A Collection of Poetry about the Stories of Immigration Elise Sharron.2020-01-12 It is time to gain some understanding about what it means to be an immigrant. Through the eyes of an immigrant we are able to see inside of their family before things brought them to leave their home while also analyzing the assumptions of those who stand far away but yet in judgement of them. Senses is a poem that talks about how much a person from Mexico remembers their land and what it means to them. Using a series of images that poetically revolves around our five senses. What does your life look like through your sense of: smell, sight, taste, touch and the things we hear? It is a beautiful reflection of a life that we don't understand because we haven't seen it but through the story it is clear that these memories are fond, and heart felt. On the other side is the poem No More Boats. This poem is a harsh and honest reality check about the obstacles that people go through to get to leave their homeland and to get here. Using satire, it addresses and makes fun of the thoughts that people have, believe or voice about immigrants. In the end it brings us back to the reality that being an immigrant isn't easy and often it is a choice that was difficult to make. A poem that makes you sit back and reflect on your thoughts of immigrants, immigration in America and the challenges that they experience to get close to the dream that they believe lives here. *This collection may be performed by a male or female student.

Senses Eric Overby.2019-03-28 You often use your senses without even realizing you're doing it. Eric Overby uses his to recall moments of his past and to make sense of the life he lives in this moment. His practice of poetry, mindfulness, and remembrance all cause him to use his senses to work out why he is the way he is. Many times, memories are connected to the senses. How many things do you like because the taste or smell of it reminds you of a childhood memory? How many things are we attached to because our senses tell us we need them? Sight, smell, hearing, taste, touch, and the mind (which is the sixth sense, according to Eastern thought) all tell us who we are and inform us of the world in which we live. In Eric's third book of poetry, he shares his nostalgic senses and his sense of place as he makes sense of the world.

It discusses poetry's content and scope, poetry in society: both in Britain and by way of contrast, revolutionary Nicaragua. This is followed by a chapter on translating poetry. The conclusion makes some suggestions about where to look or go for poetry in Britain today.

Beyond Sight Ryan D. Giles,Steven Wagschal.2018-01-18 Beyond Sight, edited by Ryan D. Giles and Steven Wagschal, explores the ways in which Iberian writers crafted images of both Old and New Worlds using the non-visual senses (hearing, smell, taste, and touch). The contributors argue that the uses of these senses are central to understanding Iberian authors and thinkers from the pre- and early modern periods. Medievalists delve into the poetic interiorizations of the sensorial plane to show how sacramental and purportedly miraculous sensory experiences were central to the effort of affirming faith and understanding indigenous peoples in the Americas. Renaissance and early modernist essays shed new light on experiences of pungent, bustling ports and city centres, and the exotic musical performances of empire. This insightful collection covers a wide array of approaches including literary and cultural history, philosophical aesthetics, affective and cognitive studies, and theories of embodiment. Beyond Sight expands the field of sensory studies to focus on the Iberian Peninsula and its colonies from historical, literary, and cultural perspectives.

Coffee Cup Stains Joy Olree.2011-07-29 Life is complicated, plain and simple. What we see is not what anyone else sees. We see a red rose, but no one else sees that same red, for no one else has our eyes. And that's life. We rely heavily on our five senses—taste, smell, touch, sight, and hearing—but only we can taste, smell, feel, see, or hear how we do. The poetry included in Coffee Cup Stains: Thoughts from an Autistic Poet is based on Joy Olree's own five senses. She was, as Lady Gaga says, born this way—with autism, in a world that cannot fully grasp the meaning. In this new poetry collection, Olree attempts to enlighten that non-autistic world, to make its inhabitants see what she sees. RAGGED RISE Ragged rise I live careful not to see what there is to feel. Fair the well my child say there'll never be ever cause to doubt what it is my place here on earth to be. Ragged rise I go climbing to the top up the mountain side staring at the heavens waiting for the answers. Peaceful though I am I would give it all if only you would ask. Ragged rise I see man in all his glory weathered worn but whole, scattered torn they roam sheltered from life's storm. Ragged but to rise over and again down but never out thus it seems my life.

I Hear a Pickle Rachel Isadora.2017-09-05 * "Isadora's book about the five senses is aimed perfectly at another sense—kids' sense of humor."—The Horn Book, starred review Caldecott Honor winner Rachel Isadora's sweet and simple introduction to the five senses is perfect for the youngest children, who will recognize themselves in charming vignettes portraying a wide range of childhood activities. Hearing, smelling, seeing, touching, tasting--our five senses allow us to experience the world in so many ways! With our ears we hear the birds sing; with our nose we smell the stinky cheese; with our eyes we see the moon and stars (and sometimes glasses help us see even better!); with our skin we feel the rain (and learn not to touch the hot stove!); and with our tongue we can taste our favorite foods. Isadora's lively art reveals the power and delight of each sense.

Poetry and the Fate of the Senses Susan Stewart.2002-01-20 What is the role of the senses in the creation and reception of poetry? How does poetry carry on the long tradition of making experience and suffering understood by others? With Poetry and the Fate of the Senses, Susan Stewart traces the path of the aesthetic in search of an explanation for the role of poetry in our culture. The task of poetry, she tells us, is to counter the loneliness of the mind, or to help it glean, out of the darkness of solitude, the outline of others. Poetry, she contends, makes tangible, visible, and audible the contours of our shared humanity. It sustains and transforms the threshold between individual and social existence. Herself an acclaimed poet, Stewart not only brings the intelligence of a critic to the question of poetry, but the insight of a practitioner as well. Her new study draws on reading from the ancient Greeks to the postmoderns to explain how poetry creates meanings between persons. Poetry and the Fate of the Senses includes close discussions of poems by Stevens, Hopkins, Keats, Hardy, Bishop, and Traherne, of the sense of vertigo in Baroque and Romantic works, and of the rich tradition of nocturnes in visual, musical, and verbal art. Ultimately, Stewart explores the pivotal role of poetry in contemporary culture. She argues that poetry can counter the denigration of the senses and can expand our imagination of the range of human expression. Poetry and the Fate of the Senses won the 2004 Truman Capote Award for Literary Criticism in Memory of Newton Arvin, administered for the Truman Capote Estate by the University of Iowa Writers' Workshop. It also won the Phi Beta Kappa Society's 2002 Christian Gauss Award for Literary Criticism.

Space Unknown Glen Smith.2018-07-04 We all participate in a world where we are blind to the unknown. These images and poetry reflect that our basic revelations use touch, taste, balance, and smell. Sight and hearing offer a much bigger view of the world around us. What if we did not have the gift of sight? However, we can all consider that we have blindness of understanding. Therefore, we must show kindness beyond what we know.

Poetry & Listening Zoë Skoulding.2020-11-04 Listening has always mattered in poetry, but how does poetry change when listening has been transformed? In Poetry & Listening: The Noise of Lyric, the field of sound studies, which has revolutionised research in contemporary music, is brought into dialogue with new lyric criticism. Examining poetry as mediated by performance, technology and translation, this book discovers how contemporary poetry has been re-energised by the influence of recorded sound and influenced by the creative methods that emerged with it. It offers an exploration of contemporary poetry's acoustic contexts, moving beyond traditional analysis of poetic form to consider the social, political and ecological dimensions of a poem's sounds and silences. Through lucid engagement with a range of richly innovative English-language poetry from the UK and USA, it argues for the centrality of listening to a form of composition in which language not only represents sonic experience but is part of it. With reference to Jean-Luc Nancy's distinction between hearing and listening, alongside other key theorists of sound and noise, it shows how poetry offers insights into sensory perception, and how it charts acoustic relationships between language and the environment.

Look Ma, "Hands" on Poetry Adele L. Steiner.2008-05 The workshops in Look Ma,Hands on Poetry are designed to help teachers and poets familiarize elementary through high school students with a variety of creative and fun ways to engage their imaginations and write poetry They do so by encouraging teachers and students to explore, together, the art of poetry; i.e., the art of employing the five senses to capture experience in language. The workshops also introduce young writers to a wide range of poets and the poetic techniques and styles that they have incorporated in their writing. As a result when students complete a series of workshops from this book, they will know how to write a poem They may enjoy reading more poetry, too, because they will have a solid understanding of how poetry works. Finally, there are exciting ideas in Look Ma, Hands, on Poetry for ways in which young writers can exhibit and perform their poetry. The workshops in this book run from 45-60 minutes with the time divided into three segments. In the first, the teacher reads and discusses poems that are examples of the types of poetry students will be writing. In the second, the teacher introduces the writing assignment and has students begin writing. Finally, students who finish poems are invited to share them in the remaining class time. Because poetry is the art of capturing experience in language, the workshops are structured around sight, smell, taste, touch, and sound. Each of the workshops in the first five chapters is geared toward exploring one of these senses, and the two later chapters contain workshops that require students to use all five to write their poems. As a result, workshops from each chapter may be used individually or in sequence to create one or twoweek poetry units that teachers and students can enjoy. Workshops in the book include the Sleight-of-Hand and Animal Mask Workshops wherein students use metaphor, simile, and personification to create imagery in poems. They use music and musical instruments to help them create sound and rhythm in the Native American, Chant, and Rap Workshops, and then they literally play with words to write Bingo and Multiple Voice Poems. Young people have opportunities to express their feelings through poetry in the Blues, Love Potion, and Ode Workshops; and finally, they use their five senses simultaneously when writing Bubble and Rainbow Poems and when they interpret paintings, sculpture, and music in Echphrastic Poems. The book's final section presents creative ideas for poetry readings, books, and displays. Suggestions for readings include the Poetry Cafe, which can incorporate any of the Coffee House, Tea Room, 1950's Diner, and/or Greco-Roman Garden venues discussed in this section. Student poetry books and chapbooks complete with student art and photos are described here, too, along with plans for poetry rainbows, sidewalks, mobiles, and poetry word collections.

Poems of Love and War A. K. Ramanujan.1985 Available for the first time in English, this is the definitive account of the practice of sexual slavery the Japanese military perpetrated during World War II by the researcher principally responsible for exposing the Japanese government's responsibility for these atrocities. The large scale imprisonment and rape of thousands of women, who were euphemistically called comfort women by the Japanese military, first seized public attention in 1991 when three Korean women filed suit in a Toyko District Court stating that they had been forced into sexual servitude and demanding compensation. Since then the comfort stations and their significance have been the subject of ongoing debate and intense activism in Japan, much if it inspired by Yoshimi's investigations. How large a role did the military, and by extension the government, play in setting up and administering these camps? What type of compensation, if any, are the victimized women due? These issues figure prominently in the current Japanese focus on public memory and arguments about the teaching and writing of history and are central to efforts to transform Japanese ways of remembering the war. Yoshimi Yoshiaki provides a wealth of documentation and testimony to prove the existence of some 2,000 centers where as many as 200,000 Korean, Filipina, Taiwanese, Indonesian, Burmese, Dutch, Australian, and some Japanese women were restrained for months and forced to engage in sexual activity with Japanese military personnel. Many of the women were teenagers, some as young as fourteen. To date, the Japanese government has neither admitted responsibility for creating the comfort station system nor given compensation directly to former comfort women. This English edition updates the Japanese edition originally published in 1995 and includes introductions by both the author and the translator placing the story in context for American readers.
