Bayesian Essentials with R Jean-Michel Marin,Christian P. Robert.2013-10-28 This Bayesian modeling book provides a self-contained entry to computational Bayesian statistics. Focusing on the most standard statistical models and backed up by real datasets and an all-inclusive R (CRAN) package called *bayess*, the book provides an operational methodology for conducting Bayesian inference, rather than focusing on its theoretical and philosophical justifications. Readers are empowered to participate in the real-life data analysis situations depicted here from the beginning. Special attention is paid to the derivation of prior distributions in each case and specific reference solutions are given for each of the models. Similarly, computational details are worked out to lead the reader towards an effective programming of the methods given in the book. In particular, all R codes are discussed with enough detail to make them readily understandable and expandable. *Bayesian Essentials with R* can be used as a textbook at both undergraduate and graduate levels. It is particularly useful with students in professional degree programs and scientists to analyze data the Bayesian way. The text will also enhance introductory courses on Bayesian statistics. Prerequisites for the book are an undergraduate background in probability and statistics, if not in Bayesian statistics.

Blade Runner William S. Burroughs.1979 In this trenchant science-fiction screen treatment written in the mid-1970s, William S. Burroughs outlines the coming medical-care apocalypse: a Dante-esque horror show brought to a boil by a mutated virus and right-wing politics, set in a future all too near. The author of *Naked Lunch*, *Junky*, *Port of Saints*, *Cities of the Red Night*, *Queer*, and *Exterminator* treats this topical story in ultimate terms, with the dry, sophisticated humor he has mastered like no other modern writer.

Blade Runner 2049 and Philosophy Robin Bunce,Trip McCrossin.2019-08-20 *Blade Runner 2049* is a 2017 sequel to the 1982 movie *Blade Runner*, about a world in which some human-looking replicants

have become dangerous, so that other human-looking replicants, as well as humans, have the job of hunting down the dangerous models and “retiring” (destroying) them. Both films have been widely hailed as among the greatest science-fiction movies of all time, and Ridley Scott, director of the original *Blade Runner*, has announced that there will be a third *Blade Runner* movie. *Blade Runner 2049* and *Philosophy* is a collection of entertaining articles on both *Blade Runner* movies (and on the spin-off short films and *Blade Runner* novels) by twenty philosophers representing diverse backgrounds and philosophical perspectives. Among the issues addressed in the book: What does *Blade Runner 2049* tell us about the interactions of state power and corporate power? Can machines ever become truly conscious, or will they always lack some essential human qualities? The most popular theory of personhood says that a person is defined by their memories, so what happens when memories can be manufactured and inserted at will? We already interact with non-human decision-makers via the Internet. When embodied AI becomes reality, how can we know what is human and what is simulation? Does it matter? Do AI-endowed human-looking replicants have civil and political rights, or can they be destroyed whenever “real” humans decide they are inconvenient? The *Blade Runner* Deckard (Harrison Ford) appears in both movies, and is generally assumed to be human, but some claim he may be a replicant. What’s the evidence on both sides? Is Niander Wallace (the-mad-scientist-cum-evil-corporate-CEO in *Blade Runner 2049*) himself a replicant? What motivates him? What are the impacts of decision-making AI entities on the world of business? Both *Blade Runner* and *Blade Runner 2049* have been praised for their hauntingly beautiful depictions of a bleak future, but the two futures are very different (and the 2019 future imagined in the original *Blade Runner* is considerably different from the actual world of 2019). How have our expectations and visions of the future changed between the two movies? The “dream maker” character Ana Stelline in *Blade Runner 2049* has a small but pivotal role. What are the implications of a person whose dedicated mission and task is to invent and install false memories? What are the social and psychological implications of human-AI sexual relations?

ALTERED STATES (English Edition) Paddy Chayefsky.2022-01-19 Edward Jessup, a young psycho-physiologist, experiments with different states of consciousness, obsessed with an addiction to truth and knowledge. He injects himself with psychedelic drugs, lies locked in an isolation tank and experiences all the stages of pre-human consciousness until finally terrible changes take place with him: Jessup also physically transforms into a pre-human being. His thirst for knowledge drives him into ever new, increasingly irreversible transformations. Only the horror when his body begins to dissolve into pure energy brings him back to human bonds... Paddy Chayefsky (January 29, 1923 – August 1, 1981), one of the most important US dramatists, wrote a breath-taking, equally philosophical shocker with his debut novel. In 1980, British director Ken Russell adapted the novel based on Paddy Chayefsky's screenplay - starring: William Hurt, Blair Brown and Drew Barrymore. *Blade Runner 2029 Vol. 3: Redemption (Graphic Novel)* Mike Johnson.2022-05-17 The officially sanctioned graphic novel sequel to the cult 1982 science fiction movie *Blade Runner*, directed by Ridley Scott. Written by the New York Times Bestselling author Mike Johnson, writer of *Star Trek*, *Supergirl*, *Transformers* and *Green Lantern*. It is 2029. Renegade Replicant leader Yuton’s call to arms to all Replicants has seen the city of LA ravaged by urban warfare and terrorist attacks, culminating in the destruction of the iconic headquarters of the LAPD Police Department. Now Ash and her lover, Fresya (leader of the Replicant Underground) are on the run, hounded by *Blade Runners* and Yuton’s followers. And with time running out for both sides, Ash finds herself on a collision course with Yotun.

Lacanian Perspectives on Blade Runner 2049 Calum Neill.2020-12-18 This book provides a collection of Lacanian responses to Denis Villeneuve’s *Blade Runner 2049* from leading theorists in the field. Blade Runner 2049 Timothy Shanahan,Paul Smart.2019-09-23 Widely acclaimed upon its release as a future classic, Denis Villeneuve's Blade Runner 2049 is visually stunning, philosophically profound, and a provocative extension of the story in Ridley Scott's Blade Runner. Containing specially commissioned chapters by a roster of international contributors, this fascinating collection explores philosophical questions that abound in Blade Runner 2049, including: What distinguishes the authentically human person? How might natality condition one's experience of being-in-the-world? How might shared memories feature in the constitution of personal identities? What happens when created beings transcend the limits intended in their design? What (if anything) is it like to be a hologram? Can artificial beings participate in genuinely romantic relationships? How might developing artificial economics impact our behaviour as prosumers? What are the implications of techno-human enhancement in an era of surveillance capitalism? Including a foreword by Denis Villeneuve, Blade Runner 2049: A Philosophical Exploration is essential reading for anyone interested in philosophy, film studies, philosophy of mind, psychology, gender studies, and conceptual issues in cognitive science and artificial intelligence.

Future Noir: The Making of Blade Runner Paul M. Dick's brilliant and troubling SF novel Do Androids Dream of Electric Sheep, still rules as the most visually dense, thematically challenging, and influential SF film ever made. Future Noir is the story of that triumph. The making of Blade Runner was a seven-year odyssey that would test the stamina and the imagination of writers, producers, special effects wizards, and the most innovative art directors and set designers in the industry. The Last Voyageurs Lorraine Boissoneault.2016-04-15 Reid Lewis never wanted to be an ordinary French teacher. With the approach of the American Bicentennial, he decided to put his knowledge of French language and history to use in recreating the voyage of René Robert Cavelier, Sieur de La Salle, the first European to travel from Montreal to the end of the Mississippi River. Lewis' crew of modern voyageurs was comprised of 16 high school students and 6 teachers who learned to sew their own 17th-century clothing, paddle handmade canoes, and construct black powder rifles. Together they set off on an eight-month, 3,300-mile expedition across the major waterways of North America. They fought strong currents on the St. Lawrence, paddled through storms on the Great Lakes, and walked over 500 miles across the frozen Midwest during one of the coldest winters of the 20th century, all while putting on performances about the history of French explorers for communities along their route. The crew had to overcome disagreements, a crisis of leadership, and near-death experiences before coming to the end of their journey. *The Last Voyageurs* tells the story of this American odyssey, where a group of young men discovered themselves by pretending to be French explorers.

The Culture and Philosophy of Ridley Scott Adam Barkman, Ashley Barkman, Nancy Kang.2013 While recognizing Scott's undeniable contributions to contemporary popular cinema, the volume does not shy away from honest and well-evidenced critique. Each chapter's approach correlates with philosophical, literary, or cultural studies perspectives. Using both combined and single-film discussions, the contributors examine such topics as gender roles and feminist theory; philosophical abstractions like ethics, honor, and personal responsibility; historical memory and the challenges of accurately rendering historical events on screen; literary archetypes and generic conventions; race relations and the effect of class difference on character construction; how religion shapes personal and collective values; the role of a constantly changing technological universe; and the schism between individual and group-based power structures.

Mulholland Drive Zina Giannopoulou.2013-10-01 Beloved by film and art aficionados and fans of neo-noir cinema, *Mulholland Drive* is one of the most important and enigmatic films of recent years. It occupies a central and controversial position in the work of its director, David Lynch, who won the best director award at the 2001 Cannes Film Festival for the movie. *Mulholland Drive* in the Routledge Philosophers on Film series is the first full philosophical appraisal of Lynch's film. Beginning with an introduction by the editor, the volume explores the following topics: the identity

of the self and its persistence through time the central, dual roles played by fantasy and reality throughout the film whether Mulholland Drive is best understood epistemologically via reason and language, or whether, as Lynch himself argues, by one's 'inner feelings' and emotions parallels between Mulholland Drive and Kafka's *The Castle*, both of which pit their protagonists at the mercy of unseen forces Mulholland Drive and romanticism. Additional key themes are also discussed, such as the interpenetration of ethics, classical tragedy, and the contrasting philosophical arguments of Plato and Nietzsche on tragic drama. These themes make Mulholland Drive essential and engaging reading for students of philosophy, especially aesthetics and ethics, as well as film studies.

The Bladerunner Alan E Nourse.2013-04-12 Billy Gimp was a bladerunner . . . one of the shadowy procurers of illegal medical supplies for the rapidly expanding, nightmare world of the medical black market. Doc was a skilled surgeon at a government-operated hospital by day . . . and an underground physician by night, providing health care for the multitudes who could not - or would not - qualify for legal medical assistance. Trapped by Health Control Police, Billy Gimp knew he had to warn Doc that they were closing in on him. But something even more deadly than the law had already made its first move . . . a new plague that Health Control could not handle!

Philosophy and Film Christina Rawls,Diana Neiva,Steven S. Gouveia.2019-04-25 This volume collects twenty original essays on the philosophy of film. It uniquely brings together scholars working across a range of philosophical traditions and academic disciplines to broaden and advance debates on film and philosophy. The book includes contributions from a number of prominent philosophers of film including Noël Carroll, Chris Falzon, Deborah Knight, Paisley Livingston, Robert Sinnerbrink, Malcolm Turvey, and Thomas Wartenberg. While the topics explored by the contributors are diverse, there are a number of thematic threads that connect them. Overall, the book seeks to bridge analytic and continental approaches to philosophy of film in fruitful ways. Moving to the individual essays, the first two sections offer novel takes on the philosophical value and the nature of film. The next section focuses on the film-as-philosophy debate. Section IV covers cinematic experience, while Section V includes interpretations of individual films that touch on questions of artificial intelligence, race and film, and cinema's biopolitical potential. Finally, the last section proposes new avenues for future research on the moving image beyond film. This book will appeal to a broad range of scholars working in film studies, theory, and philosophy.

Blade Runner Creator Philip K. Dick Tessa Dick.2018-06-20 Blade Runner 2049 shows us a world devastated by war and threatened by a power mad creator of artificial humans. This sequel to the 1982 film Blade Runner suffered from a misguided marketing campaign and contradictions in the plot lines, but it succeeds in showing us the stark beauty of scarred landscapes and deteriorating city streets. Humans live alongside replicants, and they buy virtual friends to combat loneliness. Behind the slick facade of brightly lit animated billboards, many people live in poverty in the future city of Los Angeles, which reflects the state of things today. The story began with a novel by an obscure science fiction author who lived in poverty for most of his life. His dark vision of the future became widely known after Ridley Scott's Blade Runner was released in 1982, but sadly Philip K. Dick died before the film was shown in theatres. His genius is finally recognized, but it is too late for him. Tessa B. Dick began her writing career as a journalist, writing for magazines and newspapers. Her husband Philip K. Dick encouraged her to write fiction after he read her first short story. She worked with him on his later novels, including VALIS and A Scanner Darkly. Since then, Tessa has produced a variety of poems and stories, as well as a murder mystery and several memoirs. Two of her memoirs have been published in Italian translations, and her surrealist novel *The Darkening of the Light* is currently in the process of translation. Some of her shorter works can be found in the online magazine PKD Otaku, as well as the journal *Emanations*.

Retrofitting Blade Runner Judith Kerman.1991 This book of essays looks at the multitude of texts and influences which converge in Ridley Scott's film Blade Runner, especially the film's relationship to its source novel, Philip K. Dick's *Do Androids Dream of Electric Sheep?* The film's implications as a thought experiment provide a starting point for important thinking about the moral issues implicit in a hypertechnological society. Yet its importance in the history of science fiction and science

fiction film rests equally on its mythically and psychologically resonant creation of compelling characters and an exciting story within a credible science fiction setting. These essays consider political, moral and technological issues raised by the film, as well as literary, filmic, technical and aesthetic questions. Contributors discuss the film's psychological and mythic patterns, important political issues and the roots of the film in *Paradise Lost*, *Frankenstein*, detective fiction, and previous science fiction cinema.

Film, Philosophy and Religion . Hollywood is a \$40 billion annual business, one that is highly influential in culture. If we want to know who we are as individuals and a society, what we believe and what we value, we need to know and understand Hollywood and film. Make no mistake, Hollywood is neither philosophically, politically, nor morally neutral! Many studies demonstrate how movies “affect” us long before we have thought it through. In other words, Hollywood “smuggles” all kinds of ideas into our minds and hearts without us even knowing it. While Hollywood may be the biggest and most influential in the world, this book will demonstrate the growing international influence of film from India (Bollywood), Nigeria (Nollywood), Zimbabwe (Zollywood) and Yesilçam (Turkey). 'Film, Philosophy and Religion' explicitly and implicitly takes a philosophical approach to analyzing film theoretically and methodologically. There are topic and film-specific chapters that take a theological approach, and others that explore ideas like Affect, Axiology, Art Reflecting the Artist and Transcendence (Spirituality) of Film. Hermeneutics also have a central role in the book, including films based on biblical texts that act as interpretations of these texts and fill in the blanks (albeit speculatively by way of script and directors). Chapters also explore the philosophy of aesthetics and film realism which end with theology, while other chapters explore the incompatibility of science with religion, as well as a chapter on the timely topic of rape in Turkish film. The book's scope goes from the “Horror of Evil in Ridley Scott's *Alien Universe*” to “Love Can Thaw a Frozen Heart: The Philosophy of Love in the Frozen Films” (Disney Princess Narratives). This book represents international films and scholars. The diverse perspectives from theist to atheist—and everything in-between—are sure to spark thinking and generate talking points that provide something for everyone in an accessible format. It will be of great interest to university students and professors, scholars, seminaries, and the general public.

Blade Runner .1997

Like a Thief in Broad Daylight Slavoj Žižek.2019-10-08 The latest book from the most despicable philosopher in the West (New Republic) considers the new dangers and radical possibilities set in motion by advances in Big Tech. In recent years, techno-scientific progress has started to utterly transform our world--changing it almost beyond recognition. In this extraordinary new book, renowned philosopher Slavoj Žižek turns to look at the brave new world of Big Tech, revealing how, with each new wave of innovation, we find ourselves moving closer and closer to a bizarrely literal realization of Marx's prediction that all that is solid melts into air. With the automation of work, the virtualization of money, the dissipation of class communities, and the rise of immaterial, intellectual labor, the global capitalist edifice is beginning to crumble, more quickly than ever before--and it is now on the verge of vanishing entirely. But what will come next? Against a backdrop of constant socio-technological upheaval, how could any kind of authentic change take place? In such a context, Žižek argues, there can be no great social triumph--because lasting revolution has already come into the scene, like a thief in broad daylight, stealing into sight right before our very eyes. What we must do now is wake up and see it. Urgent as ever, *Like a Thief in Broad Daylight* illuminates the new dangers as well as the radical possibilities thrown up by today's technological and scientific advances, and their electrifying implications for us all.

The Thin Red Line David Davies.2008-10-27 *The Thin Red Line* is the third feature-length film from acclaimed director Terrence Malick, set during the struggle between American and Japanese forces for Guadalcanal in the South Pacific during World War Two. It is a powerful, enigmatic and complex film that raises important philosophical questions, ranging from the existential and phenomenological to the artistic and technical. This is the first collection dedicated to exploring the philosophical aspects of Malick's film. Opening with a helpful introduction that places the film in

context, five essays, four of which were specially commissioned for this collection, go on to examine the following: the exploration of Heideggerian themes – such as being-towards-death and the vulnerability of Dasein's world – in *The Thin Red Line* how Malick's film explores and cinematically expresses the embodied nature of our experience of, and agency in, the world Malick's use of cinematic techniques, and how the style of his images shapes our affective, emotional, and cognitive responses to the film the role that images of nature play in Malick's cinema, and his 'Nietzschean' conception of human nature. *The Thin Red Line* is essential reading for students interested in philosophy and film or phenomenology and existentialism. It also provides an accessible and informative insight into philosophy for those in related disciplines such as film studies, literature and religion. Contributors: Simon Critchley, Hubert Dreyfus and Camilo Prince, David Davies, Amy Coplan, Iain Macdonald.

The Shape of the Final Dog and Other Stories Hampton Fancher.2012-09-13 Best known as the original screenwriter of *Blade Runner*, author Hampton Fancher makes his debut with this extraordinary collection that bears all of the hallmarks that have made him beloved to film fans. These are stories about people and places that exist just outside our perceptions of space and time: in "Narrowing the Divide," an escaped lab rat winds up in a philosophical conversation with a man whose wife sleeps in the next room; in "Cargot," a failed actor is reincarnated as a garden snail and avenges himself with a Hollywood producer's wife; and in "The Black Weasel," a washed-up bartender finds an unlikely traveling partner in a slow-witted drifter with a suspicious bankroll. These are also stories about survival and instinct, with elements of the absurd and the sublime. *The Shape of the Final Dog* is a rare literary work that is mordantly funny, deftly written, and bound to delight and entertain.

Blade Runner 2 K. W. Jeter.1995 In this sequel, blade runner Rick Deckard becomes involved in a race to prove he is human before an android can hunt him down.

Dark Horizons Tom Moylan,Raffaella Baccolini.2013-12-02 First published in 2003. Routledge is an imprint of Taylor & Francis, an informa company.

Blade Runner Amy Coplan,David Davies.2015-05-08 Ridley Scott's *Blade Runner* is widely regarded as a masterpiece of modern cinema and is regularly ranked as one of the great films of all time. Set in a dystopian future where the line between human beings and 'replicants' is blurred, the film raises a host of philosophical questions about what it is to be human, the possibility of moral agency and freedom in 'created' life forms, and the capacity of cinema to make a genuine contribution to our engagement with these kinds of questions. This volume of specially commissioned chapters systematically explores and addresses these issues from a philosophical point of view. Beginning with a helpful introduction, the seven chapters examine the following questions: How is the theme of death explored in *Blade Runner* and with what implications for our understanding of the human condition? What can we learn about the relationship between emotion and reason from the depiction of the 'replicants' in *Blade Runner*? How are memory, empathy, and moral agency related in *Blade Runner*? How does the style and 'mood' of *Blade Runner* bear upon its thematic and philosophical significance? Is *Blade Runner* a meditation on the nature of film itself? Including a brief biography of the director and a detailed list of references to other writings on the film, *Blade Runner* is essential reading for students – indeed anyone – interested in philosophy and film studies. Contributors: Colin Allen, Peter Atterton, Amy Coplan, David Davies, Berys Gaut, Stephen Mulhall, C. D. C. Reeve.

Dialogues on Metaphysics and on Religion Nicolas Malebranche.1923

On Film Stephen Mulhall.2015-12-14 The first edition of Stephen Mulhall's acclaimed *On Film* was a study of the four Alien films, and made the highly original and controversial argument that films themselves can philosophise. In its second edition, *On Film* increased its breadth and vision considerably to encompass films such as the *Mission: Impossible* series and Steven Spielberg's *Minority Report*. In this significantly expanded third edition Stephen Mulhall adds new chapters on the Jason Bourne films, the fourth *Mission: Impossible* movie, JJ Abrams' *Star Trek* and *Star Trek: Into Darkness*, and Ridley Scott's *Prometheus* (in which he returns to the Alien universe he created). In so doing, Mulhall reappraises in fascinating ways the central issues taken up in earlier editions of

On Film: the genres of science fiction and thriller, the impact of digital as opposed to photographic modes of technology on the nature of cinema as a medium (and its relation to television), and the fate of sequeldom in mainstream contemporary cinema (with its emphasis on remakes, reboots and multi-media superhero franchises). On Film, third edition is essential reading for anyone interested in philosophy, film theory and cultural studies, and in the way philosophy can enrich our understanding of cinema.

A Film-Philosophy of Ecology and Enlightenment Rupert Read.2018-10-17 Inspired by the philosophy of Wittgenstein and his idea that the purpose of real philosophical thinking is not to discover something new, but to show in a strikingly different light what is already there, this book provides philosophical readings of a number of 'arthouse' and Hollywood films. Each chapter contains a discussion of two films—one explored in greater detail and the other analyzed as a minor key which reveals the possibility for the book's ideas to be applied across different films, registers, and genres. The readings are not only interpretive, but they offer a way of thinking and feeling about, with, and through films which is genuinely transformative. Rupert Read's main contention is that certain films can bring about a change in how we see the world. He advocates an ecological approach to film-philosophy analysis, arguing that film can re-shape the viewer's relationship to the environment and other living beings. The transformative 'wake-up call' of these films is enlightenment in its true sense. The result is a book that ambitiously aims to change, though film, how we think of ourselves and our place in the world, at a time when such change is more needed than ever before.

Before Sunrise, Before Sunset, Before Midnight Hans Maes, Katrien Schaubroeck. 2021-05-12 Richard Linklater's celebrated Before trilogy chronicles the love of Jesse (Ethan Hawke) and Céline (Julie Delpy) who first meet up in Before Sunrise, later reconnect in Before Sunset and finally experience a fall-out in Before Midnight. Not only do these films present storylines and dilemmas that invite philosophical discussion, but philosophical discussion itself is at the very heart of the trilogy. This book, containing specially commissioned chapters by a roster of international contributors, explores the many philosophical themes that feature so vividly in the interactions between Céline and Jesse, including: the nature of love, romanticism and marriage the passage and experience of time the meaning of life the art of conversation the narrative self gender death Including an interview with Julie Delpy in which she discusses her involvement in the films and the importance of studying philosophy, Before Sunrise. Before Sunset. Before Midnight: A Philosophical Exploration is essential reading for anyone interested in philosophy, aesthetics, gender studies, and film studies.

The Man in the High Castle Philip K. Dick. 2011 In a classic work of alternate history, the United States is divided up and ruled by the Axis powers after the defeat of the Allies during World War II. Reissue. Winner of the Hugo Award for Best Novel.

Tesla Michael Almereyda. 2022-04-19 Tesla jolts and flows between the extraordinary life of the inventor Nikola Tesla, the making of a feature film about him by the celebrated director Michael Almereyda, and episodes from the filmmaker's own restless, quixotic career. In these pages, we encounter Tesla's colleagues and friends intermingling with Almereyda's collaborators and influences: Thomas Edison and David Lynch, Mark Twain and Sam Shepard, Sarah Bernhardt and Ethan Hawke, J.P. Morgan and Orson Welles. A rich array of illustrations - vintage and personal photographs, film stills, drawings and comic-book art - enhance the sense of time travel and parallel histories, as we read of a scheme to transmit wireless energy through the earth, of the electrocution of an elephant, of fortunes made and surrendered, and of the obsessions that propel a scientist seeking to transform the world and a director seeking to make a movie.
