Positive Linking Paul Ormerod.2012-07-03 According to Paul Ormerod, author of the bestselling *Butterfly Economics* and *Why Most Things Fail*, the mechanistic viewpoint of conventional economics is drastically limited - because it cannot comprehend the vital nature of networks. As our societies become ever more dynamic and intertwined, network effects on every level are increasingly profound. 'Nudge theory' is popular, but only part of the answer. To grapple successfully with the current financial crisis, businesses and politicians need to grasp the perils and possibilities of Positive Linking. Our social and economic worlds have been revolutionised by a massive increase in our awareness of the choices, decisions, behaviours and opinions of other people. For the first time in human history, more than half of us live in cities, and this combined with the Internet has transformed communications. Network effects - the fact that a person can and often does decide to change his or her behaviour simply on the basis of copying what others do - pervade the modern world. As Ormerod shows, network effects make conventional approaches to policy, whether in the public or corporate sectors, much more likely to fail. But they open up the possibility of truly 'Positive Linking' - of more subtle, effective and successful policies, ones which harness our knowledge of network effects and how they work in practice.

Drifting House Krys Lee.2012-02-02 An unflinching portrayal of the Korean immigrant experience from an extraordinary new talent in fiction. Spanning Korea and the United States, from the postwar era to contemporary times, Krys Lee's stunning fiction debut, *Drifting House*, illuminates a people torn between the traumas of their collective past and the indignities and sorrows of their present. In the title story, children escaping famine in North Korea are forced to make unthinkable sacrifices to survive. The tales set in America reveal the immigrants' unmoored existence, playing out in cramped apartments and Koreatown strip malls. A makeshift family is fractured when a shaman from the old country moves in next door. An abandoned wife enters into a fake marriage in order to find her kidnapped daughter. In the tradition of Chang-rae Lee's *Native Speaker* and Jhumpa Lahiri's *Interpreter of Maladies*, *Drifting House* is an unforgettable work by a gifted new writer.

Here Comes Everybody James Fearnley.2014-05-01 "Everything a really great music memoir should be." —Colin Meloy The Pogues injected the fury of punk into Irish folk music and gave the world the troubled, iconic, darkly romantic songwriter Shane MacGowan. Here Comes Everybody is a memoir written by founding member and accordion player James Fearnley, drawn from his personal experiences and the series of journals and correspondence he kept throughout the band's career. Fearnley describes the coalescence of a disparate collection of vagabonds living in the squats of London's Kings Cross, with, at its center, the charismatic MacGowan and his idea of turning Irish traditional music on its head. With beauty, lyricism, and great candor, Fearnley tells the story of how the band watched helplessly as their singer descended into a dark and isolated world of drugs and drink, and sets forth the increasingly desperate measures they were forced to take. James Fearnley was born in 1954 in Worsley, Manchester. He played guitar in various bands, including The Nips with Shane MacGowan, before becoming the accordion player in The Pogues. Fearnley continues to tour with the band and lives in Los Angeles.

Ordinary Dogs Eileen Battersby.2011-11-01 Eileen Battersby is the chief literature critic of The Irish Times and is, in the words of John Banville, 'the finest fiction critic we have'. But her first full-length book is not about international literature or the state of the novel. It is about dogs. Two dogs in particular, with the unlikely names of Bilbo and Frodo. She adopted the first from a horrible dog pound, and the second decided he liked her and moved in to join the family. She was in her very early twenties, an intensely serious student and runner who had just moved to Ireland from California. The dogs became her most loyal companions for over twenty years, witnesses to an often difficult human life and more important to her than most other humans. This book is about two animals with personalities, emotions and prejudices. It is unlike any other book ever written about dogs. It is not sentimental or twee. Battersby became intimately involved in the lives of these intelligent, shrewd creatures, and brings them to life with rare passion and insight. She writes honestly and movingly about the reasons why, for certain people - especially women - there is more integrity in the mysterious relationship with a mammal who cannot speak than there is in most of the relationships that human society has to offer.

Corona Diaries Sydney Mathew.2020-05-09 Corona Diaries is a collection of poems inspired by the experiences and perspectives of various individuals during the quarantine period of the 2020 pandemic. This book is an imaginative documentation of how the Coronavirus affected different types of people and the states of minds they were left with. This book reaches out to people from all walks of life and relates them to the quarantine period in a fun and light-hearted, but also, in a serious manner. Facts and thoughts of these times makes this collection of poems a nice keepsake to mark this moment in time.

Diary Poetics Anna Jackson.2020-08-26 The diary is a genre that is often thought of as virtually formless, a capacious hold-all for the writer's thoughts, and as offering unmediated access to the diarist's true self. Focusing on the diaries of Katherine Mansfield, Virginia Woolf, Antonia White, Joe Orton, John Cheever, and Sylvia Plath, this book looks at how six very different professional writers have approached the diary form with its particular demands and literary potential. As a sequence of separate entries the diary is made up of both gaps and continuities, and the different ways diarists negotiate these aspects of the diary form has radical effects on how their diaries represent both the world and the biographical self. The different published editions of the diaries by Katherine Mansfield, Virginia Woolf and Sylvia Plath show how editorial decisions can construct sometimes startlingly different biographical portraits. Yet all diaries are constructed, and all diary constructions depend on how the writer works with the diary form.

After you register at Book Lending (which is free) you'll have the ability to borrow books that other individuals are loaning or to loan one of your Kindle books. You can search through the titles, browse through the list of recently loaned books, and find eBook by genre. Kindle books can only be loaned once, so if you see a title you want, get it before it's gone. If you already know what you are looking for, search the database by author name, title, language, or subjects. You can also check out the top 100 list to see what other people have been downloading. Unlike the other sites on this list, Centsless Books is a curator-aggregator of Kindle books available on Amazon. Its mission is to make it easy for you to stay on top of all the free ebooks available from the online retailer. The store is easily accessible via any web browser or Android device, but you'll need to create a Google Play account and register a credit card before you can download anything. Your card won't be charged, but you might find it off-putting. Free-eBooks download is the internet's #1 source for free eBook downloads, eBook resources & eBook authors.
