Paddle to the Amazon Don Starkell.1994-09-03 It was crazy. It was unthinkable. It was the adventure of a lifetime. When Don and Dana Starkell left Winnipeg in a tiny three-seater canoe, they had no idea of the dangers that lay ahead. Two years and 12,180 miles later, father and son had each paddled nearly twenty million strokes, slept on beaches, in jungles and fields, dined on tapir, shark, and heaps of roasted ants. They encountered piranhas, wild pigs, and hungry alligators. They were arrested, shot at, taken for spies and drug smugglers, and set upon by pirates. They had lived through terrifying hurricanes, food poisoning, and near starvation. And at the same time they had set a record for a thrilling, unforgettable voyage of discovery and old-fashioned adventure.

Discovering Eden Alex Hall.2003-01 Boldly go where few have gone before! Endorsed by the World Wildlife Fund. Features 26 colour and black-and-white photographs and maps. The Power of the Barren Lands may be beyond words but you won't come any closer than those on the following pages! MONTE HUMMEL West of Hudson Bay in Canada's north, an enormous triangle, twice the size of Alberta or Texas, forms the largest chunk of wilderness left on the continent. The word tundra may conjure up an image of a desolate, treeless plain, but this mainland portion of the Canadian arctic is far from featureless. The area is home to millions of geese and other birds, and is the haunt of some of the world's last, great migratory herds of large herbivores and the predators that follow them. Discovering Eden is a collection of stories, essays and commentaries about the author's life in the remote wilderness and his hopes and dreams for its future. It is about the land and the animals that live there, and what they have taught the author. Throughout the book the author tries to explain, within the limitations of language, the lure of the Barren Lands and why this place became for him a personal Eden. The book also recounts adventures—a personal, inner one for the author, and the thrill of canoeing this untouched wilderness for those who travel with him on his tours.(September 2003)

Paddling North Audrey Sutherland.2013-10-06 In a tale remarkable for its quiet confidence and acute natural observation, the author of Paddling Hawaii begins with her decision, at age 60, to undertake a solo, summer-long voyage along the southeast coast of Alaska in an inflatable kayak. Paddling North is a compilation of Sutherland's first two (of over 20) such annual trips and her day-by-day travels through the Inside Passage from Ketchikan to Skagway. With illustrations and the author's recipes.

The Sun Is a Compass Caroline Van Hemert.2019-03-19 For fans of Cheryl Strayed, the gripping story of a biologist's human-powered journey from the Pacific Northwest to the Arctic to rediscover her love of birds, nature, and adventure. During graduate school, as she conducted experiments on the peculiarly misshapen beaks of chickadees, ornithologist Caroline Van Hemert began to feel stifled in the isolated, sterile environment of the lab. Worried that she was losing her passion for the scientific research she once loved, she was compelled to experience wildness again, to be guided by the sounds of birds and to follow the trails of animals. In March of 2012, she and her husband set off on a 4,000-mile wilderness journey from the Pacific rainforest to the Alaskan Arctic, traveling by

rowboat, ski, foot, raft, and canoe. Together, they survived harrowing dangers while also experiencing incredible moments of joy and grace -- migrating birds silhouetted against the moon, the steamy breath of caribou, and the bond that comes from sharing such experiences. A unique blend of science, adventure, and personal narrative, *The Sun is a Compass* explores the bounds of the physical body and the tenuousness of life in the company of the creatures who make their homes in the wildest places left in North America. Inspiring and beautifully written, this love letter to nature is a lyrical testament to the resilience of the human spirit. Winner of the 2019 Banff Mountain Book Competition: Adventure Travel

What really sets it apart is its focus on canoeing techniques. Ray Goodwin is the UK's best known and (many would go so far as to say) foremost canoe coach. By introducing some of the latest canoeing performance skills, based on what he has discovered through decades of coaching and guiding, he sets out to inspire a new generation of paddlers. Through clear language and the use of photographs acquired over many years of paddling around the world, he shares some real insights of the reality of canoeing; sometimes gritty, but always enthralling. New in the 2nd edition is a section on 'vision pattern', a method for creating a mental map of a rapid. There is an expanded and re-written chapter on canoeing with children. There are more techniques for improvised sailing and more on advanced lining and tracking. It describes new solo rescue techniques and has many new inspirational canoe expedition examples. Ray has paddled extensively in Europe and his British canoe trips include the circumnavigation of Wales and the Irish Sea Crossing. In North America he has canoed the Rio Grande in the South and done trips as far north as the Arctic Circle, as well as doing two kayak descents of the Grand Canyon of the Colorado. In addition to being a British Canoe Union Level 5 Coach in Canoe, Inland Kayak, he holds a Mountain Instructor's Certificate and has led ice climbs on Kilimanjaro, Mount Kenya and in the Atlas Mountains. He runs his own coaching and guiding business, working at all levels from novice to the top BCU leadership and coaching qualifications courses.

Paddling Long Island and New York City Kevin Stiegelmaier. 2012-05-22 Paddling Long Island is the only book on the market to depict routes and destinations across the whole of Long Island and the New York City area. And it showcases 50 of the very best. It is a diverse selection, too. After all, according to skill level, weather, personal mood, and other factors, a paddler may want open, fast water one day, but a quiet, protected experience at another time, and something in-between later on. It's all here, from New York City to the far eastern tip of Long Island's Montauk Point. What's more, the book's guidance and language are geared to wide-ranging skill levels: the novice will be enlightened and encouraged, and the seasoned kayaker or canoeist will be engaged and engrossed. That is because the author's intimate, lifelong knowledge of the area's waterways shines in his descriptions of natural and social histories, humorous stories, personal anecdotes, and beautiful black-and-white photographs. In addition, the author provides contact information on local paddling clubs, outfitters, and Internet links. And a final extensive section on personal safety, boat and equipment preparedness, and related topics makes this book an invaluable tool.

Hudson Bay Bound Natalie Warren.2021-02-02 The remarkable eighty-five-day journey of the first two women to canoe the 2,000-mile route from Minneapolis to Hudson Bay Unrelenting winds, carnivorous polar bears, snake nests, sweltering heat, and constant hunger. Paddling from Minneapolis to Hudson Bay, following the 2,000-mile route made famous by Eric Sevareid in his 1935 classic *Canoeing with the Cree*, Natalie Warren and Ann Raiho faced unexpected trials, some harrowing, some simply odd. But for the two friends—the first women to make this expedition—there was one timeless challenge: the occasional pitfalls that test character and friendship. Warren's spellbinding account retraces the women's journey from inspiration to Arctic waters, giving readers an insider view from the practicalities of planning a three-month canoe expedition to the successful accomplishment of the adventure of a lifetime. Along the route we meet the people who live and work on the waterways, including denizens of a resort who supply much-needed sustenance; a solitary resident in the wilderness who helps plug a leak; and the people of the Cree First Nation at Norway House, where the canoeists acquire a furry companion. Describing the tensions that erupt between the women (who at one point communicate with each other only by note) and the natural and human-made phenomena they encounter—from islands of trash to waterfalls and a wolf pack—Warren brings us into her experience, and we join these modern women (and their dog) as they recreate this historic trip, including the pleasures and perils, the sexism, the social and environmental implications, and the enduring wonder of the wilderness.

The Pacific Alone Dave Shively.2018-10-01 In the summer of 1987 Ed Gillet achieved what no person has accomplished before or since, a solo crossing from California to Hawaii by kayak. Gillet, at the age of 36 an accomplished sailor and paddler, navigated by sextant and always knew his position within a few miles. Still, Gillet underestimated the abuse his body would take from the relentless, pounding, swells of the Pacific, and early into his voyage he was covered with salt water sores and found that he could find no comfortable position for sitting or sleeping. Along the way he endured a broken rudder, among other calamities, but at last reached Maui on his 63rd day at sea, four days after his food had run out. Dave Shively brings Gillet's remarkable story to life in this gripping narrative, based on exclusive access to Gillet's logs as well as interviews with the legendary paddler himself.

The Ultimate Canoe Challenge Brand Frenz,Verlen Kruger.2004-12 Verlen Kruger and his partner Steve Landick wanted to take a canoe trip that would surpass all others, and they did. Paddling their canoes or carrying them on the connecting land passages, they toured North America, from the Arctic Ocean to Baja California, from New Orleans to the coast of Maine, crossing the USA from south to north and west to east. They mastered wild storms on the ocean, often paddled 75-100 miles or more in a day, shot through deadly rapids going downstream, and paddled up several major rivers, reaching the climax by going up the Grand Canyon. Again and again they were warned, It can't be done or You'll never make it, but each time they rose to the challenge and kept going, finally competing a canoe trip of 28,000 miles that lasted three and a half years and was appropriately named The Ultimate Canoe Challenge. This is the story as Verlen lived it.

Kings of the Yukon Adam Weymouth.2018-05-15 A thrilling journey by canoe across Alaska, by critically acclaimed writer Adam Weymouth. The Yukon river is 2,000 miles long, the longest stretch of free-flowing river in the United States. In this riveting examination of one of the last wild places on earth, Adam Weymouth canoes along the river's length, from Canada's Yukon Territory, through Alaska, to the Bering Sea. The result is a book that shows how even the most remote wilderness is affected by the same forces reshaping the rest of the planet. Every summer, hundreds of thousands of king salmon migrate the distance of the Yukon to their spawning grounds, where they breed and die, in what is the longest salmon run in the world. For the communities that live along the river, salmon was once the lifeblood of the economy and local culture. But climate change and a globalized

economy have fundamentally altered the balance between man and nature; the health and numbers of king salmon are in question, as is the fate of the communities that depend on them. Traveling along the Yukon as the salmon migrate, a four-month journey through untrammelled landscape, Adam Weymouth traces the fundamental interconnectedness of people and fish through searing and unforgettable portraits of the individuals he encounters. He offers a powerful, nuanced glimpse into indigenous cultures, and into our ever-complicated relationship with the natural world. Weaving in the rich history of salmon across time as well as the science behind their mysterious life cycle, *Kings of the Yukon* is extraordinary adventure and nature writing at its most urgent and poetic. *Kings of the Yukon* succeeds as an adventure tale, a natural history and a work of art. -Wall Street Journal

Kings of the Yukon Adam Weymouth.2019-06-06 The Yukon River is over 2,000 miles long, flowing northwest from Canada through the Yukon Territory and Alaska to the Bering Sea. Setting out to explore one of the most ruggedly beautiful and remote regions of North America, Adam Weymouth journeyed by canoe on a four-month odyssey through this untrammelled wilderness, encountering the people who have lived there for generations. The Yukon's inhabitants have long depended on the king salmon who each year migrate the entire river to reach their spawning grounds. Now the salmon numbers have dwindled, and the encroachment of the modern world has changed the way of life on the Yukon, perhaps for ever. Weymouth's searing portraits of these people and landscapes offer an elegiac glimpse of a disappearing world. *Kings of the Yukon* is an extraordinary adventure, told by a powerful new voice.
