajo police chief Jake Bilagody tackles it from another angle, looking into the strained relationship between the oil company and the Navajo people, all while searching for a missing Navajo man that may have become an unwilling piece on the reservation checkerboard. But when Arthur learns the identity of the boys' killer, he struggles to make sense of it. Because if the clues are right, he will be forced to make a decision that will haunt him for the rest of his life.
