**Between the Devil and the Deep** Mark Cowan,Martin Robson.2021-07-22 'One of the best accounts ever written of deep-water diving and its staggering, haunting dangers' Robert Kurson, New York Times bestselling author of *Shadow Divers* Deep underwater lurks a mysterious man-made illness. It has gone by many names over the years - Satan's disease, diver's palsy, the chokes - but today, medics call it decompression sickness. You know it as the bends. That's the devil British diver Martin Robson faces each time he plunges beneath the surface. In the winter of 2012, Robson was part of an expedition to Blue Lake, southern Russia, which sought to find a submerged cave system never seen by the human eye. On the final day of the expedition, as Robson returned from diving deeper into the lake than anyone had before, disaster struck: just seventy-five feet down, he was ambushed by the bends. Robson knew that if he continued up to the surface he would probably die before help arrived. Instead, he sank back into the water, gambling on an underwater practice most doctors believe is a suicidal act. Soon the only hope he had of saving his life would rest in the hands of a dramatic mercy mission organised at the highest levels of the Russian government. *Between the Devil and the Deep* is the first book to tell the terrifying true story of what it feels like to get the bends, taking you inside the body and mind of a man who suffered the unthinkable. Writer Mark

Cowan also explores the grimly fascinating history of decompression sickness, the science behind what causes the disease, and the stories of the forgotten divers who pushed the limits of physical endurance to help find a solution.

It is a provocation so outrageous that the Office of Naval Intelligence must retaliate swiftly and ferociously—but only after its operatives identify her killer and rescue the hostages. This mission will be the first for homicide-detective-turned-ONI-operative Veta Lopis and her young team of Spartan-IIIs, and something feels wrong from the start. The obvious suspect is an infamous Brute who leads the Keepers of the One Freedom, an ex-Covenant splinter group in fierce opposition to the UNSC. But Lopis and her team soon realize that the truth is much more insidious than they could ever have imagined, and with Fred-104, Kelly-087, and Linda-058 of Blue Team for combat support, they must stop a plan hatched in the bowels of the secret research station Argent Moon—a plan so sinister it could destroy all those still reeling from thirty years of intergalactic conflict...
