On November 4th, 1922, after months of unsuccessful expeditions and excavations, a young Howard Carter was close to giving up his Egyptian experience in the Valley of the Kings when, unexpectedly, he and his team discovered one of the most important masterpieces in the history of archaeology. The intact royal burial palace and the golden mask of the boy king Tutankhamun are probably the most iconic symbols of Ancient Egypt. This luxurious volume will retrace, with never-seen-before pictures, the history of those exciting moments.

King Tut .2018 The Boy King's Journey through the Underworld Tutankhamun's royal voyage into paradise, as told by ancient Egyptian treasures Buried in the 14th century BCE but unearthed by Howard Carter in 1922, the objects entombed with Tutankhamun are an invaluable window into a long-extinct belief system. Seen today, they create an intricate picture of how people of the time viewed the perilous journey to paradise, a utopian Egypt that could only be entered following the final judgment. When acclaimed photographer Sandro Vannini started his work in Egypt in the late '90s, a technological revolution was about to unfold. Emerging technologies enabled him to document murals, tombs, and artifacts in unprecedented detail. Using the time-consuming and strenuous multi-shot technique, Vannini produced complete photographic reproductions that revealed colors in their original tones with vivid intensity. Through these extraordinary images, we discover the objects' quintessential features alongside the sophisticated and cleverly hidden details. In collaboration with a series of international exhibitions beginning in Los Angeles in 2018, this comprehensive guide marks the centenary of Carter's first excavations in the Valley of the Kings. Many of these invaluable works were damaged during the 2011 Egyptian uprising, some destroyed altogether but fortunately endure in their full, timeless glory through Vannini's photographs. From offerings and rituals to Osiris and eternal life, Vannini's portfolio covers all facets of ancient Egyptian culture but it is Tutankhamun's unique legacy that dominates these images. With texts by the photographer and chapter introductions from scholars in the field, Tutankhamun. The Journey through the Underworld puts much-debated mysteries to rest. The learned yet accessible forewords come from distinguished Egyptologists including Professor Salima Ikram and David P. Silverman, a researcher of over 40 years standing. Insightful narratives, resplendent images, and a contemporary standpoint make this title a fitting tribute to the boy king's odyssey, illuminating an epoch that spanned an unimaginable 6,000 years. *Tutankhamun's Jewelry* Iorwerth Eiddon Stephen Edwards. 1976

Tutankhamón Zahi Hawass, Sandro (Fotografías) Vannini. 2008-11-01 Los fabulosos tesoros de Tutankhamón han fascinado al público desde que se produjera su descubrimiento en el año 1922. Se han escrito multitud de libros acerca del rey niño y de su tumba, pero este volumen publicado por el egiptólogo mundialmente reconocido Zahi Hawass proporciona al lector una perspectiva incomparable sobre este extraordinario descubrimiento arqueológico, el más apasionante que el mundo haya conocido. Las imágenes del fotógrafo Sandro Vannini ofrecen una perspectiva única, jamás vista hasta ahora, de los casi doscientos espectaculares objetos que se encontraron en la tumba. Tutankhamón: los tesoros de la tumba invita a realizar un viaje al pasado: no sólo a la época en la que se produjo el descubrimiento, sino también al mundo en que vivían los antiguos egipcios. Utilizando numerosos objetos, cuidadosamente seleccionados, este volumen ilustra los diez años de agotadora excavación y documentación que llevaron a cabo Howard Carter y su equipo. Organizado de tal manera que se pueden seguir las cámaras de la tumba en el orden en el que Carter las excavó, este libro alumbra los objetos más extraordinarios que se encontraron en el enterramiento. El doctor Hawass, un experimentado arqueólogo de campo, impregna el texto con su estilo característico, imaginando cómo se sintió Carter cuando realizó el descubrimiento y la apertura de la tumba, y proporcionando información muy valiosa sobre los propios objetos. Las extraordinarias fotografías de Sandro Vannini añaden una dimensión adicional a este volumen tan espléndidamente ilustrado, ya que permiten apreciar los objetos de la tumba con mayor detalle del que se puede percibir a simple vista, añadiendo a lo largo de todo el libro una serie de sorprendentes dobles páginas y desplegadas a todo color. Con 324 ilustraciones, 317 a color, incluyendo 26 desplegadas.
