**Living Is Dying** Dzongsar Jamyang Khyentse.2020-03-31 An insightful collection of teachings about death and dying to help face life's greatest mystery calmly and with equanimity. Lifetimes of effort go into organizing, designing, and structuring every aspect of our lives, but how many people are willing to contemplate the inevitability of death? Although dying is an essential part of life, it is an uncomfortable topic that most people avoid. With no idea what will happen when we die and a strong desire to sidestep the conversation, we make all kinds of assumptions. Living Is Dying collects teachings about death and the bardos that have been passed down through a long lineage of brilliant Buddhist masters, each of whom went to great lengths to examine the process in minute detail. Renowned author and teacher Dzongsar Jamyang Khyentse responds to the most common questions he's been asked about death and dying--exploring how one prepares for death, what to say to a loved one who is dying, and prayers and practices to use as a handhold when approaching the unknown territory of death. Whether you are facing death today or decades from now, preparing for it can help to allay your worst fears and help you appreciate what it means to be truly alive.

**Kuan-yin** Chün-fang Yü.2001-03-22 By far one of the most important objects of worship in the Buddhist traditions, the bodhisattva Avalokitesvara is regarded as the embodiment of compassion. He has been widely revered throughout the Buddhist countries of Asia since the early centuries of the Common Era. While he was closely identified with the royalty in South and Southeast Asia, and the Tibetans continue to this day to view the Dalai Lamas as his incarnations, in China he became a she—Kuan-yin, the Goddess of Mercy—and has a very different history. The causes and processes of this metamorphosis have perplexed Buddhist scholars for centuries. In this groundbreaking, comprehensive study, Chün-fang Yü discusses this dramatic transformation of the (male) Indian bodhisattva Avalokitesvara into the (female) Chinese Kuan-yin—from a relatively minor figure in the Buddha's retinue to a universal savior and one of the most popular deities in Chinese religion. Focusing on the various media through which the feminine Kuan-yin became constructed and domesticated in China, Yü thoroughly examines Buddhist scriptures, miracle stories, pilgrimages, popular literature, and monastic and local gazetteers—as well as the changing iconography reflected in Kuan-yin's images and artistic representations—to determine the role this material played in this amazing transformation. The book eloquently depicts the domestication of Kuan-yin as a case study of the indigenization of Buddhism in China and illuminates the ways this beloved deity has affected the lives of all Chinese people down the ages.

**Train Your Mind, Change Your Brain** Sharon Begley.2008-11-12 Cutting-edge science and the ancient wisdom of Buddhism have come together to reveal that, contrary to popular belief, we have the power to literally change our brains by changing our minds. Recent pioneering experiments in neuroplasticity—the ability of the brain to change in response to experience—reveal that the brain is capable of altering its structure and function, and even of generating new neurons, a power we retain well into old age. The brain can adapt, heal, renew itself after trauma, compensate for disabilities, rewire itself to overcome dyslexia, and break cycles of depression and OCD. And as scientists are learning from studies performed on Buddhist monks, it is not only the outside world that can change the brain, so can the mind and, in particular, focused attention through the classic Buddhist practice of mindfulness. With her gift for making science accessible, meaningful, and compelling, science writer Sharon Begley illuminates a profound shift in our understanding of how the brain and the mind interact and takes us to the leading edge of a revolution in what it means to be human. Praise for Train Your Mind, Change Your Brain “There are two great things about this book. One is that it shows us how nothing about our brains is set in stone. The other is that it is written by Sharon Begley, one of the best science writers around. Begley is superb at framing the latest facts within the larger context of the field. This is a terrific book.”—Robert M. Sapolsky, author of Why Zebras Don't Get Ulcers “Excellent . . . elegant and lucid prose . . . an open mind here will be rewarded.”—Discover “A strong dose of hope along with a strong does of science and Buddhist thought.”—The San Diego Union-Tribune

**The Life of Shabkar** .2001-02-06 The Life of Shabkar has long been recognized by Tibetans as one of the masterworks of their religious heritage. Shabkar Tsogdruk Rangdrol devoted himself to many years of meditation in solitary retreat after his inspired youth and early training in the province of Amdo under the guidance of several extraordinary Buddhist masters. With determination and courage, he mastered the highest and most esoteric practices of the Tibetan tradition of the Great Perfection. He then wandered far and wide over the Himalayan region expressing his realization. Shabkar's autobiography vividly reflects the values and visionary imagery of Tibetan Buddhism, as well as the social and cultural life of early nineteenth-century Tibet.

**The Tibetan History Reader** Gray Tuttle,Kurtis R. Schaeffer.2013-04-09 Covering the social, cultural, and political development of Tibet from the seventh century to the modern period, this resource reproduces essential, hard-to-find essays from the past fifty years of Tibetan studies, along with several new contributions. Beginning with Tibet's emergence as a regional power and concluding with its profound contemporary transformations, the collection is both a general and specific history, connecting the actions of individuals, communities, and institutions to broader historical trends shaping Asia and the world. With contributions from American, French, German, Italian, Chinese, Japanese, and Tibetan scholars, the anthology reflects the international character of Tibetan studies and its multiple, interdisciplinary perspectives. By far the most concise scholarly anthology on Tibetan civilization in any Western language, this reader draws a clear portrait of Tibet's history, its relation to its neighbors, and its role in world affairs.

**Breath** James Nestor.2020-05-26 A New York Times Bestseller A Washington Post Notable Nonfiction Book of 2020 Named a Best Book of 2020 by NPR "A fascinating scientific, cultural, spiritual and evolutionary history of the way humans breathe—and how we've all been doing it wrong for a long, long time." —Elizabeth Gilbert, author of *Big Magic* and *Eat Pray Love* No matter what you eat, how much you exercise, how skinny or young or wise you are, none of it matters if you're not breathing properly. There is nothing more essential to our health and well-being than breathing: take air in, let it out, repeat twenty-five thousand times a day. Yet, as a species, humans have lost the ability to breathe correctly, with grave consequences. Journalist James Nestor travels the world to figure out what went wrong and how to fix it. The answers aren't found in pulmonology labs, as we might expect, but in the muddy digs of ancient burial sites, secret Soviet facilities, New Jersey choir schools, and the smoggy streets of São Paulo. Nestor tracks down men and women exploring the hidden science behind ancient breathing practices like Pranayama, Sudarshan Kriya, and Tummo and teams up with pulmonary tinkerers to scientifically test long-held beliefs about how we breathe. Modern research is showing us that making even slight adjustments to the way we inhale and exhale can jump-start athletic performance; rejuvenate internal organs; halt snoring, asthma, and autoimmune disease; and even straighten scoliotic spines. None of this should be possible, and yet it is. Drawing on thousands of years of medical texts and recent cutting-edge studies in pulmonology, psychology, biochemistry, and human physiology, *Breath* turns the conventional wisdom of what we thought we knew about our most basic biological function on its head. You will never breathe the same again.

**On the Path to Enlightenment** Matthieu Ricard.2013-06-25 Dilgo Khyentse Rinpoche inspired Matthieu Ricard to create this anthology by telling him that when we come to appreciate the depth of the view of the eight great traditions [of Tibetan Buddhism] and also see that they all lead to the same goal without contradicting each other, we think, 'Only ignorance can lead us to adopt a sectarian view.' Ricard has selected and translated some of the most profound and inspiring teachings from across these traditions. The selected teachings are taken from the sources of the traditions, including the Buddha himself, Nagarjuna, Guru Rinpoche, Atisha, Shantideva, and Asanga; from great masters of the past, including Thogme Zangpo, the Fifth Dalai Lama, Milarepa, Longchenpa, and Sakya Pandita; and from contemporary masters, including the Fourteenth Dalai Lama and Mingyur Rinpoche. They address such topics as the nature of the mind; the foundations of taking refuge, generating altruistic compassion, acquiring merit, and following a teacher; view, meditation, and action; and how to remove obstacles and make progress on the path.

**Kindness, Clarity, and Insight** The Dalai Lama.2020-10-13 This beloved classic brings together in one volume all the major themes of the Dalai Lama's teachings such as religious values, the four noble truths, karma, compassion, and meditation. Drawn from the lectures he gave during his first three visits to North America, the book covers the core subject matter of Tibetan Buddhism, as presented for the first time to an English-speaking audience. The chapters are arranged developmentally from simple to complex topics, which include the luminous nature of the mind, the four noble truths, karma, the common goals of the world's religions, meditation, deities, and selflessness. Central to all these teachings is the necessity of compassion--which the Dalai Lama says is the essence of religion and the most precious thing there is.
