Gemsigns Stephanie Saulter.2013-03-28 They were created to save humanity. Now they must fight to save themselves. For years the human race was under attack from a deadly Syndrome, but when a cure was found - in the form of genetically engineered human beings, Gems - the line between survival and ethics was radically altered. Now the Gems are fighting for their freedom, from the oppression of the companies that created them, and against the Norms who see them as slaves. And a conference at which Dr Eli Walker has been commissioned to present his findings on the Gems is the key to that freedom. But with the Gemtech companies fighting to keep the Gems enslaved, and the horrifying godgangs determined to rid the earth of these 'unholy' creations, the Gems are up against forces that may just be too powerful to oppose.

The accusation is for a considerable crime, and Jacob must choose whether he will fight or be added to the blacklist of duel dodgers.

The Ninja Librarian Rebecca M. Douglass.2013-06-23 Skunk Corners is a pretty miserable place when the Ninja Librarian moves in. It's just a dirty, tough town in the dirty tough hills. Folks there aren't too friendly, and they don't see much need for highfalutin nonsense like schools or libraries. But from the moment the unassuming, white-haired gentleman steps off the

train and into these tall tales, the changes in Skunk Corners begin, in equal parts exciting and bewildering to Big Al. The Ninja Librarian uses wisdom, patience, book-learning -- and a few well-placed kicks and jabs -- to change the town and Al, forever.

Ternary Kristin L. Stamper.2021-05-31 Elora isn't a robot, but she isn't human either. She's an abominable combination of the two, a cyborg. For this offense, she must face judgment in a court of law. There, it will be decided if she's a person, owed the same rights as any other, or an object, owed no rights at all. But when a last-ditch effort to demonstrate her humanity backfires, Elora is faced with an element of human nature she always hoped to avoid: love. The consciousness of a dead man is accidentally downloaded into her cybernetic brain, and she becomes infatuated with his still-living husband—whether she wants to or not. For Elora, making her way in a solar system that fears and hates her has been hard enough. Now, she must do it as an intermediary between lovers while keeping her own heart in check. With the trial fast approaching, and anti-robot protesters demanding her head, Elora can't afford to get swept up in someone else's love story.

Master of One Jaida Jones, Dani Bennett.2020-11-10 Sinister sorcery. Gallows humor. A queer romance so glorious it could be right out of fae legend itself. Master of One is a fantasy unlike any other. Rags the thief has never met a pocket he couldn't pick, but when he's captured by a sorcerer with world-ending plans, he realizes even he is in over his head. Forced to use his finely honed skills to nab pieces of an ancient fae relic, Rags is stunned to discover that those "relics" just happen to be people: A distractingly handsome Fae prince, A too-honorable Queensguard deserter, A scrappy daughter of a disgraced noble family, A deceptively sweet-natured prince, A bona fide member of the Resistance, And him. Rags. They may all be captives in the sorcerer's terrible scheme, but that won't stop them from fighting back. And, sure, six unexpected allies against one wicked enemy

With the heist and intrigue of *Six of Crows* and the dark fairy tale feel of *The Cruel Prince*, this young adult fantasy debut will have readers rooting for a pair of reluctant heroes as they take on a world-ending fae prophecy, a malicious royal plot, and, most dangerously of all, their feelings for each other.

"Extraordinary . . . A future sci-fi masterwork in a new and welcome tradition." -- Joanne Harris, author of Chocolat A stand-alone science fiction novella from the award-winning, bestselling, critically-acclaimed author of the Wayfarer series. At the turn of the twenty-second century, scientists make a breakthrough in human spaceflight. Through a revolutionary method known as somaforming, astronauts can survive in hostile environments off Earth using synthetic biological supplementations. They can produce antifreeze in subzero temperatures, absorb radiation and convert it for food, and conveniently adjust to the pull of different gravitational forces. With the fragility of the body no longer a limiting factor, human beings are at last able to journey to neighboring exoplanets long known to harbor life. A team of these explorers, Ariadne O'Neill and her three crewmates, are hard at work in a planetary system fifteen light-years from Sol, on a mission to ecologically survey four habitable worlds. But as Ariadne shifts through both form and time, the culture back on Earth has also been transformed. Faced with the possibility of returning to a planet that has forgotten those who have left,

Storm George R. Stewart.2021-08-17 A thrilling, innovative novel about the interplay between nature and humankind by the author of Names on the Land. With Storm, first published in 1941, George R. Stewart invented a new genre of fiction: the eco-novel. California has been plunged into drought throughout the summer and fall when a ship reports an unusual barometric reading from the far western Pacific. In San Francisco, a junior meteorologist in the Weather Bureau takes note of the anomaly and plots “an incipient little whorl” on the weather map, a developing storm, he suspects, that he privately dubs Maria. Stewart’s novel tracks Maria’s progress to and beyond the shores of the United States through the eyes of meteorologists, linemen, snowplow operators, a general, a couple of decamping lovebirds, and an unlucky owl, and the storm, surging and ebbing, will bring long-needed rain, flooded roads, deep snows, accidents, and death. Storm is an epic account of humanity’s relationship to and dependence on the natural world.

The Galaxy, and the Ground Within Becky Chambers. 2021-04-20 National Bestseller! Return to the sprawling, Hugo Award-winning universe of the Galactic Commons to explore another corner of the cosmos—one often mentioned, but not yet explored—in this absorbing entry in the Wayfarers series, which blends heart-warming characters and imaginative adventure. With no water, no air, and no native life, the planet Gora is unremarkable. The only thing it has going for it is a chance proximity to more popular worlds, making it a decent stopover for ships traveling between the wormholes that keep the Galactic Commons connected. If deep space is a highway, Gora is just your average truck stop. At the Five-Hop One-Stop, long-haul spacers can stretch their legs (if they have legs, that is), and get fuel, transit permits, and assorted supplies. The Five-Hop is run by an enterprising alien and her sometimes helpful child, who work hard to provide a little piece of home to everyone passing through. When a freak technological failure halts all traffic to and from Gora, three strangers—all different species with different aims—are thrown together at the Five-Hop. Grounded, with nothing to do but wait, the trio—an exiled artist with an appointment to keep, a cargo runner at a personal crossroads, and a mysterious individual doing her best to help those on the fringes—are compelled to confront where they've been, where they might go, and what they are, or could be, to each other.

Chambers.2015-08-18 The acclaimed modern science fiction masterpiece, Hugo Award winner for Best Series! Follow a motley crew on an exciting journey through space—and one adventurous young explorer who discovers the meaning of family in the far reaches of the universe—in this light-hearted debut space opera from a rising sci-fi star. Rosemary Harper doesn't expect much when she joins the crew of the aging Wayfarer. While the patched-up ship has seen better days, it offers her a bed, a chance to explore the far-off corners of the galaxy, and most importantly, some distance from her past. An introspective young woman who learned early to keep to herself, she's never met anyone remotely like the ship's diverse crew, including Sissix, the exotic reptilian pilot, chatty engineers Kizzy and Jenks who keep the ship running, and Ashby, their noble captain. Life aboard the Wayfarer is chaotic and crazy—exactly what Rosemary wants. It's also about to get extremely dangerous when the crew is offered the job of a lifetime. In the far reaches of deep space, the tiny Wayfarer crew will confront a host of unexpected mishaps and thrilling adventures that force them to depend on each other. To survive, Rosemary's got to learn how to rely on this assortment of oddballs—an experience that teaches her about love and trust, and that having a family isn't necessarily the worst thing in the universe. The Other Side—rooted in her own experience with sexual assault—pursues questions that strike at the heart of our national conversation about the justness of society. In 2014, Lacy Johnson was giving a reading from *The Other Side*, her “instant classic” (Kirkus Reviews) memoir of kidnapping and rape, when a woman asked her what she would like to happen to her rapist. This collection “attempts to parcel out several knotted problems and suggests forms of meaningful justice” (Booklist, starred review). Drawing from philosophy, art, literature, mythology, anthropology, film, and her own experience of violence, Johnson considers how our ideas about justice might be expanded beyond vengeance and retribution to include acts of compassion, patience, mercy, and grace. “*The Reckonings* is not a book about changing the world. It’s philosophy in disguise, equal parts memoir, criticism, and ethics...The twelve essays deserve great consideration, while you read it and long after” (NPR). From “Speak Truth to Power,” about the condition of not being believed about rape and assault; to “Goliath,” about the ways evil is used as a form of social control; to “The Fallout,” about ecological and generational violence, Johnson creates masterful, elaborate, gorgeously written essays that speak incisively about our current era. She grapples with justice and retribution, truth and fairness, and sexual assault and workplace harassment, as well as the broadest societal wrongs: the BP Oil Spill, government malfeasance, police killings. *The Reckonings* is a powerful and necessary work, ambitious in its scope, which “challenges our culture’s expectations of justice and expose the limits of vengeance and mercy” (Ms. Magazine).

of season, and with her dying breath she bequeaths her mysterious powers to Penric. From that moment on, Penric's life is irreversibly changed, and his life is in danger from those who envy or fear him. Set in the fantasy world of the author's acclaimed novels THE CURSE OF CHALION, PALADIN OF SOULS and THE HALLOWED HUNT, this novella has the depth of characterization and emotional complexity that distinguishes all Bujold's work. "Bujold's delightful latest tale of Penric ... is another winner in Bujold's already strong series." - Publisher's Weekly *Starred Review* on "The Prisoner of Limnos" "Series fans and fantasy readers who seek well-drawn characters will love this tale." - Publisher's Weekly on "Mira's Last Dance" "Best-selling author Bujold follows her Hugo-nominated "Penric and the Shaman" (2017) with another adventure featuring the sorcerer Penric and his resident 200-year-old chaos demon, Desdemona. ... Series fans will be delighted with this tale, which begs for continuation." - Booklist on "Penric's Mission" "Set in the 'World of The Five Gods' (The Curse of Chalion; Paladin of Souls; The Hallowed Hunt), Bujold's novella takes series fans back to a well-known realm in an exciting new adventure. The varied voices, especially between Pen and Desdemona, add a fun slant to a serious tale. - Library Journal on "Penric and the Shaman" "Bujold follows 'Penric's Demon' with another brief tale set in her World of the Five Gods, this time combining supernatural sleuthing with finely drawn characters and a panoply of emotions... This is a wonderful expansion of her World of the Five Gods. - Publisher's Weekly *Starred Review* on "Penric and the Shaman" "Fans of the Chalion tales will again be drawn in by the intrigue of the religious dynamics, the fantasy aspects of the magic and the complexity of character that Bujold is so masterful at creating." - RT Book Reviews on "Penric's Demon"

character relationships and dazzling adventure, *Record of a Spaceborn* few is the third standalone installment of the *Wayfarers* series, set in the sprawling universe of the Galactic Commons, and following a new motley crew on a journey to another corner corner of the cosmos—one often mentioned, but not yet explored. Return to the sprawling universe of the Galactic Commons, as humans, artificial intelligence, aliens, and some beings yet undiscovered explore what it means to be a community in this exciting third adventure in the acclaimed and multi-award-nominated science fiction *Wayfarers* series, brimming with heartwarming characters and dazzling space adventure.

Hundreds of years ago, the last humans on Earth boarded the *Exodus Fleet* in search of a new home among the stars. After centuries spent wandering empty space, their descendants were eventually accepted by the well-established species that govern the Milky Way. But that was long ago. Today, the *Exodus Fleet* is a living relic, the birthplace of many, yet a place few outsiders have ever visited. While the *Exodans* take great pride in their original community and traditions, their culture has been influenced by others beyond their bulkheads. As many *Exodans* leave for alien cities or terrestrial colonies, those who remain are left to ponder their own lives and futures: What is the purpose of a ship that has reached its destination? Why remain in space when there are habitable worlds available to live? What is the price of sustaining their carefully balanced way of life—and is it worth saving at all? A young apprentice, a lifelong spacer with young children, a planet-raised traveler, an alien academic, a caretaker for the dead, and an Archivist whose mission is to ensure no one's story is forgotten, wrestle with these profound universal questions. The answers may seem small on the galactic scale, but to these individuals, it could mean everything.

an excitable engineer, who's determined to help her learn and grow. Together, Pepper and Lovey will discover that no matter how vast space is, two people can fill it together. The Long Way to a Small, Angry Planet introduced readers to the incredible world of Rosemary Harper, a young woman with a restless soul and secrets to keep. When she joined the crew of the Wayfarer, an intergalactic ship, she got more than she bargained for—and learned to live with, and love, her rag-tag collection of crewmates. A Closed and Common Orbit is the stand-alone sequel to that beloved debut novel, and is perfect for fans of Firefly, Joss Whedon, Mass Effect, and Star Wars.

Run Program Scott Meyer.2017 What's worse than a child with a magnifying glass, a garden full of ants, and a brilliant mind full of mischief? Try Al, a well-meaning but impish artificial intelligence with the mind of a six-year-old and a penchant for tantrums. Hope Takeda, a lab assistant charged with educating and socializing Al, soon discovers that day care is a lot more difficult when your kid is an evolving and easily frightened A.I. When Al manages to access the Internet and escape the lab days before his official unveiling, Hope and her team embark on a mission to contain him--before he causes any real trouble.--

Jack Glass Adam Roberts.2012-07-26 WINNER OF THE BSFA AWARD FOR BEST NOVEL Jack Glass is the murderer. We know this from the start. Yet as this extraordinary novel tells the story of three murders committed by Glass the reader will be surprised to find out that it was Glass who was the killer and how he did it. And by the end of the book our sympathies for the killer are fully engaged. Riffing on the tropes of crime fiction (the country house murder, the locked room mystery) and imbued with the feel of golden age SF, JACK GLASS is another bravura performance from Roberts. Whatever games he plays with the genre, whatever questions he asks of the reader, Roberts never loses sight of the need to entertain and JACK GLASS has some wonderfully gruesome moments, is built around three gripping HowDunnits

and comes with liberal doses of sly humour. Roberts invites us to have fun and tricks us into thinking about both crime and SF via a beautifully structured novel set in a society whose depiction challenges notions of crime, punishment, power and freedom. It is an extraordinary novel.

A Prayer for the Crown-Shy Becky Chambers.2022-07-12 A USA Today Bestseller! "Tender and healing... I'm prescribing a preorder to anyone who has ever felt lost. Stunning, kind, necessary." —Sarah Gailey on book 1: A Psalm for the Wild-Built A Prayer for the Crown-Shy is a story of kindness and love from one of the foremost practitioners of hopeful SF. After touring the rural areas of Panga, Sibling Dex (a Tea Monk of some renown) and Mosschap (a robot sent on a quest to determine what humanity really needs) turn their attention to the villages and cities of the little moon they call home. They hope to find the answers they seek, while making new friends, learning new concepts, and experiencing the entropic nature of the universe. Becky Chambers's new series continues to ask: in a world where people have what they want, does having more even matter? At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

word from ground control is unequivocal: no matter what happens, the mission must continue. But as the body count begins to rise, Cormac finds himself alone and spiraling toward his own inevitable death . . . unless he can do something to stop it.

Lilith's Brood Octavia E. Butler. 2012-07-24 The complete series about an alien species that could save humanity after nuclear apocalypse—or destroy it—from “one of science fiction’s finest writers” (The New York Times). The newest stage in human evolution begins in outer space. Survivors of a cataclysmic nuclear war awake to find themselves being studied by the Oankali, tentacle-covered galactic travelers whose benevolent appearance hides their surprising plan for the future of mankind. The Oankali arrive not just to save humanity, but to bond with it—crossbreeding to form a hybrid species that can survive in the place of its human forebears, who were so intent on self-destruction. Some people resist, forming pocket communities of purebred rebellion, but many realize they have no choice. The human species inevitably expands into something stranger, stronger, and undeniably alien. From Hugo and Nebula award-winning author Octavia Butler, *Lilith's Brood* is both a thrilling, epic adventure of man's struggle to survive after Earth's destruction, and a provocative meditation on what it means to be human. This ebook features an illustrated biography of Octavia E. Butler including rare images from the author's estate.

A Night of Blacker Darkness .2011 Wrongly imprisoned, Frederick Whithers is desperate to commit the crime he's already being punished for: defrauding the bank out of a vast inheritance. He fakes his death to escape, but when he's seen climbing out of a coffin everyone assumes he's a vampire; when he shows none of the traditional vampire weaknesses, they decide he must be the Great One, the most powerful vampire in the history of the world. Half horror and half farce, Frederick's tale is an ever-growing avalanche of bankers, constables, graverobbers, poets, ghouls, morticians, vampires, vampire hunters, not to mention

some very unfortunate rabbits. With a string of allies even more unlikely than his enemies, can Frederick stay alive long enough to claim his (well, somebody's) money? And if he can't, which of his innumerable enemies will get to him first?
