Renaissance .2019-01-16 Un monde pour en sauver un autre ? Pour échapper à leurs agresseurs, Pauline et Gaëlle n'ont eu d'autre choix que de se réfugier dans le Petit Monde à l'aide des larmes d'abeille. Dans cet endroit où le temps s'écoule plus lentement, elles font la rencontre de Sombre, le fils qu'Erwan a eu avec la prêtresse hermaphrodite. Alors que Gaëlle se prend d'affection pour le petit, elle le ramène accidentellement avec elle dans le vrai monde. Ici, plusieurs semaines ont passé et les tensions entre Erwan et Blanche sont plus que palpables alors que la catastrophe s'est répandue, que les épidémies se succèdent et que l'humanité, réduite à ses plus bas instincts, semble ne plus en avoir pour longtemps. Se retrouvant sur le même plan d'existence, Blanche et Sombre vont enfin pouvoir se retrouver... Mais quelles seront les conséquences ? Avec ce huitième volume, découvrez la conclusion épique et tant attendue du Grand Mort, série unique en son genre qui mêle avec une virtuosité rare le fantastique au récit post-apocalyptique. Un récit aussi mystérieux qu'ambitieux, miroir des problématiques écologiques et sociales de notre temps, et rendu somptueux par la plume de Vincent Mallié et la palette de François Lapierre

The Royal Financial Administration and the Prosecution of Crime in France, 1670-1789 Albert N. Hamscher.2012 The Royal Financial Administration and the Prosecution of Crime in France, 1670-1789 explores the French monarchy's role in financing criminal prosecutions in the royal courts of the realm--the payment of criminal frais de justice in the vocabulary of the ancien régime--between 1670 and 1789 (that is, from the codification of criminal judicial procedure in the early period of Louis XIV's personal rule to the outbreak of the French Revolution). The subject brings together three areas of scholarly inquiry--criminal justice, royal administration, and the management of the crown's finances. A central goal of the study is to provide factual information and interpretive insights on each of these topics and to explain the relationship of each to the others over a long time period. The book contributes to existing scholarship in four ways. First, although each of the major dimensions of the inquiry--the operation of the criminal justice system, the conduct of the royal administration, and the management of the monarchy's finances--has a large and increasingly sophisticated historical literature, this is the first study to combine them in a systematic way. Second, the long time period covered in the book not only enables the historian to distinguish gradual from rapid change, but it also allows the reader to view how the system functioned in different historical contexts. Third, the study is based on archival sources throughout France. This comprehensive approach permits the identification of elements of a common experience without sacrificing attention to important aspects of regional diversity. Finally, with respect to the sources themselves, the range is broad, encompassing regulatory acts and decisions of the king's councils; administrative correspondence at the central, regional, and in some cases local levels; financial accounts and related papers; and court records from the major appellate courts and from several lower courts as well. An appendix of 33 tables lists figures of annual expenditure and other pertinent financial operations for each of the major financial districts of the kingdom.

Forgetting Differences Andrea Frisch.2015-06-02 Examines the impact of the royal politics of amnesia on tragedy and national historiography in France, 1560-1630

Renaissance Olivier Bowden.2012-09-14 Trahi par les familles dirigeantes d'Italie, un jeune homme se lance dans une épique quête de vengeance. Afin d'éliminer la corruption et de rétablir l'honneur des siens, il deviendra un assassin. Il fera appel à la sagesse de grands esprits comme Léonard de Vinci ou Nicolas Machiavel, car il sait que sa survie dépend des dons qu'il doit développer. Aux yeux de ses alliés, il représente le changement car il combat pour la liberté et la justice. Mais ses ennemis le considèrent comme la pire des menaces car il a voué son existence à la destruction des tyrans qui oppriment le peuple d'Italie. Ainsi commence une histoire de pouvoir, de vengeance et de conspiration.

The Historiography of World War I from 1918 to the Present Christoph Cornelissen,Arndt Weinrich.2022-11-11 From the Treaty of Versailles to the 2018 centenary and beyond, the history of the First World War has been continually written and rewritten, studied and contested, producing a rich historiography shaped by the social and cultural circumstances of its creation. Writing the Great War provides a groundbreaking survey of this vast body of work, assembling contributions on a variety of national and regional historiographies from some of the most prominent scholars in the field. By analyzing perceptions of the war in contexts ranging from Nazi Germany to India's struggle for independence, this is an illuminating collective study of the complex interplay of memory and history.

La fin du Moyen Age - tome 1 Henri Pirenne.2013-09-15 Aux alentours de 1285, date de l'avènement de Philippe Le Bel, le Moyen Âge se désagrège lentement, et tout ce qui caractérisait le monde médiéval se délite peu à peu : l'Église, l'Empire perdent de leur prestige, l'ordre social fondé sur la féodalité est en voie de transformation profonde, des idées nouvelles comme celle de l'État monarchique se précisent. Mais cette évolution n'ira pas sans deux cents ans de luttes, de crises, de guerres, de ruine économique, d'insécurité des échanges commerciaux, de faillite des industries. À partir de 1453, l'Europe cherche à fonder les principes de sa restauration. Les cadres politiques se précisent et se simplifient, les échanges commerciaux s'accélèrent, et la passion humaniste tente de ressusciter la splendeur de la civilisation antique.

Luxury Arts of the Renaissance Marina Belozerskaya.2005-10-01 Today we associate the Renaissance with painting, sculpture, and architecture—the “major” arts. Yet contemporaries often held the “minor” arts—gem-studded goldwork, richly embellished armor, splendid tapestries and embroideries, music, and ephemeral multi-media spectacles—in much higher esteem. Isabella d'Este, Marchesa of Mantua, was typical of the Italian nobility: she bequeathed to her children precious stone vases mounted in gold, engraved gems, ivories, and antique bronzes and marbles; her

favorite ladies-in-waiting, by contrast, received mere paintings. Renaissance patrons and observers extolled finely wrought luxury artifacts for their exquisite craftsmanship and the symbolic capital of their components; paintings and sculptures in modest materials, although discussed by some literati, were of lesser consequence. This book endeavors to return to the mainstream material long marginalized as a result of historical and ideological biases of the intervening centuries. The author analyzes how luxury arts went from being lofty markers of ascendancy and discernment in the Renaissance to being dismissed as “decorative” or “minor” arts—extravagant trinkets of the rich unworthy of the status of Art. Then, by re-examining the objects themselves and their uses in their day, she shows how sumptuous creations constructed the world and taste of Renaissance women and men.

History of Geoscience W. Mayer,R.M. Clary,L.F. Azuela,T.S. Mota,S. Wołkowicz .2017-06-06 The study of the Earth's origin, its composition, the processes that changed and shaped it over time and the fossils preserved in rocks, have occupied enquiring minds from ancient times. The contributions in this volume trace the history of ideas and the research of scholars in a wide range of geological disciplines that have paved the way to our present-day understanding and knowledge of the physical nature of our planet and the diversity of life that inhabited it. To mark the 50th anniversary of the founding of the International Commission on the History of Geology (INHIGEO), the book features contributions that give insights into its establishment and progress. In other sections authors reflect on the value of studying the history of the geosciences and provide accounts of early investigations in fields as diverse as tectonics, volcanology, geomorphology, vertebrate palaeontology and petroleum geology. Other papers discuss the establishment of geological surveys, the contribution of women to geology and biographical sketches of noted scholars in various fields of geoscience.
