Uses diverse examples, such as train accidents, novels and gardening to explore issues in novel and thought-provoking ways.

Habermas and Contemporary Society J. Sitton.2003-08-15 Over the last four decades Jürgen Habermas has forged an innovative and much-discussed theory of contemporary capitalist society. Building on Max Weber's thesis that the dynamic of capitalism actually erodes individual freedom and the meaningfulness of social life - famously resulting in a culture of 'specialists without spirit, sensualists without heart' - Habermas traces contemporary social conflict to resistance to this dynamic by a variety of social groups. His theory of 'communicative action' attempts to show the possibilities in contemporary society for moving toward a more balanced social life that, unlike other

political currents today, would not sacrifice the truly progressive features of complex modern societies. By marginalizing methodological and other more specialized theoretical concerns, this book focuses on Habermas's substantive portrayal of contemporary society and its discontents.

The Vision of God Nicholas of Cusa.2016-03-10 Known for his deeply mystical writings about Christianity, Nicholas of Cusa wrote this, his most popular work, against a backdrop of widespread Church corruption. God, he believed, is found in all things, and thus cannot be perceived by man's senses and intellect alone. The path to ultimate knowledge, then, begins in recognizing our own ignorance. Deeply influenced by Saint Augustine, Nicholas mixes the metaphysical with the personal to create a deeply felt work, first published in 1453, designed to restore faith in even the most jaded.

Ama y no sufras Walter Riso.2012-05-02 De acuerdo con el exitoso psicólogo Walter Riso, se sufre demasiado a causa del amor. En efecto, existe una gran cantidad de dolor inútil que empaña las relaciones de pareja, convirtiéndolas en una experiencia desagradable y a veces traumática. Este libro demuestra hasta qué punto este sufrimiento innecesario se alimenta de las creencias equivocadas, las expectativas poco realistas y el sentimentalismo ingenuo que suele rodear el mundo de las emociones. La propuesta del autor consiste en armonizar las tres dimensiones afectivas (eros, philia y ágape) con el fin de crear un equilibrio vital que permita no sólo mantener a raya la angustia, el temor y el desasosiego, sino también potenciar la alegría, el placer y la comunión con el otro. Este libro define dichas dimensiones y muestra la manera de conciliarlas en la vida cotidiana. El autor es psicólogo, especialista en terapia cognitiva y magister en bioética. Desde hace veintiocho años trabaja como terapeuta, labor que alterna con el ejercicio de la cátedra universitaria, la realización de investigaciones en la práctica clínica y publicaciones científicas y de divulgación

psicológica. Actualmente es profesor de terapia cognitiva en diferentes facultades de psicología en Latinoamérica y España y es presidente honorario de la Asociación Colombiana de Terapia Cognitiva.

Architecture in the Age of Printing Mario Carpo.2017-02-10 A history of the influence of communication technologies on Western architectural theory. The discipline of architecture depends on the transmission in space and time of accumulated experiences, concepts, rules, and models. From the invention of the alphabet to the development of ASCII code for electronic communication, the process of recording and transmitting this body of knowledge has reflected the dominant information technologies of each period. In this book Mario Carpo discusses the communications media used by Western architects, from classical antiquity to modern classicism, showing how each medium related to specific forms of architectural thinking. Carpo highlights the significance of the invention of movable type and mechanically reproduced images. He argues that Renaissance architectural theory, particularly the system of the five architectural orders, was consciously developed in response to the formats and potential of the new printed media. Carpo contrasts architecture in the age of printing with what preceded it: Vitruvian theory and the manuscript format, oral transmission in the Middle Ages, and the fifteenth-century transition from script to print. He also suggests that the basic principles of typographic architecture thrived in the Western world as long as print remained our main information technology. The shift from printed to digital

representations, he points out, will again alter the course of architecture.

The Institution of Criticism Peter Uwe Hohendahl.2016-11-01 German radicals of the 1960s announced the death of literature. For them, literature both past and present, as well as conventional discussions of literary issues, had lost its meaning. In *The Institution of Criticism*, Peter Uwe Hohendahl explores the implications of this crisis from a Marxist perspective and attempts to define the tasks and responsibilities of criticism in advanced capitalist societies. Hohendahl takes a close look at the social history of literary criticism in Germany since the eighteenth century. Drawing on the tradition of the Frankfurt School and on Jürgen Habermas's concept of the public sphere, Hohendahl sheds light on some of the important political and social forces that shape literature and culture. *The Institution of Criticism* is made up of seven essays originally published in German and a long theoretical introduction written by the author with English-language readers in mind. This book conveys the rich possibilities of the German perspective for those who employ American and French critical techniques and for students of contemporary critical theory.

Foundations of Modern International Thought David Armitage.2013 This insightful and wide-ranging volume traces the genesis of international intellectual thought, connecting international and global history with intellectual history.

Ansel Adams Mary Street Alinder.2014-11-04 First published in 1996, Mary Street Alinder's biography of Ansel Adams remains the only full biography of one of the greatest American photographers. Alinder is a respected scholar, and also had a close connection to Adams, serving as his chief assistant in the last five years of his life. The portrait she creates of him is intimate and affectionate; it is also clear-eyed. She takes on his difficult childhood in San Francisco, the friendships and rivalries within his circle of photographers, his leadership in America's

environmental movement, his marriage, his affairs, and his not-always-successful fatherhood. Enriched by her uniquely personal understanding of Adams the man, she explains the artistic philosophy that, paired with his peerless technique, produced an inimitable style. Her biography is likely to remain unrivaled. This new edition will bring the classic up to date and includes research that reveals new information and a deeper understanding of his greatest photographs. It will also include thirty-two pages of reproductions of Adams's work and snapshots of the artist and close friends.

The Moral Molecule Paul J. Zak.2012-05-10 A Revolution in the Science of Good and Evil Why do some people give freely while others are cold hearted? Why do some people cheat and steal while others you can trust with your life? Why are some husbands more faithful than others—and why do women tend to be more generous than men? Could they key to moral behavior lie with a single molecule? From the bucolic English countryside to the highlands of Papua New Guinea, from labs in Switzerland to his campus in Souther California, Dr. Paul Zak recounts his extraordinary stories and sets out, for the first time, his revolutionary theory of moral behavior. Accessible and electrifying, *The Moral Molecule* reveals nothing less than the origins of our most human qualities—empathy, happiness, and the kindness of strangers.

The Iranian Revolution John L. Esposito,Middle East Institute (Washington, D.C.),Royal Institute of International Affairs.1990 A wonderfully concise yet complete survey of the background and status of Islamic revivalism in all of its various forms in each region.--SAIS Review A rich and thoughtful study of one of the most significant events of recent times.--School of Oriental and African Studies Bulletin Marking the tenth anniversary of the Ayatollah Khomeini's triumphant return to the Islamic Republic of Iran, 1989 proved a benchmark year in Iran's history, with the condemnation of author

Salman Rushdie to execution, the denunciation of Iranian liberals and the West, the removal of Khomeini's chosen successor, and the death of Khomeini himself. John L. Esposito introduces The Iranian Revolution with an explanation of why the present is a turning point for Iran. He isolates the export of Islamic revolution as central to the Republic's character. A concise description of the complexities of that issue is followed by a discussion of its effects within and outside Iran, with the majority of the collection then devoted to insightful analyses of the Republic's impact throughout the Islamic world. International experts from Iran, Europe, Africa, and the United States assess worldwide impact of the Iranian Revolution on other Muslim societies and give us a remarkable analysis of the status of Islamic revivalism in a far-flung array of Islamic states and societies-- Lebanon, Bahrain, Egypt, Tunisia, Nigeria, Turkey, the USSR, the Philippines, Malaysia, Indonesia, and Iraq. The book owes its quality not only to the currency of its subject matter but also to its distinguished contributors, who address such issues as the failure of the Iranian revolution to replicate itself in other countries and the extent to which Iran's experience has shaped the politics, economics, and cultures of other countries. Sponsors of the book and of the 1989 conference that inspired it are the Middle East Institute, the Johns Hopkins School of Advanced International Studies, and Royal Institute of International Affairs. This objective and thought-provoking assessment of the Islamic Republic of Iran's success to date in implementing its objectives, as well as its prospects for the future, makes timely reading for anyone seeking an understanding of the revolution's impact. Crow Blue Adriana Lisboa.2014-07-08 I was thirteen. Being thirteen is like being in the middle of nowhere. Which was accentuated by the fact that I was in the middle of nowhere. In a house that wasn't mine. In a city that wasn't mine, in a country that wasn't mine, with a one-man family that, in spite of the intersections and intentions (all very good), wasn't mine. When her mother dies, thirteen-year-old Vanja is left with no family and no sense of who she is, where she belongs, and what she should do. Determined to find her biological father in order to fill the void that has so suddenly appeared in her life, Vanja decides to leave Rio de Janeiro to live in Colorado with her stepfather, a former guerrilla notorious for his violent past. From there she goes in search of her biological father, tracing her mother's footsteps and gradually discovering the truth about herself. Rendered in lyrical and passionate prose, Crow Blue is a literary road trip through Brazil and America, and through dark decades of familial and political history.

Spanish Gothic Xavier Aldana Reyes.2017-03-16 This book presents the first English introduction to the broad history of the Gothic mode in Spain. It focuses on key literary periods, such as Romanticism, the fin-de-siècle, spiritualist writings of the early-twentieth century, and the cinematic and literary booms of the 1970s and 2000s. With illustrative case studies, Aldana Reyes demonstrates how the Gothic mode has been a permanent yet ever-shifting fixture of the literary and cinematic landscape of Spain since the late-eighteenth century. He proposes that writers and

filmmakers alike welcomed the Gothic as a liberating and transgressive artistic language.

Adventures of Huckleberry Finn Mark Twain.1977 The American classic is accompanied by critical studies by such scholars as Van Wyck Brooks, Lionel Trilling, and T. S. Eliot.

Amores altamente peligrosos Walter Riso.2013-10-09 ¿Por qué fallamos tanto en el amor? ¿Por qué tanta gente elige a la persona equivocada o se enfrasca en relaciones tan peligrosas como irracionales? ¿Por qué nos resignamos a relaciones dolorosas? Creemos que el amor es infalible y olvidamos algo elemental para la supervivencia amorosa: no todas las propuestas afectivas son convenientes para nuestro bienestar. Nos guste o no, algunas maneras de amar son francamente insoportables y agotadoras. Este texto va dirigido a cualquier persona que quiera revisar su vida afectiva y hacer del amor una experiencia satisfactoria. No es un libro optimista ni pesimista, sino realista. No encontrarás aquí las mejores reglas para vivir con tal o cual estilo, más bien lograrás establecer espacios de reflexión para comprender mejor tu relación de pareja y dilucidar hasta dónde se justifica luchar por ella o no. Amar no es sufrir y tenemos el derecho a ser felices. Este es el bien supremo que nadie podrá quitarnos, así sea en nombre del amor.

The New Precision Journalism Philip Meyer.2001 The reprint edition of a 1991 guide to precision journalism, which uses social science research methods to increase the depth and accuracy of news stories. The method is in contrast to the more artful approach of new journalism writers like Tom Wolfe who use short-story techniques to illuminate nonfiction. Meyer (journalism, U. of North Carolina at Chapel Hill) covers the history of journalism in the scientific tradition; elements and techniques of data analysis; the use of statistics, computers, surveys, and field experiments; database applications; election surveys; and the politics of precision journalism. Amors altament perillosos Walter Riso.2008-05 Entre aquestes conductes, la de l'estil paranoic vulnera la confiança bàsica que hauria de tenir una parella, mentre que la del narcisista evita el tractament d'igual a igual. Així com el perfeccionista impedeix l'amor en fixar l'atenció en els errors de l'altre, la violència de l'antisocial anul·la el valor del respecte, i la indiferència de l'esquizoide xoca amb la tendresa i l'empatia necessàries. Davant aquests paranys, és bàsic estimar-se a si mateix i recórrer a la saviesa del no, la qual ens ajuda a evitar el sofriment inútil que sorgeix d'una relació impossible i altament perillosa.

Dark Psychology Amanda Grapes.2020-06-20 Men and women are not the same. We all know that they think differently. But how do they use those thinking patterns to get what they want? How do they persuade the other gender to give them what they desire? This is where some human psychology will be helpful. The differences will be addressed in the first chapter of this book. Moving

on, some false concepts about mind control will be discussed, as well as persuasion techniques that you may have never heard about. The reasons why people choose to buy or do something, is something that will be a determining factor to understanding the psychology of persuasion. This is what you will learn.

The Quest for the Phoenix Hereward Tilton.2012-10-24 The author presents with this intellectual biography of the Lutheran alchemist Count Michael Maier an academic study of western esotericism in general and to the study of alchemy and rosicrucianism in particular. The author charts the development of Maier's Hermetic worldview in the context of his service at the courts of Emperor Rudolf II and Moritz of Hessen-Kassel. The problem of the nature of early Rosicrucianism is addressed in detail with reference to Maier's role in the promotion of this serious jest in the years immediately prior to the outbreak of the Thirty Years' War. The work is set in the context of ongoing debates concerning the nature of early modern alchemy and its role in the history of Western esotericism.

The Lady in the Looking Glass Virginia Woolf.2011-02-15 'People should not leave looking-glasses hanging in their rooms any more than they should leave open cheque books or letters confessing some hideous crime.' 'If she concealed so much and knew so much one must prize her open with the first tool that came to hand - the imagination.' Virginia Woolf's writing tested the boundaries of modern fiction, exploring the depths of human consciousness and creating a new language of sensation and thought. Sometimes impressionistic, sometimes experimental, sometimes brutally cruel, sometimes surprisingly warm and funny, these five stories describe love lost, friendships formed and lives questioned. This book includes *The Lady in the Looking Glass*, *A Society*, *The Mark on the Wall*, *Solid Objects* and *Lappin and Lapinova*.

Insights Into Specialized Translation Maurizio Gotti,Susan Sarcevic,Susan Šarčević.2006 This volume focuses on specialist translation - one of the areas of translation in greatest demand in our age of globalization. The 16 chapters deal not only with the classical domains of science and technology, law, socio-politics and medicine but also with lesser researched areas such as archeology, geography, nutrigenomics and others. As a whole, the book achieves a blend of theory and practice. It addresses a variety of issues such as translation strategy based on text type and purpose, intercultural transfer and quality assessment, as well as textual and terminological issues in bilingual and multilingual settings, including international organizations and the European Union.

Today translation competence presupposes multidisciplinary skills. Whereas some chapters analyze the linguistic features of special-purpose texts and their function in specialized communication, others show how specialized translation has changed as a result of globalization and how advances in technology have altered terminology research and translation processing.

Las multitudes argentinas José María Ramos Mejía. 2019-04-01 *Las multitudes argentinas* (1899), de José María Ramos Mejía, es un estudio de psicología colectiva influido por *Psychologie des foules*, de Le Bon. A partir de un sociologismo evolucionista, Ramos analiza la dimensión social y política de la inmigración masiva y la gobernabilidad de las masas, y aplica los preceptos positivistas a la historia social. Las obras de Ramos Mejía (Argentina, 1842-1914), Juan Agustín García (Argentina, 1862-1923) y Jorge Basadre (Perú, 1903-1980) abrieron el camino hacia una nueva historia de Hispanoamérica, hacia una historia social. Tienen las virtudes y los defectos de toda obra fundacional: imprecisión terminológica, manejo de conceptos determinados por las corrientes de la época. Los historiadores que no las tuvieron en cuenta pasaron por alto una riqueza que a ellos mismos les hubiera correspondido rectificar, acrecentar y perfilar. Esa omisión es aún recuperable. Pero la recuperación solo es posible cuando se tenga una visión transparente de nuestro pasado cultural y de nuestra historia, es decir, una visión que no solo censure y que cuando lo haga no confunda la censura con la condena; una visión que no crea que la generosidad en la apreciación de una obra del pasado es necesariamente apología o ignorancia de la última moda. Las creaciones literarias y científicas son inevitablemente efímeras, pero el reconocimiento de la fugacidad no puede inducir a creer que lo que es pasado para una o dos generaciones carece de suscitaciones para las generaciones posteriores, de las que se supone que tienen una perspectiva más amplia. Rafael Gutiérrez Girardot

Rising Strong Brené Brown. 2017-04-04 #1 NEW YORK TIMES BESTSELLER • When we deny our stories, they define us. When we own our stories, we get to write the ending. Don't miss the five-part HBO Max docuseries Brené Brown: Atlas of the Heart! Social scientist Brené Brown has ignited a global conversation on courage, vulnerability, shame, and worthiness. Her pioneering work uncovered a profound truth: Vulnerability—the willingness to show up and be seen with no guarantee of outcome—is the only path to more love, belonging, creativity, and joy. But living a brave life is not always easy: We are, inevitably, going to stumble and fall. It is the rise from falling that Brown takes as her subject in *Rising Strong*. As a grounded theory researcher, Brown has listened as a range of people—from leaders in Fortune 500 companies and the military to artists, couples in long-term relationships, teachers, and parents—shared their stories of being brave, falling, and getting back up. She asked herself, What do these people with strong and loving relationships, leaders nurturing creativity, artists pushing innovation, and clergy walking with people through faith and mystery have in common? The answer was clear: They recognize the power of emotion and they're not afraid to lean in to discomfort. Walking into our stories of hurt can feel dangerous. But the process of regaining our footing in the midst of struggle is where our courage is tested and our values are forged. Our stories of struggle can be big ones, like the loss of a job or the end of a relationship, or smaller ones, like a conflict with a friend or colleague. Regardless of magnitude or circumstance, the rising strong process is the same: We reckon with our emotions and get curious about what we're feeling; we rumble with our stories until we get to a place of truth; and we live this process, every day, until it becomes a practice and creates nothing short of a revolution in our lives. Rising strong after a fall is how we cultivate wholeheartedness. It's the process, Brown writes, that teaches us the most about who we are. ONE OF GREATER GOOD'S FAVORITE BOOKS

OF THE YEAR “[Brené Brown’s] research and work have given us a new vocabulary, a way to talk with each other about the ideas and feelings and fears we’ve all had but haven’t quite known how to articulate. . . . Brené empowers us each to be a little more courageous.”—The Huffington Post
