**Milano sottozero** Oscar Logoteta. 2018-12-11 Dicembre 1978, Milano. Pochi giorni prima del Natale, una ragazzina dell'alta borghesia milanese viene trovata impiccata nella sua cameretta. Il commissario Negri, con l'aiuto del suo vice Palamara e dell'ispettore Coviello, dovrà fare i conti con una storia che nasconde molto di più di quanto si possa immaginare. In una Milano pronta a festeggiare il Natale, la candida neve si tinge di nero, in una vicenda in cui niente è come sembra e dove la linea di demarcazione tra il bene e il male rimane costantemente sotto traccia, in una corsa contro il tempo dove anche i poteri forti entrano in gioco e dove il commissario Negri dovrà dar fondo a tutte le sue capacità deduttive per venire a capo di un caso che scuote l'intera città. Oscar Logoteta è nato a Milano il 13 aprile 1983. Creativo, scrittore e padre. O, almeno, ci prova. Nel 2014 esce il suo romanzo di esordio intitolato *A come Armatura*. Con Fratelli Frilli Editori ha pubblicato *Milano disillusa* (2017).

*Cosmic Catastrophes* J. Craig Wheeler. 2007-01-04 From supernovae and gamma-ray bursts to the accelerating Universe, this is an exploration of the intellectual threads that lead to some of the most exciting ideas in modern astrophysics and cosmology. This fully updated second edition incorporates new material on binary stars, black holes, gamma-ray bursts, worm-holes, quantum gravity and string theory. It covers the origins of stars and their evolution, the mechanisms responsible for supernovae, and their progeny, neutron stars and black holes. It examines the theoretical ideas behind black holes and their manifestation in observational astronomy and presents neutron stars in all their variety known today. This book also covers the physics of the twentieth century, discussing quantum theory and Einstein's gravity, how these two theories collide, and the prospects for their reconciliation in the twenty-first century. This will be essential reading for undergraduate students in astronomy and astrophysics, and an excellent, accessible introduction for a wider audience.

*Kill the Father* Sandrone Dazieri. 2017-01-10 Two people, each shattered by their past, team to solve a series of killings and abductions--a ruthlessly planned escalation that turns out to be merely the visible surface of something far more sinister--Amazon.com.

**The Illustrated Virago Book of Women Travellers** Mary Morris. 2002-12-05 Women move through the world differently from men. The constraints and perils, the perceptions and complex emotions women journey with are different. For many women, the inner landscape is as important as the outer. This does not mean that the woman traveller is not politically aware, historically astute or in touch with the customs and language of the place, but it does mean that a woman cannot travel and not be aware of her body and the limitations her sex presents.

*Kill the Angel* Sandrone Dazieri. 2020-04-14 From internationally bestselling author Sandrone Dazieri and featuring "two of the most intriguing detectives to have emerged in recent years" (Daily Mail, London) comes the "explosive" (Booklist, starred review) second thriller in the Caselli and Torre series. In Rome, a passenger train speeds into the city's main station, its first-class car full of dead bodies, the macabre discovery of which falls to Deputy Police Commissioner Colomba Caselli. The police then receive a claim of responsibility and the threat of more murders to come. But neither Caselli nor her eccentrically brilliant ally, Dante Torre, are ready to buy the terrorist link. As the two unconventional investigators chip away at what the perpetrator wants everyone to believe, they put

their own lives in jeopardy. But Dante's bizarre and traumatic past enables him to see what others miss, and in this case, to connect with a kindred spirit of sorts, a woman named Giltine who also experienced an intense trauma—one from which she emerged damaged and full of murderous intent. Making her especially lethal is that the rare mental illness she suffers from has her believing she's already dead. When Colomba and Dante find themselves on the outs with law enforcement they're entirely on their own, faced with the responsibility of making sure the waters of Venice don't turn red with blood.

The Dialogic Emergence of Culture Dennis Tedlock, Bruce Mannheim.1995 Major figures in contemporary anthropology present a dialogic critique of ethnography. Moving beyond sociolinguistics and performance theory, and inspired by Bakhtin and by their own field experiences, the contributors revise notions of where culture actually resides. This pioneering effort integrates a concern for linguistic processes with interpretive approaches to culture. Culture and ethnography are located in social interaction. The collection contains dialogues that trace the entire course of ethnographic interpretation, from field research to publication. The authors explore an anthropology that actively acknowledges the dialogical nature of its own production. Chapters strike a balance between theory and practice and will also be of interest in cultural studies, literary criticism, linguistics, and philosophy. CONTRIBUTORS: Deborah Tannen, John Attinasi, Paul Friedrich, Billie Jean Isbell, Allan F. Burns, Jane H. Hill, Ruth Behar, Jean DeBernardi, R. P. McDermott, Henry Tylbor, Alton L. Becker, Bruce Mannheim, Dennis Tedlock

**Theory of the Novel** Guido Mazzoni.2017-01-02 In his theory of the novel, Guido Mazzoni explains that novels consist of stories told in any way whatsoever about the experiences of ordinary men and women who exist as contingent beings within time and space. Novels allow readers to step into other lives and other versions of truth, each a small, local world, absolute in its particularity.

Summits and Secrets Kurt Diemberger.2019-03-08 'A book grows rather like a snow crystal. One doesn't write it from start to finish but, in greater or less degree, all at the same time ... that is why my book is not in chronological order; for everything is of the present, held in the moment when thought captures it.' Kurt Diemberger's *Summits and Secrets* is a mountaineering autobiography like no other. Writing anecdotally, Diemberger provides an abstract look into his life and climbing career that is both fascinating and awe-inspiring to navigate. Known for surviving the 1986 K2 disaster - an account described in harrowing detail in his award-winning book *The Endless Knot* - Diemberger provides a captivating insight into his earlier climbs in *Summits and Secrets*. From climbing his first peak in the Tyrol mountains of Austria, to the epoch-making first ascent of Broad Peak with Hermann Buhl in 1957, and then summiting Dhaulagiri in 1960, where he became one of only two people to have made first ascents of two mountains over 8,000 metres, Diemberger recounts his experiences with wit, honesty and an infectious enthusiasm: 'Every climber knows the thrill ... the unique inexplicable tension, which the regular shapes of the mountain world awake in him: huge pyramids, enormous rectangular slabs, piled-up triangles of rock, white circles, immense squares - the thrill of simplicity of shape and outline and the excitement of mastering them, to an unbelievable extent, by his own efforts, his own power ...' *Summits and Secrets* is a must-read for those wanting an insight into the life and achievements of one of the toughest high-altitude climbers the world has ever known.

**Intra-Industry Trade and Adjustment** Robert C. Hine, Marius Brühlhart.2016-07-27 The book offers an authoritative overview of the topical issues surrounding intra-industry trade in Europe in the era of European economic integration. It brings together expert contributors from eight of the European Union member states. The theory of intra-industry trade is discussed and assessed through a comprehensive study of the patterns of trade in Europe and the individual member states

over a thirty year period. This detailed empirical analysis allows conclusions to be drawn on issues including the impact of international trade on the domestic economy. The book arises from a major multinational programme co-ordinated from the University of Nottingham.

Situating Fertility Susan Greenhalgh.1995-07-13 This collection addresses the world-wide pattern of falling birth rates. Fertility has commonly been treated from a specialized demographic perspective, but there is today widespread dissatisfaction with conventional demographic approaches, which are criticized for neglecting the cultural, social, and political forces that affect reproductive behavior. For their part, anthropologists have only recently begun to apply their characteristic approaches to the study of reproduction. Drawing on new ethnographic and historical research and on a variety of theoretical approaches, the contributors to this book indicate some of the ways in which demography might take into account historical processes, political forces, and cultural conceptions.

**Memoirs of an Italian Terrorist** Giorgio.2003-02-11 When government consultant Professor Marco Biagi was assassinated in Italy by the New Red Brigades in the aftermath of September 11, the country was transported back 30 years to the violent Years of Lead. In the 1970s Neo-Fascists planted bombs, Marxist-Leninists kneecapped and assassinated, and ordinary Italians were afraid to go to their offices in the morning. There were over 500 killed by terrorists in those years, thousands wounded, burned, scarred; there are hundreds in jail or who have done time, and thousands still out there, like Giorgio, having lived decades as clandestine soldiers. The most shocking document of that unstable era and one of the primary source documents in the history of terrorism is this anonymous firsthand narrative of a life devoted to the bloody cause of The Red Brigades. In candid and grim detail, Giorgio tells of his transition to living underground. He coldly narrates his mundane routine that prefigures the methods of al-Qaeda: the long patient shadowing of potential targets (never victim, always target), the clinical monitoring of the news for opportunities for destruction, and the relentless study of target companies to identify the strategic personnel to kneecap or assassinate. He describes the succession of events that took him from simple troublemaking to full-fledged terrorism, from a gleeful proletarian expropriation of Levis from a Milanese jeanseria to shooting at the police in a famous demonstration in which one policeman was killed, and on to outright political assassinations. Fascinating and horrifying to the end, Giorgio's story resonates with the current situation in the United States as much as it did with Italy's when it was first published. A best-seller in Europe and a classic in Italy, this is the first U.S. publication of these uncensored memoirs of an unrepentant terrorist.

**Literature and Terrorism** .2012-01-01 The years following the attacks of September 11, 2001 have seen the publication of a wide range of scientific analyses of terrorism. Literary studies seem to lag curiously behind this general shift of academic interest. The present volume sets out to fill this gap. It does so in the conviction that the study of literature has much to offer to the transdisciplinary investigation of terror, not only with respect to the present post-9/11 situation but also with respect to earlier historical contexts. Literary texts are media of cultural self-reflection, and as such they have always played a crucial role in the discursive response to terror, both contributing to and resisting dominant conceptions of the causes, motivations, dynamics, and aftermath of terrorist violence. By bringing together experts from various fields and by combining case studies of works from diverse periods and national literatures, the volume *Literature and Terrorism* chooses a diachronic and comparative perspective. It is interested in the specific cultural work performed by narrative and dramatic literature in the face of terrorism, focusing on literature's ambivalent relationship to other, competing modes of discourse.

*The Development of Greek Biography* Arnaldo Momigliano. 1993 Arnaldo Momigliano traces the growth of ancient biography from the fifth century to the first century B.C. He asks new questions about the origins and development of Greek biography, and makes full use of new evidence uncovered in recent decades from papyri and other sources. By clarifying the social and intellectual implication of the fact that the Greeks kept biography and autobiography distinct from historiography, he contributes to an understanding of a basic dichotomy in the Western tradition of historical writing. *The Development of Greek Biography* is fully annotated, and includes a bibliography designed to serve as an introduction to the study of biography in general.

*Dante's Ballad* Eduardo Gonzalez Viana. 2007-09-30 Remember that we're in the U.S., Dante Celestino is told when his daughter Emmita runs away. Friends and neighbors warn him that in the United States it's not considered so unusual for a fifteen-year-old girl to run away. But Dante had counseled Emmita to date only Spanish-speaking Hispanic boys, and never anyone who joins gangs or deals drugs. Yet she ignores her father's advice and right in the middle of her quinceañera runs away with a tattooed Latino who doesn't speak Spanish and rides a lowrider motorcycle. And to complicate matters, Dante is in the U.S. illegally, making it difficult to report the girl's disappearance to the police. So begins Dante's odyssey. Accompanied by a lame donkey named Virgilio and the voice of his dead wife, he sets out for Las Vegas, where Emmita's boyfriend or abductor, as Dante considers him supposedly lives. On a journey filled with the joy of music and the pain of flashbacks from his small-town life and marital bliss in Mexico, Dante encounters a series of eccentric characters: Josefino and Mariana, known to radio listeners as the Noble Couple, who change their listeners' luck in an instant; Juan Pablo, a young man who uses his computer genius to rob a Las Vegas casino so he can pay for his college education; and the Pilgrim, a famous balladeer who has crossed the border via underground tunnels so many times that even years later he smells faintly of dirt and death. In this bittersweet tour de force originally published in Spanish as *El Corrido de Dante*, the First and Third Worlds join hands, and Mexican pueblo life and Internet post-modernity dance together in one of the most memorable fables to shed light on issues such as immigration, cultural assimilation, and the future of the United States with its ever-increasing Latino population.

*The End of the End of the Earth* Jonathan Franzen.2018-11-13 A sharp and provocative new essay collection from the award-winning author of *Freedom* and *The Corrections* The essayist, Jonathan Franzen writes, is like "a fire-fighter, whose job, while everyone else is fleeing the flames of shame, is to run straight into them." For the past twenty-five years, even as his novels have earned him worldwide acclaim, Franzen has led a second life as a risk-taking essayist. Now, at a moment when technology has inflamed tribal hatreds and the planet is beset by unnatural calamities, he is back with a new collection of essays that recall us to more humane ways of being in the world. Franzen's great loves are literature and birds, and *The End of the End of the Earth* is a passionate argument for both. Where the new media tend to confirm one's prejudices, he writes, literature "invites you to ask whether you might be somewhat wrong, maybe even entirely wrong, and to imagine why someone else might hate you." Whatever his subject, Franzen's essays are always skeptical of received opinion, steeped in irony, and frank about his own failings. He's frank about birds, too (they kill "everything imaginable"), but his reporting and reflections on them—on seabirds in New Zealand, warblers in East Africa, penguins in Antarctica—are both a moving celebration of their beauty and resilience and a call to action to save what we love. Calm, poignant, carefully argued, full of wit, *The End of the End of the Earth* provides a welcome breath of hope and reason.

**Festival of the Poor** Jane C. Schneider,Peter T. Schneider.2022-09-20 The historical decline of fertility in Europe has occupied a central place in social history and demography over the past quarter-century. Most scholars credit Europeans with modulating sexual behavior, through either

abstinence or the practice of coitus interruptus, as a rational choice made in the interest of personal economic comfort; yet peasant and working classes have typically lagged behind in birth control and have given rise to the adage that sexual embrace is the festival of the poor. Scholarly analyses of lag often reinforce this stigmatizing view. Now this subject is given a fresh look through a case study in Sicily, one of the last outposts of Western Europe's demographic transition. By examining population changes in a single community between 1860 and 1980, the authors offer an extended review and critique of existing models of fertility decline in Europe, proposing a new interpretation that emphasizes historical context and class relations. They show how the spread of capitalism in Sicily induced an unprecedented rate of population growth, with boom-and-bust cycles creating the class experiences in which reputational networks came to redefine family life; how Sicilians began to control their fertility in response to class-mediated ideas about gender relations and respectable family size; and how the town's gentry, artisan, and peasant classes adopted family planning methods at different times in response to different pressures. Jane and Peter Schneider's anthropologically oriented political-economy perspective challenges the position of Western Europe as a model for fertility decline on which every other case should converge, looking instead at the diversity of cultural ideals and practices--such as those found in Sicily--that influence the spread and form of birth control. Combining anthropological, oral historical, and archival methods in new and insightful ways, the authors' synthesis of a particular case study with a broad historical and theoretical discussion will play a major role in the ongoing debates over the history of European fertility decline and point the way toward integrating the analysis of demographic upheaval with the study of class formation and ideology.

*Converging Parallels* Timothy Williams.2014-10-07 A small-town kidnapping presents a major problem for Commissario Trotti—and draws us into CWA Award winner Timothy Williams' debut, set against the rich backdrop of a provincial Italian city. Northern Italy, 1978: Commissario Piero Trotti, trusted senior police investigator in an anonymous provincial city off the River Po, has two difficult cases to solve. A dismembered body has been found in the river, and it's up to Trotti to figure out who the murder victim is. At the same time, an estranged friend approaches Trotti with a desperate personal plea: his six-year-old daughter—Trotti's own goddaughter—has been kidnapped. In the wake of the high-profile kidnapping of Aldo Moro, president of Italy's majority party, faith in law enforcement is at an all-time low, and it's no surprise the distraught father isn't willing to take this matter to the police.
