**The American Yawp** Joseph L. Locke, Ben Wright. 2019-01-22 I too am not a bit tamed—I too am untranslatable / I sound my barbaric yawp over the roofs of the world.—Walt Whitman, Song of Myself, Leaves of Grass The American Yawp is a free, online, collaboratively built American history textbook. Over 300 historians joined together to create the book they wanted for their own students—an accessible, synthetic narrative that reflects the best of recent historical scholarship and provides a jumping-off point for discussions in the U.S. history classroom and beyond. Long before Whitman and long after, Americans have sung something collectively amid the deafening roar of their many individual voices. The Yawp highlights the dynamism and conflict inherent in the history of the United States, while also looking for the common threads that help us make sense of the past. Without losing sight of politics and power, The American Yawp incorporates transnational perspectives, integrates diverse voices, recovers narratives of resistance, and explores the complex process of cultural creation. It looks for America in crowded slave cabins, bustling markets, congested tenements, and marbled halls. It navigates between maternity wards, prisons, streets, bars, and boardrooms. The fully peer-reviewed edition of The American Yawp will be available in two print volumes designed for the U.S. history survey. Volume I begins with the indigenous people who called the Americas home before chronicling the collision of Native Americans, Europeans, and

Africans. The American Yawp traces the development of colonial society in the context of the larger Atlantic World and investigates the origins and ruptures of slavery, the American Revolution, and the new nation's development and rebirth through the Civil War and Reconstruction. Rather than asserting a fixed narrative of American progress, The American Yawp gives students a starting point for asking their own questions about how the past informs the problems and opportunities that we confront today.

*To Walt Whitman, America* Kenneth M. Price.2005-10-12 Walt Whitman is America, according to Ezra Pound. More than a century after his death, Whitman's name regularly appears in political speeches, architectural inscriptions, television programs, and films, and it adorns schools, summer camps, truck stops, corporate centers, and shopping malls. In an analysis of Whitman as a quintessential American icon, Kenneth Price shows how his ubiquity and his extraordinarily malleable identity have contributed to the ongoing process of shaping the character of the United States. Price examines Whitman's own writings as well as those of writers who were influenced by him, paying particular attention to Whitman's legacies for an ethnically and sexually diverse America. He focuses on fictional works by Edith Wharton, D. H. Lawrence, John Dos Passos, Ishmael Reed, and Gloria Naylor, among others. In Price's study, *Leaves of Grass* emerges as a living document accruing meanings that evolve with time and with new readers, with Whitman and his words regularly pulled into debates over immigration, politics, sexuality, and national identity. As Price demonstrates, Whitman is a recurring starting point, a provocation, and an irresistible, rewritable text for those who reinvent the icon in their efforts to remake America itself.

Hollywood's West Peter C. Rollins, John E. O'Connor. 2005-11-11 American historians such as Frederick Jackson Turner have argued that the West has been the region that most clearly defines American democracy and the national ethos. Throughout the twentieth century, the frontier thesis influenced film and television producers who used the West as a backdrop for an array of dramatic explorations of America's history and the evolution of its culture and values. The common themes found in Westerns distinguish the genre as a quintessentially American form of dramatic art. In Hollywood's West, Peter C. Rollins, John E. O'Connor, and the nation's leading film scholars analyze popular conceptions of the frontier as a fundamental element of American history and culture. This volume examines classic Western films and programs that span nearly a century, from Cimarron (1931) to Turner Network Television's recent made-for-TV movies. Many of the films discussed here

are considered among the greatest cinematic landmarks of all time. The essays highlight the ways in which Westerns have both shaped and reflected the dominant social and political concerns of their respective eras. While Cimarron challenged audiences with an innovative, complex narrative, other Westerns of the early sound era such as *The Great Meadow* (1931) frequently presented nostalgic visions of a simpler frontier era as a temporary diversion from the hardships of the Great Depression. Westerns of the 1950s reveal the profound uncertainty cast by the cold war, whereas later Westerns display heightened violence and cynicism, products of a society marred by wars, assassinations, riots, and political scandals. The volume concludes with a comprehensive filmography and an informative bibliography of scholarly writings on the Western genre. This collection will prove useful to film scholars, historians, and both devoted and casual fans of the Western genre. *Hollywood's West* makes a significant contribution to the understanding of both the historic American frontier and its innumerable popular representations.

**The Encyclopedia of Film Composers** Thomas S. Hischak.2015-04-16 For more than a century, original music has been composed for the cinema. From the early days when live music accompanied silent films to the present in which a composer can draw upon a full orchestra or a lone synthesizer to embody a composition, music has been an integral element of most films. By the late 1930s, movie studios had established music departments, and some of the greatest names in film music emerged during Hollywood's Golden Age, including Alfred Newman, Max Steiner, Dimitri Tiomkin, and Bernard Herrmann. Over the decades, other creators of screen music offered additional memorable scores, and some composers—such as Henry Mancini, Randy Newman, and John Williams—have become household names. The Encyclopedia of Film Composers features entries on more than 250 movie composers from around the world. It not only provides facts about these artists but also explains what makes each composer notable and discusses his or her music in detail. Each entry includes Biographical material Important dates Career highlights Analysis of the composer's musical style Complete list of movie credits This book brings recognition to the many men and women who have written music for movies over the past one hundred years. In addition to composers from the United States and Great Britain, artists from dozens of other countries are also represented. A rich resource of movie music history, The Encyclopedia of Film Composers will be of interest to fans of cinema in general as well as those who want to learn more about the many talented individuals who have created memorable scores.

**Hollywood Genres: Formulas, Filmmaking, and The Studio System** Thomas Schatz.1981-02

The central thesis of this book is that a genre approach provides the most effective means for understanding, analyzing and appreciating the Hollywood cinema. Taking into account not only the formal and aesthetic aspects of feature filmmaking, but various other cultural aspects as well, the genre approach treats movie production as a dynamic process of exchange between the film industry and its audience. This process, embodied by the Hollywood studio system, has been sustained primarily through genres, those popular narrative formulas like the Western, musical and gangster film, which have dominated the screen arts throughout this century.

*Silent Visions* John Bengtson.2011-05-01 Immensely popular and prolific, Harold Lloyd sold more movie tickets during the Golden Age of Comedy than any other comedian. From Coney Island to Catalina Island, and from Brooklyn to Beverly Hills, Lloyd's movies captured visions of silent-era America unequalled on the silver screen. A stunning work of cinematic archeology, *Silent Visions* describes the historical settings found in such Lloyd classics as *Safety Last!*, *Girl Shy*, and *Speedy*, and matches them with archival photographs, vintage maps, and scores of then-and-now comparison photographs, illuminating both Lloyd's comedic genius, and the burgeoning Los Angeles and Manhattan landscapes preserved in the background of his films. The book represents John Bengtson's completion of his trilogy of works focusing on the three great geniuses of silent film comedy (Keaton, Chaplin, and Lloyd) in what Oscar-winning historian Kevin Brownlow calls "a new art form."

**André Bazin, the Critic as Thinker** R. J. Cardullo.2017-01-28 André Bazin (1918–58) is credited with almost single-handedly establishing the study of film as an accepted intellectual pursuit, as well as with being the spiritual father of the French New Wave. Among those who came under his tutelage were four who would go on to become the most renowned directors of the postwar French cinema: François Truffaut, Jean-Luc Godard, Jacques Rivette, and Claude Chabrol. Bazin can also be considered the principal instigator of the equally influential auteur theory: the idea that, since film is an art form, the director of a movie must be perceived as the chief creator of its unique cinematic style.**André Bazin, the Critic as Thinker: American Cinema from Early Chaplin to the Late 1950s** contains, for the first time in English in one volume, much if not all of Bazin's writings on American cinema: on directors such as Orson Welles, Charles Chaplin, Preston Sturges, Alfred Hitchcock, Howard Hawks, John Huston, Nicholas Ray, Erich von Stroheim, and Elia Kazan; and on films such as High Noon, Citizen Kane, Rear Window, Limelight, Scarface, Niagara, The Red Badge of Courage, Greed, and Sullivan's Travels.**André Bazin, the Critic as Thinker: American Cinema from Early Chaplin to the Late 1950s** also features a sizable scholarly apparatus, including a contextual introduction to Bazin's life and work, a complete bibliography of Bazin's writings on American cinema, and credits of the films discussed. This volume thus represents a major contribution to the still growing academic discipline of cinema studies, as well as a testament to the continuing

influence of one of the world's pre-eminent critical thinkers.

How Sweet it was Arthur Shulman,Roger Youman.1966 One can obtain as many opinions about television as there are people with eyes. No two people see it in exactly the same way. You may not be aware of it, but up there, in that compartment of your brain where memories are stored, all sorts of strange images are stockpiled. The purpose of this book is to coax those memories out of their hiding places and bring them front and center, where you can savor them anew. Although this book is intended to be a comprehensive review of television during the past twenty years-the two decades that have passed since the medium became a commercial reality- it is not to be just a scholarly history. The programs and people represented here were chosen not because they were good or popular or successful, but because each contributed, in some large or small way, to the progress of television.

*Mapping Global Theatre Histories* Mark Pizzato.2019-05-02 This textbook provides a global, chronological mapping of significant areas of theatre, sketched from its deepest history in the evolution of our brain's 'inner theatre' to ancient, medieval, modern, and postmodern developments. It considers prehistoric cave art and built temples, African trance dances, ancient Egyptian and Middle-Eastern ritual dramas, Greek and Roman theatres, Asian dance-dramas and puppetry, medieval European performances, global indigenous rituals, early modern to postmodern Euro-American developments, worldwide postcolonial theatres, and the hyper-theatricality of today's mass and social media. Timelines and numbered paragraphs form an overall outline with distilled details

of what students can learn, encouraging further explorations online and in the library. Questions suggest how students might reflect on present parallels, making their own maps of global theatre histories, regarding geo-political theatrics in the media, our performances in everyday life, and the theatres inside our brains.
