English Medium Instruction Ernesto Macaro.2018-02-19 Ernesto Macaro brings together a wealth of research on the rapidly expanding phenomenon of English Medium Instruction. Against a backdrop of theory, policy documents, and examples of practice, he weaves together research in both secondary and tertiary education, with a particular focus on the key stakeholders involved in EMI: the teachers and the students. Whilst acknowledging that the momentum of EMI is unlikely to be diminished, and identifying its potential benefits, the author raises questions about the ways it has been introduced and developed, and explores how we can arrive at a true cost-benefit analysis of its future impact. "This state-of-the-art monograph presents a wide-ranging, multi-perspectival yet coherent overview of research, policy, and practice of English Medium Instruction around the globe. It gives a thorough, in-depth, and thought-provoking treatment of an educational phenomenon that is spreading on an unprecedented scale." Guangwei Hu, National Institute of Education, Singapore

Solidarity in Biomedicine and Beyond Barbara Prainsack, Alena Buyx. 2017-01-19 In times of global economic and political crises, the notion of solidarity is gaining new currency. This book argues that a solidarity-based perspective can help us to find new ways to address pressing problems. Exemplified by three case studies from the field of biomedicine: databases for health and disease research, personalised healthcare, and organ donation, it explores how solidarity can make a difference in how we frame problems, and in the policy solutions that we can offer.

Invisible Cities Italo Calvino. 2013-08-12 Italo Calvino's beloved, intricately crafted novel about an Emperor's travels—a brilliant journey across far-off places and distant memory. “Cities, like dreams, are made of desires and fears, even if the thread of their discourse is secret, their rules are absurd, their perspectives deceitful, and everything conceals something else.” In a garden sit the aged Kublai Khan and the young Marco Polo—Mongol emperor and Venetian traveler. Kublai Khan has sensed the end of his empire coming soon. Marco Polo diverts his host with stories of the cities he has seen in his travels around the empire: cities and memory, cities and desire, cities and designs, cities and the dead, cities and the sky, trading cities, hidden cities. As Marco Polo unspools his tales, the emperor detects these fantastic places are more than they appear.

Palmera Venus atrapamoscas Árbol Sedum succulento Árbol bonsai Plantas colgantes x 3 Lo que comenzó como algo para pasar el tiempo durante la cuarentena se ha convertido en mucho más. Estos juguetes me alegran cuando los hago y más aún cuando los regalo. Espero que mis creaciones les traigan a usted y a sus afortunados seres queridos horas de felicidad también. Cuando comencé, me tomó una semana descubrir cómo hacer una pelota. Me tomó aún más tiempo acostumbrar mis dedos y manos a sostener un ganchillo. Tejer a ganchillo puede ser frustrante al principio, pero al igual que con todas las cosas nuevas, su cuerpo desarrollará la memoria muscular y, con el tiempo, descubrirá que se volverá más fácil. Recuerda siempre que nada es difícil, solo nuevo. No existe una forma correcta o incorrecta de tejer a crochet. Todo lo que funcione para usted, su cuerpo y su capacidad es el camino correcto. El crochet es una forma de arte y, como todas las formas de arte, está abierto a la interpretación personal. Los patrones de ganchillo funcionan solo como pautas, y te animo a que aportes tu propio estilo artístico a cada patrón. No tenga miedo de usar diferentes ganchos o tipos de hilo. Experimente cambiando los colores. Agregue accesorios, modifique la forma del cuerpo y agregue su propio sabor individual a cada patrón. A veces funcionará; la mayoría de las veces, no será así, y eso está perfectamente bien porque al final, terminarás con algo que es tuyo. Algo que creaste. Tu propio pequeño knotmonster.

Golden Arches East James L. Watson. 2006-03-13 McDonald's restaurants are found in over 100 countries, serving tens of millions of people each day. What are the cultural implications of this phenomenal success? The widely read—and widely acclaimed—Golden Arches East argues that McDonald's has largely become divorced from its American roots and become a local institution for an entire generation of affluent consumers in Hong Kong, Beijing, Taipei, Seoul, and Tokyo. In the second edition, James L. Watson also covers recent attacks on the fast-food chain as a symbol of American imperialism, and the company's role in the obesity controversy currently raging in the U.S. food industry, bringing the story of East Asian franchises into the twenty-first century. Praise for the First Edition: Golden Arches East is a fascinating study that explores issues of globalization by focusing on the role of McDonald's in five Asian economies and [concludes] that in many countries McDonald's has been absorbed by local communities and become assimilated, so that it is no longer thought of as a foreign restaurant and in some ways no longer functions as one. —Nicholas Kristof, New York Times Book Review This is an important book because it shows accurately and with subtlety how transnational culture emerges. It must be read by anyone interested in globalization. It is concise enough to be used for courses in anthropology and Asian studies. —Joseph Bosco, China Journal The strength of this book is that the contributors contextualize not just the food side of McDonald's, but the social and cultural activity on which this culture is embedded. These are culturally rich stories from the anthropology of everyday life. —Paul Noguchi, Journal of Asian

Studies Here is the rare academic study that belongs in every library.—Library Journal
Alexandra Carolly Erickson.2007-04-01 Taking advantage of material unavailable until the fall of the Soviet Union, Erickson portrays Alexandra's story as a closely observed, enthrallingly documented, progressive psychological retreat from reality. The lives of the Romanovs were full of color and drama, but the personal life of Alexandra has remained enigmatic. Under Erickson's masterful scrutiny the full dimensions of the Empresses' singular psychology are revealed: her childhood bereavement, her long struggle to attain her romantic goal of marriage to Nicholas, the anguish of her pathological shyness, her struggles with her in-laws, her false pregnancy, her increasing eccentricities and loss of self as she became more preoccupied with matters of faith, and her increasing dependence on a series of occult mentors, the most notorious of whom was Rasputin. With meticulous care, long practiced skill, and generous imagination, Erickson crafts a character who lives and breathes.

Bright Green Lies Derrick Jensen,Lierre Keith,Max Wilbert.2021-03-16 “This disturbing but very important book makes clear we must dig deeper than the normal solutions we are offered.”—Yvon Chouinard, founder of Patagonia Works Bright Green Lies exposes the hypocrisy and bankruptcy of leading environmental groups and their most prominent cheerleaders. The best-known environmentalists are not in the business of speaking truth, or even holding up rational solutions to blunt the impending ecocide, but instead indulge in a mendacious and self-serving delusion that provides comfort at the expense of reality. They fail to state the obvious: We cannot continue to wallow in hedonistic consumption and industrial expansion and survive as a species. The environmental debate, Derrick Jensen and his coauthors argue, has been distorted by hubris and the childish desire by those in industrialized nations to sustain the unsustainable. All debates about

environmental policy need to begin with honoring and protecting, not the desires of the human species, but with the sanctity of the Earth itself. We refuse to ask the right questions because these questions expose a stark truth—we cannot continue to live as we are living. To do so is suicidal folly. ‘Tell me how you seek, and I will tell you what you are seeking,’ the German philosopher Ludwig Wittgenstein said. This is the power of *Bright Green Lies*: It asks the questions most refuse to ask, and in that questioning, that seeking, uncovers profound truths we ignore at our peril.”—Chris Hedges, Pulitzer Prize-winning journalist and author of *America: The Farewell Tour*

Affection and Trust Harry S. Truman,Dean Acheson.2013-03-01 In this collection, published for the first time, we follow Harry S. Truman and Dean Acheson, two giants of the post-World War II period,

as they move from an official relationship to one of candor, humor, and personal expression. In these letters, spanning the years from when both were newly out of office until Acheson's death at age 78, we find them sharing the often surprising opinions, ideas, and feelings that the strictures of their offices had previously kept them from revealing. They felt a powerful need to keep in touch as they viewed with dismay what they considered to be the Eisenhower administration's fumbling of foreign affairs and the impact of Joseph McCarthy. After Kennedy won in 1960, they discussed Acheson's reluctant involvement in the Cuban missile crisis and the Allied position in Berlin--From publisher description.

The authors discuss their experience of the validation process, demonstrating how high-stakes innovation should be fully validated by a series of research studies in order to satisfy key stakeholders.

Greek Art and Archaeology John Griffiths Pedley.2002 In Greek Art and Archaeology John Pedley explores the development of Greek art and civilization across three millennia, from the enigmatically beautiful Cycladic figurines and Cretan jugs of the Bronze Age to the baroque sculptures, mosaics, and buildings of the Hellenistic period. This newly revised and enlarged edition includes material on the latest archaeological discoveries, among which are the recently unearthed seventh-century B.C. statue of a kore found on the island of Thera and a marble sarcophagus decorated with scenes showing the sacrifice of Polyxena. The book also provides expanded coverage of the art of Macedon, while new issue-based box features serve to bring Greek culture vividly to life for the contemporary reader. Throughout, the author blends his narrative with insightful interpretation and numerous, well-chosen illustrations, accompanied by clear plans and diagrams, making Greek Art and Archaeology the most accessible yet authoritative introduction to the subject available today.

Patrick O'Brian: a Very Private Life Nikolai Tolstoy.2019-10-21 An intimate portrait of the reclusive and brilliant author, written by his step-son Nikolai Tolstoy. The English novelist Patrick O'Brian is much admired for his best-selling Aubrey-Maturin series of sea novels - the unexpected success of the series secured his place in literary history. Far less is known about O'Brian's personal life, largely because he preferred to keep it that way. In *A Very Private Life*, O'Brian's step-son Nikolai Tolstoy draws upon his step-father's archives and papers to faithfully capture a life dedicated to the written word. This biography covers the latter part of O'Brian's life, from the moment of his arrival at Collioure in the south of France in 1949, where he wrote all his major works, to his death in 2000. Throughout his career, O'Brian's writing was supplemented by his translation work, which saw him translate the likes of Simone de Beauvoir and Henri Charriere. Tolstoy also captures O'Brian as he conducted research for the biography of his close friend and neighbour, Pablo Picasso. Tolstoy maps his step-father's literary career, from its poverty-stricken beginnings to the remarkable success O'Brian enjoyed later in life. He notes how through a cruel irony of fate, just as his step-father's literary career attained greater acclaim, O'Brian's pleasure in his achievement began to diminish. This truthful, warm and insightful biography is a testimony to Tolstoy's respect and admiration for his step-father, one of Britain's most loved literary figures.

Changing Language Teaching Through Language Testing Liying Cheng. 2005-10-06 There has been growing interest in recent years in the influence of tests on teaching and learning - a phenomenon commonly referred to as 'washback'. Despite persistent assertions about its nature and scope, empirical studies investigating test washback are still limited in number, and few of these make use of both qualitative and quantitative methods in washback research. This volume presents a study of how the introduction of the 1996 Hong Kong Certificate of Education in English - a high stakes public examination - impacted on classroom teaching and learning in Hong Kong secondary schools. The washback effect was observed initially at the larger 'macro' level, among different stakeholder groups within the Hong Kong educational context; and also at the more local 'micro' level, in terms of teachers' attitudes, teaching content and classroom interactions. This study: provides a theoretical background to the washback concept, discusses the need for empirical investigation of washback, describes the use of a mixed methodology approach in washback research, offers insights into the role of tests as agents of innovation and change in the classroom and broader educational context. This volume will be of particular relevance to language test developers and researchers interested in the consequential validity of tests; it will also be of interest to teachers, curriculum designers, policymakers and others in education concerned with the interface between language testing and teaching practices/programs. Science Education in Context Richard K. Coll, Neil Taylor. 2019-02-18 This book presents an international perspective of the influence of educational context on science education. The focus is on the interactions between curriculum development and implementation, particularly in non-Western and non-English-speaking contexts (i.e., outside the UK, USA, Australia, NZ, etc.). An important and distinguishing feature of the book is that it draws upon the experiences and research from local experts from an extremely diverse cohort across the world (26 countries in total). The book addresses topics such as: curriculum development; research or evaluation of an implemented curriculum; discussion of pressures driving curriculum reform or implementation of new curricula (e. g., technology or environmental education); the influence of political, cultural, societal or religious mores on education; governmental or ministerial drives for curriculum reform; economic or other pressures driving curriculum reform; the influence of external assessment regimes on curriculum; and so on.

Managing Oneself Peter Ferdinand Drucker. 2008-01-07 We live in an age of unprecedented opportunity: with ambition, drive, and talent, you can rise to the top of your chosen profession regardless of where you started out. But with opportunity comes responsibility. Companies today aren't managing their knowledge workers careers. Instead, you must be your own chief executive officer. That means it's up to you to carve out your place in the world and know when to change course. And it's up to you to keep yourself engaged and productive during a career that may span some 50 years. In *Managing Oneself*, Peter Drucker explains how to do it. The keys: Cultivate a deep understanding of yourself by identifying your most valuable strengths and most dangerous weaknesses; Articulate how you learn and work with others and what your most deeply held values are; and Describe the type of work environment where you can make the greatest contribution. Only

when you operate with a combination of your strengths and self-knowledge can you achieve true and lasting excellence. *Managing Oneself* identifies the probing questions you need to ask to gain the insights essential for taking charge of your career. Peter Drucker was a writer, teacher, and consultant. His 34 books have been published in more than 70 languages. He founded the Peter F. Drucker Foundation for Nonprofit Management, and counseled 13 governments, public services institutions, and major corporations.

Lee. 2016-11-10 Since 1997 when Hong Kong became a Special Administrative Region of the People's Republic of China, a string of education reforms have been introduced to improve the quality of education and maintain Hong Kong's economic competitiveness in the age of globalization. This book provides a comprehensive and critical analysis of major issues and challenges faced by the education system, ranging from pre-school to higher education. It analyses the prospects for educational development in Hong Kong. It further addresses how the Hong Kong government has responded to the perceived challenges of the external environment and internal forces and explains the rationales for the actions taken. Not only does it review how the reform initiative challenges have been dealt with, it also reviews how effective these initiatives are and its implications on future directions.

The Southern Foodways Alliance Community Cookbook Sara Roahen, John T. Edge. 2015-04-15 Everybody has one in their collection. You know—one of those old, spiral- or plastic-tooth-bound cookbooks sold to support a high school marching band, a church, or the local chapter of the Junior League. These recipe collections reflect, with unimpeachable authenticity, the dishes that define communities: chicken and dumplings, macaroni and cheese, chess pie. When the Southern Foodways

Alliance began curating a cookbook, it was to these spiral-bound, sauce-splattered pages that they turned for their model. Including more than 170 tested recipes, this cookbook is a true reflection of southern foodways and the people, regardless of residence or birthplace, who claim this food as their own. Traditional and adapted, fancy and unapologetically plain, these recipes are powerful expressions of collective identity. There is something from—and something for—everyone. The recipes and the stories that accompany them came from academics, writers, catfish farmers, ham curers, attorneys, toqued chefs, and people who just like to cook—spiritual Southerners of myriad ethnicities, origins, and culinary skill levels. Edited by Sara Roahen and John T. Edge, written, collaboratively, by Sheri Castle, Timothy C. Davis, April McGreger, Angie Mosier, and Fred Sauceman, the book is divided into chapters that represent the region’s iconic foods: Gravy, Garden Goods, Roots, Greens, Rice, Grist, Yardbird, Pig, The Hook, The Hunt, Put Up, and Cane. Therein you’ll find recipes for pimento cheese, country ham with redeye gravy, tomato pie, oyster stew, gumbo z’herbes, and apple stack cake. You’ll learn traditional ways of preserving green beans, and you’ll come to love refried black-eyed peas. Are you hungry yet?

Words and Rules Steven Pinker.2015-07-14 If you are not already a Steven Pinker addict, this book will make you one. --Jared Diamond In *Words and Rules*, Steven Pinker explores profound mysteries of language by picking a deceptively simple phenomenon--regular and irregular verbs--and examining it from every angle. With humor and verve, he covers an astonishing array of topics in the sciences and humanities, from the history of languages to how to simulate languages on computers to major ideas in the history of Western philosophy. Through it all, Pinker presents a single,

powerful idea: that language comprises a mental dictionary of memorized words and a mental grammar of creative rules. The idea extends beyond language and offers insight into the very nature of the human mind. This is a sparkling, eye-opening, and utterly original book by one of the world's leading cognitive scientists.
